HARRISBURG.

Monday Atternoon, November 19 1860.

SEE advertisement of "The World" in another column.

THE UNION PRAYER MEETING will be held in the new school Presbyterian church, corner of Market Square, to-morrow afternoon, commencing at four o'clock, as usual.

WARTS AND CORNS.-The bark of a willow tree burnt to ashes, mixed with strong vinegar and applied to the parts, will remove all corns or excrescences on any part of the body.

SICK HEADACHE. - It is stated that two teaspoonfuls of powdered charcoal, drank in a half tumbler of water, will, in less than fifteen minutes, give relief to the sick headache, when caused, as in most cases it is, by superabundance of acid on the stomach.

GOING TO WASHINGTON .- The City Wide Awakes, of New York, have resolved to attend the Inauguration on the fourth of March next, at Washington, en masse, and in uniform. The State Capital Club, of this city, also intend visiting the Federal Capital on that occasion.

THE CAPITAL CITY GUARD will hereafter meet regularly every Monday evening at their hall in Eby's building, which is to be handsomely fitted up for a reading and drill room. The company is rapidly increasing in membership, and will soon number at least a hundred young and active Republicans. One good feature of the constitution is the exclusion of men of intemperate habits.

Coming to Harrisburg.-The Washington Artillerists of Pottsville, a large and fine looking company, intend visiting Harrisburg on the third Tuesday of January, to participate in the inauguration parade. The People's Campaign Club of Philadelphia, two hundred and fifty strong, with a brass band, will also be in attendance. Quarters have already been secured for them at one of our hotels.

THE METHODIST PRESIDING ELDER of this district, Rev. Dr. Hodgson, preached in the West Harrisburg Chapel yesterday afternoon, and in the Locust street Church last evening. His sermons, on both occasions, were interesting, able and logical, and no doubt profited those who listened to them. Dr. Hodgson is regarded as one of the ablest preachers connected with the Methodist denomination.

THE QUARTERLY CONFERENCE and Love Feast of the Locust Street Methodist congregation will be held on Wednesday evening, the former commencing at quarter past six o'clock, and the latter at quarter past seven o'clock. Similar meetings will be held in the West Harris burg Chapel on Thursday evening. Both will be attended by the Presiding Elder of the district, now here in an official capacity.

THE HARMONY CLUB will give their first grand solree, under the management of Mr. Frank Mather, at Exchange Hall, this evening. The parties of this club, among the most pleasant of the kind in our city, have heretofore been well patronized by the "lads and lasses" who are fond of mingling together occasionally in social intercourse "to chase the glowing hours with flying feet." We have no doubt they will be equally successful this season.

IN THE LOCK-UP.—The occupants of the lock up on Saturday night consisted of three unfortunates: A colored lad named John Michael Shanklin, about seventeen years of age, who stated that he came from York. He was in a destitute condition, and had no friends here who would provide for him. An Irishman and his wife, named Hugh and Catharine Dugan, both of whom had evidently indulged freely in yesterday morning.

Oil and Law.—We learn that an immense business for lawyers will be created out of the oil speculations, in the matter of disputes arising out of contested claims, recovering damages, &c. The cotillion has been commenced by a bill in equity filed against sundry persons who have erected cribs and derricks in the Allegheny river near Tidioute Island. An injunction is asked to restrain the parties from obstructing navigation on the river. The action was brought in the Supreme Court at Pittsburg, and the Court ordered a hearing thereon, at Philadelphia, before Justice Read, on the last Tueesday of November, in the Supreme Courtroom, defendants to have ten day's notice.

THE ADJUTANT GENERALSHIP. - We learn from the Pittsburg papers that a few days ago a num. ber of the commissioned officers of companies comprising the brigade of Allegheny county adopted resolutions urging the appointment o Gen. Negley to the office of Adjutant General of Pennsylvania, the only other person of Al. legheny county, whose name had been mentioned in connection with the said office, having (at said meeting) formally declined to be a candidate. The brigades of four or five other Western companies have taken similar action in the recommendation of General Negley .-He is an accomplished officer, and would admirably fulfill the duties of the position.

