Daily Celegraph. GARRISBURG Monday Afternoon, December 8, 1860.

A STATED MEETING of Friendship Fire Company, No. 1, will be held this evening, at the usual time and place, for the transaction of important business.

ANOTHER RAILROAD ACCIDENT. - The mail train on the Pennsylvania Railroad, coming east on Thursday morning, ran over an employee, belonging to a freight train, cutting off both his legs. The accident occurred at the tunnel, one mile west of Greensburg. We did learn the name of the injured man. -----

A STATED MEETING of the Citizen Fire Engine and Hose Company, will be held at their hall on this (Monday) evening, at seven o'clock. Every member is requested to be present, as business of importance will be transacted. The semiannual nomination of officers for the ensuing term will take place.

MOBTALITY AMONG CHILDREN .- The Mount Joy Herald says that considerable mortality prevails among the children of that borough. and the editor remembers no time when so many were carried off as during the past few months. Many of the cases commenced with that insidious attack, "sore throat," so prevalent just now throughout the country.

THE CAMERON GUARD will meet at the Armory this evening, to make arrangements for participating in the inauguration parade. We hope to see the Guard out with full ranks on the fifteenth of January.

A NEW POFT .--- Mr. Stephen Stiggens, a new contributor to one of our exchanges, has electriffed the publisher by a poem of most supernatural brilliancy-its subject "Washington." The editor read two yards of it, and in a trance of ecstacy selected the following lines for the edification of his readers :--

A three-cornered hat was on his head, And his breeches were sewed with coarse black thread; horse that could trot 1 ke fin And his family name, it was Washington."

----HEAVY VERDICT .- Among the cases tried in Cumberland county at the late term of Court, was one for slander, brought by a Mrs. Campbell against a man named Garver. It was in proof that Garver had, at different times, made slanderous charges against the character of Mrs. Campbell for chastity, for which she claimed damages. As the charges were not sustained by evidence to the jury, Mrs. Cambell obtained a verdict against the defendent for seventeen hundred dollars. The suit was ably contested on both sides, by Messrs. Henderson and Penrose for the plaintiff, and Messrs. Waits and Parker for the defendant. Defendant's counsel made a motion for a new trial.

BEFORE THE MAYOR. - One Wm. Guffee was malicious mischief in kicking and stoning the door of Mrs. Ann McNeal's domicile, and threatening to kill her. He gave bail to appear at Court, and was also bound over in the continue in session until Wednesday evening. sum of one hundred dollars to keep the peace. A stranger named James Burns was picked up on the street late on Saturday night, stupid from the combined effects of frost and whisky. He is a workman on the railroad at Goldsborough-came here to spend thanksgiving-got tenance damaged, and was robbed of his money. The Mayor reprimanded James, and supplied him with a new hat, when he politely bowed his solemnly promised to reform and do better discharged him on parole. We hope John will be faithful to his pledge, ignore tanglefoot, attend to business, provide for his wife and children, and make a man of himself. COUNCIL PROCEEDINGS .--- A stated meeting of Council was held on Saturday evening. A message from the Mayor was presented relative to the bad condition of certain pavements. The President gave notice that a number of bills were presented, and sated that there was no MOREY TO PAY THEM. A motion was made and adopted that no orders be drawn except to pay the salaried officers. Petitions on various subjects were presented. A resolution was adopted that from and after this date the Street Com mittees suspend the purchase of stone and the building of crossings until further ordered by Council. Mr. Shriner appeared and presented a claim for damages sustained by falling into a sewer in progress of construction, which was referred to a select committee. The committee to whom was referred the subject of forestalling, made a report recommending the passage of an ordinance more stringent in its operation than the one now in force, which was adopted. The committee to whom was referred the subject of the appointment of a fire police, made the following report which was adopted : The committee to whom was referred the petition of sundry citizens, asking that three fremen from each fire company in the city be appointed to protect property from the wanton destruction at fires, and from the depredation of thiaves, respectfully recommend to Council that the Ordinance Committee be instructed to

THE UNION PRAYER MEETING will be held in cing at four o'clock, as usual.

SUNDAY SKATING .- A number of juveniles who permit their children thus to desecrate is desired. the holy Sabbath day.

