HARRISBURG

Monday Afternoon, October 22, 1860.

The best assortment of oval and square gilt frames to be found at W. Knoche's, 92 Market street.

REV. ALBERT BARNES, of Philadelphia, will preach this evening in the First Presbyterian church. The public are invited to attend.

RAILROAD ACCIDENT.—One day last week the engine and car on the Trevorton Railroad, conveying Mr. Mowton, the Superintendent, run off the track into an adjoining field. Mr. Mowton was only slightly injured, but the injuries of the engineer are such as to endanger his life.

THE SUSQUEHANNA RIVER is swollen to a considerable extent, the recent heavy rains extending throughout the north and west-branch regions. The water is still rising, and a continuance of the present "wet spell" may lead to amazing floods in the Susquehanna and its tributaries.

NEW WIDE-AWAKE CLUB.—A number of the Republican young men of our city contemplate the organization of a new Wide-Awake club, the equipments to consist of red military caps, and capes of the same color. A meeting of those who design attaching themselves to the new club will be held at the TELEGRAPH office this evening at eight o'clock.

The real proprietors of the soil have written upon their hearts, with clinched teeth, "Abraham Lincoln, so help us Heaven, shall never be our President!"—Atlanta (Geo.) Locomotive.

This is a new application of teeth, and "clinched teeth" too. It is not clear to us how teeth in that condition can write or even make a mark. But then all sorts of odd things are possible with the "chivalry" of Georgia.

JUNIOR WIDE-AWAKES.—The juvenile Republicans of this city are about organizing a Wide-Awake club, and expect to make their first parade in equipments early next week. A meeting of the club will be held in the Court room this evening, when all who have not yet signed the roll, and intend doing so, are requested to attend. Go ahead boys! You cannot too early enlist in a good cause.

THE ILLUMINATION.—All of our Republican citizens residing on the main streets, who can afford to illuminate their dwellings and places of business, should do so to-morrow evening on the occasion of the Wide-Awake triumphal parade. Those who own flags should also bring them to the breeze. Let all contribute, as far as they can, to the magnificence of the display. The entire front of the DAILY TELEGRAPH building will be brilliantly illuminated.

LADY FRANKLIN, who visited this city recently, is still in New York, the honored guest of one of the princely merchants of that city, distinguished alike for his sympathy and munificence. It is a little more than two months since she arrived from England, the special object of her visit being to pour out her sincere and unaffected thanks for the sympathy expressed in her behalf and the disinterested private enterprise which fitted out two separate expeditions for the purpose of ascertaining the fate of her husband. She has travelled in some of the Western States and over the British provinces. Lady Franklin will soon leave New York to proceed to California, which, it is expected, she will make her future residence.

A CASE OF BIGAMY.—This morning a "fancy" colored individual, named Charles Anderson, was arrested by officer Fleck, charged with bigamy. It seems that Anderson, who has a wife and child living in Snyder county, came to this city some months ago and paid his address to a mahogany-colored lass, representing himself as a single man, and finally the twin were made one. The brother of Anderson's first wife, hearing of the second marriage, came here and made information against the fugitive and faithless husband for bigamy. After a hearing before Justice Beader he was committed for trial. The penal code inflicts very severe punishment for this offence; and by the time Anderson gets out of prison he will probably be cured of his Mormon propensities.

COWARDLY ASSAULT.—A WOMAN KNOCKED DOWN.—Last evening while two colored women were passing up Second street, they were approached, in front of the residence of John A. Fisher, Esq., by a black-skinned and black-hearted ruffian, who struck one of them with some kind of weapon, knocking her down, and inflicting a severe wound on the back of her head, from which the blood flowed profusely. The cowardly assailant, after perpetrating the outrage, ran down Second street and made his escape. It is to be hoped the black scoundrel will be detected and captured. The frequent occurrence of outrages of this kind in our city, lately, shows the necessity for a well-organized police force; and Council should no longer delay action in the matter.

