HARRISBURG:

Monday Afternoon, October 29. 1860:

The best assortment of oval and square gilt frames to be found at W. Knoche's, 92 Market

THE KEYSTONE WIDE-AWAKE CLUB will meet at Exchange Hall this evening, for the transaction of business. Turn out!

A SPECIAL MEETING of the Good Will Fire Company will be held this evening at the engine house. Punctual attendance is desired, as business of importance will be transacted.

THE UNION PRAYER MEETING will be held in the Presbyterian church, corner of Market Square, to-morrow afternoon, commencing at four o'clock, as usual.

CAMERON GUARD .- This handsome military company is about to be revived, with a view to participation in the ceremonies incident to the inauguration of Governor Curtin. A meeting for that purpose will be held some evening this week. We hope, therefore, to see the Guard out with full ranks on inauguration day, to "do the honors" to visiting military companies.

THE MILITARY AND THE INAUGURATION .- It is expected that not less than fifteen military dred Wide-Awakes-among the number a delecompanies will visit the Capital City on the occasion of Governor Curtin's inauguration. In participated in the torch-light parade. An addition to those from abroad, the entire excellent address was delivered by Joseph Gar-Dauphin county brigade, comprising four or five retson, Esq. The novelty of the demonstration companies, headed by Brigadier General Williams and Staff, will be in attendance.

PREACHING IN THE ALMS HOUSE.—One of the Directors of the Poor informs us that religious services are held in the Alms House every two weeks, by the pastor of the Evangelical congregation, and Mr. Mumma, a local preacher. These gentlemen long since volunteered their services, and have regularly visited the institution and preached to the inmates two Sabbaths in each month. It was for this reason that the Board of Directors declined the proposition recently made by certain clergymen of our city.

FALSE REPORT .- It was currently reported in this city on Saturday night that Col. Curtin, the Governor elect of Pennsylvania, had suddenly died somewhere in Illinois, on that day. The report was incorrect. Col. Curtin, owing to the severe labors of the campaign, is somewhat enfeebled, but nothing serious is apprehended. He addressed a Republican meeting at Boston on Saturday evening, and is engaged to speak at various points in New Jersey this week, in company with Gov. Pennington.

BALTIMORE COLLEGE OF DENTAL SURGERY. The Chair of Practice of Dental Surgery, made vacant by the decease of Dr. Chapin A. Harris, the late President of the Baltimore College of Dental Surgery, has been filled by the appointment of Dr. Ferdenand J. S. Gorgas, of this city. This gentleman has been for some years connected with this Institution as one of its Demonstrators. He thus brings to the discharge operator, much experience as a teacher. Professor Austen, the Dean of the Faculty, has been assigned the duty of teaching the Princithe Chair of the late President.

AS IT WILL BE HEREAFTER. - The Bell-Everett State—being scarcely able to muster ten thousand votes in the whole Commonwealth.—Pennsylvanian, (Democratic).

Before the late election the Locofoco papers were most fulsome in their flattery of the Bell party, and by fraudulent devices gave a false proved sufficiently strong to have secured the election of Foster, they would still have been good fellows; but failing in that essential, and being of no further use to the Democracy, they are unceremoniously kicked out of doors.

DIPITIERIA.-So far as we can understand this terrible disease, which is now desolating 1858 was unknown to medical men. We notice by our Philadelphia exchanges that the disease prevails to a considerable extent in that city one gentleman having recently lost three children, two of whom were buried the same day! A fourth is now down and not expected to recover. This disease, so fatal to children, is not place, in which all the children of the county the training of her mother, gives some valuable confined to our State, as will be seen by the following item from a North Carolina paper :-

Four died in one family, and others of the same family were very low at the last accounts.
Two corpses were in the house at the same time. One little girl was playing about the house as usual, (although she had had a sore throat for several days.) She lay down on the bed, and in a few moments fell off of the bed a corpse. Another of the same family, a little boy, died quite as suddenly, while lying on a little bed on the floor. Other deaths have occurred, and several others are very low.

MACHINE FOR TRANSPLANTING TREES. - A machine for transplanting trees has recently been invented. It is made of a solid frame of wood and iron, and may be drawn by either horses or oxen. The mode of transplanting with it is fashioned spelling-schools were a great instithis: A trench some three feet deep is dug tution in their day; and it would be to the ad- which eats into and buries itself in the grain. around the tree, three or four feet from it, so vantage of the rising generation if they were In laying up your stock of lard for the winter, as to cut off a ball of earth six or eight feet in diameter. The tree is now on wheels and may be useful, as the compositions, rehearsals, plays, transported to a considerable distance without &c., that generally make up the performance must be perfectly clean and sweet, just as much damage, and dropped into the place desired. at the close of a term.

THE JUNIOR WIDE-AWAKES having procured equipments for thirty-five or forty of their company, will make a public parade this evening. The members are requested to meet in the Court room at half-past six o'clock.

A FLORAL FESTIVAL, for benevolent purposes, will come off in the West Harrisburg Methodist Chapel next Wednesday evening. A rich treat in the way of instrumental and vocal music may be anticipated, and we hope to see the "festival" largely attended. See advertise ment in another column.

