CONCENTRATED LEAVEN,
FOR MAKING
Bread, Tea-Cakes, all kinds of Pastry, &c.
MANUFACTURED BY
EDW. CHAMBERLIN & CO.,
Proprietors of Shawmut Chemical Works.
No. 33 INDIA STREET, Boston.

CONCENTRATED LEAVEN is the result of careful chemical research. All its ingredients are prepared in the highest state of purity, and compounded with a view to produce bread of a far better quality, and in much less time, than by any other process; and by the manufacturers submit it, with entire confidence, to the judgment of discriminating housekeepers, bakers, &c.

Bread of all kinds made by using Concentrated Leaven is lighter, more digestible and nutritious; has an agreeable, natural taste; is less liable to sour; will retain its moisture longer than by any other process, and the whole preparation for the oven need not exceed ten minutes.

It is valuable because it is not perishable, and may be rendered available in places and at times when yeast is not within reach, as at sea. In all climates and under all circumstances, it may be adopted, thus obviating all difficulty of procuring yeast or other ferment, which is frequently of an inferior quality, rendering the bread more or less unwholesome.

It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of not less than 16 per cent. In the common process much of the saccharine of the flour is lost by being converted into carbonic acid gas, or spirit, and the waste is incurred solely for the purpose of generating gas to raise the dough. By using Concentrated Leaven this waste is avoided, and the gas obtained in a manner equally efficacious. Fermentation, as has been stated, destroys a part of the flour or meal and, in consequence, a barrel of flour weighing 196 lbs, which, by the common method, ordinarily makes about 250 lbs of bread, gives by this process 290 lbs, thus effecting the very important saving of 16 per cent in the quantity of flour. By conformity to the directions on each package, any person capable of ordinary attention may conduct the process, and the result will invariably be highly satisfactory.

CERTIFICATE FROM DR. HAYES,
Assayer to the State of Massachusetts.

"I have analysed the Concentrated Leaven, manufactured by Messrs. Edw Chamberlin & Co., with reference to its purity and efficiency of action in producing the effect of yeast in distending dough, and thereby rendering it fit for making bread. This article is skillfully compounded, from perfectly pure material. It raises the dough without consuming the sugar or any other principle in the flour, perfectly; and the same weight of flour will produce more sweet, palatable bread than can be obtained through yeast; while for cakes and pastry it is invaluable, as it saves all risk, and much time of the pastry cook.

"The experiments made by me confirm the statements made by the manufacturers, and proves this compound worthy of public approval and extended use.

"Respectfully,
"A. A. HAYES, M. D., State Assayer,
"16 Boylston street, Boston, September 25, 1860."

DIRECTIONS.

BREAKFAST AND TEA ROLLS.—Two or three teaspoonsful of Leaven, (according to the quality of the flour,) to one quart of flour; mix thoroughly by passing two or three times through a sieve; rub in a piece of butter half the size of an egg, and make the paste with cold milk or water, (milk is preferable) barely stiff enough to permit rolling out. Much kneading should be avoided. Cut into forms and place immediately in a hot oven and bake quickly.

LOAF BREAD.—The same proportions of Leaven and flour sifted together as above; omit the butter, and make the paste stiff enough to knead into a loaf, and bake immediately in a slow oven.

GRAHAM BREAD.—Three teaspoonsful of Leaven to one quart of wheat meal, sifted together; and one gill of molasses and two eggs; make the paste thin with milk and bake in a slow oven.

BROWN BREAD.—Three teaspoonsful of Leaven to one pint of flour, and one pint of corn meal, all well sifted together; add two eggs and about a gill of molasses; make the paste thin with milk, and bake slowly.

BUCKWHEAT CAKES.—Flour and milk sufficient to make one quart of batter; add one egg, then three teaspoonsful of Leaven; beat to a froth, and cook quick.

DUMPLINGS.—Sift together one quart of flour and two teaspoonsful of Leaven; rub in a piece of butter half as large as an egg; mix with cold milk or water, and boil ten minutes.

CHAMBER STREET CAKE.—Sift together two large cups of flour and two teaspoonsful of Leaven; put in half a cup of butter and a cup and a half of sugar; mix with cold milk or water to a stiff batter, add spice to suit the taste, and bake immediately.

CINCINNATI SPONGE CAKE.—Two cups of white sugar beaten with the yolks of six eggs—the whites of six eggs beaten to a froth; then beat all together; add three cups of sifted flour, one cup of water, and three teaspoonsful of Leaven; flavor with two teaspoonsful of essence of lemon, and bake in a quick oven.

JUMBLES.—Sift together one quart of flour and three tea-spoonsful of Leaven; rub in one tea-cupful of butter, add a cup and a half of white sugar, and spice to suit the taste; mix stiff enough to roll out, and bake quick.

ELECTION CAKE.—One quart of flour and three teaspoonsful of Leaven sifted together; add a cup of butter, one pound of currants, two cups of white sugar, and one tea-spoonful of cinnamon; mix with cold milk to a stiff batter, and bake in a slow oven.

CORN CAKE.—One pint each of flour and Indian meal and three teaspoonsful of Leaven, well sifted together; add one gill of molasses and two eggs; mix thin with milk, and bake in a slow oven.

CUP CAKE.—Five cups of flour and three teaspoonsful of Leaven, sifted together; add one cup of butter, two of sugar, and two eggs, all well beat together; then add a cup of currants, and spice to suit the taste. Bake about half an hour.

