Thursday Afternoon, November 23, 1860.

READ THE ADVERTISEMENT OF DR. STEWART.

CONJUGUM.—Why is a man deprived of the use of his limbs like a vagrant? He's without the visible means of support.

TWO STRAGGLING VAGRANTS, named Douglas Birch and Charles Brown, occupied the lock-up last night. The former hailed from Washington City, and presented a very dilapidated appearance. They were discharged this morning.

THE RAZOR STROP MAN, Prof. Allen, formerly a resident of this city, was recently indicted in Bucks county for selling patent medicine of his own manufacture without a license. The Professor pleaded guilty, and was sentenced to pay a fine of fifty dollars.

RAILROAD ACCIDENT.—A few nights ago the express train going west ran over and killed a brakeman named Sloss, near Altoona. The deceased jumped hastily from the train coming east, and did not observe the train approaching in an opposite direction until too late to escape. The deceased resided in Pittsburgh, to which place his remains were taken.

ANOTHER CANDIDATE.—The Doylestown papers announce that Bucks county presents a candidate for Speaker of the House in the person of Joseph Burnside, Esq. He is an experienced legislator and dignified gentleman, in every way qualified to fill the Speaker's chair acceptably and creditably.

THE QUARTERLY CONFERENCE and Love Feast of the West Harrisburg Methodist Congregation will be held this evening—the former at half-past six o'clock in the house of Mr. Elijah Wise, and the latter at half past seven o'clock in the Chapel. This congregation is steadily increasing in membership, under the pastoral charge of Rev. Mr. Carson, who is faithful and zealous in the discharge of his duties.

HOTEL THIEF.—Last night a bundle containing a number of valuable articles, and several pieces of music, belonging to a stranger from New York, was stolen from the bar-room of the Bumgardner House. The proprietor of the hotel, Mr. Stone, offers a reward of twenty-five dollars for the recovery of the stolen property and arrest of the thief. It is supposed that the fellow left on the train for Philadelphia.

THE COURT HOUSE FENCE.—The contract for the erection of an iron fence around the Court House lot, noticed yesterday, was allotted to our young friend Mr. Wm. W. Jennings, and not to his father as many suppose. The latter did not bid for the work. Mr. Jennings gets the contract at \$2 95 per foot, three cents a foot less than was bid by Messrs. Osler & Brother. He is a skillful mechanic, and we feel confident will do the work in such a way as to give general satisfaction.

FIRST OF THE SEASON.—This ice was formed in the gutters this morning, the first we have noticed the present season. Indian Summer is about "played out," and we may now daily look for the arrival of the old frost-crowned Winter King, seated on his snowy throne and wielding his icy sceptre. Alas! for the poverty-stricken in our community who are unprepared for the advent of winter! May those who have been "blessed in basket and in store" kindly remember the destitute, and contribute liberally out of their abundance to supply the wants of those who need assistance. "He that giveth to the poor lendeth to the Lord," and will be paid back with interest.

DESSERTS.—The lady who has charge of the Housekeeper's Department of the Germantown Telegraph, says of desserts, that these are the agents which cause a vast amount of human suffering, inasmuch as they tempt the appetite and bribe nature to transgression, which never fails of being punished sooner or later. All eat as much as they want of the ordinary dinner before the dessert comes in, and, without the dessert, would feel a comfortable exhilaration for the remainder of the day. But the tempter comes in; the satiated palate is tickled, is whipped up; the man stuffs on, and for the remainder of the day is more like a gorged ananias than anything else—so full that he rises from the table with deliberation, strives against coughing lest he might jolt up his dinner, and then sits down to doze away a whole afternoon under the oppressive influence of an inglorious surfeit. A large addition would be made to the comfort and health of any family which should discard the whole catalogue of pies, pastries, and puddings as desserts, and take in their stead one or two oranges or apples, or a dish of fresh ripe berries in their natural state; or if out of season or unobtainable, an agreeable, neat, and healthful substitute may be found in a "mint-stick," a bit of cream-candy, or a piece of pure maple-sugar.

