EXACTLY. - Men will always be apt to think the money market "tight" if they are in the unfortunate habit of getting so themselves.

HEBREW FESTIVAL.—The Feast of Lights, or the days of dedication, now being celebrated by our Hebrew population, will continue until tomorrow evening.

LARGE DEER. —A deer weighing four hundred and two pounds, was recently shot near Big Pond Furnace, on the South Mountain, in Cumberland county. The animal was supposed to be about seventeen years old, and no doubt its meat equalled in toughness some of the beef sold in our market.

To PREVENT COLD FEET .-- If you have cold feet, immerse them morning and evening in cold water, and rub with a rough towel. In one month you will be entirely relieved. All the red pepper and mustard applications are like rum to the stomach, relieve you to-day, but leave you colder to-morrow.

Another Wild Cat Shot.—A few days ago a in this region lately.

MEN AND ANIMALS .- How superior are men in intellect and moral qualities to the animal months. creation! For example, let a bird discover a store of seeds or fruit, and the foolish thing goes and tells of his good fortune, and all the birds in the neighborhood flock to enjoy it. Even a little ant will bring his whole tribe to feast upon a newly-discovered dainty. But let a man discover a mine of gold, or any kind of valuable treasure, and he will keep it to himself as long as possible, and take the greatest care to conceal it from others.

DANDY .- A specimen of the human family that passes for a man among women, and for a woman among men. His upper lip is tied on with a moustache, while his whole accupation consists in toting a little whale-bone cane up and down Market street. Here is an old epigram on the dandy that is very good, considering the poverty of the subject:

"Your boo's my friend, unlike to mine, with polished lustre brightly shine; Had you bestowed such studious pains To gloss the dul ness of your brains, It would not then by all be said, 'How much his feet colipse his head!'?'

Asking Alms .- The presence of the cold the heart melts as it contemplates the wretchgiver and the needy. But let deception con- | class is more numerous than people dream of. tinus rather than any human being in the city should absolutely suffer from want. If charity refrain from giving, because they despair of any change in the fortunes of this class of society for the better. The poor are always with us,

and it is our duty to provide for them. "Shinny."-There are few Harrisburgers, we imagine, who understand what is meant by Mr. has been indisputable—played more than one game of "shinny." We do not allude to the shinny necessary to meet the I. O. U's. that the banks always send a polite notice of, but the game of "shiuny" as played in olden time, and which is one of the most healthful and exciting games we ever engaged in. It is played by any number of persons, from two to one hundred. Each player being provided with a stout stick, some three or four feet long, the lower end heaviest and curved in shape somewhat like an umbrella handle, forming about one third of a circle. The players are placed on each side of a line, and a base, or as it is mostly called a "bounce," is selected for each party, about a hundred yards apart .--These preliminaries setted, the parties toss for the ball, and the winning side place it on their bounce. One of their best players then starts it by striking it with his "shinny stick." And now commences the play in earnest, each player striving with all his might to keep the ball from reaching the "bound" of his own party, and if possible to send it to that of the opposite party. Sometimes a ball is kept in motion ten or fifteen minutes before it reaches either of the bounces, but when it is sent home to either side the game is ended, and a victorious shout is usually sent up by the successful side. During the play each party must keep on his own side of the ground, or else take the consequences of being hit on the shins by some one of the other party, which, according to the rules of the game, is allowable. At such time the party dealing out the punishment calls out, "shinny on your own side." We presume that the danger to shins has given the name of "shinny" to the game. We notice by our exchange papers that this old-time game has been revived in various places, and we can say for it that the use of "shinny sticks" will be found a far more effective medicine for dyspeptics than all the nostrums and "dumb bells" that were ever gotten up. Let us have a shinny club in Harrisburg. Who of our young men will lead off in the movement? The sticks can be procured in Philadelphia, or manusactured at home, and will cost but a trifle.

ALL in want of cheap Christmas and New Year's presents should call at Bergner's.

At Home -Our Senator in Congress, Hon. mon Cameron, is now at home, having arrived from Washington this afternoon will probably remain until Monday.

A RUBAL POET, in describing his lady love, says, "She is as graceful as a water lilly, while her b cath is like an armful of clover." case is certainly approaching a "crisis."

NO PREACHING IN THE COURT ROOM. - On account of Rev. A. X. Shoemaker being engaged in bolding a protracted meeting at Wormleysburg, there will be no preaching in the Court Room on Sunday next.

BAND CONCERT .- The Concert of the State Capital Band, alluded to in a recent issue, will come off on Saturday evening of next week. The members of the Band are now practising a number of new and popular airs for the occasion, and the lovers of music may confident ly anticipate a pleasant entertainment.

A Hog-ish Trick.—The other night some person or persons stole a fresh-slaughtered hog, the property of Mr. Samuel H. Ettla, from a butcher shop somewhere in the upper section of the city. The animal weight dover two hundred pounds. The stealing of it was a very hog ish trick, and we hope the thieves will be detected and properly punished.