NOT GATHERING.—The boys are now busily engaged in gathering winter supplies of nuts, of various kinds, which are said to be unusually abundant this season. The following stray poetic effusion, descriptive of "nutting time" in the rural districts, which we find floating about like "Japhet in search of a father," is very appropriate just at this time:

The nuts are ripe and the day is fine,
The purple hills in the sunlight shine,
And the brown nuts redden the trembling tops
Of each gnarled tree in the hazel copse.

REPUBLICAN WARD MEETINGS.—A mass meeting will be held in the sixth ward on Wednesday evening, and one at the Fifth Ward House on Thursday evening. The Wide-Awakes intend parading on both occasions, and addresses will be delivered by Hon. Thomas E. Cochran, Col. A. J. Herr, and others.

ROBBERY.—The other night the carpenter shop of Mr. Joseph Lingle, corner of Washington Avenue and River alley, was forcibly entered and robbed of a brace and bit, a saw and some files. The probability is that these instruments were stolen by burglars, who intend to use them for the purpose of entering stores and dwellings in our city.

NEW CAPS.—The Keystone Wide-Awakes have received their new caps, and will make the first parade with them to-morrow night. They are manufactured of red oil-cloth, similar in style to the military fatigue caps, and will add much to the appearance of the company. They can be obtained at the meeting room of the club this evening.

INTERESTING LECTURE.—The world-renowned traveler, writer and lecturer, Bayard Taylor, will deliver a lecture in Bran's Hall on Wednesday evening, on "Life in the Arctic Region." No one who has ever read any of Mr. Taylor's published works will fail to hear him; and those who are not so well acquainted with his ability and reputation, should go to learn what he is. Having traveled over almost every quarter of the civilized globe, being a person of close observation and correct judgment, a highly polished and educated gentleman, and a lively and elegant writer and speaker, his lecture will be one of the choicest treats we have ever had in this city. Let us give the distinguished Pennsylvanian a full house.

TOMB OF THE LATE JOSEPH JEFFERSON.—A Harrisburg correspondent of the Philadelphia Press writes that paper that while strolling about the Capital City a short time ago, he chanced to go into the old and, at present, somewhat neglected grave-yard connected with St. Stephen's Episcopal Church, on Front Street; and in looking around among the scattered tombstones, his attention was attracted by a low, black-looking slab, unobtrusively hid in an out-of-the-way corner. It was the final resting place of the once celebrated comedian, Joseph Jefferson, grand-father of the eccentric and popular "Jo Jefferson," now astonishing the Gothamites, and who is conceded to be the greatest living comedian. Mr. Joseph Jefferson died in this place some time in 1832, where he had been fulfilling an engagement at the old Exchange Theatre. The epitaph on the slab which covers his remains was written by one of his most intimate friends and admirers, John Baunister Gibson, then Chief Justice of the Supreme Court. This epitaph is well worth preserving, and we will submit it:

Beneath this marble
Are deposited the ashes of
JOSEPH JEFFERSON.
An actor whose unrivalled powers
Took in the whole extent of comic character,
From paths to hear-aching mirth,
Enriched with the most conceptions of Genius.
He was a member of the Chestnut-St. Theatre,
Philadelphia,
In its most high and palmy days;
And the composer
Of Cooper, Wood, Warren, Francis,
And a host of worthies
Who
Like himself
Are remembered with admiration and praise.
He died at this place in 1832.

Also, poor York!—I knew him well, Horatio;
A fellow of infinite jest, of most excellent fancy.
The tomb is in a very dilapidated condition; and we would suggest to the surviving relatives of the deceased the propriety of fitting it up in good style, or removing the remains to our beautiful Cemetery and placing over them a neat monument.

