### Thursday Afternoon, November 8, 1860.

SEE advertisement of "The World" in another column.

A SPECIAL MEETING OF COUNCIL will be held this evening, when it is probable that an englneer for the Water House, to supply the vacancy caused by the death of Fackler, will be elected.

THE RETURN JUDGES of the various election districts in Dauphin county will meet in this city to-morrow. The next issue of the TELE-GRAPH, therefore, will contain the full official vote of the county.

SOUR KROUT AND APPLE BUTTER.-This is the season for these two Pennsylvania "institutions" to be made up for winter. They are as old as the Commonwealth, and more popular than any of our modern politicians.

ANOTHER BALL - The annual ball of the Friendship Fire Company No. 1, will come off in Brant's Hall on New Year's Eve. From present indications the coming season will be an unusually gay one in the way of terpsichorean amusements.

POSTMASTERS APPOINTED IN CUMBERLAND COUNrr.-John Trego has been appointed Post Master at Mount Rock, vice George Miller, resigned. Emanuel Holler has been appointed Por Master at Boiling Spring, in place of Johr A. Kauffman, vemoved.

THE PROCEEDS .- The Friendship Fire Company realized eighty-two dollars and fifty cents, clear of all expenses, by their late ball. The proceeds go to the steam engine fund, which is gradually accouncilating. We learn that the "steam squirt" will probably be ordered before the close of the present year.

THANKSGIVING BALL .- The members of the Good Will Fire Company have issued the tickets for their ball, to come off in Brant's Hall on Thanksgiving Eve. The object is to raise money to aid in liquidating the debt incurred by the purchase of a hose carriage, and we trust they will sell tickets enough for that purpose.

FREIGHT CARS WRECKED.-A few days ago a freight train on the Pennsylvania Railroad ran off the track at Sumerville station. The accident was caused by the switch being wrong. The fireman was badly hurt, and the engineer slightly. A complete wreck of the cars was the result of the accident.

INAUGURATION BALLS .- In a recent issue we announced that the annual ball of the Hope Fire Company would come off on the evening preceeding the inauguration of Governor Curtin. We now learn that the Citizen boys have determined to hold their annual ball on the evening of Inauguration day. Our citizens, and strangers who may visit the Capital to witness the inauguration ceremonies, will not therefore be at a loss for social amusement on that gala occasion.

OFFICE HUNTING .-- If the course of true love is rough, so is the turnpike to political "pap." All men who seek office cannot find it. They ask for appointments, but receive them not .--Whereupon they become disgusted with the octhe rail." It is a pity that there are not more loaves and fishes for the multitude who are ever so hungry. A miracle only would feed them to fullness. Governor Curtin, we learn, is already overrun with applicants for office, and the doors of President Lincoln will soon be berieged with

IN THE LOCK-UP .-- A weary traveler, en route for Carlisle, without friends or money, last will be held in the Exchange this evening, at evening applied to the Mayor for lodging, and was provided with quarters in the lock-up, where he passed the night, and this mouning resumed his journey.

THE RIVER .- The water in the Susquehauna river, lately swollen to a considerable extent by the heavy rains, is now receding. A numb-r of lumber and timber rafts passed down last week from the upper branches, and were pur-

chased by dealers in Marietta and Columbia -----A HINT FOR WASHING DAY .- It is said that a little pipe clay dissolved in the water em-

ployed in washing will clean the distiest clothes thoroughly, with about one half the labor, and full one half less soap Besides, the clothes will be much improved in color.

CHEAP AS EVER .- Notwithstanding the success of the great Republican Party, the lives of our next President and Vice President of THESE gentlemen were elected officers for the ensuing UNITED STATES, a 12 mo. volume containing 216 pages, and a portrait of each of the successful candidates-"Lincoln and Hamlin"-is still offered at the extremely low price of ten Treasurer-Jacob Barnhart. The necessity of skillful ventilation, therefore, of serving the air of cities pure by drainage and sanitary provisions, by avoiding miasmatic exhalations, and generally of securing a constant supply of fresh air, are conceded points. A medical writer recently affirmed that no disease can be thoroughly cured where there is a want

BAKED QUINCES. - A friend informs us that a new sensation is in store for those who have never eaten quinces baked like apples, and eaten with sugar and cream. The plan is to take fair, ripe quinces, bake them rather quicker than apples, cut them open and remove the core, which will come out, if the fruit is proper-

ly cooked, like a nut from the shell.' Sprinkle on white sugar, and eat them before they are quite cooled, adding milk or cream. Our informant says the fruit cooked and eaten in this manner has a delicious flavor which would scarcely be imagined.