THE TYRONE RAILBOAD .- The Tyrone Star says the extensive trestle work to connect the | ed at the late term of Court of manslaughter, Tyrone and Clearfield Railroad at that place with the Pennsylvania Railroad, is being pushed rapidly forward. The timber is brought a crimes, at the same term, will not be sentenced distance of some fifteen miles.

THE WASHINGTON RIFLES, of Lykenstown, a handsome military company, are making arrangements to visit this city and participate in the inauguration parade. They will be accompanied by the Gratztown Cavalry, and probably by two or three other companies in that tration. Attention to this subject has been section of the county.

CANAL NAVIGATION .--- We believe no time has yet been fixed by the Canal Companies for the suspension of navigation on their respective lines. From present indications Jack Frost will compel them to do so in a very short time. The West and North Branch canals'are already frozen up, and the main line cannot remain open much longer, if the cold snap continues.

CATAWBY BRANDY. - It is stated that there is positive evidence that Catawba Brandy, instead of being distilled from Catawba Wine, as is generally supposed, which would make it cost from six to eight dollars a gallon, is mostly Young men who intend joining the company made by distilling the skins, seeds and pulp of should be present, as it is the intention of the the grape in common whisky, costing about Captain to commence a regular course of drill. | twenty cents a gallon, and the brandy thus made can be sold at three dollars a gallon with large profit. It cannot be drank with any profit at all-to the drinker.

> RELIEF FOR KANSAS SUFFERERS .--- We again remind our citizens of the meeting to be held in the Court room this evening, to devise means for the relief of the famine-stricken people of Kansas territory. Their present suffering condition is the result of an almost total failure of crops the past season. The meeting will be addressed by Mr. Joseph Gardner, an accredited agent of the Kansas Relief Committee, who comes here to tell our people of the sufferings of his fellow citizens in that far-off territory, and to make an appeal in their behalf .-We hope to see a large meeting and a liberal contribution.

THE PREACHERS' ABSOCIATION, alluded to in our last issue, composed of Methodist preachers in this section of the South Philadelphia district, will meet in the Locust street church tomorrow afternoon at three o'clock. The body will sit with open doors, and the public are invited to attend its sessions. Rev. Mr. Elliott, of Lancaster, one of the ablest ministers connected with this Conference, will preach on Tuesday evening, and an eloquent and interesting discourse may be anticipated. The Choir before the Mayor on Saturday, charged with | will entertain the audience with some very excellent music, a new and popular anthem being among the pieces selected for the occasion. It is probable that the Preachers' Association will

ITINERANT MERCHANTS .- The citizens of every city, town and county, are dependent on one another, and a moral responsibility rests upon all, to support those who, following a legiti mate business, have cast their lot with them .into bad company, lost his hat, had his coun- As one stone upon another builds a temple, so the addition of one individual to a community adds to the importance and influence of such community. This speaks well for the tanglefoot. When before the Mayor yesterday local advantages of a place, and for the libermorning John made a pathetic appeal for liber- ality and public spirit of its citizens. But in ty. He had a family dependent upon him, and this age the country is cursed, with a legion of they must suffer if he went to prison. He speculators, who go from place to place, stopping for a few days in one town, and a few in hereafter, and the Mayor finally relented and another, selling dry goods, bogus jewelry, clothing, &c., by auction sale after candle light, and by private sale during the day. These parties do not pay taxes in our city, neither do they leave an adequate proportion of the money they receive, in the community from which they obtain it. But they take from us a large proportion of the ready money in the pockets of our citizens, which, of right, should go into the drawers of our own merchants .--We wish that we could infuse into the spirit of every one, the suicidal policy of patronizing this class of people-could exhibit to every one the fact that every dollar invested beyond the confines of our own city or county, which could be invested here, is an indirect injury to every one living within such range; and although an apparent advantage is obtained by the expenditure, an indirect disadvantage, not only to the buyer, but to all his neighbore, is certain, positive and unavoidable. The goods which such parties offer for sale, are, as a general thing, the refuse stock of superannuated city hcuses, and are interior to those which our home merchants have upon their shelves. An idea is current, that what is sold at auction, must, of necessity, be cheaper than the same goods could be purchased at private sale. This is an erroneous idea. Who has not noticed, in an auction room, the sale of goods at higher rates than reliable firms in the city were selling at? None, unless wilfully blind to what was going on around them. This is a subject which need only be mentioned to attract attention and excite reflection. Our own city of Harrisburg is provided with stores kept by permanent residents, who own property and pay taxes. These are supplied with everything that the people require, and at figures but little over cost price. Then let us patronize them ; and when strolling mendicants visit our city and hang out their red flags, let them have pleaty of fresh air to inhale-crowd not into their rooms, but let their voices echo among the moth and other vermin that accompanied them hither. Patronize your own merchants, in

