

Daily Telegraph

HARRISBURG, PA.

Saturday Afternoon, December 29, 1890.

See advertisement "Ho, for the Holidays."

WHISKEY INSPECTOR.—According to rumor, the office of Whiskey Inspector, at Philadelphia, has been tendered by the Governor elect to Col. Wm. Butler, of Lewistown. No letter man could be selected for the position.

CITY PROPERTY AT PUBLIC SALE.—A lot of ground on Second street below Mulberry, with a two story dwelling house and other buildings thereon erected, will be offered at public sale this evening at Wagner's "Seven Stars" Hotel, corner of Second and Chestnut streets. See advertisement in another column of this paper.

ELECTION AND REIGNATION.—The Directors of the Bank of Delaware County, on Monday last elected F. J. Hinkson, Esq., President of the institution, in the room of Jesse J. Mack, deceased. Judge Hinkson has since communicated to Gov. Packer his resignation as one of the Associate Judges of that county.

Don't forget your New Year's Gifts for your friends, but go and make your selections from the fine assortment of books in every department of Literature, Port Folios, useful and fancy articles, and a great variety of choice goods highly suitable for New Year's Gifts at Bergner's Bookstore, 61 Market street.

DONATION VISIT.—The members of the colored Presbyterian congregation intend paying their pastor a Donation Visit, at the church in Walnut street near Front, on New Year's day, from two o'clock in the afternoon until ten in the evening. The membership of the church comprises a large number of our most intelligent and prosperous colored people, who hold their venerable pastor in high esteem.

THE SHOOTING SEASON.—Many of our contemporaries, in speaking of the season for shooting pheasants, partridges, woodcock and rabbits, have stated that it closed on Monday next, the last day of the year. This is a mistake. The season for shooting this kind of game does not close until the last day of January, as provided for by the second section of the Act of Assembly passed April 14th, 1859.

THE BOY PREACHER, Rev. Cranmond Kennedy, whose eloquent sermons and lectures created so great a sensation in this city some months ago, and attracted immense crowds of people, will preach in the Baptist Church, corner of Second and Pine streets, to-morrow morning and evening. We advise strangers now in the city to avail themselves of the only opportunity they will probably ever have of hearing this extraordinary youth, who has few equals in pulpit oratory.

LOCUST STREET METHODIST CHURCH.—Rev. H. S. Ashmore, a distinguished clergyman from Richmond, Virginia, will preach in Dr. Bishop's church to-morrow morning and evening, at the usual hours. From what we have learned of this gentleman's ability, those who go to hear him will be pleasantly entertained and profitably instructed. Dr. Bishop purposes holding a series of revival meetings, which will probably be started to-morrow night and continue throughout next week.

ARRIVALS.—A number of members of the Legislature have arrived since our last issue, and the principal bodies begin to assume a business like aspect. From present indications there will be a full representation in both houses at the opening of the session on Tuesday. The list of applicants for office continues to swell, and the "irrepressible conflict" among the rival aspirants daily increases in bitterness. Truly blessed are those who expect no partisan rewards.

ANOTHER LAWYER.—If it be true that "in a multitude of counselors there is safety," the people of old Dauphin ought to be very safe, for we doubt whether any other county of the same size in the State can boast as large a number of counselors at law. In the quantity, as well as the quality, of lawyers, the bar of this city is not excelled outside of Philadelphia. And the cry is still they come! We notice that John J. C. M'Alarney, late of Union and Snyder counties, has "hung out his shingle" at Gratztown in this county, and tenders his professional services to the natives of that region. May he be blessed with plenty of profitable clients.

WATCH MEETINGS.—The old time custom of holding "watch meetings" on the last night of the year, will be observed, as usual, by the Methodist congregations, the Church of God, the United Brethren, and the Evangelical Association. Services will be held in their various houses of worship on Monday night, commencing about eight o'clock, and continuing until the advent of the New Year. Brief and appropriate discourses are usually delivered by the Pastors, after which the members of the congregations engage in singing and prayer.—The custom is a beautiful one, and the exercises on such occasions are of a very interesting, solemn and impressive character. We have no doubt all these meetings will be largely attended.

WIDE AWAKE TURNING SOLDIERS.—The officers of the recent Wide-Awake organizations in Allegheny county held a meeting in the city of Pittsburg a few days ago, and after some discussion the following resolution, offered by Gen. Negley, was unanimously adopted: Resolved, That the meeting recommended to all the Wide-Awake companies of Allegheny county, by an immediate organization under the militia laws of Pennsylvania, each company to elect two delegates to meet in convention for the purpose of perfecting a military organization. The proposed convention will assemble next Thursday; at which time, we presume, the suggestion contained in the above resolution will be favorably acted upon, and measures taken to organize the various clubs into military companies. The idea is a good one, and should be adopted by the Wide-Awakes everywhere.

MEMBERS OF THE LEGISLATURE, and others remaining in the city during the winter, can have any or all of the New York, Philadelphia or Baltimore daily papers served regularly to them by leaving their addresses at Bergner's Cheap Bookstore 61 Market street.

