IMPURE BLOOD!

The blood is the life! and when any foreign or unbealthy matter gets mixed with it, it is once distributed to
every organ of the body. Every nerve feels the poison,
and all the vital organs quickly complain. The stomach
will not digest the food perfectly. The liver ceases to
secrete a sufficiency of bile. The action of the heart is
weakened, and so the circulation is feeble. The lungs be
come clogged with the poisonous matter; hence a cough
—and all from a slight impurity of the fountain-head of
life—the Blood! As if you had thrown some earth, for
instance, in a pure spring, from which ran a thy rivulet
in a few minutes the whole course of the stream be,
comes disturbed and discolored. As quickly does impure
blood fly to every part, and leave its sting behind. All
the passages become obstructed, and unless the obstruction is removed, the lamp of life soon dies out.

These pills not only purify the blood, but regenerate all
the secretions of the body, they are, therefore, unrivalled

Prof. Wood: Thee will ple so accept a line to inform thee that the hair on my hend all fell off over twenty years ago, caused by a complicated chrone disease, attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I having not been able to outher up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative about the first of August last. I have initially followed the directions and the bald spot is now covered with hair thick and black, though short; it is also coming in all over my kead. TER AMAIGAMATION OF LANGUAGES.—There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own; thus the word Cephalic, which is from the Greek, signifying "for the head," now becoming popularized in connection with Mr. Spalding's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as Fleetretype and many others whose distinction as foreign words has been wern away oy common usage until they seem "native and to the manor born"

me so quick that I 'ardly realized I 'ad 'ad an 'eadache.

\*\*Headache is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, tilt too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz:—Symptomatic and Idiopathic Symptomatic Headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach constituting sick headache, of hepatic disease constituting bilkings headache, of worms, constipation and other disorders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with Headaches, Anamia and plethora are also affections which frequently occasion headache. Idiopathic Headache is also very common, being usually distinguished by the name of nervous headache, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or ucerbity of temper. In most instances it comes on slowly, heralded by sometimes provoking vomiting; under this class may also be camed Neuralgia.

For the treatment of either class of Headache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in a few minutes, and by its subtile Jower eradicating the diseases of which Headache is the unerring index.

i RIGGET.—Missus wants you to send her a box of Cephalic Giue, no, a bottle of Prepared Pills,—but 1'm thinking that's not just it naither; but perhaps ye'll be aftner knowing what it is. Ye see she's nigh dead and gone with the Sick Headache, and wants some more of that same as relaived her belove.

Druggist.—You must mean Spalding's Cephalic Pills.

Bridget.—Och I sure now and you've sed it, here's the quarter and giv me the Pills and don't be all day about it sither.

Constipation or Costiveness.

No one of the "many ills flesh is beir to" is so prevalent, so little understood, and so much neglected as Costiveness. Often origit ating in carole shees, or sedentary habits; it is regarded as a slight disorder of two little consequence to excite anxiety, while in reality it is the precursor and companion of many of many of the most fatal and dangerous diseases, and unless early eradicated it will bring the sufferer to an untimely grave.— Among the lighter evils of which costiveness is the usual attendant are Headache, Colie, Rheumatian, Foul Breatn, Piles and others of like nature, while a long train of frightful diseases such as Malignant Favers, Abcesses, Dyseniery, Diarrhoa, Dyspepsy, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Constipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it cocurs, and no person should neglect to get a box of Cephalie Fills on the first appearance of the complaint, as their timely use will expect the instituous approach o disease and destrey this dangerous foe to human life. Constipation or Costiveness.

# A Real Blessing.

Physician.—Well, Mrs. Jones, how is that headache?

Mrs. Jones.—Gone! Doctor, all gone i the pill you sent cured me in just twenty minutes, and I wish you would send more go that I can have them handy.

Physician.—You can get them at any Druggists. Call for Cephalte Pills, I find they never fall, and I recommend them in all cases of Headache.

Mrs. Jones.—I shall send for a box directly, and shall tell all my suffering friends, for they are a real blassing.

Twenty Millions of Dollins Saved.—Mr. Spalding has sold two millions of bottles of his celebrated Prepared Glue and it is estimated that each bottle saves at least ten dollars worth of broken furniture, thus making an aggregregate of twenty millions of dollars reclaimed from total loss by this valuable invention. Having made his Glue a bousehold word, he now proposes to do the world still greater service by curing all the aching heads with his Cephalic Pills, and if they are as good as his Glue, Headaches will soon vanish away like snow in July.

OVER FXCITEMENT, and the mental care and anxie. \*\*AP\*OVER FXCIENTA, and the mental care and anxiety incident to close attention to business or study, are
among the numerous causes of Nervous Headache. The
disordered state of mind and body incident to this distressing complaint is a faital blow to all energy and ambition. Sufferers by this disorder can always obtain
speedy relief from these distressing attacks by using one
of the Caphalie Pills whenever the symptoms appear.—