A RAPE AND CONSPIRACY CASE.—On the 10th of June last, a girl named Catharine Rose, living at Rockville, made complaint before Justice Griffith, of Dauphin, against James McMinn, for forcible violation of her person. He was arrested, taken before Alderman Kline of this city, and bound over in the sum of five hundred dollars to appear at the August Court. The girl, however, failed to appear against him, and the Grand Jury ignored the bill. It appears now that a conspiracy was entered into by McMinn, Jacob Halbach, James McAllister and Isaac G. Updegrave, to frighten the girl away. They told her that if she appeared at Court she would be sent to prison, advised her to leave home, and offered her money for that purpose. She took their money, and acting upon their suggestion went to a neighboring county. The girl recently returned, and the District Attorney being informed of the above facts, as sworn to by her, sent another indictment to the Grand Jury this week, who found a true bill. The case will probably be tried at the next term. The girl yesterday prosecuted McMinn, and his confederates, for conspiring to spirit her away, and warrants were issued by Alderman Kline for their arrest.

DEATH TO WORMS.—Do you want an effectual worm destroyer? Go to Keller's Drug-store and get Hunter's worm cakes. This is no humbug, you only need try it once to be satisfied. Be sure you get the right medicine, at the right place—Hunter's worm cakes at Keller's Drug-store, No. 91 Market street, two doors east of Fourth street, south side.

PACKING EGGS.—Take the barrel, or tub, and put a layer of Cayuga plaster in the bottom, then take the eggs, set them upon one end—don't have them so they will hit each other—then add more plaster, then another layer of eggs, and so on until the vessel is full. Set them where they will keep dry, and in the spring you will have plenty of fresh eggs.

SERMONS ON DANCING will be preached next Sabbath by two clergymen of this city. We are not of that class who regard dancing, when properly indulged in, as a "stifful amusement," and therefore disapprove of making it a subject of pulpit denunciation. We are of opinion that our Reverend friends might select other topics, the discussion of which would be more profitable to themselves and hearers.

COURT PROCEEDINGS.—In the case of the Commonwealth vs. George Kelly, a negro, indicted for violating the person of a little white girl, which occupied the attention of the Court the whole of yesterday, the jury last night rendered a verdict of assault and battery with intent to commit a rape. The prosecutrix is only thirteen years of age.

The case of the Commonwealth vs. Fanny Jones, (an old offender,) for keeping a disorderly house, in Love Lane, in this city, was then taken up, and the evidence heard. This morning the jury rendered a verdict of guilty.

This forenoon Jacob D. Boas, Esq., the newly elected High Sheriff of Dauphin county, presented his commission, which was read, and Mr. Boas was duly installed. Jacob Schell, Esq., has been appointed as the Sheriff's Deputy, and we have no doubt that both Principal and Deputy will make excellent officers, the latter having served one term as Sheriff.

Commonwealth vs. Samuel W. Freeburn, charged with assault and battery. He was acquitted, and Frederick Hambright, the prosecutrix, ordered to pay the costs.

Commonwealth vs. George Kelly. This defendant is the same colored fellow convicted last evening for assault and battery with intent to ravish a little white girl. He brutally assaulted her on a subsequent occasion, for which a second suit was brought. The jury rendered a verdict of guilty. He will be likely to spend some time in prison.

Commonwealth vs. James Thompson, charged with stealing keys and other articles from Samuel W. Freeburn. The jury found him guilty.

Commonwealth vs. Jacob Boon, charged with attempting to commit a rape, on oath of Ida Hart. Verdict not guilty. It will be remembered that Boon was previously tried for burglariously entering the house of the prosecutrix, and convicted.

The trial of Poffenberger, for the murder of young Robinson, at Dauphin, commenced this afternoon, and is still progressing. The probability is that this case will occupy the balance of the week.

