The Lincoln Administration.

In view of the opinions of political sonomy entertained by Mr. LINCOLN, and the party which he represents, we feel justified in the expectation that the administration of the National Government, for the next four years, will not only be the most truly national that has marked the history of the country for many years, but will place the real principles of self-government upon a firmer basis than they have occupied since the great parties of the country have assumed their present aspect. Among the prominent and most beneficent features of the incoming administration we may mention the permanent settlement of the power of Congress over slavery in the Territories. This question, never raised until the inso lent ampition of Mr. Douglas called it forth, will at last be settled on the broad principles of the Constitution, without regard to the sophistical dogmas of any party or man. It will no longer be considered and acted upon as an isolated idea, distinct from every other interest of our people, but as a principle of our form of government, occupying its legitimate station with all others, and based upon the authority of the fundamental principles of our national action. Casting aside the theoretical chicanery of private demagogues, pro or con, the incoming administration will govern itself by the powers expressly delegated to it by the Constitution. At the same time it will maintain bitter on the part of the Democrats. The and preserve to the several States of the Union all their rights as sovereign and co-responsible communities. Another distinguishing feature of the coming admin istration will be its adherence to the principle of a proper and discriminating protection to the different branches of home industry, as a means of developing our domestic resources and energy, thereby forwarding the interests of our own labor, and contributing to the success of the chief item in our national prosperity .--'l'his end will be attained, not only in guarding against the panerui muuenee

unpaid foreign labor, but in securing to the agricultural portion of our population the benefits of a homestead on the public domains, thereby securing to every real well-doing of the country at large. In great principle of internal improvements, by which the commercial interests of the Union are brought into close connection,

The Secession Humbug. We have never yielded to any apprehension that the people of the Southern States, individually or collectively, seriously entertained the purpose of secession,

though doubtless there are some South Carolinaians who would delight in it .----Much has been said, however, about Georgia seceding, the message of her Governor pointing in that direction. Some remarks dropped in the Georgia Legislature, however, on Friday last, while the question of the election of a United States Senator was before it, may relieve all apprehensions on that score, indicating as they do very plainly, that in a short time all agitation there will be allayed. Those who are supposed to favor secession, of course wished to postpone the election, and they all seem to have employed the same argument. Mr. Spaulding favored postponement. "He did not believe in endorsing so early Lincoln's election." Mr. Seward also favored the postponement. "He was opposed to doing anyintended to submit to Mr. Lincoln's election." Mr. Lawton favored the utmost will not be such as to discourage State secesdelay. "He agreed with Seward, that so speedy an indication to submit," &c. by the voice of the people of the State. Straws show which way the wind blows!

The Triumph in Illinois.

The Republican triumph in this State was thorough and complete. Besides giving a large majority for Lincoln, it has elected a Republican Governor and State Legislature. When it is remembered that this is the home of Mr. Douglas, whose popularity with the masses was represented by his party to be very great, the result is indeed gratifying beyond expression. The contest in Illinois was very Douglasites put forth herculean exertions and hesitated at no expenditure of money to carry it against Mr. Lincoln. They contested every foot and inch of ground and made the fight a pitched battle in every part of the field. But they were unable to cope with the hosts of Freedom led by our noble standard bearer, who carried the State by about twenty thousand majority. The Legislature being Republican, secures the re-election of Judge Trumbull to the United States Senate, making the victory doubly glorious !

The Result in New Jersey.

The Newark Mercury of yesterday says there can be no reasonable doubt of the defeat of one of the Bell electors, Edproducer the opportunity of achieving his mund Brewer, on the Fusion ticket, alown success, and furthering the domestic though it is not certain which of the Republicans is successful. The vote is addition to these, we may mention the close between the four Fusion electors not them are elected. The vote sums up as promise to the people of the United States | counties of New Jersey, and Democratic a season of unexampled quiet and public estimates for the remainder, by which it licans have certainly elected four of the

THE PRESIDENTIAL ELECTION.-The latest returns lead to the impression that Missouri and Tennessee have been carried for Bell and Everett. The Louisville Courier, Democratic, concedes Kentucky thirty-seven electoral votes.

MARYLAND AND KENTUCKY.-Lincoln polled five hundred votes in Allegheny county, Maryland. The probability is that the Republican vote in that State will exceed two thousand. In Newport and Covington, Kentucky, Linco.n had more votes than Breckinridge.

LETTER FROM WASHINGTON.

WASHINGTON, November 11. The papers state that the Legislature of South Carolina, now in session at Columbia, expect momentarily a proclamation from Mr. Buchan-an upon nullification and seccession. They may expect it in vain until occasion calls for it .---He waits for an overtact. President Buchanan Convention is to take place at an earlier day has disabused himself of the imputation of than was recently anticipated, and as in consehaving sanctioned and encouraged disunion by means of the Administration organ. He was not consulted with regard to the disunion arthing so early to indicate that Georgia tic'e. At a proper time he will give his own views on that subject, and it is feared that they

As South Carolina professes a determination to go out of the Union before New Year's, the President may probably have an opportunity to meet the question of secession. His views are said to differ from those of the Jackson-Livingston proclamation, which condemned not only the doctrine of nullification, but that of secession also.

