THE MATINEE.—Our colored friends had a gay party yesterday evening at Exchange Hall. The attendance was large and the music very fine. The best order prevailed, and every one seemed to be pleased.

THANKSGIVING DAY.—Yesterday was generally observed as a Thanksgiving festival. All the principal business places were closed, and the churches in the morning and evening were generally filled by attentive hearers. The weather was very pleasant and every one seem-

ONLY ONE NIGHT .- In our paper of Wednesday we intimated that the Continentals would perform here on Monday evening for the benefit of the State Capital Band. The agent informs us since that it will be impossible for them to be here at that time, prior arrangements forbidding it. The company will therefore perform

KILLED ON THE RAILROAD -Mr. Herman Updegraff, a citizen of Johnstown, and for several years past conductor of a freight train on the Pennsylvania railroad, was killed yesterday afternoon, near Latrobe, by falling from his train, which passed over and mangled him in a cause of the accident. Mr. Updegraff was a married man, and the father of several small children, all dependent on him for support.

worthy of imitation in this quarter, and in all other quarters where the same or a similar practice does not prevail; In a western town, recently, a "spelling match" took place, in which all the children were invited to participate. The prize, an Unabridged Dictionary, was awarded to a little girl about twelve years old, she having "stood up" the longest. THE UNION PRAYER MEETING will be held in the new school Presbyterian church, corner of Market Square, to-morrow afternoon, commencing at four o'clock, as usual.

For Washington.-Our United States Senator, Gen. Simon Cameron, has left for Washington to enter upon the discharge of his Senatorial duties. Cougress meets on Monday next.

THE COMMITTEE OF ARRANGEMEN:S of the ball of the Good Will Fire Company, is requested to meet at the engine house this (Friday) evening at seven o'clock. The attendance of every member is desired.

PASSED THROUGH .-- Senator HANNIBAL HAM-LIN, the Vice President elect, and Hon. John SHERMAN, member of Congress from Ohio, passed through here this day at noon, on their way to Washington.

BANK OF MIDDLETOWN .- The Dauphin Journal says that this Bank pays out enough specie to suit the wants of the business community. The Bank was never in a more flourishing condition than at present, and its notes are received and paid out as readily as gold and silver.

IN THE LOCK-UP. -The only occupants of the lock-up last night were two young men, arrested by the Mayor himself, for drunken and disorderly conduct on the street. As they do not make a practice of offending in this way, we suppress their names, hoping that they will do better in future.

FIRE AT MIDDLETOWN .- On Friday last a large frame house on Susquehanna street, owned by Mr. Daniel Spade, took fire and was entirely consumed. The house was occupied by three families, two of which lost all their furniture. The fire was the result of accident. The house was insured in the Columbia Company for seven hundred dollars.

COLD WEATHER.—At Williamsport yesterday the canal was completely ice bound, and its smooth surface was covered with hundreds of skaters, many of them ladies, who seemed to realize a high degree of enjoyment from indulgence in this healthful and exhilarating exercise. The river was also filled with floating ice, and the ground covered with snow. Rather a

ROWDYISM .- We (the local) were absent from most horrid manner. We did not learn the the city yesterday, but on our return this afternoon we learned that Thanksgiving occasion was desecrated by an unusual amount of drunkenness and rowdyism-the liquor and beer shops having all been open and in full blast during the day. We blush to chronicle a fact so humiliating to our city, and hope that on future similar occasions measures will be taken to prevent a repetition of the disgraceful scenes that occurred last night.

RAILROAD CONDUCTOR INJURED .-- On Wednes day, as the freight train was shifting some cars preparatory to leaving Mechanicsburg, the con-Directors could not expend a few dollars of the ductor, Mr. John Pickel, of Chambersburg, in endeavoring to couple two cars, was caught be-Webster Unabridged to be awarded annually as tween their bumpers and severely pressed about the chest. He was taken to a warehouse, and a physician summoned, who administered to his present relief, after which he was removed to the Ashland House, where he is at present. It is not known whether he was injured to a great degree internally, as it would not be immediately apparent.

CLEAREIELD COUNTY BANK .- This institution, the first under the new banking law, went into operation this week, the notes having been procured from the Auditor General, scribed by law. It is positively asserted that by whom they are countersigned. The notes, votes were received at the Upper Milford polls in our opinion, are really beautiful. The vignette of the V's represent a raft, with the of the protestation of a number of persons who | hands "poling it off" the bank of the stream. A woman and child are also seated on the raft, alongside of the shanty. The vignette on the Mr. Longnecker would be entitled to a seat in X's is a forest scene-men cutting down trees, the next Congress, as it gave Dr. Cooper about and a saw mill in the distance. Stock has been deposited with the Auditor General for the whole amount of notes that will be issued, less 5 per cent, as provided by law.

> A REMEDY FOR SLEEPLESSNESS. - A French paper asserts that insompia, or want of rest at night. may be cured by sugar candy! It appears that sugar, under its crystalized form, is a decided hypnotic, and much superior to most other remedies of the kind, if we consider its perfect innocence. To use it, put five or six pieces of sugar candy, of the size of a hazel nut, into your mouth on going to bed; and by the time they are half melted away the desired effect will have been produced. The sleep which it cause. anot like the artificial one produced by other drugs; but it is as beneficial and invigorating in its effects upon the system as natural repose. It states, however, that sugar candy is only effectual against common insomnia, and would be powerless if that affection were caused by any other complaint.