THE MEANEST MAN.—Almost every community has its "Meaneast Man," and the city of Harrisburg is not an exception to the general rule. He may be seen daily perambulating the streets on the look out for "snaps," and seeking whom he may victimize. Here is a pen portrait of him, so accurately drawn, that no one can fail to recognize it: "The Meaneast man is not always a vicious, swearing man, a dissipated character, a glutton—although he may devour widow's houses on the sly—or a 'flowing bowl' fellow. He may be a church member of the A. B. C. D. E. F. G. and all that, and a man of great respectability. In fact Meaneast Man—like Select Man—is a kind of office in every town, with this difference—it is generally a life office, or what is the same thing, during bad behavior. The person is elected to it by a silent popular vote, and it is the only impartial election we know of, because it does not go by personal favor. Meaneast Man when once elected, bears the burden, not only of his own mean actions, but of nearly everybody's besides. He gets credit of all the small unhandsome transactions in town, just as the popular funniest gets credit of the brightest sayings: We make a kind of pack-horse and scape-goat of Meaneast Man. We say of this and that, that this is as mean as anything old (you know his name!) ever did. If we wish to slander a person, abuse him, and tell an untruth about him, we say he is meaner than old Meaneast Man is not necessarily dishonest—that is, not legally so. But he is stingy and selfish. His stinginess leads him to a thousand contemptible things. They say, if he is a doctor and visits a young lady who rejects him, that he retorts by charging for his visit. He is the man who, when you stop at his house to get a vial of milk for a sick child, thinks it is worth about a cent, and takes the pail. He is the man who sells an egg to a country storekeeper for a darning needle, and then suggests to the storekeeper to treat him to a glass of wine, and also thinks an egg would taste good in it. Breaking into the wine the very egg he had sold, he found it double-yolked and insisted that the storekeeper owed him another needle. A small, shriveled-up soul, which we think must rattle in him somewhere 'like a dried pea in a gourd,' we fancy he has. If a footsore, penniless boy should come along on his way to his mother, Meaneast Man (we have known of a deed very much like it) would get him to help put away a ton of coal, and then send him to a neighbor's for his breakfast. That is the kind of a man we mean. But we need not give his history—everybody can recognize him at once. We often wonder if Meaneast Man knows he is the meaneast man, and if he knows that other people know it. We wonder, too, if it would not be right for some one to tell him what office he holds and give him a chance to resign. Our idea is, however, that Meaneast Man don't recognize himself, but has his meaneast man, and that he thinks he would not be as mean as the other person for all the world. But he is mistaken.

SUDDEN DEATH.—This morning Mr. Samuel Sieg, of Fairview, opposite this city, was found dead in his bed, supposed to have been attacked during the night with an apoplectic fit. He made no complaint, and the man who roomed with him was not aware of his decease until this morning. His remains were brought to this city, and the funeral will take place tomorrow from the residence of his brother, Mr. Wm. P. Sieg, in Chestnut street.

DOMESTIC SECRETS.—There is an old proverb which declares that none can tell where the shoe pinches save he that wears it. The maxim has a thousand applications. A husband who appears to have found his wife a good deal less of an angel than he had imagined in the days of his courtship, lets out some domestic secrets in the following manner:—
I own that she has charming locks
That on her shoulders fall;
What would you say to see the bon
In which she keeps them all?
Her tany fingers, it is true,
Are difficult to match;
I wish, my friend, you only knew
How terribly they scratch!

SWINDLED.—A swindling concern, under the title of "gift store," recently opened on Market street near the depot, and crowds of infatuated women who rush there daily to secure "bargains," are "fooled to the top of their bent" by these dealers in bogus jewelry and other worthless trash. Several ladies of our acquaintance have been victimized lately, and they deserve no sympathy for patronizing such swindling establishments. Let them purchase of home merchants of well-known integrity, who have business reputations to sustain, and they will get the worth of their money.

NATURAL MILLINERY.—A new style of trimmings for bonnets and head dresses has been introduced into England. It consists of the magnificent foliage of our autumnal woods, the colors of which are more various, rich and beautiful than any other yet developed by the dyer's art. Nature is a wonderful chemist, and the fall tints of our forest leaves are among the most glorious products of her universal laboratory. We have often wondered that the scarlet, and crimson, and gold, that glorify our sylvan scenes in October and November, were not used for ornamental purposes. Nothing can be more graceful than the shape of leaves, nothing more gorgeous than their contrasted autumn hues.—A light coat of colorless varnish would preserve both, and there are many decorative purposes to which they might be advantageously applied. Probably it is because they are costless and common, that these "glories of decay" are so little valued here. In England where vegetation has no such dying splendors, our rainbow leaves are better appreciated, and we understand that quite a large quantity of them have been sent to London this year to be formed into wreaths, trimmings for bonnets, &c.