Should South Carolina resume her sovereignty, she could not maintain her independence of and proposed non-intercourse with the Northern States of the Union without some foreign protectorate. France will not meddle with such a matter without concert with England. Whether England would participate in such a measure may well be doubted. Certainly she would not without stipulating for the gradual emancia pation of the African slaves, or the extinction of slavery at a certain time. It will be found, probably, that the continuance of slavery depends upon the continuance of the federal Union.

The offices made vacant in South Carolins will not be filled in a hurry.

After the present excitement in the Southern States has subsided, it will be found that South Carolina, will have little support or countenance from other Southern States in her proposed seces sion movement. She may even be dissuaded by sister slave States from attempting it. But if she do attempt it, it is hoped that the question will be left to the Souther of the general gov ernment.

ticket has been carried. We rejoice to think, that nothwithstanding the noisy demonstration and the calm determi-nation also, of men in some of the Southern States, the intervening period, before the fourth of March, will bring cool reflection and forbearance. We have every confidence in the sober second thought of the people, especially in the Southern States ; where an impulsive disposi-tion may drive men to sudden threats or preon the Douglas ticket, and the Republican electors, but our opinion is that three of them are elected. The vote sums up as among which is the project of the Pacific Railroad—an establishment absolutely demanded by our commerce, and which, desp.te the strongest efforts of the Repub-is also behind in other counties. WASHINGTON, November 13. THE SOUTH CAROLINA DECLARATION OF INDE-

A copy of this document, it is understood, was laid before the President

vesterdav. THE PRESIDENT TO ISSUE A SPECIAL PROCLAMA-TION.—As far as can be ascertained, there is no disposition, either on the part of the Administration or of gentlemen of political prominence here, to interfere with the present Southern movements, except, perhaps, in a friendly spirit. It is now probable that the President will soon i-sue an address or proclamation, as the election of d legates to the South Carolina quence there would not be sufficient time for the general circulation of an appeal through the annual message, as was originally contem-plated. This subject is now under consideracacions. PLANTERS MOVING NORTH -Letters received from Virginia intimate that numbers of the wealthy planters have avowed their determina tion, if the attempt to break up the Union shall succeed, to locate in the free States.

CHIEF JUSTICE TANEY .- This distinguished friend of Gen. Jackson cordially re-echoes the sentiment of Amos Kendall, in denouncing Astayer to the State of Massachusetts. "I have analysed the Concentrated Leaven, manufac-tured by Messrs. Edw Chamberlin & Co., with reference to its purity and efficiency of action in producing the ef-fect of yeast in distending dough, and thereby rendering it fit for making bread. This article is skillfully com-jounded, from perfectly pure material. It raises the dough without consmits the same weight of flour will produce more sweet, palatable bread than can be obtained through yeast; while for cakes and pastry it is invaluable, as it saves all risk, and much time of the pastry cook. Mr. Graham or Mr. Badger, of North Carolina, are also confi-

standing the assertion that the success of | las electors. Mr. Lincoln would inaugurate attempts at "negro equality," and attacks upon the rights of Southern States, we perceive that the question of admitting negro suffrage, without qualification, in the State of New York, has been defeated by an overwhelming majority. In Maryland where the question also was, whether fre negroes should be reduced to a forced set vitude, the result has been, even more overwhelmingly, against such injustice. It appears, then, that the conservative opinion which will resort to neither extreme, has prevailed.

TAXATION FOR DISUNION RESISTED IN ALABAMA .--- Last winter the Alabama Legislature passed a bill authorizing a tax of \$200,000 to be raised to defray the expense of arming the State, and giving the Governor power to appoint two Commissioners from each county, with power to determine the course which the State should take in the event of Mr. Lincoln's election. The tax-gatherers of Alabama are now collecting this tax; and a portion of the citizens of Madison county, Ala., have assembled together and solemnly resolved to resist its collection.

MR. LINCOLN'S CABINET .- Late advices from Springfield state that Mr. Lincoln is very much amused at the Cabinets which are formed for him by the newspapers. A Remarkable Result.

The most remarkable result of the last Pre-sidential battle is the result in New Jersey against Lincoln. That New Jersey, of all the free States this side of the Rocky Mountains, Occaquon is in Prince William county, on tide water, where John Underwood re-sided before his expulsion from Virginia; strange disclosures in the unexpected suffrages cast for Lincoln in the slave States of Delaware, Maryland, Virginia and Missouri, and especial-ly in Missouri. Again, when we remember that Fillmore, in 1856, carried Maryland by 8,000 majority, how happens it that Breckinridge, with the dead weight of Douglas on his back, has probably taken away the vote of Maryland from Bell. We can only explain it by assuming that the Lincoln voters in Maryland were drawn from the remnants of the o'd Whig party. It next appears that while Illinois has