EXPAND THE CHEST .- Those in easy circumstances, or who pursue sedentary indoor employment, use their lungs but little, breathe but little air into the chest, and thus indepenmade one flesh, and desired to take the next dently of positions, contract a wretchedly small chest, and lay the foundation of the loss that he should be prepared to act accordingly. of health and beauty. All this can be perfectly obviated by a little attention to the manner of breathing. Recollect the lungs are like a bladder in the structure, and can be stretched open to double the size with perfect safety, giving a noble chest and perfect immunity from consumption. The agent, and the only agent, required, is the common air we breathe, supposing, however, that no obstacle exists, exterconsummation so devoutly wished. CHEAP JOHN .- We take the same pleasure in certifying to business talent and integrity, as we do in informing the public of lack of the same, and we do not intentionally make any ambiguous statement, calculated to mislead the citizens of Harrisburg and injure true business men. We are sure we are right, then go ahead and speak plain. There was a bogus Gift establishment, where at least one lady was insulted, on Market street, near the railroad, but we wish it distinctly understood we do not refer to Cheap John, No. 99, Market street. At this establishment you pay no money for goods of any description unless you are suited, and we can safely say if you purchase, you obtain the worth of your money.

Opinion of the Southern Press.

From the Southern Standard, Trenton, Tenn. South Carolina,-This fountain-head of

tories, nullifiers, rebels, hotheads, fools, and traitors has become the standard of Southern statesmen. It furnished the main body of tories in the Revolution. These supported Aaron Burr for the Presidency instead of Thomas Jefferson, the author of the Declara tion of Independence and founder of the Democratic party. The next characteristic step was to nullify the laws of Congress and draw the sword against the Government presided over by such men as Jackson, Clay, and Webster. Ever since then the turbulent and disunion elements of the Government have made their headquarters in South Carolina.

They were maddened when Calboun failed to effect the fell scheme of secession and have ever since made their patriotism subservient to revenge. The State has no cause to blaint. No slave can escape from her far southern borders. The tariff pays the expenses of the Federal Government, and there is nothing lacking but to keep up a State Government to her liking. The Federal Government, then, does not lay the weight of its little finger upon her, but has to endure her Congress men who swim in whisky and bully all Wash

PROF. WOOD'S HAIR RESTORATIVE .- This Restorative for making the hair grow, stopping its falling out, and restoring gray hair to its original color, is be-coming celebrated. All the quack nostrums are given way before it. Three fourths of the mixtures for reway before it. Three fourths of the mixtures for restoring and beautifying the hair, do it more injury than good. They burn it up—destroy the life of its roots—make the hair fall off, and produce premature baldness, But Prof. Wood's Restorative may be relied upon as containing notbing which can in any manner be injurious to the hair, while its success in accomplishing what it pretends to do has been verified in bundreds of cases. "We see an advertisement in your column of Mrs. Wisolow's Soothing Syrup Now we never said a word in favor of a patent medicine before in our life, but we feel compelled to say to our readers, that this is no humbug—we have tried it, and know it to be all it claims. It is, probably, one of the most successful medicines of the day, because it is one of the best. And those of your readers who have babies can't do better than to lay a supply.

Davis' Pain Killer.

Pain Killer. It is the acknowledged antidote which seldom fails if applied in its early symptoms. No family should be without a bottle of it always on hand. The stain on linen from the use of the Pain Killer is

easily removed by washing in alcohol. Davis' Pain Killer seems particularly efficacious in

holera morbus, bowel complaints, and other diseases to which the natives, of Burmah, from their unwholesome style of living, are peculiarly exposed. It is a valuable antidote to the poison of Centipedes, Scorpions, hornets, &c. REV. J. BENJAMIN, Late Missionary in Burmah.

The truth is that South Carolina never had a scintilla of wisdom, moderation, or conservation, and has now become completely deranged.

We love Tennessee and Kentucky. Their banners have floated over every battle-field, in triumph and glory, and never did either utter a sentiment disloyal to the Union. Their citizens are noble and pratriotic and have ever delighted to honor such men as Clay and Jackson.

Upon these men, even in her better days, South Carolina waged an unceasing and malicious war. What, then, shall we do in this hour of peril? Will Old Whigs abandon the teachings of Clay, and veteran Democrats repudiate the maxims of Jackson, to worship at the shrine of South Carolina, just when her madness and revenge have reached the climax?

SPALDING'S PREPARED GLUE.—Prepared Glue: a very useful and convenient article for housekeepens and others, is "Spalding's Prepared Glue." It is one of those inventions, small in themselves, which, nevertheless, go far in the economies of household management, and are an over-present aid in saving time, expense and trouble. The number of small repairs to furniture, picture-frames, crockery, children's toys, leather, shell and other fancy work, with the almost innumerable uses to which in every household a really good and ever-ready article of this klad may be applied, will at once suggest themselves to the ladies. Damsged book-covers, loosened leaves, dilapidated maps and herbariums, will rer ind the student and book-worn of its value. This Glue is compounded with chemicals which hold it permanently in solution until it is applied, without affecting its strength, and which serve to give the adhesive matter a firmer hold on the surfaces to be unitad, after which they quickly evaporate, leaving the glue to harden with rapidity and tenacity. It is estimated that there are at least five millions of households in the United States, and that an outlay of from one to ten dollars is annually required to make small repairs to furnive alone, apart I from the numerous neglects and make lars is annually required to make small repairs to furni ture alone, apart from the numerous neglects and make shifts that are necessarily resorted to.
