Medical.

I must be obvious not only to you, but to every atten-ive and intelligent person, that the first diseases of in-buts arise chiefly from a disordered condition of their bewels, and in this connection, we present to your notice for the alternation and ourse of these diseases, a remedy

DR. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Er. Eaton with re-markable success during several year's practice, we know it to be a most reliable and effications remedy for injunitie complaints, and one trial alone will convince you of its superiority over every other preparation of the kind. It is particularly recommended

For Children Teething. And at this period of infantile life, when your anxious hearts are paired by witnessing the sufferings of your little ciee, it will be found invaluable in Softening the Genes, Reducing Inflammation, and Relieving all Pain. For Diseases sateriding Teething, such as Diarrhea, Dysnaley, Griping in the Bowels, Acidity of the Stomach, Wind, Cohe, and Cod in the-flead, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can hardly be estimated.

In Convulsions, from which more infants are said to die than from any other disease, the little sufferer is relieved as instantaneously, as if by magic; and in this dieud complaint alone, its intrinsic value is such that it has been recommended from one family to another, until the name of Dr. Eaton's Infantitle Co. dial has become 'unuliar as a house, old woid." We now ask your attention to a subject of vital interest to yourself, as well as to you suffering child. Dr. Eaton's Infantile Cordal contains?

No Morphine or Opiate,

of any kind, or of whatever nature, as a fact which we are fully warranted in stating cannot be said of any there preparation for nifamilic diseases, at this time before the public. So We find that throughout the country, hothers are becoming convinced of this truth, and or the sad and hlighting consequences, which are certain to result from the use of narcotics disguised in the form of quieting remedies; their continued administration being invariably followed by stupelaction, and constipation of the bowels, enting oftentimes in convulsions. Herein De: Katon's Infakture Cordial differs from every other remedy. It

Does Not Constipate

the bowels, neither does it act by deadening the sensibilities of your children, but naturally, through its rare medicinal qualities, by removing all pain and cause of disease; We earnestly recommend you, therefore, to lose no time in procuring a bottle, that you may have at hand a remedy which will never fall to relieve your child in time of need. It is perfectly harmless, a. id cannot injure the most delicate infant.

Take; none but DR. EATON'S INFANTILE CORDIAL. This you can rely upon. Price 25 cents per bottle.

I at once made application to the most skillful physicians in the country, but, receiving no assurance from them that my bair could again be restored, I was forced to become reconciled to my late, until, fortunately, in the latter part of the year 1857, your kestorative was recommended to me by a sruggist, as being the most reliable Hair Resterative in use. I tried one bottle, and found to my great satisfaction that it was producing the desired effect. Since that time, I have used seven dollars' worth of your Restorative; and as a result, have a rich coat of very seft black hair, which no money can

The Amaigamation of Languages.—There is a frow ing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own; thus the word Cophalic, which is from the Greek, signift ing "for the bead," is now becoming popularized in connection with Mr. Spalding's great Headache remoty, but it will soon be used in a more general way, and the word. Cephalic will become as common as Flectively and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born"

**E-Headachs is the faverite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise ecape attention, till too late to be remediee; and its indications should never be neglected. Headaches may be classified under two names, viz:—Symptomatic and diopathic Symptomatic Headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, Goul, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach constituting tick headache, of hepatic disease constituting billions headache, of worms, constipation and other disease of the bowels, as well as remal and uterine affections. Diseases of the heart are very frequently attended with He-daches, Anamia and plethora are also affect ons which frequently occasion headache. Idiopathic Headache is also very, common, being usually distinguished by the name of nervous headache, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and pysical energies, and in other instances it comes on slowly, heralded by depression of spirits or accrbity of temper. In most instances it comes on slowly, heralded by depression of spirits or accrbity of temper. In most instances it comes on slowly, heralded by the name of the head, over one or both eyes, and sometimes provoking vomiting; under this class may also be a amed Neuralgia.

For the treatment of either class of Headache the Cephalic l'ills have been found a sure and safe remedy, relieving the most acute pilns in a tew minutes, and by its subtile Jower eradicating the diseases of which Headache is the unerring index.

Constinution or Costiveness.

No one of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as Costiveness. Often origit ating in carcle-sness, or sedentary habits; it is regarded as a slight disorder of two little consequence to excite anxiety, while in reality it is the precursor and companion of many of many of the most fatal and dangorous diseases, and unless early eradicated it will bring the sufferer to an untimely grave.—Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheimatism, Foul Breath, Piles and others of like nature, while a long train of rightful diseases such as Malignant Favers, Abocsses, Dysentery, Unarrhous, Dyspepsy, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondrissis, Melancholy had lusabity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in C netipation, but take on an independent existence unless the cause is eradicated in an early-stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a box of Cechalic Pills on the first appearance of the complaint, as their timely use will exper the insiduous approach o disease and destrey this dargerous free to human life. No one of the "many ills flesh is beir to" is so preva

A Real Blessing.

TWENTY MILIONS OF DOLLARS SAVED.—Mr. Spalding has sold two millions of botties of his celebrated Prepared Glue and it is estimated that each bottle saves at least ten dollars worth of broken furniture; thus making an aggre gregate of twenty millions of dollars reclaimed from total loss by this value be invention. Having made his Glue abousehold word, he now proposes to do the world still greater service by curing all the aching heads with his Cephalic Phils, and if they are as good as his Glue, Headaches will soon vanish away like snow in July.

AGOVER Excitement, and the mental care and anxiety incident to close attention to business or study, are among the numerous causes of Nervous Headache. The disordered state of mind and body incident to this distressing complaint is a farab blow to all energy and ambition. Sufferers by this disorder can always obtain speedy relief from these distressing attacks by using one of the tephalic Pills whenever the symptoms appear.—It quiets the overtasked brain, and soothes the strained and jarring nerves, and relaxes the tension of the stomach which always accompanies and at gravates the disordered condition of the brain.

FACT WORTH KNOWING —Spalding's Cephalic Pills are a certain cure for Sick Headache, Billious Headache, Nervous Headache, Costiveness and General Debility.

GREAT DISCOVERY.—Among the most important of all the great medical discoveries of this age may be considered the system of vaccimation for protection from Small Pox, the Cephalic Pill for relief of Headache, and the use of Quinine for the prevention of Fevers, either of which is a sure specific, whose benefits will be experienced by reffering humanity long after their discoverers are foreotten.

Did you ever have the Sick Headache? Do you remember the throbbing temples, the fevered brow, the cathing and disgust at the sight of food. How totall warning and disgust at the sight of food. How totally unfit you were for pleasure, conversation or study. One of the Cephalic Pills would have relieved you from all the suffering, which you then experienced. For this and other purposes you should always have a box of them on hand to use as occasion requires.

By the use of these Pills the periodic attacks of Ner yous or Sick Headache may be prevented; and if taken a the commencement of an attack immediate relief fro pain and sickness may be obtained.

They seldom fail in removing the Nautea and Headache

For Literary Men, Students, Delicate Females, and all persons of sedenlary habits, they are valuable as a Lawative, improving the appetite, giving tone and styor to the digostive organs, and restoring the natural clasticity and strength of the whole system.

The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use in many years, during which time they have prevented and relieved a vast amount of pain and suffering from Headache, whether originating in the narrous system or from a deranged state of the stomach.

They are entirely vegetable in their composition, may be taken at all times with perfect safety without making any change of diet, and the absence of any disaprocable faste renders it easy to administer them to chadren. BEWARE OF COUNTERFEITS!
