WHITE DEER .- Mr. John Duffy shot a deer that was white nearly all over, on Brush Mountain, Blair county, recently.

WINTER SCENE. - The pouds in the vicinity of the city were crowded to day with juvenile skaters, and the scene was refreshing to witness. Some amusing feats of ground and lofty tumbling were performed, but no serious accidents or unpleasant incidents occurred to mar the enjoyment of the youngsters.

Associate Judges .- The Governor has appointed the following Associate Judges, to fill vacancies occasioned by death or resignation: Samuel Wherry for Cumberland county; Wm. Parsons for Clinton county; Samuel M. Moore Wayne county. He has also recently appoint el about twenty Notaries Public.

COAL THISE.-A friend of ours had a ton of to be put away, and this morning he found the pile materially decreased. If the removal of the "black diamonds" was intended as a pract'cal joke, our friend thinks it was carried entirely too far; for up to this time he has failed to discover the destination of the missing fuel.

APPOINTMENT .- E. Reed Myer, Esq., former State Senator from the Bradford district, and a member of the late Electoral College by substitution, has been appointed a clerk in the Auditor General's Office. He entered upon the discharge of his clerical duties a few days ago. His competency for the position will not be questioned by those who know the man. He will fill a very responsible position, that of Clerk of the Free Banking Department.

---WANT OFFICE. - The clerkship in the Post Office formerly filled by young Whitman, of Halifax, is still vacant. There is a legion of applicants for the position, all willing and anxious to serve "Uncle Sam" in a clerical capacity, for the few months that Dr. Porter will remain in office. We would suggest to the Doctor the propriety of appointing some competent and deserving Republican, who can familiarize himself with the affairs of the office, and hold over under his successor.

COLD WEATHER -The weather to-day is the coldest we have experienced this season. It would not take a very extraordinary stretch of imagination for a person standing in the open air with bis eyes shut and overcoat off, to imagine himself in the Arctic Regions-frozen among the fields of "eternal snow" and mountains of ice, so vividly described by Bayard Taylor in his recent lecture in this city. We would advise all who wish to try this experiment not to remain too long in that interesting situation, as it might become disagreeable.

THE UNION BUSINESS .- A young lady correspondent wants to know if a disunion of the Government would be likely to produce dis. union among young people who do not care a snap about the union of the States, but are their personal happiness is more immediately that, may prevent then coming together. We think she is far more partial to

"The union of hearts and union of hands, A union that none can sever," than she is to the latter portion of the stanza, referring to

"The union of lakes and union of lauds, The American Union forever." How is it, Miss A-?

REV. JOSEPH Ross. - This eloquent Divine and successful Revivalist, now stationed in York, is expected to visit our city and preach, during the progress of the protracted meeting now going on in the Vine Street Methodist Church. The following item from the York Republican will give our readers an idea of the success which has crowned his ministerial labors in that portion of the moral vineyard:

INCREASE OF CHURCH MEMBERS.—During the administration of the Rev. Joseph Ross, of the Methodist Church, in York, nearly two hundred persons have professed conversion, and have united themselves with the church. this number many were of such a character as had long caused religious men of all denominations to despair of ever seeing wrought in them a change for the better; but by the power of God and through the instrumentality of the church, these persons have not only professed a change of heart, but have given most convincing evidence of it in their daily life. The time is drawing near when accord-The time is drawing near when, according to the discipline of his church, Mr. Ross will have to leave York and go elsewhere in the service of his Master; but wherever he may go, it will be long before he will cease to be affectionately remembered by the many here in whose conversion he was instrumental.

An OLD SINNER.—We are informed that there resides in one of the townships of this county a man who seems to enjoy life to the best of his ability. His peculiar ideas of happiness consist in having a large farm, a fine location, a comfortable house, and—two women! One has been the partner of his bosom—united to him by a legal marriage—for many years. The other seems also to be a partner, and has occupled the position jointly with the legal wife for several years. A feeling of harmony is said to prevail in the family, and nothing has yet oc curred to disturb the domestic co-partnership, or cause a dissolution of the union. We presume the old Turk who is at the head of this harem is a Douglasite, and has practically carried out the "little giant's" doctrine of "regulating his domestic institutions in his own way; in which case no true Democratic official will attempt to interfere with the arrangement,-One informant vouches for the truth of this story, but we choose to suppress names and locality for the present.

