ANOTHER CANDIDATE. - We notice by the Philadelphia papers that D. B. Birney, Esq, a member of the First City Troop, is recommended by a number of officers for the Adjutant Generalship of this State. It is evident that Governor Curtin will have plenty of good material to select from.

THE STATE CAPITAL BAND will meet this evening, for the transaction of important business. There is a probability that the "Continentals." who are to sing here next Saturday evening. will remain until Monday and give a concert for the benefit of the Band. Should such an engagement be effected, no doubt our citizens will fill the spacious ball to overflowing on Monday night. -----

THE GOOD WILL BALL, to come off to morrow evening at Brant's hall, will be a largely attended and gay affair. Extensive preparations are being made, and the managers are determined make the party a creditable one, and afford participants the highest degree of social enjoyment. The members of the fire department will attend in full equipments.

CUT HIS HEAD. - Last evening while a number of juveniles were amusing themselves by aliding on the ice in a gutter, in the upper section of the city, one of them fell and cut his head severely. The little fellow bled profusely, and was so badly injured that he had to be carried home. Sliding on the ice is dangerous amusement, when not indulged in judiciously; and then the wear and tear of shoe leather at this season is awful for parents to contemplate.

THE BLESSINGS OF WEALTH .- Somebody says, and truly too, that people who would get up their own sunshine and carry hearts under their vest patterns, irradiated without regard to weather, can find an infallable recipe. The recipe consists in imparting sunshine tc others less favored by fortune, in lightening the heart of some poor widow by substituting warm clothing for the thin garments under which they shiver. The present weather is all very well for people who promenade in furs and frosted beaver overcoats. For poor wretches, in nankeen jackets, however, it is a different matter, and every blast brings with it increased suffering. Now is the time to think of the poor.

FATAL ACCIDENT .- We regret to learn from the Potter county papers that Eli Rees, Eeq., Treasurer of that county, was recently shot dead, by the accidental discharge of a gun in the hands of a young man named Daniel Reed, while the two were traveling through the woods. He died in a few minutes, no one being present except his young companion. The Journal says of this distressing affair :-- " Mr. Reed acutely feels the great grief, public and private, that he has thus innocently occasioned, and though it may cause him long years of such heart suffering as one in his position only can that the friends of the deceased, as also the entire community, believe him innocent and by the people of Potter county. He leaves a wife and five children to mourn his loss.

WORTHY OF MENTION. - Yesterday afternoon

county, is now in this city, stopping at Herr's Hotel. He is a gentleman of distinguished ability, a gallant Republican, and did effective

CHANGE OF PROGRAMME.-Rev. Dr. Bishop, of the Locust street Methodist church, having preached his Thanksgividg sermon last Sunday morning, the meeting announced for Thursday evening is intended to be simply a social prayer meeting. The musical treat to which we invited our readers will not, therefore, be given JAMES GALLAHEB, who departed this life yester by the Choir on that occasion. Our announce- day, after a lingering illness, in the seventisth ment yesterday was the result of a misunder standing.

THANKSGIVING BENEFIT SUPPER.-On the served up in Brant's Hall by the ladies connected with St. Patrick's congregation, the proceeds to be applied to the purchase of furniture for the new parsonage recently erected for Rev. P. Maher, pastor of the church. The State Capithat nothing shall be wanting on their part to tal Band have been engaged to furnish music for the occasion, and we feel assured that all who attend will enjoy themselves, and be en tertained in the very best style. The supper will comprise all the delicacies of the season, prepared by ladies who are thoroughly familiar

with the culinary art.

The animal which produces the disease called the itch is illustrated by an engraving half an bly, by a total severence of the social ties which inch in diameter, which shows not only the ugly little fellow's body and legs, but his very for frequenting lager beer shops and imbibing toes, although the animal himself is entirely that delectable beverage. invisible to the naked eye. When Lieutenant Berryman was sounding the ocean, preparatory to laying the Atlantic telegraph, the quill at the end of the sounding line brought up mud, which, on being dried, became a powder so fine that, on rubbing it between the thumb and finger, it disappeared in the crevices of the skin. On placing this dust under the microscope, it was discovered to consist of millions of

shells, each of which had a living animal. EDITORIAL VISIT .- Our young and good looking editorial brother, EDWARD W. CURRIDEN, Esq., of the Shippensburg News, paid a flying visit to this city last evening, and called at our sanctum. He is a clever gentleman, wields the pen of a ready writer, and publishes a LIVE paper. The last issue of the News contains our item relative to Gen. CAMBRON and the Cabinet, which Mr. CURBIDEN endorses as follows :---The above article we find in a recent issue of the HARRISBURG TELEGRAPH and take pleasure in heartily endorsing every syllable of it. Gen. Cameron was the choice of Pennsylvania for the Presidency, and his friends did everything which honorable men could do to secure his nomina-tion at Chicago, but when it was found that their efforts in his behalf would be fruitless, his delegates wheeled into line and did perhaps more than those of any other State to bring know, he will also have reason to remember about the nomination of Mr. Lincoln, and no

man in the Union seconded that nomination with a heartier good will than did Mr. Cameron. It would be but justice to him and the pity him." The deceased was highly esteemed State which claims him as one of her worthiest sons, and brightest ornaments, to give him a seat in the new Cabinet. A man of his business qualifications could not fail to manage the affairs either of the Treasury or the Post Office with both profit and honor to the nation. In

