BLOOD FOOD.

The attention of Invalids, Physicians, Clergymen, and all who are afflicted with any of the diseases mentioned in this advertisement, is respectfully solicited to the merits of this chemical preparation, containing Iron, Sulphur and Phosphorus, and which is identical in its composition with the Hemoglobin, or red blood. In all cases of the accompanying

Debility, pale countenance and nervous derangement, analysis of the blood shows a deficiency of the red globules. Ruddy complexion and a rosy tint of the skin, is always indices of health; while a pale, wax like skin and countenance, which evinces a deficiency of the red globules, is accompanied by diseased organs. Preparations of Iron have been given for the purpose of supplying the red globules, but we contend that Iron alone, Sulphur alone, or Phosphorus alone, will not meet the deficiency in every case, but that a judicious combination of all three elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the Blood Food, and its discovery marks an era in the most scientific and important of the age.

Consumption are to soften the cough, brace the nerves, strengthen the lungs, and give tone to the system. It is a powerful physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton from within. It is a powerful tonic, and will be found a specific in all Chronic Diseases of the Throat or Lungs, such as Asthma, Bronchitis, Cough, &c. Public speakers and singers will find it of great utility in clearing and strengthening the voice.