More Snow .- For the information of Harrisburgers who may be out of the city, we note the fact that a very respectable snow-storm visited "these parts" to day. At the present writing there is every indication that we shall have excellent sleighing.

WHAT PRACTICE WILL DO FOR MUSCLES .- FOR standing leap over a width, seven feet is a good distance for most persons; but fourteen feet has been jumped by well trained hapets. For persons not in practice, the usual distance attained over a width, with a run, is twelve or fourteen feet; but as much as twenty feet can be reached by practice, and in some cases twen ty-two. A few instances are recorded where the remarkable leap of twenty-four feet has been made.

BEFORETHE MAYOR .-- A stranger named James M'Kinney, destitute of money, and without a "local habitation," occupied the lock-up last hight as a voluntary lodger. This morning the Mayor heard his story and discharged him. A drunken fellow named Andrew Eppley was arrested by officer Fleck for throwing stones at boys on the street, and other disorderly conduct. When brought before the Mayor be plead guilty to the charge, but having no money to pay the fine imposed, and the county jail for Jefferson county; Rodney Harnes for being full to overflowing, he was reprimanded and discharged.

SEND IN YOUR DONATIONS .- The Union Benevolent Society is now organized for the precoal delivered at his door last evening, too late sent year, and ready for operation. Those who have the means and the disposition to aid in relieving the sufferings of the poverty-stricken in our community, should send in their donations at once. The benevolent ladies who comprise the membership of this excellent society will thankfully receive and properly appropriate all money, clothing, provisions and fuel sent to them. There are scores of poor people in this city, worthy objects of charity, who are anxiously looking for relief from some quarter, and now is the time to act. Those who give to the poor in a proper spirit, lend to the Lord, who will repay them with interest.

> STILL AROUND. The shovers of bogus coin operated in market this morning again, and succeeded in victimizing several countrymen .-The quarter and half dollar pieces are so well executed that even good judges are liable to be imposed upon. We took a bogus quarter the other day, and supposed it to be genuine until informed differently by a shop-keeper to whom we tendered it, with other money, in payment of a bill. There is good reason to believe that this counterfeit coin is manufactured in our city and sold in large quantities to "shovers" who come here for supplies. Suspicion attaches to certain parties, and if well grounded, they will likely be detected before long and checked in their dishonest career. There is just reason for suspicion when men attempt to pass bogus coin at three or four different stores within that many hours This has been done recently.

CURE FOR DIPTHERIA.—This scourge of the family continues to ravage many sections of our Commonwealth, and counts its victims by hundreds. We subjoin an extract of a letter from a gentleman in Maryland, relative to the cure of this alarming disease. The remedy recommended was successful in his own family, Mrs. Dr. Fleming and Miss Anna Weir. and may bring relief to others. The simplest remedies are often the most effective:

PUTRID SORE THROAT OR DIPIHERIA, AND 113 CURES. - The distinguishing mark of this malady from other diseases of the throat is the for mation of a membrane, which increases gradually until the patient is strangled to death. rather particular about another union, in which | To prevent the formation of this membrane is to arrest and cure the disease. In the early considered. We venture the assertion that our fair correspondent has a lover south of Mason and Dixon's line, and is agitated for fear a line water, as hot as the patient can bear, as a garof forts, and embargos, and passports, and all gle, every fifteen minutes; at the same time moisten a piece of flannel with a solution of the same kind, made as warm as the patient can bear it (as before), and bind it around the throat, renewing it as often as the gargle is administered, and in the mean time sprinkle fine salt between the flannel and the neck; use inwardly some tonic or stimulant, either separately, or, if prostration be great, use both to-gether. The treatment, as may be seen, is extremely simple, and if used in the earlier stages of the disease, will effect a complete cure. I know this to be a certain cure, as my Mother and Sister-in-law both had it and cured themselves with this simple remedy. By inserting

