The Charge of Negro Equality. Our readers are aware that during the progress of the late campaign, it was charged by the Patriot and Union, and other Democratic papers of the same it strange that he voted for Lincoln, or S. C. He took passage in the cars from Charles stripe, that the Republicans were in favor of indiscriminate negro suffrage, and the the Republican vote one hundred and sixty elevation of the colored population to a more than it had ever been before? social and political equality with the whites. This charge was repeated day after day, although the unscrupulous Locofoco editors who gave it publicity knew it to be false. At the recent election in New York, the question of extending negro suffrage was voted upon. Under the constitution of that State, negroes who own property worth \$250 are privileged to vote. The question was to amend the constitution so as to extend the privilege to all adult negroes, so as to place them, in that respect, on a footing of equality with the whites. The majority for Lincoln in the State is at least 50,000. It may, therefore, be taken for granted if the Republican party of New York be in favor of negro equality the amendment of serious disturbances at the polls, has yet to has been adopted. So far the returns in-the more in detail, to compreheud the magnidicate that not only has it not been adopt- tude of the fact stated. Four pair of candidates ed, but that it has been rejected by an immense vote. Probably none but the parties. It is well known that a personal conwhite and colored abolitionists cast their ballots for the amendment. We find that it received but 1,630 votes in the city cut of an aggregate of nearly 100,000. We made by certain leaders, it is doubtess true that many of them hated each other worse than have no doubt there are at least 1,630 the common antagonists of all. Indeed, there radical Abolition votes in the city. Lin- tudes of instances, such avowals having been coln's vote there was 32,797, and the publicly made in Congress.

This was one ingredient which imparted bitvote against the amendment was 37,471, from which we may infer that some Democrats, as well as the great body of the Republicans, voted in the negative.

The desires of the Republicans as the Republicans of the Republican design of the Fusionists was to let the ple, had to be decided by the effects of that question be carried by default, with the view of using it to the detriment of the chievous and dangerous in the Southern states, Republicans hereafter. The result shows was caught up by our opponents as indicative of a that the amalgamated factions were as in that section of the confederacy. These accumuch at fault in their calculations in remuch at fault in their calculations in reference to this matter as in reference to all others. Thus the imputation of being accused of a design to subvert it, or at least of inciting others to do so in self-defeated. which has been urged against the Republican party with such venomous pertinacity, is shown to be utterly false. Tried great organization strove to fortify its flanks by the crucial test of the ballot box, it is proved to be without the shadow of a in the State of New York, where Seward is supposed to exercise supreme control within the Republican organization. He is avowedly in favor of obliterating all distinctions between classes and races, so far as the privilege of voting is concerned. His maxim is that where the ballot box rules every man should be entrusted with the ballot. Yet we find that the party, of which he is a leader, refused to accept that maxim, even in his own State. We that maxim, even in his own State. We recently quoted Mr. Lincoln's opinions on this subject, and now that they have making the months of October and the early part of November.

There can be no mistake as to the proern States, notwithstanding the bluster of some time in Georgia, and recently returned to the North, yesterday informed to the North, yesterday informed. us that he had heard expressions on the subject of slavery in Savannah and other Southern cities that would be regarded as then left peaceably for their respective homes. Everywhere, among all classes and interests—among all classes and interests—among slaveholders and non-slaveholders-are found men who are unmeasured in their view of affairs? found men who are unmeasured in their abhorrence of the effects and tendencies of the "institution." They do not of course blazon their opinions to the world.

They do not—because they dare not—assail the oligarchy in public, but offed, are too enlightened to such a quiet but effectual mode of settling their disputes, will not burst into fragments yet awhile. This sentiment of opposition to the tyranny of the fire-eaters opposition to the tyranny of the fire-eaters is likely to become more determined and co-operate with them, and prepare for a new outspoken in the future. The election of Lincoln emboldens this large and respect. In view of the great event of Tuesday, the 6th, we can not be brought to believe that the second soler able class of Southerners to assume a more sense, at either South or North, will lend itself for a moment to further the traitorous schemes positive attitude. Mr. Wood thought no more of the questioning to which he had been subjected, and continued on his journey. On arriving at "Four Mile Branch," the place was found to be terribly excited, a telegraphic despatch having probably informed the citizens of the opinions of the new comer among them. He was immediately wisted upon by a committee who told As Mr. Lincoln shares in that determination, everything is altogether harmonious. He experienced no insults in the cars on the way to Charleston, except from a few rough customers, as an offiexcept from a few rough customers, as an om-cer had been provided to protect him. On reaching that city, at the suggestion of friends, he occupied apartments in the Guard House, the night previous to the sailing of the steamer, that being the safest retreat during the exist-ing excitement. The next morning, an officer of the city came down with Mr. Wood to the steamer, and put him safely on board. The produce dealer, so far as we could learn, effected the object of his southern visit.

THE INDIANA BANK FORGERIES.—ARREST OF THE FUGITIVE PRESIDENT.—Officers arrived in St. Louis on Wednesday, from Indianapolis, having in custody Mr. A. Bradley, president of the lately-exploded Boone County Bank, of Le-banon, Indiana. The St. Louis Democrat says that Bradley avers that he is entirely innocent of the frauds perpetrated by the bank, and was unsuspectingly used by others in the matter; that he was utterly astonished when the facts were made known to him, he having supposed that all the notes issued were equally good, and the State Auditor and Register's name alike genuine on all. His family live in New York genuine on all. His family live in from active, where he has a son of twenty eight years who is a broker. A. Spooner, the cashier of the bank, has thus far cluded arrest.
