THE AMAIGAMATION OF LANGUAGES.—There is a grow-ing tendeney in this age to appropriate the most expres-sive words of other languages, and after a while to in-corporate them into our own ; thus the word Cephale, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spald-ing's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as Electricype and many others whose dis-titection as foreign words has been worn away by com-mon usage until they seem "native and to the manor born " **Dyspepsia** Remedy

Headaches may be classified under two names, viz :--Symptomalic and Idiopathic. Symptomatic Headache is exceedingly common and is the precursor of a great va-riety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach consti-tions biseases of the heat are very frequently attend-ed with Headaches, Anamia and plethors are also affec-tions. Idiopathic Headache is also very common, being usually distin-guished by the name of *mersous headache*. Jonathic stances it comes on slowly, heralded by depression of spirits or acerbity of temper. Constipation or Costiveness.

Constipation or Costiveness. No one of the "many ills flesh is heir to" is so preva-lent, so little understood, and so much neglected as Cos-tiveness: Often origitating in carelessness, or seden-tary habits; it is regarded as a slight disorder of two little consequence to excite anxiety, while in reality it is tho precursor and companion of many of many of the most fatal and dangerous diseases, and unless early eradica-ted it will bring the sufferer to an untimely grave.— Among the lighter evils of which costiveness is the usual attendant are Headache, Colle, Rhoumatism, Foul Breatn, Piles and others of like nature, while a long train of frightful diseases such as Malignant Favers, Abcesses, Jysentery, Diarrhca, Dyspeny, Apoplexy, Epilepsy Paralysis, Hysteria, Hypochondriasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Castipation, but take on an inde-pendent existence unless the cause is eradicated in an early stage. From all these considerations it follows that pendent extended in these the cause in a cradical in an early stage. From all these considerations it follows that the disorder should receive immediate attention when-ever it occurs, and no person should neglect to get a box of Cephalic Fills on the first appearance of the complaint, as their timely use will expet the insiduous approach o disease and destrey this dangerous for to human life.

A Real Blessing.

Physician.—Well, Mrs. Jonës, how is that hea dache ? Mrs. Jones.—Gone I Doctor; all gone i the pill yousent cured me in just twenty minutes, and I wish you would send more so that I can have them at any Druggists. Call for Cephalic Pills, I find they never fail, and I recom-miend them in all cases of Headache. Mrs. Jones.—I shall send for a box directly, and shall tell all my suffering friends, for they are a real blessing.

TweN'T MILLIONS OF DOLLARS SAVED.—Mr. Spalding has sold two millions of bottles of his celebrated Prepared. Glue and it is estimated that each bottle saves at least ten gregate of twenty millions of dollars reclaimed from total loss by this valuable invention. Having made his Glue a household word, he now proposes to do the world still-greater service by curing all the aching heads with his Cephalic Pills, and if they are as good as his Glue, Head-aches will soon vanish away like snow in July.

COVER EXCITEMENT, and the mental care and anxie-ty incident to close attention to business or study, are among the numerous causes of Nervous Headache. The disordered state of mind and body incident to this dis-tressing complaint is a faital blow to all energy and am-bition. Sufferers by this disorder can always obtain speedy relief from these distressing attacks by using one of the Cephalie Pills whenever the symptoms appear.— It quiets the overtasked brain, and soothes the strained and jarring nerves, and relaxes the topain of the to-mash which always accompanies and aggravates the dis-ordered condition of the brain.