this in your paper, you will oblige, WILLIAM A. COOK SEASONABLE AND SENSIBLE ADVICE.—This is the season for colds, and complaints are frequent. The Journal of Health says that if a man begins to cough, as the result of a common cold, it is the result of nature herself attempting the cure, and she will effect it in her own time, and more effectually than any man can do so, if she is only let alone, and her instincts cherished. What are those instincts? She abhors food, and craves warmth. Hence, the moment a man is satisfied that he has taken a cold, let him do three things: First, eat not an atom : Second, go to bed and cover up warm in a warm room: Third, drink as much cold water as he wants, or as much hot herb tea as he can, and in three cases out of four he will be almost entirely well within thirty-six hours. If he does nothing for his cold for eighty-four hours after the cough commences, there is nothing that he can swallow that will, by any possibility, do him any good, for the cold, with such a start, will run its course of about a fortnight, in spite of all that can be done, and what is swallowed in the meantime, in the way of physic, is a hindrance, and not a good .-"Feed a cold and starve a fever," is a mischievous fallacy. A cold always brings a fever; the cold never begins to get well until the fever begins to subside; but every mouthful swallowed is that much more fuel to feed the fever, and, but for the fact that as soon as the cold is fairly seated, nature, in a kind of desperation, steps in and takes away the appetite, the commonest cold would be followed by very serious results, and in frail people would be almost always fatal. These things being so, the very fact of waiting forty eight hours gives time for the cold to fix itself in the system, for a cold does not usually cause cough until a day or two has passed, and then to wait two days longer, gives it its fullest chance to do its work before

CHRISTMAS presents at KELLER'S. FOUR GENERATIONS IN JAIL. - There is said to

be in one of the county jails in Connecticut, a generations.—Exchange Paper.

Was this tendency to crime the result of hereditary transmission of mental dispositions, or was it wholly the result of training and ex ample, or was if produced by the combined action of each? "One sinner destroyeth much good," is daily demonstrated around us, and the above is stance is one of melancholy interest. Doubtless the four generations in jail owe their criminality to both causes-hereditary tendency to vice, and bad training consequent thereon. It could hardly be expected that such a mother and grand-mother would exert a salutary influence on their offspring, either in imparting virtuous tendencies, or giving that culture necessary to develop the good qualities of human nature, even if the child possessed them. A total neglect of training, or even bad training, would not make every person thus bad. In some persons the lower feelings are unusually strong and active; and such, if improperly managed or viciously trained, become a trouble to the world, and a vile slander on poor human nature.

Union Benevolent Society.-The annual meeting of this Society, was held on the 10th inst., when the following statement of receipts and expenditures for the last year was made:

Expenditures for Wood, Coal, Flour, Groceles, \$205 89

Mrs. Mary Braty was elected President for the ensuing year, and Mrs. Jas. WEIR, Secreta-

ry and Treasurer. The following is a list of districts into which the city has been divided, and the names of managers for each.

NORTH WARD. First District.—Lying between Market street and Paxton Creek-Mrs. Julia Fisher and Mrs. E. Cornyn.

Second District .- Between Walnut and South streets, extending from Front to Capitol Grounds-Miss E. Doll and Miss C. Dewitt. Third District .- All that part of the city

THE CURSE OF FASHION.—It is not the climate that produces all the sickly men and women one meets on the city thoroughfares. By no means. It is "Fashion," which is the curse of our country. Fashion rules not only our toilet. but all the circumstances and habits of life: and fashion delights in extremes which are like all other extremes, invariably pernicious. It is all wrong in the beginning and in the ending. All attempts to reform, with regard to

