THE GOLD DOLLARS .- It has been announced that the United States Mint had commenced to recoin gold dollars into pieces of larger denomination, on account of their great inconvenience; but the truth is, that the recumference than those coined now. In those

—The exhibition of John C. Heenan, last evening, attracted a large crowd. The spacious hall was filled with an audience anxious to see the renowned "champion of the ring," and the other pugilistic celebreties who accompany him. The perform ance commenced with an exhibition of strength by Monsieur Gregoire, a man short in stature, but with an excessive muscular development and at the same time well proportioned. After some classic posturing, he "went in on his muscle," and performed several astonishing feats. Fifty-six pound weights were playthings in his hands, raising two of them in one hand above his head, and holding them at arm's length with the greatest apparent ease. The most remarkable feat, however, was performed with his teeth. Three fifty-sixes were fastened together, making 168 pounds, which weight he seized in his teeth, and carried with as much evident pleasure as a dog would a bone. Other feats were performed, and finally all surpassed by the concluding one, which consisted in laying two fifty-sixes on the corner of a common table, then seizing the table in his teeth and carrying it round the stage. The match between Ned Price of Boston, and a dab scuffle, probably done to show the green ones how a head was "put in chancery." Sevdrawn, to the great disappointment of the audience. Monsieur Gregoire was then introduced again, performed the anvil feat, balanced himself on his hands with two fifty-sixes in his teeth, raised seven or eight large men on a plank, and put the audience in a roar of laughtied around his neck, the other clasped by the top. After this was finished Heenan and Aaron cheers by the audience, when they squared off and pitched into each other in scientific style,

A Good Day's Work .- Two gentlemen of Carlisle, Messrs Noble and Moor, went gunning recently, stayed out one day, and bagged four wood cock. If any of our gunners have State, and a credit to our county. done better this season, it will afford us pleasure to make the announcement.

The Wide taches to a young man who roomed with Horan. He left the city on Wednesday a few hours before the robbery was discovered, and it is not likely he will be captured.

A PROFUSION OF APPLES. Our market is abundantly supplied with choice apples from the north and west branch regions. Another ark, containing several hundred bushels, arrived yesterday. They sell for eight and twelve day was as geniul and balmy as the breath of shillings per bushel, according to size and quality, and large quantities are daily disposed of at these prices.

THE NOVEMBER TERM OF COURT commences next Monday, and there is a large amount of THE GENERAL CONVENTION of the Methodist criminal business to be disposed of, the list of cases returned comprising almost all offences known to the law, from homicide down to petty larceny. The most important trial likely to enling. Disposed from their legal training to be ness will come before that body, bearing on gage the attention of the Court will be that of Poffenberger for the murder of young Robinson, which occurred at Dauphin some months ago.

> WORTHY OF IMITATION .- The Town Council of Carlisle have passed an ordinance fixing the hour for opening the market at nine o'clock in the morning, from the first of December until the first of April. The idea is a good one and should be adopted here. Let the experiment be tried, and if it shall be found not to work well, it will be an easy matter to return to the old system. Give us a day light market.

A RAPE CASE. - We learn from the Harrisburg Daily TELEGRAPH, that a robust woman, of forty-five, has sworn a rape against a weakly old man of seventy-two. We judge that the old

man owns some valuables.—Newport Gazette. Exactly! The old man does " own some valuables," and the general impression prevails in this community that a conspiracy has been formed to relieve him of a portion of those "valuanext feature of the programme was a sparring bles." According to rumor it has already been intimated to some friends of the "old man" Mr. Perkins of New York. The two men that the affair can be compromised, if he will seemed pretty well matched, both getting in only agree to "come down handsomely." Such some very respectable "hits," one or two of tricks have been played successfully in our city the rounds, however, ending in a sort of slap- within a few months. It is not long since an individual met a married woman, by appointeral rounds were fought, but no blood was alleged her husband would be absent on busiment, in her own house, at an hour when she ped from that port. ness. He was encouraged to make familiar advances; and when in the act of doing so, the husband, who was concealed in an adjoining room, rushed in, pretending to be awfully indignant, and demanded satisfaction. The visitor, also a married man, became alarmed ter by getting two men at a disadvantage, one for his reputation, and "bled" very freely, rather than suffer exposure and disgrace. The waist, and spinning around with them like a "injured husband" got all the "satisfaction" he wanted—about fifty dollars in money! The Jones appeared, and were greeted with three whole affair, as the unsosphisticated victim afterwards discovered, was a scheme concocted by A Ghost Story.—They think they have a sparred in the set-to between the Champion and longs which concluded the title of the conditions and longs which concluded the title of the woman and her husband to extort money have a ghost in St. Louis that frequents insurance offices! A book keeper, writing at his desk one evening, recently, was interrupted by the entrance of a tall, dark featured and well dressed man, who inquired after a man polynomy on and Jones, which concluded the "show." A WHOLE BRIGADE COMING. - We learn that the several military companies comprising the Blair County Brigade, contemplate visiting Harrisburg next January to participate in the inauguration parade.