DEATH OF LOT BEEGSTRESSER.—This morning we received intelligence of the death of Lot Bergstresser, Esq., of Berrysburg, in the fiftyfourth year of his age. The deceased formerly represented this county in the Legislature, and was an honest and honorable man. His funeral. which took place yesterday, was attended by large concourse of people.

VALUABLE INFORMATION .- Here is a piece of information, a little late now, but as winter is an excellent time to procure the remedy recommended, it will be acceptable to many of our young readers:

"The best protection from mosquitoes will be obtained by marrying a pretty woman. These pests never bite a man when they can find anything better and sweeter."

MEETING AT LEWISBERRY.-The Republican meeting at Lewisberry on Saturday night was a very large and spirited one. About two hungation from the Keystone Club of this citybrought out an immense crowd of people from the rural districts of old York, and an encouraging degree of enthusiasm was manifested. ----

DANGEROUS.—The night trains of the Sunbury leave Williamsport at so nearly the same time, that between Williamsport and Milton they are in sight of each other, with the head light of the Cattawissa train occasionally shining in the striking another defensive blow. back windows of the rear car of the Sunbury and Erie train. We cannot imagine anything better arranged for getting up a thrilling accident. The least detention of the forward train, by the getting off of a car, or from some other cause, would afford the hind train a splendid promiscuously.

WIDE AWAKES !- To you, in a great measure, will the Republican party owe the brilliant success which awaits them on the 6th of November. You have perfected the party organization, aroused the dilatory, and enlisted the new recruits. But there is more work for you to do yet. In the seven working days that remain, much more can be accomplished. Our opponents hope to catch us asleep on the day of election, but we must disappoint them. Let efficient ward committees be appointed, and every effort made to get out the full Republican vote. We can, if we WILL, give a largely increased majority in the county, and carry the city, for Lincoln. Let us resolve do it.

A REPUBLICAN MASS MEETING came off in of his new duties, in addition to his skill as an Union township, Lebanon county, about two miles from Jonestown, on Saturday afternoon last, which was attended by several hundred of the sturdy farmers of that region. Among the ples of Dental Science, which formed part of novel features of the procession was a large six-horse wagon containing thirty-three young ladies dressed in white, and protected by a canparty, which made an immense amount of opy of evergreen, intended to represent the noise, and which was expected to eat away the States of the Union. Following, on horseback, ranks of the Republicans, turned out to be the was a young lady clad in sable apparel, and most insignificant crowd, in point of numbers, bearing a banner inscribed "Kansas." A number of wagons containing various agricultural placed for safe keeping in the oven of a ten implements, with persons at work, also appeared in the procession, and attracted much attention. The procession was a very large one and creditable to all who participated. Able Speeches were made by several gentlemen of color to their numerical strength. Had they Lebanon; and by Maj. David Mumma, of this city, in the German language; and the enthusiasm was unbounded. In the evening a Wide Awake torch-light parade took place, (clubs from Uniontown, Jonestown, Myerstown and Lebanon being in attendance,) and a handsome display was made. Most of the farm houses in the neighborhood were brilliantly illuminated. and the country for two miles around was homes in most of the neighboring counties, blaze of light and enthusiasm. The indicaoriginated at Albany, New York, and up to tions are that little Lebanon will roll up an increased majority for Lincoln and Hamlin on

Tuesday of next week. WORTHY OF IMITATION.—Here is something worthy of imitation in this quarter. In a western town, recently, a "spelling match" took were invited to participate. The prize, an Unabridged Pictorial Dictionary, was awarded to a little girl about twelve years old, she having ble position. Shereminds them that coffee which worthy of imitation here; for what the scholars of the present day are more deficient in than flavor, should also have the air excluded; that almost anything else, is a correct knowledge cakes should likewise be kept in a tin box with of the orthography of the native tongue. Some modern, patent teachers, even go so far as to scout the idea of teaching spelling at all, and preserved in the same way, never need be stale, have thrown the spelling-book out of school substituting nothing equivalent in its place. The result is that when their pupils leave school they are laughed at the rest of their days because they are unable to spell even the common words of a business correspondence. The old an existing institution. There is no use of choose that for the longest keeping from hogs

More Apples.—On Saturday evening a large ark, loaded with apples and cider, arrived here from the west branch region. The former sell PERIODIC, which is a positive cure. Sold only by for \$2 50 per barrel.

GEITING READY.—The Hall of the House o Representatives is now being re-carpted and fitted up for the reception of the members, a number of whom have already visited the Capital and made selections of seats.

Going to Shepherdstown.—The Keystone Wide-Awake Glee Club, of this city, intend visiting Shepherdstown to-morrow evening, to furnish vocal music for the Republican mass meeting to be held there. Several Wide-Awake clubs are expected to be in attendance.

Township Meetings are held every night by the Republicans of Cumberland and York counties, and the enthusiasm manifested shows that our friends in these counties are "wide awake" and active. Why is it that no township meetings are held in Dauphin county, and no effort made to get out the vote? Wake up!

REV. D. GANS, of this city has been appointed one of the editors of the German Reformed Messenger, published at Chambersburg. Mr. Gans congratulate the numerous readers of the Messenger upon so valuable an acquisition to its corps editorial.