SPECIAL DISPATCHES TO THE DAILY TELEGRAPH.

The Virginia Banks. RICHMOND, Nov. 22. All the Richmond and Petersburg banks have suspended specie payments.

Complimentary Levee to Gov. Banks. BOSTON, November 22. A complimentary levee was given to Governor Banks and lady last evening by the citizens of Waltham, irrespective of party. The Governor was presented with a service of silver plate, and Mrs. Banks received a valuable gold watch.

Destructive Fire at Albany, Ga. AUGUSTA, Ga., November 22. A fire at Albany, on the 18th, destroyed Shaly's carriage repository; Hill, Mighl & Marshall's carriage shop; and two brick stores occupied by Gross & Bridenback. The amount of loss over insurance was \$13,000. The fire was the work of an incendiary.

Suspension of Specie Payments. PHILADELPHIA, Nov. 22. The banks of this city suspended specie payments at one o'clock to-day.

Washington, D. C., Nov. 22. The banks of this city have suspended specie payments. The suspension has not caused any panic here.

Movements of the "Minute Men." NORFOLK, Va., November 22. The "Minute Men" held an adjourned meeting last night. Strong resolutions urging resistance to northern aggression were passed.—Three cheers were given for "the man who hung John Brown." Cockades are plentiful on the streets to-day.

Important Letter of Gov. Letcher. RICHMOND, Va., Nov. 22. The Enquirer publishes an important letter from Gov. Letcher, in reply to a letter from John S. Brisbin, of Pennsylvania, ridiculing secession, and stating that two hundred Virginians had offered him their command in the event of disunion. The Governor, in reply, administers a severe rebuke to northern nullification, and shows that his dereliction on the part of the North is the prime cause of the present trouble. He advises them to correct public sentiment at home, and discharge their constitutional obligations. He indicates his determination to defend the State, and states as mediator—armed mediator, if necessary—between the Southern States and their assailants, come from what quarter they may. The letter creates quite a sensation here.

More Trouble in Kansas. ST. LOUIS, Nov. 22. Trouble is once more rife in Kansas. A band of so-called "regulators" have hung several persons and threatened to postpone the government land sales. Mounted military leaders have a force of five hundred men. The menaces of interference with the U. S. land is regarded as a pretext, and the real object is said to be an attack on the "abolition missionaries." Montgomery has a force of probably 500 men, with plenty of arms, ammunition and other material aid, and from time to time warlike supplies have been received by him from the North.

NOTICES, READ THIS.—The following is an extract from a letter written by the pastor of a Baptist church to the "Journal and Messenger," Cincinnati, alluding to the sale of that celebrated and renowned medicine—Mrs. Winslow's Soothing Syrup for Children Teething:—
"We see an advertisement in your column of Mrs. Winslow's Soothing Syrup. Now we never said a word in favor of a patent medicine before in our life, but we feel compelled to say to our readers, that this is no humbug, and is just what we need of all our children. It is, probably, one of the best medicines in New England, if not the best, because it is one of the best. And to those of your readers who have babies can't do better than to lay a supply."
From the American Baptist, New York, August 2, 1859.

A MINIATURE wooden pagoda which we brought from Euralia, having been broken while on shipment, we were very anxious to have it repaired. We tried several of the most celebrated and renowned artists in our art. Nature is a wonderful chemist, and the fall tints of our forest leaves are among the most glorious products of her universal laboratory. We have often wondered that the scarlet, and crimson, and gold, that glorify our sylvan scenes in October and November, were not used for ornamental purposes. Nothing can be more graceful than the shape of leaves, nothing more gorgeous than their contrasted autumn hues.—A light coat of colorless varnish would preserve both, and there are many decorative purposes to which they might be advantageously applied. Probably it is because they are costless and common, that these "glories of decay" are so little valued here. In England where vegetation has no such dying splendors, our rainbow leaves are better appreciated, and we understand that quite a large quantity of them have been sent to London this year to be formed into wreaths, trimmings for bonnets, &c.

