In all acute discases, such as Fevers, Inflammations, Diarrhea, Dysentery, Croup, Rheumatisms, and swch eruptive discases as Scarlet Fever, Micasles, and Erysipelas, the advantage of giving the proper remedies promptly is obvious, and in all such cases the specifics act like a charm. And testimonials, new, and almost without number, might be given from ladies and gentlemen in all grades of society, whose united testimony none could resist, that Prof. Wood's Hair Restorative will restore the baid and gray, and preserve the hair of the youth to old age, in all its youthful beauty.

BATTLE CREEK, Mich., Dec. 21, 1860.

Prof. Wood: Thee wilt please accept a line to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicated chronic disease, attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I having not been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hafr Restorative about the first of August last. I have taithfully followed the directions and the bald spot is now covered with hair thick and black, though short; it is also coming in all over my head. Feeling confident that another large bottle would restore it entirely and permanently, I feel anxious to persevere in its use, and being destingte of means to purchase more, I would ask thee if thee wouldst not be willing to send me an order on thine agents for a bottle, and roceive to thyself the scripture declaration—"the reward is to those that are kind to the widow and fatherless."

scripture decharation—"the reward is to those that are kind to the widow and fatheriess."

Thy friend, SUSANNAH KIRBY.

Liconer, Noble, Co., Indiana Feb. 5th, 1859.

Prop. O. J. Wood: Dear Sir —In the latter part of the year 1852, while attending the State and National Law School of the State of New York, my hair, from a cause unknown to me, commenced falling off very rapidly, so that in the short space of six months, the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana, my more casual acquaintances were not so much at a less to discover the cause of the change in my appearance, as my more intimate acquaintances were to recognize me at all.

I at once made application to the most skillful physicians in the country, but, receiving no assurance from them that my hair could again be restored, I was forced to become reconciled to my fate, until, fortunately, in the latter part of the year-1857, your kestorative was recommended to me by a sruggist, as being the most re liable Hair Restorative in use. I tried one boule, and found to my great satisfaction that it was producing the desired effect. Since that time, I have used seven dolars' worth of your Restorative; and as a result, have a rich coat of very soft black hair, which no money can bey.

As a mark of my gratitude for your labor and skill in the production of so wonderful an article, I have re-commended its use to many of my friends and acquaint-ances, who, I am happy to inform you, are using it with like effect. Very respectfully, yours, A. M. LATTA. Attorney and Counsellor at Law.

DR. MOTT'S CHAŁYBEATE RESTORATIVE PILLS OF IRON.

As aperient and Stomachic preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, ooth in Europe and the United states, and prescribed in their progress.

Sanctioned by the highest Medical Authorines, ooth in Europe and the United states, at d prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all malades in whick it has been tried, it has proved absolutely curative in each of the following complaints, viz:

DebiHty, Nervous Affections, Emancipation, Constipation, Diarrhoea Dysentery, Incipient Consumption, S. rofutous Tuberrousis, Salt Rheum, Mismenstruation, Whites, Chilorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent feverer, Pimples on the Face, &c.

In case of General Debility, whether the result of acute disease or of the continued diminction of nervous and muscular energy from chronic con plaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from portracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaclated victimis of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physican has no name,

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exiting and overheating, and gently, regularly aperient, even in the most obstante cases or costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for

sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

forms them:
In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Continents.
In unchecked Diarrhoea, even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

bysentery, commence, smartantey, and apparently beingant, the effects have been equally decisive and astonishing.

In the local prims, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has allayed the slarm of friends and physicians, in several very gratifying and interesting instances.

In Secretaious Tubercaiosis, this medicated from has had far more than the good of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joined muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlement of the west, will probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy and fully restorative effects. Good appetite, complete digestien, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately tollow its use.

Put up in neat flat metal boxes containing 60 pills,

Will be sent free to any address on receipt of the price.—All letters, orders, etc., should be addressed to B. B. LOCKE & CO., General Agents, and-dtf 339 Broadway, New York.