DAUPHIN COUNTY BIBLE SOCIETY .- The Anniversary of the Dauphin County Bible Society will be held at Millersburg, to-morrow afternoon and evening. These meetings are growing in interest and importance. The one held at Berrysburg was largely attended by delegates from auxiliary Societies in various parts of the county, and exerted a salutary influence upon the community in which it was held and upon the interests of the Bible cause throughout the county. Any members of the Harrisburg Bible Society who can make it convenient to at tend this meeting will please to take the noon train for Millersburg ro-morrow, upon arriving at which place they will be cordially welcomed and hospitably entertained. If desirous of returning home the same night they can do so by the late train. CHARLES A. HAY, Sec.

A STATED MEETING of Friendship Fire Compa-ALEX. W. BERGSTRESSER, Sec'ry.

A Special Meeting of the Citizen Engine and G. L. WALTER, Sec'ry.

MIDDLETOWN THIEVES .- A colored man and woman were brought here from Middletown this afternoon and committed to prison on a charge of larceny. They were escorted from the depot to Walnut street by a number of sable brothers and sisters, who somehow got the in relation to this singular and fatal disease, idea that the prisoners were fugitive slaves.

No County Institute will be held in Dauphin county this winter, as we are informed by the School Superintendent. Mr. Ingram intends, however, to visit the various District Institutes. Teachers throughout the county should inform him as to the times and places of holding these meetings.

APPOINTMENT.—The Governor has appointed Mr. Frederick Trace, of this city, bearer of certincates to the Presidential Electors chosen at the late election in Pennsylvania. He will start upon his official mission in the course of a few days. There were several applicants for tificates to the Presidential Electors chosen at the position.

EARLY IN THE FIELD. -The State Sentinel, published in this city, has the name of Stephen A. Douglas at the head of its columns for President in 1864. Our neighbor seems to be of the opinion that "it will never do to give it up so," and goes right on to support the "little have been described in which this peculiar exgiant" with his usual vigor and enthusiasm.

BENEFIT LECTURE. - Professor Collins will lecture on Phrenology to morrow evening in the Tanner's alley. Ten cents admittance will be charged, one-third of the proceeds to be appropriated to the church. After the lecture a public examination of heads will be made.

THE RUNAWAY COUPLE. -- We have already announced the arrest, at Philadelphia, of the white woman and negro man who passed thro' the fatal cases have been of this character and this city from Hagerstown, on Friday last. The until the interesting fact developed by a case white woman and negro man who passed thro' woman accompanied her father home, and the slave was taken possession of by his owners, on a charge of robbery, and run through to Baltimore on Friday night, where he was no doubt put upon the block and sold to "chattel" dealers who would take him further South. The Chief of Police of this city accompanied the parties to its two victims. Last week it again appeared Baltimore and returned home on Saturday night and added two more to the list. In none of Baltimore, and returned home on Saturday night

THE COUNTY SUPERINTENDENT has just comthis city, and reports them all in excellent con-dition. His opinion of the higher schools is the last case, and readily obtained the privithis city, and reports them all in excellent conthat they cannot be excelled anywhere in the lege of making a post-mortem examination, which developed the fact that the cavities of State. In the North Ward most of the rooms the heart there had been formed a mass of firm have been fitted up with modern school furniture, which adds largely to the comfort and convenience of the scholars. at the Secretary's office giving 103 votes for but the leathery character of the mass removed Lincoln and 29 for Fusion. This was copied instead of the return from the whole county, which shows that Lincoln received 1545; Fusion 521; and Bell 1 vote. This increases Lin- feature of the disease. The existence of such a coln's majority to NINETY-THERE THOUSAND FIVE mass would account, not only for the rapidly fatal termination, but also for the existence of HUNDERD AND SEVENTY Over Fusion. When the returns from Forrest are received we will republish the table complete.

