And testimonials, new, and almost without number, might be given from ladies and gentlemen in all grades of society, whose united testimony none could resist, that Prof. Wood's Hair Esstorative will restore the bald and gray, and preserve the hair of the youth to old age, in all its youthful beauty.

gray, and preserve the hair of the youth to old age, in all its youthful beauty.

BATTIE CREEK, Mich., Dec. 21, 1860.

Prof. Wood: Thee will please accept a line, to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicated chronto disease, attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I having not been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This i nduced me to payiBriggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hafr Restorative about the first of August last. I have suitfully followed the directions and the baid spot, is now covered with hair thick and black, though short; it is also coming in all over my head. Feeling confident that another large boilt would restore it entirely and permanently, I feel anxious to persevere in its use, and being destitge of means to purchase more, I would ask thee if thee woulds not be willing to send me an order on thine agents for a bottle, and receive to thyself the scripture declaration—"the reward is to those that are kind to the widow and fatherless."

Thy friend, SUSANNAH KIRBY.

LIGONIER, Noble, Co., Indiana Feb. 5th, 1859.

PROF. O. J. Wood: Dear Sir:—In the latter part of the year 1852, while attending the Etate and National Law School of the State of New York, my hair, from a cause unknown to me, commenced falling off very rapidly, so that in the short space of six months, the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion uponities side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana, my more casual acquaintances were not so much at a loss to discover the cause of the change in my appearance, as my more intimate acquaintances were not so much at a loss to discov

#### DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

The experience of thousands daily proves that no preparation of from can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all malades in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emancipa iton, Constipation, Diarriner Dysentery, Incipient Consumption, Strofulous Tuberculosis, Estat. Rheum, Mismentrustion, Whites, Chlorosis, Liver Complaints, Chronic Headhches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c. In case of General: Debility, whether the result of acute discase or of the continued diminction of nervous and muscular energy from chronic on plaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are atested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name,

In Nervous Affections of all juds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for unlike the old oxides, it is vigorously tonic, without being exciting and overheating, and gonty, regularly aperical, even in the most obstante cases or costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Riles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms tham

In Dyspepsia, innumerable as are its causes, a single box of these Chilybeate Pills has often sufficed for the most habitual cases, including the attendant Castremest. In unchecked Diarrhoea, even when advanced to Dysentery, confirmed, smachatug, and apparently malignant, the effects have been equally decisive and associationshing.

ignant, the checks have been equally declared and actionishing.

In the local pains, loss of fiesh; and strength, debilitating cough, and remittent hectic, which generally indicate inclipient Consumption, this remety has allayed the slarm of friends, and physicians, in several very gratifying and interesting instances.

In Scrotnious Tuberoniosis, this medicated iron has had far more than, the good of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

rited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—
in the latter; however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the loined muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlement of the west, will probably be one of high remown and usefulness:

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.