BOOKS FOR SCHOOLS AND ACADEMIES .- The Constitution of the United States should be read and studied in our schools, and our youth be instructed in regard to the principles of our Government and its general mode of adminislately much urged, and we consider it highly important. M'Kluney's book. "Our Government," a Constitutional manual, is well fitted for this purpose. It is advertised in this paper.

WHAT'S WRONG ?- This morning we received through the Post Office our own paper directed to the "Telegraph, Germantown, Pa." A few days ago we received the Lebanon Courier, directed to Col. Wells Coverly ; and the exchange papers of the State Sentinel and Union froquently find their way into our box. There is evidently something wrong in the Harrisburg Post Office. If some of the clerks imbibed less tanglefoot, they would be in a better condition

to discharge their official duties.

UNITED STATES HOTEL, PHILADELPHIA.-Our friends in the country would do well to remember, when visiting Philadelphia, that the Prince of Landlords, HENRY W KANAGY, formerly of this city, is now keeping this Hotel, corner of

nia Railraod depot. His rates are fifty cents per day less than any second class hotel in the city, whilst his table is equal to any, and his sleeping apartments far surpass them all. The house has been replenished throughout with new and elegant furniture, and faithful and accommodating servants. In a word, the house has assumed and won for itself a new character .--Try it. Col. John W. Brownwell is Superintendent of the house. His gentlemanly and obliging disposition, together with his excellent social qualities, render him an especial favorite with all who are blessed with his acquaintance.

A CHURCE INCIDENT.-People should be a lit-

odist prayer meeting. We shall call him Squiggie by way of concealment. In a short time his countenance lost it usual oily, jolly look, and he became oblivious of the solemnities going on around him. He was plunged in a pro-found reverie over the recent defeat of his party in Maine, which he had been discussing that morning. As he reflected his face naturally elongated, and his jaw dropped. Noticing hisserious and solemn look, and not remem bering ever to have seen him before, one of the breihren took him to be a stranger of a religious turn of mind, and leaned over his bench and remarked :

"Brother, these are refreshing seasons." Squiggle gazed vacantly at the speaker and

state ?"

At the word "state" the eyes of our democratic friend lost their dreamy look, and his jaws clashed into place like a rat trap.

"State!" he exclaimed, bringing down his clenched fist on the back of the questioner's bench, with an emphasis that startled the worthy brother greatly-"Thunder I it's gone black Republican by 15,000 majority !"

A TRIO OF BORERS PHOTOGRAPHED .- The spicy Harrisburg correspondent of the Philadelphia Sunday Atlas, draws some very lively pen portraits. His last letter contains a photographic sketch of a trio of incorrigible "borers" who make this city their head quarters every winter. These sharks have all made money, and their modus operandi is pretty well understood here: It has been ascertained to a certainty, that those distinguished European travelers, James Burns, John B. Beck, and J. P. Anderson, will honor Harrisburg this winter with their presence. During their summer jaunt on the Con-tinent, Burns is said to have considerably improved by studying the writings of Mrs. Opie. Beck comes back with a full supply of Swedish leeches, designed for plethoric railway presi-

dents and others. It was a singular trio to visit Europe together, and they might well bless their good fortune that no iceterg had been specially sent to dip them in the briny deep. Perhaps they have been reserved for some wiser purpose, and that the real intent of the Allegbeny county people at a late meeting, when they denoun-ced the "borers" at Harrisburg, had special re-ference to this "trinity," whose Punic faith has embittered, the entire "Third House" against them. No "Broad street" looms up in the dim vista of the future under their particular management, nor will the dulcet notes of "Jim" be taken any more in the rotunda! His promises, like pie-crusts, are made to be broken, and-"Othello's occupation's gone !"

Pshaw-that old party is "played out." What an idea, that such duplicity should have escaped so long! Had they lived in "Old Virgiony,"

Governor Wise would long since have elevated them to posts of honor !
