M<sup>2</sup>-KINNEY, at Harrisburg, Fa. 5629

The matter is not new to many of our read. ers, but it certainly has never been fully presented in adequate detail. An agent represent-ting his own community, Col. Steele, a highly respectable gentleman, is now in our city, and for some weeks past has been quietly circulating his appeals for aid. As winter is now near at hand the danger becomes imminent that from the rigors of the season, and the greatly enhanced difficulties and expenses of reaching them from these States, river navigation once closed, many will suffer keenly, aye, starve for the very commonest necessaries of life.

The subject is brought more immediately and publicly to our citizens by the mission of Rev. E. C. Reynolds, a highly esteemed Episco pal clergyman of Lawrence, Kansas, who, as announced in a previous issue, has come to our city to present the claims of the suffering residents of the Territory. Mr. Reynolds will be remembered in this same connection from his efforts some months since to secure seed wheat for the farmers of Kansas, in which he found generous responses, and through his instrumentality many acres are now in seed awaiting the results of another spring. But this does not relieve the present and ap-palling wants of communities whose crops have

utterly failed through long-continued lack of rain.

A public meeting was called at Bryan Hall last evening for the purpose of hearing a statement from Rev. Mr. Reynolds on this matter. From reasons arising from the briefness of the call, and the inclemency of the evening, the members present were less than would have under other circumstances, answered the appeal vet our solid and substantial citizens were rep resented, and the meeting impressive and in teresting, though entirely informal, without formal action at the close.

The speaker gave a brief but thrilling sketch of the condition of affairs in Kansas. He said that out of a population of 100 000 about onefourth had been driven away within 'the year by the gradually darkening aspect of harvest by the gradually darkening aspect of harvest matters. The crops planted in the spring had dried up. Gardens became a waste. Corn fields gave no yield. Farmers who, in a pre-vious season, had realized from one to two thousand bushels of corn, gathered in, this season, from one to two bushels of corn to the acre. In the hope that rain would come to their relief, potatoes and other root crops were replanted, but only to the reduction of the tock of food for an outlay that gave no return.

Mr. Reynolds says that upon his own table in Lawrence he has had potatoes but three times this Summer, and these vegetables are now selling in that market at \$1 00 to \$1 25 per bushel. Store hogs the farmers had purchased for fattening with their corn crop, had

LORD BROUGHAM ON WASHINGTON .--- In his recent installation address to the University of

Edinburgh, Lord Brougham referred to Washington in the following eloquent words:

"In Washington we may contemplate every excellence, military and civil, applied to the service of his country and of mankind—a tri-umphant warrior, unshaken in confidence when the most sanguine had a right to desnair: a successful ruler in all the difficulties of a course wholly untried-directing the formation of a new government for a great people, the first time so rash an experiment had ever been tried by man-voluntarily and unostentatiously retiring from supreme power with the ven ration of all parties, of all nations, of all mankind,

that the rights of an matches, of all matches appealed to by vulgar tyrants. It will be the duty of the historian and the sage, in all ages, to omit no occasion of commemorating this illustrious man, and until time shall be no more, will a test of not store which our race hear matches and all ages. test of progress which our race has made in wisdom and virtue, be derived from the veneration paid to the immortal name of Washington.'

A CURIOUS PRACTICE-WHAT DOES IT MEAN ?---We find in the Columbia (S. C.) Guardian, the following paragraph :

"For years past the system of 'bull penning, on confining voters previous to an election, has been adopted in Richlan 1 District, and although we do not know to what extent it has been carried in the election just held, yet it is a proper occasion to call the attention of the people to a system at war with our republican institutions, and degrading and corrupting to a large portion of the voters.'

This certainly needs explanation. It looks very much as if our Southern brethren had more than one "peculiar institution" among them. In this section of the country the proposition would excite something more than an appeal to the Legislature for relief.