THE MIGHTY HEALER.—Let not disease, with its fangs, prey upon you, until the cold hand of death hurls you to an untimely grave. Shake off the feelings of despair and hopelessness, be able to come upon the invalid. The plant born of the Sun we place within the reach of all. We care not what may be the specific form of the disease. The cause, the fountain of the disease itself, is impure blood, and through the different channels of the lungs, the stomach and vital organs, JUDSON'S MOUNTAIN HERB PILLS will pass, mingling with the morbid matter, and carrying it off, all our hurtful poisons that there is in it. Thus cleanse the blood by a few doses of these Pills, and disease, in any form, will dissipate and vanish. As the Sun, with his glorious beams, melts the morning snows, and melts, then growing stronger, casts his burning rays upon it—and behold "his gone"—so cleanse the blood, and disease, like morning dew, retreats and vanishes. There is no better purifier equal to JUDSON'S MOUNTAIN HERB PILLS. Sold by all medicine dealers. n018-1m

Davis' Pain Killer. No medicine is more prompt in its action in cases of Cholera, Cholera Morbus, &c., than Perry Davis' Pain Killer. It is the acknowledged antidote which seldom fails if applied in its early symptoms. No family should be without a bottle of it always on hand. The same on hand from the use of the Pain Killer is easily removed by washing in alcohol. Davis' Pain Killer seems particularly efficacious in cholera morbus, bowels complaints, and other diseases to which the natives of Burmah, from their unwholesome style of living, are peculiarly exposed. It is a valuable antidote to the poison of Centipedes, Scorpions, Spiders, &c. R. V. J. BENJAMIN, Late Missionary in Burmah. Sold by all druggists, grocers and medicine dealers throughout the United States and Canada. n18-1m

BUY THE BEST. NORTON'S OINTMENT FOR SALT RHEUM AND SCROFULA. PERMANENTLY CURED. SALT RHEUM, SCROFULA, SCALL HEAD, FEVER SORES, RING-WORMS, BARBER'S ITCH, AND ALL ITCHING OR BURNING SORES, AND ERUPTIONS OF THE SKIN. This Ointment bears no resemblance to any other external remedy at present before the world. The mode of application is peculiar. It penetrates to the basis of the disease—goes to its very source—and cures it from the flesh beneath to the skin on the surface. Other outward applications for Scrofula, Salt Rheum, &c., operate downwards, thus driving the disorder inward, and curing it curatively without effect. Norton's Ointment, on the contrary, works the poison of the disease upward, and every particle of it is discharged from the pores. Thus the cure is effectual and complete. Not only are the sores healed—the eruptions removed—the swellings reduced—but the seeds of the disease are expelled from the flesh; consequently there can be no relapse. Victims of ulcerous and eruptive complaints, who have tried every professional mode of treatment and every advertised cure without relief, here is a certain, safe and expeditious remedy for the evils you endure. A single box will satisfy you of the truth of all that is here stated. Since its first introduction, the Ointment has been tested in the most obstinate cases—cases that utterly defied the best medical skill in the country, and upon which the most celebrated healing springs produced no effect—and in every instance with every success. Sold in Large Bottles—Price 50 Cents. GERRIT NORTON, Chemist, Proprietor, New York. Wholesale Druggists, 13 Beekman st., N. Y. Sold in Harrisburg, by G. A. BANNWART, mar7-dawly

PROF. WOOD'S HAIR RESTORATIVE.—This Restorative for making the hair grow, stopping its falling out, and restoring gray hair to its original color, is becoming celebrated. All the quick nostrums are giving way before it. Three fourths of the mixtures for restoring and beautifying the hair, do more injury than good. They burn it up—destroy the life of its roots—make the hair fall out, and produce premature baldness. But Prof. Wood's Restorative may be relied upon as containing nothing which can in any manner be injurious to the hair, while its success in accomplishing what it pretends to do has been verified in hundreds of cases. Wood's Gray Hair Restorative is getting hold of all who wish to save their hair or obtain a new stock, to get a bottle of Wood's Restorative.—N. Y. Democrat. n019-1m