NEW YEAR'S EVE BALL.—The "Star Club," composed of colored people, will give a grand types ball in Masonic Hall, Tanager's Avenue, on Monday evening. The members of the club intend to appear in regalia, and the participants will no doubt have a good time.

COLORED PRESBYTERIAN CHURCH, Walnut Street, Front. Rev. C. Gardner pastor. Regular services every Sabbath morning and evening at the usual hour. Sabbath school at half past one o'clock every Sunday afternoon. Lectures and prayer meeting on Wednesday evening.

WEST TO THE CALABOON.—An "obituary" colored lad, named Jim Brown, who has frequently been pulled on various occasions, arrested this morning for drunkenness, and striking a woman of his own color. Jim made a desperate resistance, but after a protracted struggle the officer succeeded in getting him in the lock-up. The Mayor, who committed him.

VINE STREET AND WEST HARRISBURG CHURCHES. Rev. Mr. Davis, of the Erie Conference, will preach in the Vine Street Church to-morrow morning and at West Harrisburg in the afternoon. Rev. Robert J. Carson will fill the pulpit of the Vine Street Church in the evening. The protracted meeting in this church will be continued throughout the coming week, and the pastor expects to be assisted by other ministers.

THE HARRISBURG DAILY TELEGRAPH SAYS: "A lady has been in the habit of picking her teeth with pins. A trifling humor was the consequence, which terminated in a cancer. The TELEGRAPH never said any such thing. If a case of the kind occurred in this city we are ignorant of the fact. At the same time we would advise our readers to avoid using pins for tooth picks. The practice is a dangerous one, the brass and quicksilver used in making pins being pernicious to the teeth."

SELLING LIQUOR TO MINORS.—It is said that this offence is daily committed by certain restaurant keepers and beer sellers in our city, who furnish boys with all the liquor they can raise money to pay for. We learn that information has been, or will be, made against the proprietor of one of these institutions, by the mother of a boy who, it is alleged, was made drunk and then robbed of all the money in his possession.

GOVERNOR CURTIN.—We stated yesterday that we had no knowledge of Governor Curtin's present whereabouts. Gentlemen direct from Bellefonte inform us that he is at home, where he daily receives the visits of personal friends and applicants for office. The latter class is reported to be very numerous. The Governor has not yet announced his Cabinet appointments. The various rumors in circulation are merely speculative, and therefore unreliable.

SKATING PARTY.—A large party of young ladies and gentlemen this morning visited one of the ponds in the vicinity of the city, and spent some time in the exciting and healthful exercise of skating, gliding swiftly and gracefully over the icy surface, and realizing a high degree of enjoyment. The scene was a refreshing one to those who witnessed it. Skating has become a fashionable amusement in female circles elsewhere, and we are glad to see the movement inaugurated here. It is the best exercise ladies can indulge in, as it strengthens and develops the physical system, and imparts a healthful bloom to the cheeks which no cosmetic can produce.

A MOTHER WANTED.—Some unknown person left a Baby on the step of the Industrial School. It had cried until it was hoarse before it was heard by one of the boys (nurse of the Home). It was taken in—warmed, fed and clothed, and now waits for some kind-hearted lady to take it to her fostering care. None need apply unless they belong to some orthodox church and have means to supply its future wants.

The above advertisement appears in the columns of a Cleveland paper. The idea that it would be improper for the Industrial School to place an urchin that needs food, raiment and shelter, in the care of any person "unless they belong to an orthodox church," does not seem well calculated to foster a catholic spirit which would gladly welcome the aid of all, irrespective of theological dogmas, who would unite in doing the Father's work. We suppose that "liberal" provender is as healthy for babies as "orthodox" food—one digests perhaps as well as the other. If we were in that youngster's place, we wouldn't care whether we got Unitarian or Trinitarian potatoes, whether our bread-and-milk was Calvinistic or Parkeristic, whether our shoes were made with liberal or evangelical pegs—only as the potatoes were sound, the bread-and-milk palatable, and the shoes a comfortable "fit."

EMERGENCY OF EXTREMAL RAIN.—In the wild sea of life, when man's heart is filled with ambitious thoughts—thoughts that support him in a moment to the loftiest pinnacle of human glory and surround him with every blessing that wealth, honor, fame and love can afford, or, possessed by a spirit of industry in the pursuit of gain through all the labyrinths of intrigue, speculation or toil—it is well that there is in this wide tumultuous sea one bright island where the weary spirit or the drooping heart may find repose. The physical and mental man, strung to the highest tension in the daily pursuit of some phantom that ever flies, is ever chased, but never overtaken, absolutely needs the rest that the sacred Sabbath gives. The soul buried in the corrupting influences of an every-day calling, becomes surcharged with weariness and longs for the holy calm that rests upon that bright green isle, whose streams are ever pure, and whose air should be tainted with the miasma that infects the atmosphere of secular pursuits. Here it finds rest, and invigorated by the purity of its moral air, it is the better prepared to meet the snares and temptations of the world; unscathed by the insidious or bold attacks of vice; it is conscious of the power that is found in a proper observance of the

"Day of all the week the best, Emblem of eternal rest."