New Equipments.—The cavalry company of Gratztown, commanded by Capt. Jonas Louden schlager, will attend the inauguration of Gov ernor Curtin in new and beautiful equipments. This is one of the largest and finest looking sixty-seven partridges, three pheasants, and companies of the kind in the interior of the

> HOMEWARD BOUND .-- Two weary travelers arrived here yesterday from New Orleans, en route for their homes in New York. Having spent all their money, and sold most of their baggage, they were in a destitute condition, and unable to procure tavern accommodations. They called upon the Mayor, who provided them with lodgings in the lock-up until this morning, when the weary trampers resumed their journey.

> GENERAL CHARACTER OF LAWYERS .- Among ignorant people there is often a prejudice against lawyers, but the practice of law requires nothing unjust, nothing mean, nothing malicious. It would be a strange thing indeed if a lawyer should find any wrong that he had done, not endorsed by his client, a fact showing that lawyers are at least no worse than other people. Lawyers are noted for being more social, and from their ampler opportunity to express rebukes and resent insults, far less envious of each other than doctors. They are, as a class, generous, patriotic and law-abidsomewhat conservative, they have on many occasions proved staunch friends of human rights, and have often endangered their own safety by gallantly defending the lives, the liberties or the property of those oppressed by by power or by prejudice. It is a glorious thing to be a great lawyer and to fulfil the high duties of such a position. No wonder that many lawyers resolutely refuse to swim in the dirty waters of partizan politics.

A CANDIDATE FOR THE GALLOWS -A boy of thirteen, in Memphis, Tenn., had been in the habit of stealing from his father's pockets, by slipping into his room at night. The servants were suspected, charged with the offence, and one after another sold off, yet the young rascal continued his crimes. His sister at length detected him, and he silenced her by threatening to stab her if she told his father. She promised silence if he would quit stealing, but he condwellings. "Industrial works" include all knife, and rushed on his sister, exclaiming, "I told you if you told father I'd stick." The girl ran from him; the father caught his son, The who kicked and hit him, and was only master ed by main force. He was at last accounts locked in a room, in which his chief pastime was swearing vengeance on his sister.

> THE VIRGINIA LADIES EXCITED: Political excitement runs so high in Virginia that even ladies resort to the knockdown style of argument. At Richmond, the other day, two ladies, one a partizan of Breckinridge and the other of Bell, got so excited while discussing the merits of their respective candidates, that the fair damsel who espoused Mr. Bell's fortunes struck the admirer of Breckinridge over the noddle with her fan, breaking a head ornament to pieces, and arousing all the terrible passions of her antagonist's nature. At it they went, and for a while silks, satins, laces, feathers, flounces and ribbons flew about in wild confusion. The disgraceful scene was only terminated on the arrival of a gentleman from a distand part of the house, who, hearing the noise, hastened to the spot, and thus probably saved the life of

> LAKE SUPERIOR.—Twenty years ago, Lake Superior was farther out of the world, even from Detroit, than San Francisco is to day!— Eleven years ago the first steamboat floated on its bosom, and at that time one or two horses were found sufficient to transport all the supplies required on the entire south coast. Now ten large steamers, making more than one hundred trips in a season, are unable to satisfy the demand for supplies in that same region.— Where ten years ago there were only a few log thousands. Five years ago the iron exported from Marquette was fourteen hundred tons, and yet during the past season, nearly one hundred and fifty thousand tons of ore have been shipted from that norther than the trust.

