HARRISBURG

Wednesday Afternoon, November 28, 1360.

READ the advertisement of Dr. Stewart. To-Morrow will be observed by twenty-four States as a day of Thankegiving.

THE FUNERAL OF MR. GALLAGHER, whose death we announced in our last issue, will take place from his late residence in Chestnut street ta-morrow afternoon at two o'clock.

THANKSGIVING SERVICES will be held in the Old School Presbyterian church to-morrow the paster.

DIPTHERIA. -- This terrible scourage of the household has again made its appearance in the vicinity of Hanover, and in Manheim township, York county. A number of deaths have occurred among the children.

No PAPER To MORROW. - We, in common with the "rest of mankind," intend observing Thanksgiving day. Consequently no paper will be issued from this office to morrow. May all the readers of the TELEGRAPH enjoy a good dinner, and gave a pleasant time generally.

THE OLD SOLDIERS of this city and vicinity will attend the funeral of Mr. James Gallagher, late a member of their association. They will meet, for that purpose, at the office of David Harris, Esq., in Chestnut street, to-morrow afternoon at half-past one o'clook.

FIRE LAST NIGHT .- About ten o'clock last night the oven of Mr. Pott's bakery, in East State street, was discovered to be on fire, and an alarm was raised which brought out the various companies. Their services were not required, however, the flames having been extinguished before they arrived.

THANKS .-- We are in a thanks-giving mood to-morrow. The donor will be kindly remembered by our little circle when gathered around the festive family board, to partake of the good things which his liberality has provided.

A PROFUSION OF POULTRY.-There was an abundance of poultry in market this morning, which our rural friends readily disposed of at fair prices. Turkeys sold for six to twelve shiljudging from the number carried home a great many of our citizens will fare sumptuously tomorrow. So mote it be.

A Serious Accident occurred at Bridgeport on Thursday last, to Mr. Jacob Armpriester of York, by which his collar bone was broken and other injuries were inflicted. He was engaged at the time in coupling cars, when they the injuries above mentioned.

THE PUBLIC SCHOOLS will be closed to-morrow, Thanksgiving day. Should the weather prove higher degree of enjoyment than the happyroom for two or three consecutive months .-May the little ones have a "good time" on to- and perspired gasses around. morrow's high feast day :

"When Zepherial, Hezekiah, and all the children

Selling Poison.—An incident occurred recent. nia. A man named Suter was arrested on the charge of poisoning Mr. Shober's horses. On application to Harvey Birch, a druggist of Reading, who keeps a careful register of every purchased a quantity of arsenic at his shop a being in black and white on Mr. Birch's books, with Suter's name and residence. The doctor sell the dangerous article without regard to the poison for evil purposes.

closed, and business to a great extent suspended. The various churches will be open for religious five senses. worship, and sermons preached appropriate to the occasion. In a social, civil and religious point of view the people of Pennsylvania have abundant reason to be thankful. Remembering this, let our citizens, in compliance with the Gubernatorial recommendation, "setting aside worldly pursuits, assemble in their respective places of worship, and unite in offering thanks to God for His manifold goodness, and imploring his forgiveness, and the continuance of His mercics." This duty performed, let them pass the remainder of the day with their families, enjoying social intercourse, and the sports of the juveniles. This is our idea of the way Thanksgiving ought to be kept. Of course a good dinner is one of the peculiar features of friends will enjoy themselves on the occasion. the occasion; and as poultry is abundant and not unreasonable in price, we hope each citizen will have his table graced with a fat turkey, a brace of ducks, or whatever his taste prefers.— For the credit of the city we hope the "rum mills" will be closed and the flow of alcoholic poison stopped. Let not the day be desecrated by exhibitions of drunkenness and rowdyism, which cannot fail to be the case if liquor and beer dealers continue their traffic. If they have ever found, it will be known that my body is no regard for the day, or for the recommendation in the Susquehanna river. Weep not for me, tion of the Chief Magistrate, they should, at least, pay a decent respect to the opinions of the mass of community.

LUBKING DANGERS .- If we are to judge from the paragraphs which go the rounds of the press, nothing is more literally true than that eight to nine A. M., and three to four P. M. 'in the midst of life we are in death." An industrious reportorial brother has been amusing himself by clipping from exchanges the various brief physiological and medical bints which some editors are so fond of circulating; and if only half of the extracts collected deserve any attention, we may well wonder, not at the excessive mortality which statistics reveal, but at the continued existence of any member of the human race.

