Feeling confident that another 1 rge bottle would restore it entirely and permanently, I feel anxious to persevere in its use, and being desting of means to purchase more, I would ask thee if thee wouldst not be willing to send me an order on thine agents for a bottle, and receive to thyself the scripture declaration—"the reward is to those that are kind to the widow and fatherless."

It must be obvious not only to you, but to every attentive and intelligent person, that the first diseases of infants arise chiefly from a disordered condition of their bowels, and in this connection, we present to your notice for the alleviation and cure of these diseases, a remedy known as

# DR. EATON'S INFANTILE CORDIAL,

Prepared from a formula used by Dr. Eaton with re-markable success during several year's practice, we know it to be a most reliable and efficacious remedy for injantile complaints, and one trial alone will convince you of its superiority over every other preparation of the kind. It is particularly recommended

For Children Teething.

And at this period of infantile life, when your anxious hearts are pained by witnessing the sufferings of your little ones, it will be found invaluable in Softening the Gums, Reducing Inflammation, and Retieving all Pain. For Diseases extending. Teething, such as Diarrhood, Discontery, Griging in the Bowels, Acidity of the Stomach, Wind, Colic, and Cond in the Head, we confidently offer this as a certain relief and cure in every case when given in time. It will invariably regulate the stomach and bowels, and its importance in this respect can hardly be estimated.

IONS, by their alterate effect upon the fluids that feed household word." We now ask your attention to a subthe skin, and the morbid state of which occasions all ject of vital interest to yourself, as well as to your suffereruptive complaints, sallow, cloudy, and other disagreeable complexions.

The state of vital interest to yourself, as well as to your suffering child. Dr. Eaton's Infantile Cordial contains? No Morphine or Opiate,

of any kind, or of whatever nature, we a fact which we are fully warranted in stating cannot be said of any other preparation for infantile diseases, at this time before the public. We find that throughout the country, Mothers are becoming convinced of this truth, and of the said and highlighting consequences which are certain to result from the use of narcotics disguised in the form of quieting remedies; their continued administration being invariably followed by stupefaction, and constipation of the bowels, ending oftentimes in convulsions. Herein Dr. Earon's infantile Cordial differs from every other remedy. It

Does Not Constipate the bowels, neither does it act by deadening the sensibilities of your children, but naturally, through its rare
medicinal qualities, by removing all pain and cause of
disease. We earnestly recommend you, therefore, to

THE
ONLYPREPARATION OF LANGUAGES.—There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own; thus the word Cophalic, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spalding's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as Electricity and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born"

#### 'ardly Realized.

Hi 'ad 'n 'orrible 'eadache this hafternoon, hand I stepped luto the hapothecaries hand says hi to the man, "Can you hease me of an 'eadache'?" 'Does it hache 'ard' 'says'e. "Hexceedingly," says hi, hand upon that 'e gave me a Cephalic Fill, hand 'pon me 'onor it cured me so quick that I 'ardly realized I 'ad 'ad an 'eadache.

The source of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz.—Symptomatic and Idiopathic. Symptomatic Headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach constituting sick headache, of hepatic disease constituting billious headache, of worms, constipation and other disorders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with Headaches, Anæmia and plethora are also affections which frequently occasion headache. Idiopathic Headache is also very common, being usually distinguished by the name of nervous headache, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instances it comes on slowly, heralded by sometimes rowoking vomiting; under this class may also be named Neuralpia.

For the treatment of either class of Headache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in a few minutes, and by its subtile power eradicating the diseases of which Headache is the unerring index.

FRIDGIT.—Missus wants you to send her a box of Cephalic Glue, no, a bottle of Prepared Pills,—but I'm thinking that's not just it naither; but perhaps ye'il be afther knowing what it is. Ye see she's nigh dead and gone with the Sick Headache, and wants some more of that same as relaived her before.

#### Constipation or Costiveness.

No one of the "many ills flesh is beir t?" is so prevalent, so little understood, and so much neglected as Costiveness. Often origin ating in carclesness, or sedentary habits; it is regarded as a slight disorder of two little consequence to excite anxiety, while in reality it is the precursor and companion of many of many of the most fatal and dangerous diseases, and unless early eradicated it will bring the sufferer to an unlinely grave.—Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheumatism, Foul Breath, Piles and others of like nature, while a long train of frightful diseases such as Malignant Favers, Abcesses, Dysentery, Diarrheas, Dyspepey, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochoudriasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Constipation, but take on an independent existence unless the cause is craditated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expect the insiduous approach e disease and destrey this daugerous foe to human life.
