FRIGHTENED AT THEIR OWN APPARITION .- OUI remove from themselves the public odium which has attached to them for provoking the present disunion agitation. The foul demon of secession and civil war, which they have consecession and civil war, which they have consecusion and civil war. jured up, now strikes terror to their own dastard souls, and, like Macbeth, they cry,

Thon caust not say I did it Never shake thy gory locks at me.

Like the apparition of Banquo, the party which they overthrew by foul means in 1856, now points them to a long line of successive Administrations, while they are assured that the present is their last term of power.

TOOMBS AND CHESNUT .- The Lynchburg Vaginian of Wednesday, repudiates the course of Senators Toombs and Chesnut severally, and hopes that their example will not be followed hopes that their example will not be followed by others. It says if they would let reason and not passion direct their policy, they would see that it is the interest of the South, if she has any interest in the Union, to retain a full that the same than the same transfer of the sam representation in Congress, and with the aid of Northern conservatives to control the Executive branch of the government, should it manifest a disposition to encroach upon our rights.

Secession in Texas.—The progress of the se cession movement meets with an obstacle in the fact that Texas cannot call a State Convention as her Legislature does not meet for fifteen months. Therefore Texas cannot go out of the Union at present. Gov. Houston will not call an extra session for the purpose of secession. Senator Wigfall, it is said, will retain his seat in the United States Senate. Should be resign, as it was reported that he would do, Gov Houston would fill his place with a Union

TELEGRAPHIC BLUNDERS are sometimes as funny as they are serious. Thus, one Mr. Brown, a prominent gentlemen, being ill at Toronto, it was telegraphed to his family that "Mr. Brown is no worse." The family gotit "is no more," and sent up a special train for the remains. A young lady was taken sick while visiting in Cleveland, and the good folks were durab Cleveland, and the good folks were dumb-founded with the report that "she has had a child." It should have been, "has had a

> KIDNAPPERS SENTENCED. - The trial of Francis Wilson and Gilmore Hull, for kidnapping a colored man named John Brown, some months ago, took place at Lancaster this week. They were convicted, and sentenced to five year each in the prison of that county.

APPLES.-The supply of apples continues to fruit now sell in our market for seventy-five cents per bushel. At this figure poor people can afford to invest, so that apples are no longer a luxury. Two or three boat loads from the north arrived during the past week, most of which were bought up by the fruit dealers.

CURE FOR RHEUMATISM. - As many persons are at the present season troubled with this unpleasant disease, we give publicity to the following cure, said to be very effective. "Bathe the parts affected in water, in which potatoes, with their skins on, have been boiled, as hot as can be borne, just before going to bed. By the next morning the pain will be much relieved if not removed. One application of this simple remedy has cured the most obstinate rheu-

BEFORE THE MAYOR. -- We stated yesterday that Richard Fleming and Augustus Rickert were caged in the lock-up awaiting a hearing for drunkenness and disorderly conduct. Both were introduced to the Mayor this morning, and making solemn promises to do better in future, that officer reprimanded and discharged them. These men were guilty of acts which neither of them would commit when free frem the maddening influence of bad whisky. Sober men seldom lay violent hands upon their wives Intoxicated men do perpetrate such outrages, and they are of too frequent occurrence in this

A SERMON ON DANCING will be preached by Rev. Mr. Carson, to-morrow afternoon in the West Harrisburg Methodist chapel. We learn decennial average increase on the same ratio of that Rev. Mr. Colder, of the Fourth Street Bethel, intends preaching on the same subject ganization of the government to the present time, and the result he arrived at is as follows: signed for the special benefit of young people who mingle in "the giddy mazes of the dance," they should go and hear what our Reverend friends have to say on the subject. They may get some new ideas about the "light fantastic" science, and hear something that will profit them. We reiterate the opinion, expressed on a former occasion, that preachers might find more interesting and instructive topics for pulnit discussion.

ADJUTANT GENERAL .- The State Sentinel gives Gen. E. C. Williams a very strong puff for Adjutant General. While we heartily endorse all the Sentinel says relative to the services, military accomplishments, and social qualities, of our friend, Gen. Williams, we doubt whether recommendations, emanating from such a source. will have much weight with the Governor elect. Democratic contemporaries are very anxious to During the Gubernatorial campaign the col-

"Slanders as vile as the spirits that came From the blackness of darkness, to tarnish his fame." No one who knows Gen. Williams will doubt his qualifications for the post of Adjutant General; but when his claims are urged upon Governor Curtin by such Locofoco papers as the Sentinel, the effect cannot be otherwise than damaging to him. Better have its censure than its praise.

A GREAT REFORM COMMENCED .- We notice that the practice of having scholars learn all their lessons during school hours has been adopted by the public schools in various places. We hope that this step is but the begining of a great reform, and that the whole practice of stuffing the mind with a mass of undigested matter will be abandoned. An eager desire to make a great show for the time or for the money expended is the most pernicious vice of our educational system; it leads to hasty slurging over of lessons half understood, and begets a habit of being satisfied with vague idea which is very apt to continue through life. The most rapid mode of teaching is that which requires every lesson to be thoroughly mastered and comprehended before it is passed by. A scholar with this habit of study will soon overtake another who is far in advance with crude and superficial notions of his studies. If parents or teachers are very anxious that a child should learn rapidly, let them insist that the lessons shall be few and short; no more than the child can learn both thorougly and easily.

