PROF. WOOD: Thee will please accept a line to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicates chronic disease, attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I having not been able to obtain stuff for caps, neither have I been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to Lay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Haff Restorative about the first of August last. I have taithfully followed the directious and the bald spot is now covered with hair thek and black, though short; it is also coming in all over my head. DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

As aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United states, and prescribed in their practice. The experience of thousands daily proves that no pro

The experience of thousands daily proves that no pre-paration of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and other-wise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely cura-tive in each of the following complaints, viz:

which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emancipation, Constipation, Diarrhoea, Dysentery, Incipient Consumption; Stroftlous Tuberculosis, Salt Rheum, Dismenstruction, Whites, Chlorosis, Liver Compunints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pluples on the Face. &c. In case of General Debility, whether the result of acute discase or of the continued diminition of nervous and muscular energy from chronic con plaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from pretracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, anguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name,

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating, and gently, regularly aperient, even in the most obstante cases or costiveness, without sever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes

sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Pries, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which

forms them...

In **Dyspensia**, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Costomers. In unchecked **Diarrhoes**, even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

lignant, the elects have seen equal trength, debili-tonishing.

In the local pains, loss of flesh and strength, debili-tating cough, and remittent hectic, which generally indi-cate Inciphent Consumption, this remedy has al-layed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Serofulous Tubercatosis, this medicated from has had far more than toe good of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

known liabilities.

The atlention of females cannot be too confidently in-rited to this remedy and restorative, in the cases peculiar-

vited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—
in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joined muscles.

In Intermittent Fevers it must necessarily be a
great remedy and energetic restorative, and its progress
in the new settlement of the west, will probably be one
of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy and
fully restorative, effects. Good appetite, complete digesited, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately
follow its use.