fashion, will probably prove unavailing until future generations, being more enlightened than the present, shall each man and women mark out for themselves by their own philosophy, a course of living adapted to the healthy development of their peculiar organization, so that each will wear his own peculiar diet, ride in a carriage and recline on a couch of his own invention. Architecture, mechanics and agriculture, and all the various articles and circumstances of life, will then be more perfectly adapted to the system and wants of the enlightened portions of the human family. Sons and daughters will then be trained for husbands or wives. Matrimony will then be understood and experienced as a source of happiness, instead of misery, (the latter being too often the consequence at present.) Unhappy marriages are more frequently the result of improper home education and influences than of any other cause. Young people of the opposite sexes fall in love with each other's faces, or eyes, or hands, or feet, or voices, or manners, or money, and at once with an ardor which otherwise directed, would accomplish a noble end, they must indiscreetly set to wooing and winning the much desired object, blindfolded to the great end of the solemn and holy institution of matrimony. Notwithstanding in most countries the lady waits to be chosen. wooed and won, the lover is often fairly caught and obliged by the well set words and manner of the artfully artless fair one to commit himself a step further than his reason sanctions or his honor will permit him to retract. After marriage the bandage is removed from their eyes, the husband discovers that the wife is unhappily influenced by certain relations, feelings, and habits of which he was before ignorant, and which forebode trouble, and often prove

THE "IRREPRESSIBLE CONFLICT," about to arise etween the slave-breeding and the slave-buy ing States, is pretty clearly indicated in the re coot message of the Governor of South Carolina That functionary does not regard it advisable to admit Virginia into the Southern Confederacy, but prefers that she shall remain as a barrier between the free States and the new Southern Confederacy. And that she may be compelled to continue a slave State, the Governor recommends that all importation of slaves from Virginia shall be prohibited by the Southern

destructive of his peace; and in other cases, the

wife makes the like discoveries in regard to her

PROF. WOOD'S HAIR RESTORATIVE .- This Re-PROF. WOOD'S HAIR RESTORATIVE.—This Restorative for making the hair grow, stopping its falling out, and restoring gray hair to its original color, is becoming celebrated. All the quack no-trums are giving way before it. Three fourths of the mixtures for restoring and beautifying the heir, do it more injury than good. They burn it up-destroy the life of its roots—make the hair fall cfl, and produce premature baldness. But Prof. Wood's Restorative may be relied upon as containing nothing which can in any manner be jujurious to the hair, while its success in accomplishing what it pretends to do has been verified in hundreds of cases. We tends to do has been verified in hundreds of cases. We adviss gray heads, and hears getting bald—all who wish to save their wool or obtain a new stock, to get a bottle of Wood's Restorative—N. Y. MOTHERS, READ THIS.—The following is an extract from a letter written by the pastor of a Baptist church to the "Journal and Messenger," Cincinnati, Ohio, and speaks volumes in favor of that world-renowned medicine—Hrs. Winslow's Soothing Syrup for Children Teething:

"We see an advertisement in your column of Mrs. Winslow's Soothing Syrup Now we never said a wors in favor of a patent medicine before in our life, but we feel compelled to say to our readers, that this is no humbug—we have tried it, and know it to be all it claims. It is, probably, one of the most successful medicines of the day, because it is one of the best. And those of your readers who have babies can't do better than to lay a supply.

Davis' Pain Killer.

No Medicine is more prompt in its action in cases of Cholera, Cholera Morbus, &c., than Perry Davis' Pain Killer. It is the acknowledged antidote which se dom fails if applied in its early symptoms. No famil should be without a bottle of it always on hand. The stain on linen from the use of the Pain Killer easily removed by washing in alcohol.

Davis' Pain Killer seems particularly efficacious i nolera morbus, howel complaints, and other diseases to which the natives of Burmah, from their unwholesom style of living, are peculiarly exposed. It is a valuable antidote to the poison of Centipedes, Scorpions, hornets, &c. REV. J. BENJAMIN,

WE call the attention of our readers to an WE call the attention of our readers to an article advertised in another column, called Blood Foon It is an entirely new discovery, and must not be confound ed with any of the numerous patent medicines of the, day. It is food for the blood, already prepared for absorption; pleasant to the taste and natural in action, and what one gains he rotains. Let all those, then, who are suffering from poverty, impurity or deficiency of blood, and consequently with some chronic disease or aliment, take of this Blood Foon and be restored to health. We notice that our Druggists have received a supply of this article, and also of the world-renowned Dr. EAIDN'S IN. PANTIE CORDIAL, which every mother should have. It is said to contain no paregoric or opiate of any kind whatever, and of course must be invaluable for all linfan tille complaints. It is also said that it will allay all pain, and softan the complaints. windows, and the title complaints. It is also said that it will allay all pain, and soften the gums in process of teething, and at the same time regulate the bowels. Let all mothers and nurses, who have endured anxious days and sicepless n ghts, procur a supply and be at once relieved.