TRANSPLANTING TREES. -This is the best season of the year for transplanting fruit or shade trees of all kinds. Any time in the Fall before the ground freezes deeply, will do. Person<sup>5</sup> having unoccupied land, yards, lanes, &c.,

should plant them with trees. The result will amply pay the cost of labor and yield a thousand per cent in satisfaction, comfort and beauty. Our farmers' fields are too bare of fruit trees. There should be sufficient to furnish cattle with a shade during the heat of the day under a summer sun. There is land enough cupations of party politics, and feel like "taking that might be well occupied for this purpose.

SINGULAR COINCIDENCE.-There is reason to suspect that the "shoving" of counterfeit coin is not confined to out door operators. We are ceived bogus quarters in change, within two days, at a certain shop in this city. This singular coincidence has given rise to suspicions calculated to damage the character and business that fresh air plays a more important part in of the shop-keeper alluded to. He is either a very poor judge of money, or a regular "shover" of bogus coin. In all charity we are living as much as possible out of doors ; of pre disposed to regard him in the former light, and caution him to be more careful hereafter, as to the kind of change he deals out to customers.

> THE METHODIST CHOIR .--- The Dauphin Journal has the following notice of the concert recently given in that place by the Methodist Choir of our city :---

> CONCERT. — The sacred concert given by the M. E. Choir, of Harrisburg, in this borough, on under the instruction of one of the very best teachers, Mr. Tarbutton, under whose masteriy hand they have acquired a proficiency in vocal music reached by few choirs in the State. The proceeds of the concert amounted to some fifty dollars, which-deducting the expenses-will be applied to the liquidation of the debt on the church.

PROFESSOR OF MUSIC. -- Mr. Wm. A. Tarbutton, leader of the Methodist Choir, and teacher of music in the north ward public schools of this city, has been elected Professor of Music in Irving College, at Mechanicsburg. We congratulate the officers of that institution upon their good fortune in securing the services of a gentleman so well qualified for the position .-He will devote one afternoon of each week to the instruction of the student; in the "art divine." Mr. Tarbutton is a gentleman of fine social qualities, and one of the most accomplished musicians in the country. We predict that he will discharge his duties in the new position to which he has been called, in such a vay as to win the esteem of all connected with it.

JUDSON'S MOUNTAIN HERB PILLS.-How strange JUDSON'S MOUNTAIN HEAD PILLS.—How strange and wonderful it often seems to us that a medicine com-po. ed of simple mountain, herbs and roots, should so certainly search out and cure disease. How surprising that the Indians should know and preserve so long and well a secret that has escaped the search of the greatest physicians the world has ever seen. True, the ancient imhabitants of Mexico were a strange race, found by the spatiards, living in large cities, and, allowing for their etrange customs and religion, as well civilized as their conquerors. In the words of a writer of some celebrity, "Hoy have perished from the earth, their of times are gi-gantic piles of ruins, their Kings and Princes so mighty in their life, are forgotter; their ruing and their medicine alone are left." The united testimony of all intelligent persons is, that JUDSON'S MOUNTAIN HERB PILLS are the most su ccessful medicine in the world in curing disease.

"And the rain descended, and the floods came, and the winds blew, and beat upon that e, and it fell, and great was the fall o it." Mathew

"Against which the stream did heat vehemently, and immediately it fell; and the ruin of that house was great."-Luke.

There can scarcely be a difference of opinion as to the relative force and beauty of the two versions, and consequently we find, that while that of Mathew has become proverbial, the narrative of Luke is seldom or never quoted.

FALSEHOOD CORRECTED.-THE SECOND WARD ELECTION PLACE. - The Patriot and Union of this morning alleges that Mr. Benford applied to the Commissioners to compensate him for the gas consumed on the night of the October election, and was willing to leave the amount to be fixed by Judge Pearson. This is a willful falsehood. He presented a bill of one hundred dollars for the October election, and this the Commissioners refused to pay, deeming it entirely too extravagent.