Hon. Simon Cameron.—A recent issue of this paper contained a letter from Washington in which the name of Hon. Simon Cameron was the extract of corn. All of them were discharged mentioned favorably in connection with the Post Master Generalship under the new Administration. The letter has since been copied and endorsed by most of the Republican journals in the State. Of course the old Keystone, the banner State of the Union, will be honored with a Cabinet officer, and we know of no man whose selection would give such universal satisfaction as that of our distinguished fellow-citizen and popular United States Senator. Let President Lincoln surround himself with such men and his Administration will command the respect and confidence of the people.

> How a Pennsylvania Republican Won a Bar-REL OF WHEAT.-During the late campaign Judge Kelly, of Philadelphia, stumped the State of Illinois, and in one of his addresses at Springfield, asserted his willingness to bet a barrel of Pennsylvania cider against a barrel of Illinois wheat, that the old Keystone would give a larger Republican majority than Illinois. It was immediately taken up by the Springfield Republicans. The result is well known, and our friends in that city having lost the bet, they have had a neat barrel specially made, the name and address of Judge Kelly being inscribed in full on its side, and intend to forward it in a few days. It is filled with the best quality of wheat that could be found in Illinois. This is the first Republican bet that we have heard of being lost.

COURT OF QUARTER SESSIONS .- The regular November term of the Court of Quarter sessions opened this morning at ten o'clock. All the Judges were present. Daniel Yoder, Jacob Ra dabaugh, Samuel Meiley, J. David Hoffman and Geo. Wyant were appointed tip-staves for the week. The constables of the different townships made their usual returns. The Grand Jury was then sworn in, Wm. J. Robinson, Esq., acting as foreman. His Honor Judge Pearson delivered a somewhat lengthy charge, defining the law and their duties as Grand Jurors. He referred particularly to the most heinous offences to be laid before them, among which are charges for burglary, rape, assault and battery with intent to commit a ly voting, &c., &c.

THE NEW CAST STEEL BELL for the Court y No. 1 will be held this (Monday) evening at House is expected to reach here to-morrow, and seven o'clock. A full attendance is desired, as will at once be elevated to its place in the arrangements will be made to order the steam tower, which is nearly completed, and looms up in magnificent proportions.

THE ELECTORAL COLLEGE.—Gov. Packer bas Hose Company will be held at their hall this issued his proclumation, announcing the elec-(Monday) evening, at seven o'clock. A full tion of the Lincoln electors, and calling them to and punctual attendance is earnestly desired, as assemble at Harrisburg on the first Wednesdayof business of importance will be brought before December. We advise that all Electors make sure of being at their place of meeting even a day earlier than the time fixed by law, as the vote of Michigan was in danger of being lost from a snow storm in 1856.

> DIPTHERIA.-The following report from the pen of a leading physician of Delaware county, and more particularly in regard to certain facts disclosed by examination into a fatal case happening during the course of his practice, will be found of importance and general interest to the community, particularly at the present time :---

"This disease, which for the last four or five years has been making its way westward, has appeared in various localities through this county and by its fatality has caused considerable alarm in the public mind. It is characterized by the formation of a membranous exuda-tion covering the throat and roof of the mouth prevailed in different parts of the country and which has been variously designated as malignant sore throat, putrid sore throat, erysipelas of the throat, Black Tongue, &c. Death has been supposed to result, in such cases, from the terribly depressing effect of the disease upon the nervous centres. Perhaps a large majority of that occurred in the family of Mr. Rodman Priehett of East Goshen, but little has been brought out to satisfy the minds of intelligent Physicians as to the precise cause of death in those cases in which the difficulty about the throat is insufficient to account for the result. How the President is Elected.—The suc cessive steps in the election of President and Vice President of the United States are taken, according to existing laws, at the following

1. By the act of Congress of 1843 the Electors for President and Vice President of the United States are appointed in each State on the Tuesday next after the first Monday in November.

2. By an act of 1792 these Electors are to meet on the first Wednesday in December after, in their respective States, to cast their votes. 3. The votes, when cast, are to be certified by the Electors and sealed up and sent to the President of the Senate.

On the second Wednesday in February after, the sealed certificates of the Electors are to be broken open and the votes counted, and the result declared in the presence of Congress.