SPALDING'S PARPARED GLUE.—Prepared Glue:
a very useful and convenient article for housekeepers
and others, is "Spaiding's Prepared Glue" It is one of
those inventions, small in themselves, which, nevertheless, go far in the economics of household management, and are an ever-present aid in saving time, expense and trouble. The number of small repairs to furniture, picture-frames, orockery, children's toys, leather, shell and other fancy work, with the almost innumerable uses to which in every household a really good
and ever-ready article of this kind may be applied, will
at once suggest tremselves to the ladies. Damaged

This Glue is compounded with chemicals which hold it permanently in solution until it is applied, withhold it permanently in solution until it is applied, without affecting its strength, and which serve to give the adhesive matter a firmer hold on the surfaces to be united, after which they quickly evaporate, leaving the glue to harden with rapidly and tenacity. It is estimated that there are at least five millions of bouseholds in the United States, and that an outlay of from one to ten dellars is annually required to make small repairs to furniture alone, apart from the numerous neglect; and makeshifts that are necessarily resorted to.

I beg leave to call the attention of the cilizens of the United States to the above Winss and Liquoss, imported by Udolpho Wolfe, of New York, whose name is familiar in every part of this country for the purity of his colebrated Schmam Schmaps. Mr. Wolfe, in his letter to me, speaking of the purity of his Winss and Liquoss, says: "I will stake my reputation as a man, my standing as a merchant of thirty years' residence in the City of New York, that all the Brandy and Winss which I bottle are pure as imported, and of the best quality, and can be relied upon by every purchaser." Every bottle has the proprietor's name on the wax, and a fac simile of his signature on the certificate. The public are respectfully invited to call and examine for themselves,—For sale at Retail by all Apothecuries and Grocers in Philadelphia.

ENORMOUS BUSINESS FOR ONE NEW YORK MERCHANT.—
We are happy to inform our fel ow-citizens that there is one place in our city where the physician, apothecary, and country merchant, can go and purchase pure Wines and Liquors, as pure as imported, and of the best quality. We do not intend to give an elaborate description of this merchant's extensive business, althoughet will well ropay any stranger or citizen to v isit Udolpho Wolfe's extensive Warchouse, Nos. 18, 20 and 22 Beaver street, and Nos. 17, 19 and 21, Marvetfield street His stock of Schnapps on hand resdy for shipment could not have been less than thirty thousand cases; the Braudy, some ten thousand cases—Vintages of 1836 to 1856; and ten thousand cases of Madeira, Sherry and Port Wine, Scotch and Irish Whisky, Jamaica and St. Croix Rum, some very old and equal to any in this country. He also had three large cellars, filled with Brandy, Wine, &c., in casks, under Custom-House key, ready for bott ling. Mr. Wolfe's sales of Schnapps last year amounted to one hundred and eighty thousand dozen, and we hope in less than two years he may be equally successful with his Brrndies and Wines.

His business merits the patronage of every lover of his species. Private families who wish pure Wines and Liquors for medical use should send their orders direct to Mr. Wolfe, until every Apothecary in the land make up their minds to discard the poisonous stuff from their shelves, and replace it with Wolfe's pure Wines and Liquors.

We understand Mr. Wolfe, for the accommodation of

LIQUORS.

We understand Mr. Wolfe, for the accommodation of small dealers in the country, puts up assorted cases of Wines and Liquors. Such a man, and such a merchant, should be sustained against his tens of thousands of opponents in the United States, who sell nothing but imitations, ruinous alike to health and human happiness. sep6-daw6mi C.