First we have an item which tells us that to smoke tobacco is certain, though not immediate death-that it destroys the nerves, impairs the digestion, clogs the lungs, adulterates the blood, and poisons the lips and throat. We will therefore set down the large proportion of our morning at half-past ten o'clock. Sermon by citizens, who smoke or chew, as on the high road to speedy death.

or brain work, is bound in a very few years to very many of our acquaintances, as well as ourourselves, who habitually devote nearly double the above number of hours daily to the full employment of every atom of brains which nature has conferred upon them, we must infer that most of the lawyers, editors, and many merchants and students, are sure to terminate their his assailants. A large bunch of hair, clotted earthly career before long.

The next paragraph we encounter, calculates an adult human being in sound health, and shows conclusively that all our public assembly rooms and churches are so inadequately ventilated, that to spend an hour or more in them when crowded, is certain to produce the most leadly results on the constitution. We must therefore infer that many of our lady acquaintances who spend all Sunday in church or Sabbath school, and go nearly every week evening to lecture or concert, are certain ere long to forfeit their lives in consequence.

Then we find a paragraph which assures us that whoever eats meat more than once a day, not being in the habit of taking much out-door exercise, is doomed to pay the penalty of gorjust now. Owing to the timely generosity of mandising in loss of health and life. We add an appreciative friend, a fine fat turkey, with to the list of the speedily doomed, therefore, the necessary trimmings, will grace our table | many stalwart men and lovely women who regularly eat meat three times a day, and yet to our knowledge during the past month. seldom exert themselves by anything more than going up a pair of stairs.

Then we encounter a paragraph which warns us against drinking ice water. It proves that a deadly chill is communicated to any person in this State whose post-office address is not who is so foolish as to swallow an article of so recorded in from one to a dozen establishments low a temperature. We come immediately in New York, Philadelphia, Baltimore and upon another item, which demonstrates that lings each, according to size and weight; and hot drinks, such as tea and coffee or spirits, be ing warmer than the blood, must of necessity cauterise the passage of the throat and produce most deleterious effects upon the system. We conclude that both they whose drinks are cool and they whose beverages are hot, are at the point of death. And those who seldom drink at all are no better off; for another paragraph sets forth how much of the corporeal system consists of water-and how needful it is that came together before he could get out of their the due proportion of the component parts of way and caught him between them, inflicting the body should be kept up by plentiful imbibition.

We next meet with a paragraph which as. sures us that all water is more or less impure, to afford teachers and scholars an opportunity and that we ought to let it stand for some time of participating in the festivities incident to before drinking, to let the foul matters which it holds in solution be precipitated by gravita favorable, no class of community will realize a tion to the bottom of the versel. Then we chance upon another item, which assures us hearted juveniles, who know how to appreciate that water ought to be drank directly when it a holiday after daily confia cment in the school is drawn from the well or tap—that when it stands in a room it absorbs all the respired and the bogus one costing 6 to 15 cents! The

We next find a paragraph which apprises us hiving.

Ann Maria, Jane and Sophia, come home to the Thanksgiving."

that it we do not be twice a week, the pores of our skin get clogged and disease and death supervene. Then we find a counter item, asserting that man is not ly in Lancaster, which illustrates one of the an amphibious animal, and that to bathe ofadvantages of such a registry of the sale of | tener than once a fortnight, relaxes the syspoisons as is required by the law of Pennsylva- | tem and makes it a prey to sundry awful and fatal distempers.

So we might go on over two or three columns, collating and contrasting the various medico-sanitary suggestions of our exchanges. sale of poison, it was found that Suter had The moral of the whole subject is, that the healthiest man is he does just what he feels like short time previously—the whole transaction doing, without regard to anybody's hints or suggestions. It is a certain fact that the men who fuss about health, and who are forever in can congratulate himself upon his fidelity to dread of doing something, or going somewhere, the law, it being too common for druggists and that will injure their constitutions, are the med cine dealers, in this and other States, to weakest and feeblest of mortals, while those who go right ahead and follow their instincts detection of a party who may wish to use the are bluff, hearty, healthy fellows, who enjoy life while they live, and live longer at that, than your sallow philosopher who has a thous-"Example of Day, which occurs to-morrow, and specific rules of health at the tip of his will be generally observed by our citizens. The tongue, and with them all never knows the stores, shops, banks and public offices will be luxury of living in perfect unconsciousness of the existence of any physical organ except his

> THANKSGIVING SERVICES.—There will be two services in the New School Presbyterian Church on Thanksgiving Day. In the morning Rev. Dr. DeWitt will preach the regular sermon. In the evening Rev. Mr. Robinson will give a sermon for the times on the subject-" The Elements of a True Nationality."