WENT TO PRISON .- At a late hour last night Alfred Packer, son and Private Secretary of the Governor, was found at a disreputable institution somewhere in the city, excessively inebriated and indulging in violent spirit-ual manifestations. He was arrested by officer Lewis, and taken before Alderman Maglaughlin, who committed him to prison for twenty-four hours .-This morning, however, the Keeper or some of the Directors of that institution, restored him to liberty. This young man narrowly escaped going before Judge Pearson at the late term of season has already increased the number of | Court, and he does not seem to have profited beggars in our city. > A Union Meeting in this city is talked of .-As the people here are all Unionists, no necessity exists for such a demonstration. If there be dough-faced politicians in our midst who desire to crawl on their bellies and eat dirt, let them hold a special meeting for that purpose. The mass of our citizens have ever been, are now, loyal to the Union and the Constitution, and will indignantly frown upon every treasonable attempt to destroy the one or violate the other. They have an abiding faith in the perpetuity of the Union, and are not affected by the "scare" gotten up by Southern fire-eaters and their Northern dough-faced allies, to bully the Northern people into an abandonment of principle, and force from them unjust and humiliating concessions.

forward to, and think about-make it a resting-

place-and you may depend upon it, life will

be a pleasanter affair to you!

The Union's safe! Ye need not fear That words from babbling tongues distilled Will check her in her preud career, Till her grand mission is fulfilled.

Most of the so-called Union demonstrations in the North are Locofoco meetings in disguise; and if our Republican friends are wise they will keep their feet out of the trap set to ensnare them. The whole movement is a cunningly devised trick to galvanize the defunct carcass of Locofocoism, and re-organize that corrupt party for the campaign of 1864, with wiew to the recovery of the spoils in which they rioted for so many years. The object of these meetings is not so much to "save the liate the offence, attributing it to an attack of Union," as to destroy the Republican party .--The design of these "Union savers" is as palpably evident to every intelligent man who notes the signs of the times, as if written upon

the heavens with a pencil of sunbeams: "The painted hypocrites are known Through the disguise they wear."

"A FATHER'S" communication was not "concoted where it was published," but written by an old and highly esteemed citizen, who is a defence, if so inclined...

WINTER SPORTS .- Several ponds in the vicinity of this city are now frozen over, affording in the way of skating. This forenoon we saw a jolly crowd of them gliding swiftly and gracefully over the glassy surface of one of these ponds, and they seemed to enjoy the sport immensely. All boys, and girls too, should be encouraged to indulge in this exhilarating and healthful exercise.

DOES SMOKING CAUSE CANCERS ?- It has been ndustriously circulated lately that the great increase of cancers, especially upon the lips, is caused by the habit of smoking tobacco. But scientific medical men, who have investigated the matter, dispute this theory, and although they consider smoking pernicious, they are of the opinion that it does not produce cancerous affections of any kind.

PAY OUT YOUR CHANGE.—Silver change is be coming somewhat scarce in this community, and business operations are frequently embarrassed for the want of it. "Scary" people are evidently sinking it in their long stockings and strong boxes, and offering five dollar bills in payment of every little quarter or half dollar purchase they make. There is an abundance of specie in the country, if people would only fairy and freely pay it out in their business transactions with each other, and this they will eventually be obliged to do, or inaugurate a shin-plaster era, should the suspension continue for any length of time.

Foreign Music .- A writer for one of our exchange papers, in a very sensible article deprecating the popular appreciation for opera music, says the following, which will be very generally recognized as a valuable home truth:

"Making allowance for peculiar tempera-ments, and for the power of fashion, and for the force of an acquired taste, we unhesitatingly declare our belief that a great part of the apparent popularity of foreign music abides in affectation. Italian music is not the music of the American heart, and has no ministry to the American heart. We hear it, and if it be well sung, we admire it - possibly wonder at it - but no more, or rarely more; yet we have not heard a lady voluntarily sing a good old English or a Scotch ballad, or an American song for a year. Ask for a song, and they pitch in to something that bears no more relation to the Anglo Saxon race than ''Old Dan Tucker'' does to the Hebrew.

last evening, we happened to see a man waiting at the door for admittance. At the instant, a green blind above just opened a little way, and by the gas light we caught a glimpse of a pair of brilliant eyes, and a flutter of something white, and a bird-toned voice softly said, "Who's there?" "It's me," was the brief rewas the brief re-The eyes and the flutter disappeared from the window, like stars in a cloud, and we almost fancied, as we passed on, we could hear the pattering of two little feet upon the stairs. winged with welcome. It was a trifle; it all uht the tree : "Defender of the Faithful," in the best sense of the word. "It's me!" Many are there who would give half their hearts, and more than half the hope in them, for one such recognition in this "wide, wide world." On 'Change, in the Directory, at the Post Office, he was known as A. B. C, Esq.; but on that threshold, and within those walls, "it's me," and nothing more; and what more is there one would love to be? Few of all the hearts that beat so wildly, warmly, sadly, slowly, can recognize a a true soul amid the din and darkness of the world, in that simple but eloquent "it's me."

