#### B CERHAVE'S HOLLAND BITTERS THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA,

DISEASE OF THE KIDNEYS. LIVER COMPLAINT, WEAKNESS OF ANY KIND, FEVER AND AGUE,

And the various affections consequent upon a disordered STOMACH OR LIVER,

STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburns, Loss of Appetite, Despondency, Costiveness, Blind and Blecding Piles. In all Nervous, Rheumatic, and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boenhaye. Its reputation at home produced its introduction here, the demand commencing with those of the Fatherland scattered over the face of this mighty country, many of whom brought with them and handed down the tradition of its value. It is now offered to the American public, knowing that its truly wonderful medicinal wirtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have ueen impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE—whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of of singular remedial properties.

READ CAREFULLY! The Genuine highly concentrated Berhave's Holland Bitters is put up in half-pint lottles only, and retailed at ONE DOLLAR per bottle, or six bottles for Five DOLLAR.—The great demand for this truly celebrated Medicine has induced many imitations, which the public should guard

against purchasing.

BAITLE CRIEF, Mich., Dec. 21, 1860.

PROV. WOOD: Thee will plesse accept a line to inform thee that the hair on my head all fell off over twenty, years ago; caused by a complicated chronic disease, attended with an eruption on the heal. A continual course of suffering through life having reduced me to a state of dependence, I having not been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced, me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Haff Restorative about the first of August last. I have lathfully followed the directions and the bald spot is now covered with hair thick and black, though short; it is all so coming in all over my kead. Feeling confident that another large bottle would 'irestore it entirely and permanently, I feel anxious to persevere in its use, and being destitgle of means to purchase more, I would ask thee if these wouldst not be willing to send me an order on thine agents for a bottle, and receive to thyself the scripture declaration—"the reward is to those that are kind to the widow and fatherless."

Ligoniss, Noble, Co., Indiana Feb. 5th, 1859.
Prov. O. J. Wood: Dear Sir:—In the latter part of the year 1852, while attending the State and National Law School of the State of New York, my hair, from a cause unknown to me, commenced falling off very rapidly, so that in the short space of six months, the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my liead shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana, my more casual acquaintances were not so much at a loss to discover the cause of the change in my appearance, as my more intimate acquaintances were to recognize me at all.

It at once made application to the most skillfull physicians in the coustry, but, receiving no assurance from them that my hair could again be restored, I was forced to become reconciled to my fate, until, fortunately, in the latter part of the year 1857, your, kestorative was recommended to me by a sruggist, as being the most re liable Hair Restorative in use. I tried one boule, and found to my great satisfaction that it was producing the desired effect. Since that time, I have used seven dollars' worth of your Restorative, and as a result, have a rich coat of very soft black 'hair,' which no money can bay.

# DR. MOTT'S CHALYBEATE RESTORATIVE PILLS OF IRON.

An aperient and Ston achie preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United states, and prescribed in their practice.

Sanctioned by the highest Medical Authorities, ooth in Europe and the United states, at d prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emmancipation, Constipation, Diarrhoea. Dysentery, Inciplent Consumption, Scrofulous Tuberculosis, Salt Rheum, Missmenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Ribeumatism, Intermittent Fevers, Pimples on the Face. &c. In case of Generat Debility, whether the result of acute discase or of the continued cimintion of nervous and muscular energy from chronic con plaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, vanguincous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physican has no name,

Is Nervous Affections of all kinds, and for reason familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating, and gently, regularly aperient, even in the most obstinate cases or costiveness, without ever being a gastric purgative, or inflicting a disagreeable sustant.

it is this latter property, among others, which makes Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which n in them. In Dyspepsia, innumerable as are its causes, a single that them Chimbrotte Pills has often sufficed for the

in Dysperisal, indunerable as are its causes, a single but of it these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Cochecaes. In unchecked Diarrhoea, even when advanced to Discoterly, confirmed, emaciating, and apparently maignant, the effects have been equally decisive and as-

ignant, the effects nave oven equaty accessors tonishing.

In the local pains, loss of fiesh and strength, debilitation cough, and remaitent heetic, which generally indicate incipient Consumption, this remedy has allayed the alarm of truers and physicians, in several very gratifying and interesting instances.

In Sevorations Tubercatosis, this medicated iron healted for more that for more than the good of the most cautiously as had far more than the good of the most cautiously adanced preparations of iodine, without any of their wei

nown liabilities.

The attention of females cannot be too confidently inited to this remedy and restorative, in the cases peculiar If affecting them.

In Rheumatism, both chronic and inflammatory—
in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffeces of the joined muscle

In Intermittent Fevers it must necessarily be a

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlement of the west, witt probably be one of high renown and usefulness.

No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, piec 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of the price.—All letters, orders, etc., should be addressed to R. B. LOCKE & CO., General Agents, ap4-dif 339 Broadway, New York.

The attention of Invalids, Physicians, Clergymen, sci and attention of invanies, rhysionals, dergyment, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing Iron, Sulphur and Phosphorus, and which is identical in its composition with the Hematic Globule, or red blood. In all diseases accompanied with

### Debility,

pale countenance and nervous detangement, analysis of the blood show a deficiency of the red globules. Ruddy-complexion and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and countenance,—which evinces a deficiency of the red globules,—accompanies a diseased organism. Preparatious of Iron liave been given for the purpose of supplying the red globules, but we contend that Iron alone, Sulphur alone, or Phosphorus alone, will not meet the deficiency in every case, but that a judicious combination of ALL these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the Blood Food, and its discovery ranks as one of the most scientific and important of the age. Its effects in

# Female Complaints

Female Complaints

to which the gentler sex are liable, and which tend to wards Consumption, such as suppressed or difficult Menstruation, Green Stckness, Whites, &c., especially when these complaints are accompanied with paleness, a dingy hue or pallor of the skin, depression of spirits, debility, pablitation, want of appetite, and nervous prostration. We have the utmost confidence in recommending the Blood Food to all who may be conscious of a loss of vitality or energy, and to those whose mental or bodily powers are prostrated through over-use, either of the mind or body, and we deem it our duty to say that in all cases of Waskness and Emaciation, and in all diseases of the Kidneys Bladder, this preparation has a claim upon the attention of sufferers which cannot be over estimated. A faithful trial will be found the most convincing proof in regard to its efficacy that could be asked for. With the above remarks, and with the numerous testimonials we have in its favor, we offer the "Blood Food" to the consideration of the afflicted, knowing that it will be acknowledged as, pre-eminent over all other proparations, patent or official, in point of usefulness.—Circulars glying the Theory upon which this remedy is founded, also certificates of remarkable cures, will be sent free when desired. We forward the Blood Food to any part of the United States or Canadas upon receipt of Price—\$1 per bettle, \$5 for six bottles.