> THE MATINEE.—We acknowledge the receipt of complimentary tickets to the "grand Mati nee" to be given in Exchange Hall to-morrow. It will commence at two o'clock in the afternoon and continue until ten in the evening .-Professor Hazard, of Philadelphia, has been engaged to furnish music. Of course our colored

> Supposed Suicide.—A few days ago Mr. Israel Bruner, found on the river shore, opposite Safe Harbor, a porter bottle, tightly corked, which contained the following, written with a lead pencil:-

> "Митон, Ра., Мау 9, 1860. "Tired of this world, I take this method to shuffle off this mortal coil, upon this lonely is land, a few miles below this town. If this be my friends, as I have gone to a better world.
> Signed: RALPH MONTGOMERY."

There are several families of Montgomery's living in the vicinity of Milton.

The part of the control of

Post Office Hours.-The Post Office will be open to-morrow (Thanksgiving day) only from

Sour Kraur Lunch will be served up at Hoffman's, corner of Dewberry Alley and Market street, to-morrow morning at nine o'clock. Oysters by the quart constantly on hand. o

Won't Do.-The idea of manufacturing gas from water has proved a perfect failure The Girard House in Philadelphia, which was for a time lighted with water gas, manufactured not hold office under any Administration. Sup-from resin, has abandoned its use and applied pose that there be no Marshals or District Atfrom rosin, has abandoned its use and applied to the city for its usual supply of Gas, promising to comply with the rules of the city Gas Works if the Gas was restored to them. The City Trustees complied with their request, and they are using city Gas now.

DISGRACIFUL AFFRAY.-We learn that about eleven o'clock last night, on the return of the Next we find a paragraph which tells us that fire companies from State street, a difficulty over six hours per day of intellectual exertion, occurred at the corner of Walnut and Second streets between Mr. Joseph Cunkle and three prove fatal in its consequences. Now as there are young men. Mr. Cunkle was assailed by these three individuals, knocked down, and severely beaten. His head was cut in several places, and his person otherwise injured to such an extent that he had to be assisted home, where he now lies in a suffering condition from the effects of the brutal treatment inflicted by with blood, was taken from the marble which Mr. Cunkle struck with his head when falling. the quantity of pure air necessary to maintain A gentleman who was present informs us that one of them flourished a six barreled revolver, which he was prevented from discharging by the timely intervention of some persons who were attracted to the scene of disturbance We did not learn the origin of the difficulty, but the presumption is that the parties were drunk. It is the intention of Mr. Cunkle, we understand, as soon as he recovers from the effects of the cowardly and brutal assault, to prosecute his assailants. If our information be correct, they deserve severe punishment .-Their names will be given as soon as information is made against them.

> LOOK OUT FOR HUMBUGS. - We have good reasons for offering a word of special caution to our readers, at this time. At least half a dozen schemes for extensive swindling have came " Private" and "confidential" circulars by the million are now being manufactured in the various cities, and the whole country will soon be flooded with them. There is scarcely a family other cities, and tempting, plausible circulars will be sent through the mails to them, offering all sorts of inducements to get their money. We have received no less than three of these within a week. In lottery and gift enterprises there is nothing new to be specially notedeach scheme, no matter how stempting, is so much of the character of a hundred others that have gone before, that it is surprising how there can be foolish persons enough to keep these humbugs alive. One of the most willy schemes now being pushed, is the offer of socalled gold articles, such as "magnificent" gold pencils, pens, bracelets, etc. A few statistics obtained at one of the manufactories of these articles, shows that they are being turned out by the ten thousand. A "gold pen and magnificent case," is stamped out of some cheap metal, and then galvanized over with the thinnest possible film of gold. The whole is done so skillfully, that the common observer will find it utterly impossible to distinguish between a bona fide article worth from \$3 to \$6, outside film of gold, though less than the twohundred-thousandth part of an inch in thickness, is yet enough to cover up the inside base metal, and protect it from the usual acid test, while the filling of cheap metal prevents detecting the deception by the weight. We have seen a pen and case that cost 16 cents to manufacture, that was offered as a \$3 premium or "gift," and no one but a practical goldsmith or jeweler could detect the deception. The same remark applies to various other gilded (not gold) articles. Let it be remembered, first, that the more splendid and plausible the scheme held out to the public, the greater is the concealed deception; and second, that if one is lead to open a correspondence with these humbug operators, even out of curiosity only, there are ten chances to one that the "wool will be pulled over his eyes," and that, in the end, he will be "taken in and done for."