A RABBIT BABY.-One of the most singular freaks of nature we have read of for a long time, occurred in the neighboring town of York lately, the particulars of which are given in one of the papers of that place, as follows. "A married lady gave birth to a child, possessing, generally, the forms and whims of a Rabbit. The features bore a close resemblance thereunto; and at the hind-part of the head there was a short stumpy tail, precisely in imitation of the small pet animal. The child squeaked the notes of the Rabbit. It was so formed that it could partake of no nourishment; and during the five weeks of its career on earth it was necessary to pour, gently, a little milk down its throat. It had but little flesh, and that blue, resembling that of the innocent quadruped to which species it might have been classified to belong, instead of the human fami-

ly. After much suffering a spasm ended its

existence. These remarkable features and ges-

tures of this child, are to be accounted for from

THANKSGIVING SERMON.-Rev. Dr. Bishop, of the Locust street Methodist church, will preach his usual Thanksgiving sermon to-morrow, instead of on Thursday next. Dr. Bishop ranks among the ablest of the Methodist Divines, and an interesting and instructive discourse may be anticipated.

SOCIAL SOIREE.—The Liederkranz Singing Society will give a social soiree at their hall in Frich's building on Thursday evening next, the exercises to consist of dancing and waltzing, vocal and instrumental music, and other amuse ments. We thank the managers for a ticket, and hope to have the pleasure of participating with our social german friends in their Thanksgiving festivities.

THE ALARM OF FIRE last night was started by some boys who were anxious to have a run with the "masheens." The streets were rather muddy for such exercise, but the boys accomplished their object, and at the same time frightened a number of nervous people who believed the alarm to be genuine. In some increase, and choice varieties of this favorite towns this offence is punishable by fine, and the same system ought to be introduced here.-False fire alarms are of too frequent occurrence in this city.

MR. EDITOR :- The notice in the TELEGRAPH of the dedication of the German Catholic church requires correction. Bishop Wood is not to be there. The ceremony of dedication will be performed by Rev. P. Maher, at 91 o'clock; and the congregation will be addressed both in German and English at the High Mass, which will be celebrated by Rev. P. Maher, accompanied by the choir of St. Patricks church. with other singers of high repute in musical circles.

THE MONTHLY MEETING of the Sabbath School Teachers' Association will be held in the Presbyterian church, Market Square, to-morrow afternoon, at quarter past three o'clock. Subject for discussion : "Resolved, That we regard with regret the present common deficiency in our schools in the matter of committing thoroughly to memory the word of God, and desire to express our conviction that the present and future blessed results of teaching would be immeasurably increased by such acquisitions of Holy Writ."

ALL IN BOUTLES.

I beg leave to call the attention of the cliticans of the United States to the above Wines and Logons, imported by Udolpho Wolfe, of New York, whose name is familiar in every part of this country for the purity of his clebrated Somisma Scientars. If will stake my reputation as a man, my stand-grant to effect the purity of his wines.

Having carried on the business for many years in Germany, and over two years here, and also laving had an extended experience in this country, he is fully competent to execute all work entrusted to him, and hopes to receive a reasonable share of custom from his feliow-citizens on the extraction.

Having arrived to eath the above with same in

Read the following from the New York Gaulier:
Endersous Brainess for One New York affective.

We are happy to inform our fellow-citizens that there is one place in our city where the physician, apothecary, and country merchant, can go and purchase pure Wines sad Liquors, as pure as imported, and of the best quality we do not intend to give an elaborate description of this merchant's extensive business, although it will well repay any stranger or citizen to visit Udoipho Wolfe's extensive Warchouse, Nos. 18. 20 and 22 Beaver street, and Nos. 17, 19 and 21, Mart effeld street. His stock of Schnapps on hand ready for shipment could not have been less than thirty thousand cases; the Brandy, some ten thousand cases—Vintages of 1836 to 1856; and ten thousand cases of Mactera, Sherry and Port Wine, scotch and Irish Whisky, Jama'ca and &t. Croix Rum, some very old and equal to any in this country. He also had three large cellars, filled with Brandy, Wine, &t., in scotch and Irish Whisky, Jama; ca and St. Croix Rum, some very old and equal to any in this country. He also had three large cellars, filled with Brandy, Wice, &c., in tasks, under Gustom House key, ready for bottling. Mr. Wolfe's sales of Schuapps last year amounted to one hundred and eighty thousand dozen, and we hope in less than two years he may be equally successful with his Brundles and Wines.

His business merits the patronage of every lover of his species. Private families who wish pure Wines and alguors for medical use should send their orders direct of Mr. Wolfe, until every Apothecar in the land make up their minds to discard the poisonous stuff from their shelves, and replace it with Wolfe's pure Wines and Leguoss.

shelves, and replace it with Wolfe's pure wines and Lugors.
We understand Mr. Wolfe, for the accommodation of small deelers in the country, puts up assorted cases of Wines and Liquors. Such a man, and such a merchant, hould be sustained against his tens of thrusands of opponents in the United States, who sell nothing but imitatious, ruinous alike to health and human happiness.
