This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Bose have. Its reputation at home produced its introduction here, the demand commencing with those of the Fatherland scattered over the face of this mighty country, many of whom brought with them and handed down the tracition of its vatue. It is now effered to the American public, knowing that its truly wanderful medicand viriues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have usen impaired by the continuous use of ordent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and viger in the s, stem.

A OTICE—w hoever expects to find this a beverage will be disapt ointed; but to the sick, weak and low spirited it will prove a grateful aromatic cordial, possessed of of singular remedial properties.