> THANKSGIVING SUPPER. -The proprietor of the Exchange Restaurant, Mr. Charles Davis, will serve up a Grand Supper at ten o'clock on Thanksgiving night. Tickets fifty cents .-Lunch all day, Call and luxuriate.

GREAT ARRIVAL of new and cheap goods; a splendid and large assortment just opened .-Beautiful styles of new De Laines; 100 pieces of new Colicos splendid colors 10 cents; 50 pieces Canton Flannel 10 and 11 cents; large lot of black and brown Muslin; 1000 yards of pant stuff for men and boys ware; 30 dozen Undershirts and Drawers 65 and 75 cents; 50 dozen Wool Socks 20 cents; Black Alapacka Shawls, Cloaks, Cambric Bands, Flanels, Dry Goods of all descriptions; 10 pieces black Cloth for Cloaks. Please call and examine our large assortment, S. Lewy, at John Road's old stand.

Musical.—New music from all the leading publishing houses always received immediately after publication. Violins, Guitars, Banjos, Accordeons, etc.; all sorts of strings always fresh on hand, at WM. KNOCHE'S Music store, 92 Market street.

t

44000 Mr. Boyce on Secession.—In 1851, Hon. W. M. Boyce, of South Carolina, wrote a letter against secession, which seems unanswerable in some of its positions. In this letter he said: "Secession is against the wishes of the other States. Ought not they to have some influence Should we not defer to our allies, who have twenty times the interest in the institution of slavery that we have? How can stitution of stavery that we have! How can we ever hope for a union of the South, if we, a mere handful of the Southern people, insist on enforcing our opinions on the rest of the South?" Again, he said, "Secession, separate nationalities, with all its burdens, is no remedy. It is no redress for the past; it is no security for the future. It is only a magnificent sacrifice of the present, without in anywise gaining in the future."

The Net Product of Secession.

A correspondent of the Mobile Advertiser reats curtly the plans of those passive secessionists, who, in the event of Mr. Lincoln's election, see the fruition of their hopes in the refusal of all Southerners to take or hold Federal office. He argues :--

"There are four kinds of Federal office-holders in Alabama to wit: The officers of the Federal Courts, Land officers, Postmasters and Collectors of the Customs. The Judges of the Courts hold office for life, and, therefore, do torneys in the Federal Courts? Suppose even that the Courts be shut up. what good will that the Courts What would Lincoln care if the Courts were closed? How would it interfere with his Administration? Next come the Land officers. Suppose the land offices were closed, who would be injured or annoyed by it, Lincoln or own people? The Government derives : paltry pittance from the sale of its bit-an-acre land, which it can spare without inconvenience.
If the offices were closed our own people who want the land could not get it. Next the Pos Suppose the mails are stopped, who will be injured, Lincoln or our people? mails are given to us as a bonn, at an expense to the Government, and are an indispensable to the Government, and are an indispensable necessity to us. What would Lincoln care if we stole the mails? Not a fig. And last of all the Custom-house officers. From the receipts of our Custom-house, Government derives about a million of dollars per annum. This is the only department of the Federal Govern This is ment the obstruction of which would injure the Administration. But we have no means of obstructing the collection of customs Suppose noue of our people dare accept Custom-house offices, then Lincoln will find Northern men who will accept them. Suppose they dare not land upon our soil, then they can remain on ship board, and collect customs on board a re-

MR. FILLMORE, notwithstanding his declarations in favor of a separate and distinct "Union" electoral ticket, voted for the Dry goods affair called the Fusion ticket. The Alcany Evening Journal says:

"For information on this point we are indebted to the Buffalo Republic, which says that the senior partner in the firm of 'Fillmore, Hall and Haven,' voted for seventeen Douglas, ten Bell and seven Breckinridge electors, for which, the Republic adds, he will never be ashamed of himself—and which, permit us to add, he will never repeat, because after this experiment no party will ever attempt to ride and run three Presidential candidates. 'Fusion' has made its first and last leap."