In his private relations he has been eminently successful, and as a public servant, no man has surpassed him in de-votion to the interests of the people whom he represents. As a Senator, he has not confined a labors to the advancement of the interests of his own State exclusively, but has labored zealously to advance the interests of every section of the Union. If Mr. Lincoln will call around him such men as Gen. Cameron, he will leave the Presidential chair honored and respected by every honest man in the nation, and posterity will point to his as a model administration.

ARBIVALS .- Last evening John Franklin of change Hall on Thanksgiving afternoon and Philadelphia, and Joseph Ward of Carlisle, ar evening, by the colored young ladies of this rived in this city. The former was en route for Pittsburg, and the latter for Philadelphia Both being out of funds, they were lodged in the vagrant asylum at the expense of the city

It would be a disgrace to the Capital City not to have a company here to receive the visiting military. Let our young men take an interest in this matter, and swell the ranks of the "Guard," so as to make a creditable turn-out on inauguration day.

ANOTHER OLD CITIZEN GONE.-It is our melancholy duty to announce the death of another old and respected citizen of Harrisburg, Mr. year of his age. The deceased has resided here for many years, was a worthy citizen, a consistent and zealous Christian, and highly estecmed evening of Thanksgiving day a Supper will be by all who knew him. He was a soldier in the war of 1812, and served his country faithfully. Peace to his ashes! The time of the funeral will be announced to-morrow.

> CAUSE AND EFFECT .-- Last night two young men, while returning home from a lager beer shop where they had been playing dice and drinking to intoxication, got into a "muss" by the way, and a damaging fight was the result. One charged the other with having played a "foul game"-angry words were exchanged, and hard blows followed. We saw one of the combatants this morning, with both eyes shrouded in mourning, and presenting a very men alluded to have long been intimate friends. But they "put an enemy to their mouths to steal away their brains," and a bitter personal quarrel was the result; to be followed, probahave heretofore bound them together. So much

OUR PUBLIC SERVANTS .- Many people suppose that the duties of City Councilmen consist in attending weekly or monthly meetings; and some add to the other privileges supposed to be enjoyed by members, a salary; while others suppose there is some plan by which they are able to make money, not known to the outer world. But people who have a knowledge cf the office and its multifarious duties know that it is a job that they would not like to under take, and the consequence is that there is frequently trouble to get the proper men to serve, and others have to be put in nomination that know less of the office than the office knows of them. Fortunately they are not often elected. Without mentioning names, we could proceed to pick out men in our present Council who have proved, by their faithfulness to their charge, that they would grace the hall of the House either at Harrisburg or Washington, if devotion to the interests of their constituents is a criterion of capacity. But where all have done well, it would be invidious to particularize ; and we merely allude to the matter now so that our citizens generally may give the matter a little serious attention, mark those who are conspicuous in their devotion to the interests of the city, and endeavor to retain them in their places. The right man in the right place is invaluable ; while an incompetent man often does more harm in one session of Council than he can mend during the rest of his term, even provided he was conscious of his dereliction.

MOTHERS, READ THIS.—The following is an extract from a letter written by the pastor of a Baptist church to the "Journal and Messenger," Cincinnati, Ohio, and speaks volumes in favor of that world-re-nowned medicane—Mirs. Winslow's Southing Syrup for

soliciting alms, and occasionally venturing into a house to beg cold victuals. A kind-hearted lady to whom she applied, touched with pity for the shivering little one, whose feet were in a freezing condition, took her into the house. kept her there by the side of a bright coal fire until thoroughly warmed, placed substantial shoes and stockings upon her feet, supplied her with wholesome food, and sent her away with a lighter heart and heavier basket than she had started from her poverty-stricken home with a few hours previous. The lady asked no questions. The appearance of the neglected child was appeal enough to her sympathy, and she at once acted upon the promptings of a naturally warm and generous heart. In doing so we doubt not that she realised that solid enjoyment which results from making others happy.