PROF. WOOD'S HAIR RESTORATIVE .- This Restorative for making the hair grow, stopping its falling out, and restoring gray hair to its original color, is becoming celebrated. All the quack nostrums are giving way before it. Three fourths of the mixtures for reway before it. Three fourths of the mixtures for restoring and beautifying the hair, do it more injury than good. They burn it up—destroy the life of its roots—make the hair fall off; and produce premature balaness. But Prof. Wood's Restorative may be relied upon as containing nothing which can in any manner be injurious to the hair, while its success in accomplishing what it precledes to do has been verified in hundreds of cases. We advise gray heads, and heads getting bald—all who wish to save their wool or obtain a new stock, to get a bottle of Wood's Restorative.—N. Y. Democrat.

THE MIGHTY HEALER.—Let not disease, with its fangs, prey upon you, until the cold hand of death hurls you to an untimely grave. Shake off the feelings of despair and hopelessness, so liable to come upon the invalid. The plant horn of the Sun we place within the reach of all. We care not what may may be the specific form of the disease. The cause, the fountain of the disease itself, is impure blood, and through the different channels of the lungs, the stomach and vital organs, SUDSON'S MOUNTAIN HERB PILLS will pass, minging with the blood, search cut and grasp and then expel, all hurtful poison that there is in it. Thus cleanse the blood by a few doses of these Pills, and disease, in say form, will dissipate and vanish. As the Sun, with its glorious beams first causes the morning dew to rise as mist, then growing stronger, casts his burning rays upon it—and behold 'tis gone—so cleases the blood, and disease, like morning dew, retreats and vanishes. There is no blood purifier equal to JUDSON'S MOUNTAIN HERB PILLS.

I beg leave to call the attention of the citizens of the
United States to the above Wines and Liquors, imported
by Udolpho Wolfe, of New York, whose name is famitar in every part of this country for the purity of his
celebrated Schindam Schinfers. Mr. Wolfe, in his etteto me, speaking of the purity of his Wines and Liquors,
asys: "I will stake my reputation as a man, my standing as a merchant of thirty years' residence in the City
'f New York, that all the Brand and Wines which I
bottle are pure as imported, and of the best quality, and of New York, that all the BEANTY and WINE which I bottle are pure as imported, and of the best quality, and can be relied upon by every purchaser." Every bottle has the proprictor's name on the wax, and a lac simile of his signature on the certific te. The public are respectfully invited to call and examine for themselves.— For sale at Retail by all Apotheorries and Grocers in Philadelphia.

Excamors Business for One New York Mirrohann.

We are happy to inform our fellow-citzens that there is one place in our city where the physician, apothecary, and country merchant, can go and purchase pure Wines and Liquors, as pure as imported, and of the best quality. We do not intend to give an elaborate description of this merchant's extensive business, al hough it will well repay any stranger or citizen to visit Udolpho Wolfe's extensive Warehouse, Nos. 18, 20 and 22 Beaver street, and Nos. 17, 19 and 21, Mars etfield street. His stook of Schnapps on hand ready for shipment could not have been less than thirty thousand cases; the Brandy, some ten thousand cases of Madeira, Sherry and Port Wine, sootch and Irish Whisky, Jamaica and St. Croix Run, some very old and equal to any in this country. He also

scotch and Irish Whisky, Jamaica and St. Croix Rum, ome very old and equal to any in this country. He also had three large cellars, filled with Brand, Wine, &c., in casks, under Custom House key, ready for bottling. Mr. Wolfe's sales of Schnapps last year amounted to one hundred and eighty thousand dozen, and we hope in less than two years he may be equally faucessful with his Brrudies and Wines.

His business merits the patronage of every lover of his species. Private families who wish pure Wines and Liquors for medical use should send their orders direct to Mr. Wolfe, until every Apothecary in the land make up their minds to discard the poisonous stuff from their

sherves, and topacon with the following specific functions.

We understand Mr. Wolfe, for the accommodation of small dealers in the country, puts up assorted cases of wines and Liquors. Such a man, and such a me chant, should be sustained against his tens of thousands of opponents in the United States, who sell nothing but imitations, ruinous alike to health and human happiness.