THE INDIAN SUMMER.—This beautiful, almost fairy season, is nigh at hand. A writer on the subject says that it sometimes occurs in October, before we believe it is not regarded as "orthodox," if it appear before November. For ourselves, we are glad to see it at any time. Why called the "Indian Summer" you ask. The only reason we have ever heard of is, that during this period the Indians are accustomed to gather their stores of corn and rice and nuts for the winter. "In America, this period is marked by one feature almost unknown elsewhere. We refer to the brilliant changes of the foliage of the trees. It would seem as if Nature were trying to conceal the decay which is stealing upon her, by the increased gorgeousness of her apparel, and the Spring-like youthfulness of her voice and air. But let us not slander her. This change in the hues of vegetation is indeed perceptible somewhat in September. It begins, in a small way, before frost; but the most sudden and brilliant colorings are produced by icy Jack. Sometimes he does his work at odd spells throughout October and the first part of November; sometimes he does the most of it in a single night. And what a grand exhibition he makes! At his touch, the oak turns a rich brown, or reddish-purple; the birch and larch are yellow; the tulip-tree a rich lemon color; the pepperidge fiery scarlet; the maples nearly every tint from green to gold and crimson, and scarlet and pink; the evergreen retain their original green and set off the other hues in fine contrast. One gets a fine display, if he can command the view of a range of wooded hills ascending by gentle slopes; he then sees the tops of trees, in all colors, and fading off into the distance. And the effect is still further heightened if the sun is declining behind the hills. The oblique rays glancing behind the many tinted leaves, give them increased brilliancy, and suggest at times the idea of a forest aglow with fire. Then again, this brilliancy is often subdued by a haze of blue vapor and smoke. Attempts have been made to represent the phases of Indian Summer on canvases, but as yet with only partial success; no coloring, and no verbal description, can place it before the eyes of one who has not beheld it. And, what adds to the charm of this season, the temperature of the air becomes milder than it had been for several weeks; on some days, it is balmy and voluptuously soft, beyond anything in the sweetest day of June. These are the days for enjoyment, perhaps beyond any days of the year."

PICTURE FRAMES made to order at the shortest notice and at the most reasonable prices, at W. Knoche's Music Store, 92 Market street.

VISITING CLERGYMEN.—The pulpits of the various evangelical churches in our city were filled yesterday by clergymen in attendance upon the Presbyterian Synod, all of whom preached excellent sermons, and were honored with large and attentive congregations.

TO PRESERVE FLOWERS.—It is stated that cut flowers may be kept fresh for any length of time by the introduction of a spoonful of powdered charcoal into the water contained in the vessel in which they are placed. Neither charcoal or water require renewal, the latter remaining limpid.

REV. JAMES COLDER, of this city, delivered a lecture on China, at the Irving Female College in Mechanicsburg, last Friday evening. He exhibited a number of idols and other curiosities brought with him on his return from that country, where he spent several years as a Methodist missionary.

CURE FOR BURNS.—The "Gazette Medicale" of France says that, by an accident, charcoal has been discovered to be a cure for burns. By laying a piece of cold charcoal upon a burn, the pain subsides immediately. By leaving the charcoal on one hour, the wound is healed, as has been demonstrated on several occasions. The remedy is cheap and simple, and certainly deserves a trial.

JONES'S STORE.—We invite attention to the advertisement of this popular mercantile house, in our columns to-day. The stock of goods on hand cannot be equalled, in extent and variety, by any other dry goods establishment in our city. The Messrs. Jones buy wholesale direct from the importers, and can therefore afford to sell cheaper than most of their rivals in the business. Ladies should visit this beautiful store and "see the sights."

A FAST FINANCIER CHECKED IN HIS CAREER.—On Saturday afternoon Frank Hutton, keeper of a drug store at the corner of Second and Pine streets, whose career for two or three years past has been somewhat "fast," was arrested on a charge of forgery and obtaining goods under false pretence. After a hearing before Alderman Peffer, he was committed to prison for trial at the next Court. The arrest of Hutton did not take by surprise those of our citizens who have been familiar with his financial operations for some time past.

PRIZE BANNERS.—At the late meeting of the People's State Committee, it was resolved to prepare two handsome banners—one to be presented to the County give the largest relative increased vote for Lincoln at the November election over Gov. Curtin's vote at the recent October election—the other to be presented to the county giving the largest relative increased majority for Lincoln over Curtin's majority. What say you, Wide-Awakes of old Dauphin? Shall we win one of these banners? Go to work and bring out our vote on the 6th of November, and we can give increased majority enough to take one banner. We say, if we will, roll up two thousand majority for Lincoln in the county. Let us resolve to do it.