Won't it Though ?-An edifying spectacle will be produced after a while when South Car olina raises that loan of \$400,000 in South Carolina bank notes, and proceeds to buy herself rich. The possibility is that the Great Nation of South Carolina will declare war on the rest f mankind for refusing to take her money. Then what will become of us?

PROF. WOOD'S HATR RESTORATIVE.—This Restorative for making the hair grow, stopping its falling out, and restoring gray hair to its original color, is becoming celebrated. All the quack nostrums are giving way before it. Three fourths of the mixtures for restoring and beautifying the hair, do it more injury than good. They burn it up—destroy the life of its roots—make the hair fall off, and produce premature baidness. But Prof. Wood's Restorative may be relied upon as containing nothing which can in any manner be injurious to the hair, while its success in accomplishing what it protends to do has been verified in hundreds of cases. We advise gray heads, and heavis getting bald—all who wish to save their wool or obtain a new stock, to get a bottle of Wood's Restorative—N. Y. Democrat.

Sold by all Druggists. Wood's Restorauvu —... Sold by ali Druggists.

Mothers, Read This.—The following is an extract from a letter written by the pastor of a Baptist church to the "Journal and Messeuger," Cincinnati, Ohio, and speaks volumes in favor of that world-renowned medicine—Mrs. Winslow's Sootbing Syrup for Obliden Teathing.

Onto, and speak.

This Mighty Healer.—Let not disease, with its fangs, prey upon-you, until the cold hand of death hurls you to an untimely grave. Shake off the feelings of despair and hopelessness, so liable to come upon the invalid. The plant born of the Sun we place within the reach of all. We care not what may may be the specific form of the disease. The cause, the fountain of the disease itself, is impure blood, and through the different channels of the lungs, the stomach and vital organs, JUDSON's MOUNTAIN HERB PILLS will pass, minging with the blood, search cut and graps and then expel, all hurtful poison that there is in it. Thus cleanse the blood by a few doses of these Pills, and disease, in any form, will dissipate and vanish. As the Sun, with its glorlous beams first causes the morning dew to rise as mist, then growing stronger, casts his burning rays upon it—and behold 'its gone—so cleanse the blood, and disease, like morning dew, retreats and vanishes. There is no blood purifier equal to JUDSON'S MOUNTAIN HERB PILLS.

WE call the attention of our readers to an ges we call the attention of our readers to an article advertised in another column, called Broop Food It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is food for the blood, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he rotains. Let all those, then, who are suffering from poverty, impurity or deficiency of blood, and consequently with some chronic disease or allment, take of this Broop Food and he restored to health. We notice that our Bruggists have received a small of this take of this Bloop Food and be restored to health. We notice that our Druggists have received a supply of this article, and also of the world-renowned Dr. Earny's IN. FARTILE CORDIAL, which every mother should have. It is said to contain no paregorie or opiate of any kind whatever, and of course must be invaluable for all infam tile complaints. It is also said that it will allay all path, and softon the gums in process of teething, and at the same time, regulate the bowels. Let all mothers and nurses, who have endured anxious days and sceners in glits, procure a supply and be at once relieved.

