HE inventor and manufacturer of "Judson's Mountain Herb Pills," has spent the greater part of his life in travelling, having visited nearly every country in the world. A very interesting account of his adventures there, you will find in our Almanac and Pamphlet.

It is an established fact, that ail diseases arise from

MPURE BLOOD:

The blood is the life! and when any foreign or unhealthy matter gets mixed with it, it is once distributed to every organ of the body. Every nerve feels the poison, and all the vital organs quickly complain. The stemach will not digest the food perfectly. The liver ceases to, secrete a sufficiency of bile. The action of the heart is weakened, and so the circulation is feeble. The lungs be come clogged with the poisonous matter; becen a cough —and all from a slight impurity of the founts in-head of life—the Blood! As if you had thrown some earth, for instance, in a pure spring, frem which ran a tiny rivulet. life—the Blood! As it you had thrown some earth, for instance, in a pure spring, frem which ran a tny rivulet in a few minutes the whole course of the stream be, comes disturbed and discolored. As quickly desc impure blood fly to every part, and leave its sting behind. All the passages become obstructed, and unless the obstruction is removed, the lamp of life soon dies out.

These pills not only purify the blood, but regenerate all the secretions of the body, they are, therefore, unrivalled

BATHE CREEK, Mich., Dec. 21, 1860.

PROF. Wood: Thee will ple. so accept a line to inform thee that the hair on my bend all fell off over twenty years ago, caused by a complicated chronic disease, attended with an eruption on the head. A continual course cf-suffering through life having reduced me to a state of dependence, I having not been able to on them up, in consequence of which my head has suffer destremely from cold. This induced me to pay Briggs & Hodges almost the last cert I had on earth for a two dollar bottle of thy Hair Restorative about the first of August last. I have lainfully followed the directions and the bald spot is now covered with hair thick and black, though short; it is also eoming in all over my kead. BLOOD FOOD.

The attention of invalids, Physicians, Chergymou, scl; entific meh, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing from, Sulphur and Phosphous, and which is identical n its composition with the Hematic Globule, or red blood. In all diseases accompanied with

Debility,

pale countenance and nervous derangement, analysis of the blood show a deficiency of the red globules. Ruddy-complexion and a rosy tlut of the skin, is always indicative of health; while a pair, wax like skin and countenance,—which evuces a deficiency of the red globules,—accompanies a discased organism. Preparations of Is on have been given for the purpose of supplying the red globules, but we contend that Iron alone, Sulphur alone, or Phosphorus alone, will not meet the deficiency in every case, but that a judicious combination of an these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the Biood Food, and its discovery ranks as one of the most scentific and important of the age. Its effects in

Consumption are to solien the cough, brace the nerves, strengthen the system, allay the prostrating hight sweats, increase the physical and mental energy; enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton frame with firsh. The Blood Food will be found a specific in all Chronic Diseases of the Thront or Lungs, such as Asthma, Bronchitis, Coughs, &c. Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In Dyspepia, Liver Complaints, Dropsy, Epilepsy, Paralysis, Scriptia, Gravel, St. Vitus' Dance, Iever and Ague, &c., its efficacy is marked and instantaneous. In no class of disease, however, are the beneficial effects of this remedy so conspicuous as in those harrassing

Headaches may be classified under two names, viz.—Symptomatic and Idiopathic Symptomatic Headache is exceedingly common und is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the atomach constituting sick headache, of hepatic disease constituting billious headache, of worms, constipation and other diserders of the bowels, as well as renal and uterine affections. In most instances it comes on slowly, heralded by appression of spirits or acerbity of temper. In most instances it comes on slowly, heralded by the ramed Neuralgia.

Constipation or Costiveness.

Constipation or Costiveness.

No one of the "many ills flesh is bear to" is so prevalent, so little understood, and so much neglected as Costiveness. Often originating in carcle senes, craedentary babits; it is regarded as a slight desorder of two little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and unless early gradicated it will bring the sufferer to an untimely grave.—Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheum ation, Foul Breatm, riles and there of like nature, while a long train of frightful diseases such as Malagnan Favers, Abcesses, Dysentery, Inarrhoa, Dyspeigy, Apoplexy, Epigesy, Paralysis, Hysie ia, Hyposhoudriasis, Melancholy and insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in C netipation, but take on an independent existence unlass the came is eradicated in an early stage. From all these considerations it collows that the disorder should receive immediate attention whenever it occurs, and no person sheuld neglect to get a box of Caphalic Pills on the first sppearance of the complaint, as their timely use will expect the incidious approach o disease and destrey this dar gerous foe to human life.

A Real Blessing.

Physician.—Well, Mrs. Jones, how is that headache?

Mrs. Jones.—Gore! Doctor, all gone! the pill you sent cured me in Just twenty minutes, and I wish you would send more so that I can have them handy.

Physician.—You can get them at any Druggists. Call for Cephalio, Pills, I find they never fail, and I recommend them in all cases of Headache.

Mrs. Jones.—I shall send for a box directly, and shall tell all my suffering friends, for they are a real blassing.

TWENTY MILLIONS OF DOLLARS SAVED.—Mr. Spalding has sold two millions or bottles of his celebrated respured Glue and it is estimated that each bottle saves at least ten dollars worth of broken turniture, thus making an aggregregate of twenty millions of dollars reclaimed from total loss by this value be invention. Having made his Glue a bousehold word, he now proposes to do the world still greater service by curing all the aching heads with his Cephalic Pile, and if they are sagood as his Glue, Headaches will soon vanish away like snow in July.

BE OVER EXCERNENT, and the mental care and anxie-ASOUTH EXCITEMENT, and the mental care and anxiety incident to close attention to business or study, are among the numerous causes of Nervous Headache. The disordered state of mind and body incident to this distressing complaint is a fatal blow to all energy and ambition. Sufferers by this disorder can always obtain speedy relief from these distressing attacks by using one of the Cephalie Pills whenever the symptoms appear. It quiets the overtasked brain, and soothes the strained and jarring nerves, and relates the tension of the stomach which always accompanies and aggravates the disordered condition of the brain.

FACT WORTH KNOWING.—Bpalding's Cephalic Pills are a certain cure for Sick Headache, Billious Headache, Nervous Headache, Lostiveness and General Debility.

Genar Discovery.—Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for projection from Small Pox; the Cephalic Fill for relief of headache, and the use of Quinine for the prevention of Fevers, either of which is a sure specific, whose benefits will be experienced by suffering humanity long after their discoverers are forgotten.

Applin you ever have the Sick Headache? Do you remember the throbbing temples, the fevered brow, the loathing and disgust at the sight of food. How totally unit you were for pleasure, conversation or study. One of the Cephalic Pills would have relieved you from all the suffering which you then earlerienced. For this and other purposes you should always have a box of them on hand to we as a occasion remires. other purposes you should alway hand to use as occasion requires.

By the use of these Pills the periodic attacks of Ner ous or Sick Headache may be prevented; and if taken a the commencement of an attack immediate relief fre pain and sickness may be obtained.