THROWING STONES.—Two colored boys named David Stevens and Charles Roberts, were arrested this morning by officer Essig, upon warrants issued by Mayor Kepner, charged with feloniously assaulting a colored woman named Margaret Thomas, by hitting her on the head with a stone, inflicting a serious wound. The affair occurred last night at the corner of Second and Locust streets. There are other boys connected with the affair, warrants for whose arrest have been issued. The woman alleges that she was returning from church, and met Stevens and Roberts at the above named corner. Directly after she passed them she was hit with a stone, which she is certain came from the crowd of boys. The two arrested this morning are confined in the lock-up awaiting a hearing before the Mayor, which will probably take place this evening.

THE PARADE ON TUESDAY EVENING.—ROUTE OF PROCESSION.—From present indications the Wide-Awake parade to-morrow evening will be the most magnificent affair of the kind that has taken place here since the opening of the present campaign. The mounted Lincoln Rangers, with several clubs from neighboring towns, are expected to participate in the demonstration. We submit the route of PROCESSION: The line will form at seven o'clock, riding on Front, facing South. Countermarch to Third, up Third to Broad, up Broad to Ridge Road, down Ridge Road to Boas avenue, out the avenue to Lower Road, thence to Filbert street, up Filbert to Walnut, up Walnut to Fifth, out Fifth to Market, up Market to Fourth, down Fourth to Chestnut, out Chestnut to Second, down Second to Faxon, out Faxon to Front, up Front to North, up North to Second, down Second to Market, out Market to Fourth, up Fourth to Walnut, up Walnut to Second, down Second to Market Square, where the procession will be dismissed.

THE LOCK-UP.—At a late hour last Saturday night, an intelligent looking colored woman, with a baby several months old, applied at the Mayor's office for lodging. She stated that she had come from a town in the western part of the State, and was on her way to visit some friends a few miles east of this city. She was accommodated with lodgings in the female department of the lock-up, which was fitted up as comfortably as possible for her reception. The next morning, at the instance of his honor, the Mayor, the Chief of Police secured lodgings over Sunday for the woman and child in the house of a benevolent colored family.

An elderly German man, slightly crippled with an attack of paralysis, was arrested last Saturday for drunkenness. For several days previous he had been wandering through the city, begging from door to door—his collections being invariably invested in whisky. In some instances he grossly insulted ladies who, seeing his drunken condition, refused to give him alms. The Chief lodged the delinquent in the lock-up, and upon a hearing next morning the Mayor very properly committed him to prison for thirty days.

The only occupant of the lock-up last night was a "voluntary"—a straggling Irishman, hailing from somewhere and bound nowhere. He was discharged this morning.

ATTENTION!—WIDE AWAKES!—A special meeting of the club will be held at Exchange Hall this evening, to complete the arrangements for the contemplated parade to-morrow night.—Turn out, one and all.

COMING TO THE INAUGURATION.—The Wide-Awakes in various sections of the State are already making arrangements to participate in the inauguration of the Republican Governor, Col. Curtin, next January. The Reading Journal of Saturday says:

The Reading Wide-Awakes have adopted a resolution to attend the inauguration of gallant Andy Curtin, as Governor of the Commonwealth, to take place at Harrisburg in January next. Gov. Pecker, we hear, objects to the Wide-Awakes taking part, but the boys who elected Andy are determined to put him through whether Gov. P. likes it or not.

