PROF. WOOD: Thee will ple se accept a line to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicated chrone disease, attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I having not been able to outhern up, in consequence of which my head hes suffer destready from cold. This induces me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative about the first of August last. I have taithfully followed the directions and the bald spot is now covered with hair thick and black, though short; it is also eming in all over my head. Feeling confident that another large bottle would restore it entirely and permanently, I feel auxious to persevere in its use, and being destingte of means to purchase more, I would ask thee if thee would's not be willing to send me an order on thine agents for a bottle, and receive to thyself the scripture declaration—"the reward is to those that are kind to the wildow and fatherless."

Pror. O. J. Wood: Dear sir:—In the latter part of the year 1852, while attenoing the 'tate and National Law School of the State of New York, my hair, from a cause unknown to me, commenced falling off very rapidly, so that in the short space of six mouths, the whole upper sirt of my scalp was almost eatinely bert fit of its covering, and much of the remaining portion upon the side and back part of my head shortly alter breame gray, so that you will not be surprised when I tell you that upon my return to the State of Indian

BLOOD FOOD.

The attention of Invalids. Physicians, Clergymen, set entific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing Iron, Sulphur and Phosphor us, and which is identical in its composition with the Hematic Globule, or red blood. In all diseases accompanied with

Debility, pale countenance and nervous derangement, analysis of the blood show a deficiency of the red globules. Ruddy-complexion and a rosy tint of the skin, is always indicative of health; while a pale, war-like skin and countenance,—which evinces a deficiency of the red globules,—accompanies a diseased organism. Preparations of Iron have been given for the purpose of supplying the red globules, but we contend that Iron alone, Sulphur alone, or Phosphorus alone, will not met the deficiency in every case, but that a judicious combination of ALL these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the Blood Food, and its discovery ranks as one of the most scientific and important of the age. Its effects in

Consumption are to soften the cough, brace the nerves, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton frame with flesh. The Blood Food will be found a specific in all Chronic Diseases of the Throat or Lungs, such as Asthma, Bronchitis, Coughs, &c. Public speakers and singers will find it of great utility in clearing and strengthening the vocal organs. In Dyspesia, Liver Complaints, Dropsy, Epilepsy, Paralysis, Scrofula, Gravel, St. Vitus' Dance, Fever and Ague, &c., its efficacy is marked and instantaneous. In no class of disease, however, are the beneficial effects of this remedy so conspicuous as in those harrassing

Female Complaints to which the gentier sex are liable, and which tend to wards Consumption, such as suppressed or difficult Menstruation, Green Stokness, Whites, &c, especially when these complaints are accompanied with paleness, a dingy hue or pallor of the skin, depression of spirits, deblity, papitation, want of appetite, and nervous prostration, We have the utmost confidence in recommending the Blood Food to all who may be conscious of a loss of vitality or energy, and to those whose mental or bodily powers are prostrated through over-use, either of the mind or body, and we deem it our duty to say that in all cases of Weakness and Emaciation, and in all diseases of the Kidneys Bladder, this preparation has a claim upon the attention of sufferers which cannot be over estimated. A faithful trial will be found the most convincing proof in regard to its efficacy that could be asked for. With the above remarks, and with the numerous testimonials we have in its favor, we offer the "Blood Food?" to the consideration of the afflicted, knowing that it will be acknowledged as pre-eminent over all other preparations, patent or official, in point of usefulness.—Circulars giving the Theory upon which this remedy is founded, also certificates of remarkable cures, will be sent free when desired. We forward the Blood Food to any part of the United States or Canadas upon receipt of Price—31 per bettle, \$5 for six bottles. The Amaigamation of Languages.—There is a growing tendener in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own; thus the word Cephalic, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spalding's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as hiertritype and may others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born"

'ardly Realized. Hi 'ad 'n 'orrible 'eadache this hafternoon, hand I stepped into the Lapethecaries hand says hi to the man, "(an you he.se me of an 'eadache?" "Does it hache 'ard'' 'ays''e. "Hexceedingly," says hi, hand upon the 'g gave me a Cei hallo l'ill, hand 'pon me 'onor it cured me so quick that I 'ardly realized I 'ad 'ad an 'eadache.

HEIDACHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease state of the brain, and viewed in this light it may be be looked on as a safeguard intended to give notice of disease which might otherwise secape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz:—Symptomatic and Idiopathic Symptomatic Headache is texceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach constituting sick headache, of hepatic disease constituting billious headache, of worms, constipation and other diserders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with Headaches, Amemia and plethora are also affections which frequently occasion headache. Idiopathic Headache is also very common, being usually distinguished by the name of nervous headache, sometimes coming on suddenly in a state of apparently cound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instances it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instances to make the pain is in the front of the head, over one or both eyes, and sometimes provoking vomiting; under this class may also be named Neuralpia.

For the treatment of either class of Headache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in a tew minutes, and by its subtile lower endicating the diseases of which Headache is the unerring index.

Bridget.—Missus wants you to send her a box of Cephalic Glue, no, a bottle of Prepared Pills,—but I'm thinking that's not just it naither; but perhaps ye'll be aftner knowing what it is. Ye see she's nigh dead and gone with the Sick Headache, and wants some more of that same as relaived her belore.

Druggist.—You must meau Spalding's Cephalic Pills.

Bridget.—Och I sure now and you've sed it, here's the quarter and giv me the Pills and don't be all day about it aither.

Constination or Costiveness.

Constipation or Costiveness.

No one of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as Cos, tiveness. Often origi ating in carcles sness, or sedentary babits; it is regarded as a slight disorder of two little consequence to excite anxiety, while in reality it is the precursor and companion of many of many of the most fatal and dangerous diseases, and unless early cradicated it will bring the sufferer to an untimely grave.—

Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheumatism, Foul Breatn, Piles and others of like nature, while a long train of frightful diseases such as Malignant Fevers, Aboesses, Dyscatery, Diarrhoa, Dyscapery, Apoplezy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Molancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in C. astipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it coccurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expect the insiduous approach o disease and deetery this dargerous foe to human life.

A Real Blessing.
