PROF. A continual course of suffering through life having reduced me to a state of dependence, I having not been able to do them up, in consequence of which my head has suffered extremely from cold. This induces me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative about the first of August last. I have attibility followed the directions and the bald spot is now covered with hair thick and black, though short; it is alwoe coning in all over my kead. The attention of invalids, Physicians, Clergymen's selentific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing Iron, Sulphur and Phosphor us, and which is identical in its composition with the Hematic Globule, or red blood. In all diseases accompanied with

Debility,

pale countenance and nervous derangement, analysis of the blood show a deficiency of the red globules. Ruddy-complexion and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and counte nance,—which evinces a deficiency of the red globules,—accompanies a diseased organism. Preparations of Iron have been given for the purpose of supplying the red globules, but we contend that Iron alone, Sulphur alone, or Phosphorus alone, will not meet the deficiency in every case, but that a judicious combination of ALL these elements is necessary to restore the blood to its normal standard. This point, lever before attained, has been reached in the Blood Rood, and its discovery ranks as one of the most scientific and important of the age. Its effects in

The Amalgamation of Languages.—There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own; thus the word Cophalic, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spalding's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as Electritype and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born"

**BT Hradour is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz -Symptomatic and Idiopathic Symptomatic Headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach constituting sick headache, of hepatic disease constituting billious headache, of worms, constipation and other disorders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with Headaches, Amemia and plethora are also affections which frequently occasion headache. Idiopathic Headache is also very common, being usually distinguished by the name of nervous headache, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or accribity of temper. In most instances it comes on slowly, heralded by depression of spirits or accribity of temper. In most instances in the front of the head, over one or both eyes, and sometimes proyoking womiting; under this class may also be named Yeuralyia.

For the treatment of either class of Headache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in a lew minutes, and by its subtile power eradicating the diseases of which Headache is the unerring index.

l RIDGET.—Missus wents you to send her a box of Cephalic Glue, no, a bottle of Prepared Pills,—but I'm thinking that's not just it naither; but perhaps ye'll be after knowing what it is. Ye see she's night dead and gone with the Sick Headache, and wants some more of gone with the sick Headache, and wants some more of that same as relaived her before.

Druggist.—You must mean Spalding's Cephalic Pills.

Bridget.—Och I sure now and you've sed it, here's the quarter and giv me the Pills and don't be all day about it aither.

Constipation or Costiveness.

Constipation or Costiveness.

No one of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as Costiveness. Often origirating in careles mess, or sedentary habits; it is regarded as a slight disorder of two little consequence to excite anxiety, while in reality it is the precursor and companion of many of many of the most fatal and dangerous diseases, and unless early eradicated it will bring the sufferer to an untimely grave.—Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheumatism, Foul Breath, Piles and others of like nature, while a long train of rightful diseases such as Malignan-Favers, Abcesses, Dysentery, Diarrhesa, Dyspepsy, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondriais, Melanchity and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the disease named originate in Constipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will exper the insiduous approach—edisease and destrey this dargerous foe to human life.

A Real Blessing.

Physician.—Well, Mrs. Jones, how is that headache? Mrs. Jones.—Gone! Doctor, all gone! the pill you sent cured me in just twenty minutes, and I wish you would send more so that I can have them handy.

Physician.—You can get them at any Druggists. Call for Cephalic Pills, I find they never fail, and I recommend them in all cases of Headache.

Mrs. Jones.—I shall send for a box directly, and shall tell all my suffering friends, for they are a real blassing.

TWENTY MILLIONS OF DOLLARS SAVED .- Mr. Spalding has TWENTY MILLIONS OF BOILLIES SAYED.—Mr. Spalding has sold two millions of bottles of his celebrated Prepared Glue and it is estimated that each bottle saves at least ten dollars worth of broken furnishire, thus making an aggregregate of twenty millions of dollars rectained from total loss by this valuable invention. Having made his Glue a household word, he now proposes to do the world still greater service by curing all the aching, heads with his Cephalic Pills, and if they ere asgood as his Glue, Headaches will soon vanish away like snow in July.

The Over Excurrency, and the mental care and anxiety incident to close attention to business or study, are among the numerous causes of Nervous Headashs. The disordered state of mind and body incident to this distressing complaint is a fatal blow to all energy and ambition.