DEMOCRATIC MISMANAGEMENT AND EXTRA-GARAGE.—A friend residing at Berryburg, in this county, writes us relative to the gross mismanagement of the Post Office Department in the conveyance of the mails between that place and Millersburg. The present system is not only an imposition upon the people directly interested, but detracts largely from the Post Office revenue, the business men of that section having been obliged to establish a private express for their accommodation. Our correspondent writes:

"One of the most glaring mismanagements of the present Administration is exhibited in the manner in which the mail is carried to and from this place. Instead of coming in the daily stage running between here and Millersburg, it is carried first to Georgetown, some ten miles above Millersburg, and then here; some eight miles further than if it came as it should, immediately across from Millersburg. This causes a considerable loss to the department—letters being carried by private express, between these two points, to the amount of two hundred per cent. Thus slowly are the real wants of the people neglected by a corrupt and dishonest cabinet. The folly of Postmaster General Holt is more apparent, inasmuch as some of the private citizens of this place promised to transport the mail for the mere income of the office, which would save the Government at least \$100 per annum. In vain have the people petitioned and beseeched these unaccommodating officials. They have been deaf to entreaty, and treat their letters with silent contempt. May the time be hastened when the cabinet will be changed. This conduct has probably turned more than a hundred and fifty votes against the Democratic party."

HOLLOWAY'S PILLS.—To MOTHERS.—Thousands of lovely females, in the Spring time of womanhood, have been rescued from an untimely grave by the agency of these medicines. When the springtime of the romp is changed to apathy and internal suffering, and the glow of health to the sallow hue of cancerous disease, it is a crisis which requires the maternal attention and solicitude, and for which the pills will be found an efficient remedy. They are equally efficacious in the autumn of life—the most critical period of woman's existence. Sold by all druggists, at 25c., 50c., and \$1, per box or pot.

ALMOST EVERYBODY has heard of "Wood's Hair Restorative." That the word "Restorative" in this case is no misnomer, we have the testimony of individuals who have traveled all over the country, as well as their acknowledged and honorable character as gentlemen, render whatever they publicly assert in the past perfectly reliable. Several of these have used, personally, the hair preparation we are now speaking of, and certify to its amazing efficacy in the most public manner possible. Their certificates can be seen at the proprietor's, 312 Broadway, New York, and are most properly appreciated, we have no hesitation in saying they will impress conviction on the most skeptical mind. Wood's Hair Restorative is, doubtless, the best article of the kind ever yet produced.

MOTHERS, READ THIS.—The following is an extract from a letter written by the pastor of a Baptist church to the "Journal and Messenger," Cincinnati, and speaks volumes in favor of that world-renowned medicine—Mrs. Winslow's Soothing Syrup for Children Teething:
"We see an advertisement in your column of Mrs. Winslow's Soothing Syrup. We have used it a word in favor of a patent medicine before in our life, but I feel compelled to say to our readers, that this is no humbug—we have tried it, and know it to be all it claims. It is, probably, one of the most successful medicines I ever used, because it is one of the best. And those of your readers who have babies can't do better than to lay a supply."
mar12-dawly

We call the attention of our readers to an article advertised in another column, called Broon Food. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is food for the blood, already prepared for absorption; pleasant to the taste and natural in action, and what no gains to be without them. Let all those who are suffering from poverty, impurity or deficiency of blood, and consequently with some chronic disease or ailment, take of this Broon Food and be restored to health. We notice that our Druggists have received a supply of this article, and also of the world-renowned Dr. Barry's Infant's Cordial, which every mother should have. It is a safe and reliable remedy for all kinds of what ails children, and is as pleasant to the taste as candy. It is also said that it will allay all pain, and soften the gums in process of teething, and in the same time regulate the bowels. Let all mothers and nurses, who have endured anxious days and sleepless nights, procure a supply and be at once relieved.

It is chemically held in solution, will withstand the action of climate and retain its full strength, and is put up in a strong, convenient bottle, with a brush, all for twenty-five cents. On being applied, the chemicals readily evaporate, and the gum becomes firm and adhesive, and adheres with the tenacity of the best cabinet-maker's glue. Wood, leather, or other articles which are glue used, it is just the thing. We have tried it, and speak by the name. In the country it will be invaluable, and in the city will think of doing without it. If Mr. Spalding desires to become a candidate for the Presidency, and friends stick like his glue, he will be sure of an election. 127-1m