CURE FOR COLD .- Punch gives the following excellent cure for a cold in the head :

"Put your feet in hot water, As high as your thighs; Wrap your head round with flannel As low as your eyes; Have a bowl of hot gruel

And brandy or gin;" and repeat the dose as often as may be con-

A FAILURE.—The Democratic meeting advertised for the sixth ward on Saturday evening, and Eric and Cattawissa Railroad Companies did not come off. Nobody attended, and the affair proved a mortifying failure. The Democracy consider themselves already whipped, andlere disposed to give up the contest without

Since writing the above, we learn that no meetings were held in any of the wards except the first, there not being a sufficient number in attendance to officer the respective meetings.-Alas! for the dilapidated and con-fused Democracy! Now then, Wide-Awakes, "one fire opportunity to "go in," and smash up things | more along the whole line," on Tuesday of next week, and the city is ours!

> HANGING GARDENS .- A New York paper has been entertaining its readers with a long, elaborate dissertation on the propriety of turning the upper stories of dwellings into hanging gardens. It states that as glass roofs are but little dearer than the other kinds, every upper story might, without much expense, be turned into a hot house, where all the vegetable luxuries of the season could be produced, without the least assistance-in the way of weeding, pruning or thinning out-from the boys of the neighborhood. The idea is to cover the garret floor with concrete, to prevent water from leaking through to the floor below. The statistics given appear somewhat extravagant; for instance, where it proposes to put eight hundred fruit trees on a floor of an ordinary house; but the plan certainly seems feasible and likely to be carried out. 'If it is, we shall have all the enviable delights of Babylonian mansions in our midst, with the addition of glass roofs-quite a desideratum in this climate.

SINGULAR EXPLOSION. - In the family school of David Parke, Esq., of Parkesburg, Chester county, taught by Miss Alice R. Hotchkin, an ink bottle, pint size, about two thirds full, was plate stove. A few days ago, a fire was lighted in the stove, the teacher having forgotten the bottle was there. The consequence was a rousing explosion, so violent as to break the stove in several places, and throw the fire upon the floor, at the some time scattering the ink over the walls and ceiling so profusely as to leave scarcely a square foot that was not more or less spotted. The teacher and scholars escaped unhurt, yet far enough from unscared, and with their faces in a plight which might have charmed Christy or Sanford, but which happily yielded without rebellion to the virtue of soap and water. On the whole it was a philosophical experiment of rare interest, and one which the worthy young lady doubtless availed herself in the next lesson of the class in that science. It is however too choice a one to be repeated often.

HINTS TO HOUSEKERPERS. - A lady correspondent of the Germantown Telegraph, who has received a thorough domestic education, under "hints to housekeepers," which are worthy the attention of all ladies who occupy that responsistood up" the longest. This, we say, is is purchased already roasted, should be kept in a close tin chest; that tea, to preserve its full a tight-fitting top, and they will keep fresh three times as long as if left exposed. Bread so much dreaded by young persons with strong digestive powers. That cranberries-just now making their appearance—will keep the whole winter if placed in a sweet vessel with water, in a place where the water will not freeze much. Good fresh rice has a clear, bright look; old rice is frequently infested with a black insect, over one year old; that from young hogs then stamp gently until the juice appears; then another layer until the cask is full; each layer should have as much fine salt as can be grasped in the hand. When the cask is full, another topping of cabbage leaves, then place a board, loosely fitting, upon the top, and on the top of ber, that in making sauer-kraut everything go as in making bread and pies.

JUDSON'S MOUNTAIN HERB PILLS.—How strange JUDSON'S MOUNTAIN HERB PILLS.—How strange and wonderful it often seems to us that a medicine composed of simple mountain herbs and roots, should so certainly search out and oure disease. How surprising that the Indians should know and preserve so long and well a secret that has escaped the search of the greatest physicians the world has ever seen. True, the ancient inhabitants of Mexico were a strange race, found by the Spaniards, living in large cities, and, allowing for their strange oustoms and religion, as well civilized as their conquerors. In the words of a writer of some celebrity, "They have persished from the earth, their cities are ging antic piles of ruins, their Kings and Princes so mighty in their life, are forgotten; their ruins and their medicine alone are left." The united testimony of all intelligent persons is, that JUDSON'S MOUNTAIN HERB PILLS are the most successful medicine in the world in curing disease. Sold by all medicine dealers.

ALMOST EVERYBODY has heard of "Wood's Hair Restorative." That the word "Restorative" in this case, is no misnomer, we have the testimony of individuals whose elevated position in the country, as well as their acknowledged and honorable character as genile their acknowledged and honorable character as gentlemen, render whatever they publicly ussert in the rast figure reliable. Several of these have tested, personally, the hair preparation we are now speaking of, and certify to its amazing efficacy in the most public manner possible. Their certificates can be seen at the proprietor's Depot, 312 Broadway, New York, and once seen and properly appreciated, we have no hesitation in saying they will impress conviction on the most skeptical mind. Wood's Hair Restorative is, doubtless, the Best article of its kind ever yet produced.