LADIES' CAKE.—Three quarters of a pound of flour and four teaspoonsful of Leaven sifted together; one pound of sugar and six ounces of butter beaten to a cream; the whites of eight eggs well beaten, and the juice of one lemon; mix with milk.

WEBSTER CAKE.—Five cups of flour, three teaspoonsful of Leaven, three cups of sugar, one of butter, one of milk, and two eggs; fruit and spice to the taste. Bake about half an hour.

YOUNG MEN.

Young men especially who have become the victims of solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence.

DR. JOHNSTON

Dr. JOHNSTON member of the Royal College of Surgeons London, graduate from one of the most eminent Colleges of the U. States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the ears and head when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind were cured immediately.

TAKE PARTICULAR NOTICE

Dr. J. addresses all those who having injured themselves by private and improper indulgences, that secret and solitary habit which ruins both body and mind, unfitting them for either business or society.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

MENTALLY.

Mentally, the fearful effects on the mind are much to be dreaded:—Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-distrust, Love of Solitude, Timidity, &c., are some of the evil effects.

Thousands of persons of all ages, can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, have a singular appearance about the eyes, cough, and symptoms of consumption.

YOUNG MEN

who have injured themselves by a certain practice, indulged in when alone—a habit frequently learned from evil companions, or at school, the effects of which are slightly felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body. A child apply immediately.

What a pity that a young man, the hope of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life by the consequences of deviating from the path of nature, and indulging in a certain secret habit. Such persons must, before contemplating

MARRIAGE,

reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed without these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with our own.

DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS

By this great and important remedy, Weakness of the Organs are speedily cured, and full vigor restored.

Thousands of the most nervous and debilitated who had lost all hope, have been immediately relieved. All impediments to marriage, Physical or Mental Disqualification Nervous Trembling, Weakness or Exhaustion of the most fearful kind, speedily cured.

TO STRANGERS

The many thousands cured at this Institution within the last twelve years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the reporters of the papers, and many other persons, notices of which have appeared again and again before the public, *besides his standing as a gentleman of character and responsibility*, is a sufficient guarantee to the afflicted.

DISEASE OF IMPRUDENCE.—When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, affecting the head, throat, nose, skin, &c., progressing on with frightful rapidity, till death puts a period to his dreadful sufferings by sending him to "that bourne from whence no traveller returns." It is a melancholy fact that thousands fall victims to this terrible disease, owing to the unskillfulness of ignorant pretenders, who, by the use of that *deadly poison, mercury* ruin the constitution and make the residue of life miserable.

To Strangers.—The Doctor's Diplomas hang in his office.

The Horrors of the Papal Prison.

The Florence Nazione presents us with the summary of a little work, entitled the "Prisons of Paliano." It is the record of the experience of several political prisoners, written in the Pontifical dungeons of Paliano. These tombs for the living are now, thanks to recent events, empty. One prisoner writes:

In the fort of Paliano there are about two hundred political prisoners, dressed like the criminals condemned to the galleys, and, like them, shaved. They are divided into five sections. Those condemned for life are shut up in cells, about nine spans wide and about sixteen long, including the little table of brickwork. Other cells about three spans wider, contain three prisoners; and others, not much larger, have seventeen all huddled together. In the first of these there is a small grating over and opposite the door, through which the food is introduced. The other cells have one window, and sometimes two, with an opening of about four spans in breadth and one in height, and through this the prisoners are fired upon if it be necessary to keep them quiet. The food and hospital arrangements were villainous. The patients are neglected and ill-treated. The medical attendants will hardly ever send a patient to the hospital, and when they do send him they always keep him on strict diet.

Perhaps they have a secret understanding with those who contract for the food. One day, when some complaints were made on account of the bad soup in the hospital, the person who made the complaint was taken by two keepers, and by dint of blows and kicks, was forcibly thrust along into the darkest dungeons, and there detained many days by order of the governor.—When some prisoner at the point of death refuses to receive a confessor, he is removed into a solitary cell, and there, after having heaped on him a thousand outrages, orders are given to one of the lowest turnkeys to kill him by suffocation. The fact is known from the confession of the turnkey himself, who, on one occasion, refused to be a party to this barbarity. The corpse is interred in the interior of the fort, and the governor is present at the funeral.—Sometimes he gives a kick to the head of the corpse, and commits similar outrages.

The following is the testimony of another victim of Papal misrule:

"Whilst I was an inmate of this den of horrors, a wife with her little boy obtained permission to see her husband. It was ten years since the Papal government had torn her husband from her embrace; the boy had never known his father, for he was born after the arrest. Neither the prayers of the afflicted wife, nor the tears of the tender child, nor the sobbings and despair of the unhappy father, could induce the governor to allow them but one embrace—to let them mingle their tears together. It would be impossible to describe the rigors and the tortures, always new and increasing, which have been invented to augment the sufferings of the prisoners after the last fatal attempt at flight. In order to prevent the political prisoners from holding the slightest communication with the outer world, recourse was even had to the very strange and absurd expedient forbidding the physician (although an individual completely subservient to the government) from personally visiting the sick in prison. He was to treat them on the report of a creature who but a short time before had been in the galleys, and was transferred thence to perform the office of an hospital attendant.

This liberated galley-slave felt the pulse, made his diagnosis, drew his conclusions, and the physician mean