A HORRIBLE AFFAIR has just come to light in California. Some time since Geo. Wilson and two of his "friends" got drunk of Reed's Rancho, Marion county; his "friends," not so much the worse for liquor, "amused" them-selves with soaking the cloathes of Wilson with whisky, and to make surer of their project they poured a considerable quantity down his neck, in order to thoroughly soak his shirt with the liquid, after which they set fire to the clothes of the wretched man. He remained there abandoned, without a charitable hand to offer him a glass of water during his long ago-nies. Warrants have been issued for the arrest of the murderers.

Heenan's appearance did not indicate the extraordinary strength he is known to possess. The exhibition was satisfactory to those familiar with the fister science, independent of their clutches, will "waken up the wrong to their clutches, will "waken up the wrong of their clutches, will "waken up the wrong of their clutches, will "waken up the wrong of these days and receive the order of the whole affair, which is a great or waterw short. with the fistec science, judging from the hearty passenger" some of these days, and receive the mystery about the whole affair which is propunishment which their scoundrelism merits. nounced supernatural.

JUDSON'S MOUNTAIN HERB PILLS.—How strange and wonderful it often seems to us that a medicine composed of simple mountain herbs and roots, should so certainly search out and cure diseate. How surprising that the Iodians should know and preserve so long and well a secret that has escaped the search of the greatest physicians the world has ever seen. True, the ancient inhabitants of Mexico were a strange race, found by the Spanlards, living in large cities, and, allowing for their strange customs and religion, as well civilized as their conquerors. In the words of a writer of some celebrity, "they have perished from the earth, their cities are gignantic piles of ruins, their Kings and Princes so mighty in their life, are forgotten; their ruins and their medicine alone are left." That the word "Restorative" in this case, is no misnomer, we have the testimony of individuals whose elevated position in the country, as well as their acknowledged and honorable character as gentlemen, render whatever they publicly essert in the last degree reliable. Several of these have tested, personally, the hair preparation we are now speaking of, and certificates can be seen at the proprietor's Depot, 312 Broadway, New York, and once seen and properly appreciated, we have no hesitation in saying they will impress conviction on the most keeptical mind. Wood's Hair Restorative is, doubtless, the negrarticle of its kind ever yet produced.

I bog lave to call the attention of the citizens of the United States to the above Winss and Lugues, imported by Udolpho Wolfe, of New York, whose name is familiar in every part of this count'y for the purity of his celebrated Schiffsham Schahers. Mr. Wolfe, in his letter to me, speaking of the purity of his Winzs and Lugues, says: "I will stake my reputation as a man, my standing as a merchant of thirty years' res'dence in the City of New York, that all the Brandy and Winss which I bottle are pure as imported, and of the best quality, and can be relied upon by every purchaser." Every tottle has the proprictor's name on the wax, and a lax simile of his signature on the certificate. The public are respectfully invited to call and examine for themselves.—

Bed Med Collowing from the New York Courier:

INDRAGUE BUSINESS FOR ONE New YORK MERCHANT.—

We are happy to inform our fellow citizens that there is one place in our city where the physician, apothecary, and Loquors, as pure as imported, and of the best quality. We do not intend to give an elaborate description of this merchant's extensive business, although it will well repay any stranger or citizen to visit Udolpho Wolfe's extensive Warehouse, Nos. 18, 10 and 22 Beaver street, and Nos. 17, 19 and 21, Marzetfacld street. His stock or Schnapps on hand ready for shigment could not have been less than thirty thousand cases; the Brandy, some ten thousand cases of Madeira, Sherry and Port Wine, Scotch and Irish Whisky, Jamaica and St. Croix Rum, some very old and equal to any in this country. He also had three large cellars, filled with Brandy, Wine, Sc., in casks, under Custom-Book eky, ready for bottling. Mr. Wolfe's sales of Schnapps last year amounted to one hundred and eighty thousand dozen, and we hope in less than two years h

we understand Mr. Wolfe, for the accommodation of small dealers in the country, puts up assorted cases of Wines and Liquors. Such a man, and such a merchant, should be sustained against his tens of thousands of opponents in the United States, who sell nothing but imitations, ruinous alike to health and human happiness. seeps. dark out.