As if he had said,

Now I am nothing to all the world,

For I am all the world to thee.

The Oil Regions of Pennsylvania

The oil regions of Pennsylvania seem to be rather more extensive than was at first suppsed. Wells have been sunk in Venango, War-Mercer, and many other western counties, and there are no less than four famous points known as Mecca, Oil Creek, Titusville, and Tideout. Of the three latter a great deal has been published, but Mecca, which is less known appears to be hardly less important. From a statement in the Pittsturg Evening Chronicle we learn that since the first well was sunk there, in February last, between six and seven hundred wells have been put down at an aggregate cost of \$48,750, and two weeks ago there were seventy-five engines in operation pumping oil. Each well involves an outlay of from \$1000 to \$1200 for engine, pump and vats. They produce from three to twelve barrels of oil a day each, except those of Hoxie & Wilson, and Skeele & Co., which yield from ifty to one hundred barrels a day, the average being for these two about seventy-five barrels a day. The oil sells at twenty-five cents a gal-lon. During the past summer about one hundred and fifty buildings have been erected there, including hotels, boarding houses, dwellings and stores. Land which in January last could have been bought at from twenty-fivet o thirty dollars an acre, is now selling at three hundred per acre. In fact the oil discoveries have been already of immense value to Western Pennsylvania, and are peopleing the forests and rearing up towns and villages.

HAS SEEN BRIGHTER DAYS .- Poor Tom Marshall! We heard of Tom, a few weeks ago, he was "down East," having turned over a new leaf, and was delivering temperance lectures. He had announced his determination to cheat the lunatic asylum out of at least one victim In a late number of the Cincinnati Enquirer we find the name of poor Tom in the police records of that city, alluded to as a "red-faced, blotch-nosed, dilapidated individual, accuse of drunkenness." When asked what he ha When asked what he had rheumatism, and making an eloquent appeal to the Court for clemency. I beg leave to call the attention of the citizens of the United States to the above Wires and Logoos, imported by Udolpho Wolfe, of New York, whose name is familiar in every part of this country for the purity of his celebrated Schradma Schmarrs. Mr. Wolfe, in his letter to me, speaking of the purity of his wines and Liquoss, says: "I will stake my reputation as a man, my standing as a merchant of thirty years' residence in the City of New York, that all the Brand and wires which I bottle are pure as imported, and of the best quality, and can be relied upon by every purchaser." Every bottle has the proprietor's name on the wax, and a lac simile of his signature on the certificate. The public are respectfully invited to call and examine for themselves.—For sale at Retail by all Apothecuries and Grocers in Philadelphia.

No. 832 Market St. Philadelphia. Sole Agent for Philadelphia. Read the following from the New York Courier: ENORMOUS BUSINESS FOR ONE NEW YORK MERCHANT.— We are happy to inform our fel ow-citizens that there is one place in our city where the physician, apothecary, and country merchant, can go and purchase pure Wines and Liquors, as pure as imported, and of the best quality. We do not intend to give an elaborate description of this and Liquors, as pure as imported, and of the best quality we do not intend to give an elaborate description of this merchant's extensive onsiness, although it will well repay any stranger or citizen to visit Udolpho Wolfe's extensive Warchouse, Nos. 18, 10 and 22 Beaver street, and Nos. 17, 19 and 21, Marketfield street His stock of Schnapps on hand ready for shipment could not have been less than thirty thousand cases; the Brandy, some ten thousand cases—Vintages of 1836 to 1856; and ten thousand cases—Vintages of 1836 to 1856; and ten thousand cases of Madeira, Sherry and Port Wine, Scottch and Irish Whisky, Jamaica and St. Croix Rum, some very old and equal to any in this country. He also had three large cellars, filled with Brandy, Wine, &c., in casks, under Custom: House key, ready for bottling. Mr. Wolfe's sales of Schnapps hast year amounted to one hundred and eighty thousand dozen, and we hope in hera than two years he may be equally successful with his Brrodies and Wines.

His business merits the patronage of every lover of his species. Private families who wish pure Wines and elquors for medical use should send their orders direct to Mr. Wolfe, until every Apothecary in the land make up their minds to discard the poisonous stuff from their shelves, and replace it with Wolfe's pure Wixes and Liquors.

We understand Mr. Wolfe, for the accommodation of

Liquors.

Winderstand Mr. Wolfe, for the accommodation of wall dealers in the country, puts up assorted cases of Wines and Liquors. Such a man, and such a merchant, should be sustained against his tens of thousands of opponents in the United States, who soil nothing but imitations, ruinous alike to health and human happiness.