A NEW AND GOOD "INSTITUTION."-PABLOR SEATING .- We see it stated that among the latest inventions of the day is the production of skates for children, which can be used in the parlor or on the street. An exchange, in describing this new institution, says that with a pair of these skates on her feet, a young lady or child can soon learn the art of skating to a degree that will enable them successfully to accomplish on the ice, and with steel skates, that which has heretofore been to them a much coveted but almost despaired of enjoyment. All the benefits that are to be derived from that healthful exercise, are now placed within the reach of even the most delicate, and floor skating will henceforth be included among home amusements, to the delight of childhood and the gratification of age. The floor skate is simply a frame of ornamented iron, nearly the shape and size of the common skate, with, instead of a steel runner, four rollers or wheels of gutta percha, measuring about three inches in circumference, each of which revolves on a separate axel. These rollers, of course, rest on | costs. the floor, and turn with the movements of the skater. The skate is strapped to the foot in a manner similar to the ice skate, with wider leather bands, superior in every respect to the common strap. The inhabitants of the South, whose facilities for skating have hitherto been very limited, may now rival in this exercise, amid orange groves and balmy breezes, their Northern brethern, surrounded by ice and snow and chilling winds. A waxed floor is, perhaps, the best adapted for the sport-a long hall covered with oil cloth is, probably, the next-but if these are not accessible, a carpeted room of any kind will answer. Being elastic, the rollers do not wear the carpet, as they would if formed of wood or metal.

THE PALMETTO COCKADE .--- This distinctive badge of the fire-eaters of South Carolina, is thus described :--It is about three inches in diameter, a blue rosette surrounded with slips of the Palmetto form the centre, and the lower part of the circle encloses a veritable brace of twelve rattles of the rattlesnake. The motto is, "When I make a noise I strike-Death rather than dishonor." The button fastening the cockade has upon it the representation of Palmetto tree, with the motto, "Animas asai-busque parati." If they can find rattlesnakes enough to furnish cockades for all hands, South Carolina must be rather a pleasant country to live in.

SECESSION .- A SIGNIFICANT FACT. - We have it from the best authority that a large military equipment house in Philadelphia, for some considerable time after the first talk of seceson, received letters from the South inquiring the cost per man of such equipment. The house went to considerable trouble in making out various estimates according to the form or nature of the information sought, and invariably replied to their many correspondents. The range of cost was from forty to fifty dollars per man. They have never received an order in reidel and rectified an order in re-sponse from either individual or company. Forty idellars was too much to pay for a whim.-New York Commercial Advertiser.

THE MIGHTY HEALER.—Let not disease, with its fangs, prey upon you, until the cold hand of deaths hurls you to an untimely grave. Shake off the teelings of despair and hopelessness, so liable to come upon the invalid. The plant born of the Sun we place within the reach of all. We care not what may may be the specific form of the disease. The cause, the fountain of the dis ease itself, is impure blood, and through the different channels of the lungs, the stomach and vital organs, JUDSON'S MOUNTAIN HERB FILLS will pass, ming-ling with the blood, search cut and grasp and then ex-pel, all hurtful poison that there is to it. Thus cleance the blood by a few doces of these Pills, and disease, in any form, will dissipate and vanish. As the Sun, with its glorious beams first causes the morning dew to rise as mist, then growing stronger, casts his burning rays up-on disease, like morning dew, retreats and vanishes. There is no blood purifier equal to JUDSON'S MOUNTAIN HERB FILLS. THE MIGHTY HEALEB.-Let not disease, with Sold by all medicine dealers. no16-1m

WE call the attention of our readers to an rticle advertised in another column, called Broop Foon is an entirely new discovery, and must not be confoundad with any of the numerous patent medicines of the lay. It is food for the blood, already prepared for ab-corption; pleasant to the taste and natural in action, and what one gains he rotains. Let all those, then, who are unfering from poverty, impurity or deficiency of blood, and consequently with some chronic disease or ailment, also of this BLOOD FOOD and be restored to health. We while that our Druggists have resolved to health. We built that your Druggists have received a supply of this tritle, and also of the world-renowned Dr. Exron's Isr. ANNIE Comparison of the world-renowned Dr. Exron's Isr. Is said to contain no paregoris or opiate of any kind whatever, and of course must be invaluable for all infan-ile complaints. It is also said that if will allay all pain, ind soften the sume in process of isoching and if the whatever, and of course interaction of the same set of the same set of the same set of the same set of the same time regulate the bowels. Let all mothers and nurses, who have endured anticous days and alcepless a ghia, procure a supply and be at once relieved. As the advertisement. au24febb Rorsale by C. A. This offitting occurs in resemblation to any other ex-ternal remedy at present before the world. The mode of its operation is peculiar. It ponerates to the basis of the discase-goes to its very source-and cures it from the flesh beneath to the skin on the surface. Other outward applications for Scrofula, Balt Rheum, &c., operate deumward, thus driving the disorder inwards, and often occasioning terrible internal maladies. Noaron's ONTMENT, on the contrary, throws the poisen of the discase spheard, and every particle of it is dis-charged throa the ports. Thus the cures it effects is complete. Not only are the sores healed-the eruptions removed-the swellings re-duced-but the seeds of the discase are expelled from the flesh; consequently there can be no relarse. Victims of ulcerous and eruptive complaints, who have tried every professional mode of treatment and every ad-vertised curative without relief, here is a certain, safe, and expeditious remedy for the evils you endure. A ingle box will satisfy you of the truth of all that is here ited.