TURKEY TRICK.—This morning some camp stole a dressed Turkey from a countryman in market. The thief will no doubt enjoy a good Sunday dinner at the expense of his victim.

HOPE FOR GOVERNOR.—Among the distinguished strangers now in this city, is the above named gentleman, a prominent candidate for United States Senator. He is stopping at the Jotes House, and will probably remain here for several days.

GOOD IMPROVEMENT.—The dilapidated and uncomfortable benches in the galleries of the House of Representatives, have been replaced by new and elegant ones which are an ornament to the hall, and will add materially to the comfort of the spectators who daily visit there. We admire the Superintendent's taste and judgment in this respect, and would suggest a similar improvement in the Senate hall.

IVORY TYPES.—We had the pleasure of examining one of these new style pictures in the gallery of the young and ingenious artist, Mr. Hartz Davis. In the estimation of the most competent judges, the Ivory Type excels all previous discoveries in the art. By comparison with the ordinary type, the Ivory Type, and even the most delicate miniature, is thrown into the shade. As remarked by an admiring artist, "it brings out the hues of studs and tissues, of furs, plumes and ringlets, with almost unerring brightness, and extraordinary minuteness and accuracy of detail." We advise all lovers of the fine arts to call at the room of Mr. Davis and see his specimens of these superb pictures, which are destined, in a very short time, to be all the rage.

ANOTHER CURE FOR DIPHTHERIA.—The following remedy for this disease, from the New York Eclectic, which has been used by eminent physicians, the writer says was never known to fail when promptly and properly applied. We insert it for the benefit of the medical fraternity and community generally:—"Diphtheria in its early stages, may be recognized by any person of ordinary capacity, by two marked symptoms; the sensation of a lump or hard substance in the throat, rendering swallowing difficult and painful, and a marked fetor, or unpleasant smell of the breath, the result of its putrefactive tendency." On the appearance of these symptoms, if the patient is old enough to do so, give a piece of gum camphor, the size of a marrowfat pea, and let it be retained in the mouth, swallowing slowly the saliva charged with it until it is all gone. In an hour or so give another, and at the end of another hour a third. A fourth will not usually be required, but if the pain and unpleasant breath are not relieved, it may be used two or three times more, at little longer intervals, say two hours. If the child is young, powder the camphor, which can be easily done by adding a drop of two of spirits of alcohol to it, and mix it with an equal quantity of powdered rock sugar, or better, powdered rock candy, and give it through a quill or tube into the throat, depressing the tongue with the left hand of a spoon. Two or three applications will relieve. Some recommend powdered aloes or pillory with the camphor, but observation and experience have satisfied us, that the camphor is sufficient alone. It acts probably by its virtue as a diffusible stimulant, and antiseptic qualities."

WOMAN'S HAIR RESTORATIVE.—Among all preparations for the hair that have been introduced as infallible, none have ever given the satisfaction or gained the success of Dr. Wood's Hair Restorative. His Restorative has passed the ordeal of numerous fashionable salons, and the ladies, wherever they have tested it, pronounce it a perfect article. They have longed for a hair restorative that would restore the hair to its original color when grayed, and actually so, giving a rich lustre, imparting the softness and flexibility of silk to the hair, and keeping it always healthy and in full vigor.—"N. Y. Tribune." Sold by all respectable Druggists.

WEAKNESS AND DEBILITY.—All who suffer from weakness or debility, where there is a want of general tonic, or where the resources of the system are exhausted, should use Dr. Wood's Hair Restorative. It is a powerful tonic, and acts upon the system, giving strength and vigor to the system. Young persons entering into worldly life, or who are the result of a cold, or who are mothers at the time of their confinement, should be cautious in correcting the tide of life that may be on the wane, and should use this Restorative. It is a powerful tonic, and acts upon the system, giving strength and vigor to the system. Young persons entering into worldly life, or who are the result of a cold, or who are mothers at the time of their confinement, should be cautious in correcting the tide of life that may be on the wane, and should use this Restorative. It is a powerful tonic, and acts upon the system, giving strength and vigor to the system. Young persons entering into worldly life, or who are the result of a cold, or who are mothers at the time of their confinement, should be cautious in correcting the tide of life that may be on the wane, and should use this Restorative. It is a powerful tonic, and acts upon the system, giving strength and vigor to the system. Young persons entering into worldly life, or who are the result of a cold, or who are mothers at the time of their confinement, should be cautious in correcting the tide of life that may be on the wane, and should use this Restorative. It is a powerful tonic, and acts upon the system, giving strength and vigor to the system. Young persons entering into worldly life, or who are the result of a cold, or who are mothers at the time of their confinement, should be cautious in correcting the tide of life that may be on the wane, and should use this Restorative. It is a powerful tonic, and acts upon the system, giving strength and vigor to the system. Young persons entering into worldly life, or who are the result of a cold, or who are mothers at the time of their confinement, should be cautious in correcting the tide of life that may be on the wane, and should use this Restorative. It is a powerful tonic, and acts upon the system, giving strength and vigor to the system. Young persons entering into worldly life, or who are the result of a cold, or who are mothers at the time of their confinement, should be cautious in correcting the tide of life that may be on the wane, and should use this Restorative.
