It is now offered to the American public, knowing that its truly nonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have usen impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

BLOOD FOOD. The attention of invalids, Physicians, Clergymen, scientific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, containing Iron, Sulphur and Phosphorus, and which

identical in its composition with the Hematic red blood. In all diseases accompanied with Debility,

pale countenance and nervoss derangement, analysis of the blood show a describer of the red globules. Ruddy-complexion and a rosy tint of the skin, is always indicative of health; while a pale, wax-like skin and countenance,—which evinces a desiciency of the red globules,—accompanies a diseased organism. Preparations of Iron have been given for the purpose of supplying the red globules, but we contend that Iron alone, Sulphur alone, or Phosphorus alone, will not meet the desiciency in every case, but that a judicious combination of all these elements is negressary to restore the blood to its normal standard. This point, never before attained, has been reached in the Blood Food, and its discovery ranks as one of the most scientific and important of the age. Its effects in

are to solten the cough, brace the nerves, strengthen the system, alloy the prostrating night sweats, increase the physical and mental energy, curich the blood by restoring the lacking 'red globuled, increase the appetite, restore the color, and ciethe the skeleton frame with firsh. The Blood Food will be found a specific in all Chronic Diseases of the Throat or Lungs, such as 'stimma, Bronchitis, Coughs, &c. 'Public speakers and singers will find it of great utility in clearing, and strengthening the vocal organs. In Dyspenia, Liver Complaints, Dropsy, Epilepsy, Paralysis, &crofula, Gracel St. 'Pitus' Darice, fewer and Zine, &c., its efficacy is marked and instantaneous. In no class of disease, however, are the beneficial effects of this remedy so conspicuous as in those harrassing

The AMAIGAMATON OF LANGUAGES.—There is a frewing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own; thus the word Cephalic, which is from the Greek, signifying "for the bead," is now becoming popularized in connection with Mr. Spalfig's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as Electricity each many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born"

ME HEADACHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remediev; and its indications should nevr be neglected. Headaches may be classified under two names, v.z.—Symptomatic and Idiopathic Symptomatic Headache is exceedingly common and is the piecursor of a great variety. Of diseases, among which are Apoplexy, Gout, Rheumatsm and all febrile diseases. Is its nervous form it is sympathetic of disease of the stomach constituting sick headache, of hepatic disease constituting billionis headache. Worms, come tipation and other disorders of the bowels, as well as renal and userine affections. Diseases of the heart are very frequently attended with Hesidaches, Aniemia and plethors are also affections which frequently occasion headache. Idiopathic Headache is also very common, being usually distinguished by the name of nervous headache. Idiopathic Headache is also very common, being usually distinguished by the name of nervous headache, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instances it comes on alowly, heralded by the ramed Neuralysia.

For the treatment of either class of Hicauache the Cephalle Pills have been found a sure and safe remedy, relieving the most acuse pains in a tew minutes, and by its ability power eradicating the diseases of which Headache is the unerring index.