81 Parclay Street, New York. From the New York Times, August 3, 1859. Spalding's Prepared Glue. - Prepared Glue: SPADDING'S PREPARED GLUE,—Prepared Glue: a very usoful and convenient article for housekeepers and others, is "Spanding's Prepared Glue." It is one of those invent.ons, small in themselves, which, nevertheless, go far in the economies of household management, and are an ever-present aid in saving time, expense and trouble. The number of small repairs to furnitue, picture-frames, crockery, children's toys, leather, shell and other fancy work, with the almost innumerable uses to which in every household a really good and ever-ready article of this kind may be applied, will at once suggest themselves to the ladies. Damaged book-covers, loosened leaves, dilapletated maps and herbariums, will remind the student and book-worn of its value. This Glue is compounded with chemicals which hold it permenently in solution until it is applied, with bariums, will remind the Suddent and South Schollars which value. This Glue is compounded with chemicals which hold it permanently in solution until it is applied, without a cetting its strength, and which serve to give the adhesive matter a firmer hold on the surfaces to be unliad, after which they quickly evaporate, leaving the giue to harden with rapidity and tenacity. It is estimated that there are at least five millions of households in the United States, and that an outlay of from one to ten dolars is annually required to make small repairs to furniture alone, apart from the numerous neglects and makeshifts that are necessarily resorted to.

It penetrates to the basis of the disease—goes to its very source—and cures it from the flesh beneath to the

skin on the surface.
Other outward applications for Scrofula, Salt Rheum &c., operate decenward, thus driving the disorder and often occasioning terrible internal maladies

Norrow's Ontherst, on the contrary, throws the poisen of the disease upward, and every particle of it is discharged throu the pores.

Thus the cures it effects is complete. Not only are the

Thus the cureat telecus is complete. Not only are the sores bealed—the cruptions removed—the swellings reduced—but the seeds of the disease, are expelled from the fiesb; consequently there can be no relarse. Victims of ulcerous and eruptive complaints, who have tried every professional mode of treatment and every advertised curative without relief, there is a certain, safe, and expeditious remedy for the evils you endure. A ingle box will satisfy you of the truth of all that is here tated.

tated.

Since its first introduction, the properties of the Cintment have been tested in the most obstinate cases—cases hat utterly defied the best medical skill in the country, and upon which the most celebrated healing springs proand upon which the most celebrated healing springs produced no effect—and in every instance with every end

ALL IN BOTTLES.

Under States to the above Wines and Liquoss, imported by Udolpho Wolfe, of New York, whose name is familiar in every part of this country for the purity of his celebrated Schipan Scenapes. Mr. Wolfe, in his etter to me, speaking of the purity of his Wines and Liquoss, says: "I will stake my reputation as a man, my standing as a merchant of thirty years' residence in the City of New York, that all the Brandy and Wines which I bottle are pure as imported, and of the best quality, and can be relied upon by every purchaser." Every bottle as the proprietor's name on the wax, and a fac simile of his signature on the certificate. The public are respectfully invited to call and examice for themselves,—For sale at Retail by all Apothecaries and Grocers in Philadelphia.

ENORMOUS BUSINESS FOR OAR NEW YORK MIRKCHANT.—
We are happy to inform our fel ow-citizens that there is one place in our city where the physician, apothecary, and country merchant, can go and parchase pure Wines and Liquors, as pure as imported, and of the best quality, we do not intend to give an diaborate description of this merchant?s extensive business, although it will well repay any stranger or citizen to visit Udolphio Wolfe's extensive Warchouse, Nos. 18. 10 and 22 Beaver street, and Nos. 17, 19 and 21, Marc citized street. His stock of Schnapps on hand ready for shipment could not have been less than thirty thousand cases; the Brandy, some ten thousand cases.—Vintages of 1836 to 1856; and ten thousand cases of Madeira, Sherry and Port Wine, Sootch and Irish Whisky, Jamaca and St. Croix Rum, some very old and equal to any he this country. He sho had three large cellars, flied with Brands, Wine, &c., in casks, under Custom House key, ready for bottling. Mr. Wolfe's sales of Schnapps last year amounted to each direct and eighty thousand dozen, and we hope in 1 s than two years he may be equally successful with his Brands and Wines.

His business merits the patronage of every lover of his species. Private families who wish pure Wines and Japors for medical use should send their orders direct to Mr. Wolfe, until every Apethecar; in the land make up their inides to discard the noisonous stuff from their

to Mr. Wolfe, until every Apetheory in the land max-up their minds to discard the poisonous stuff from their shelves, and replace it with Wolfe's pure Wines and

Sherves, and replace it with Trottes parts.

We understand Mr. Wolfe, for the accommodation of small dealers in the country, puts up assorted cases of Wines and Liquors. Such a man, and such a merchant, should be sustained against his tens of theusands of opponents in the United States, who sell nothing but imitations, ruinous alike to health and human happiness.
