## HARRISBURG Monday Atternoon, January 14 1861.

ELECTION OF OFFICERS .- The Friendship Fire Company will hold a stated meeting this evening, to elect officers for the ensuing year, and transact other important business.

CATTLE TRADE .--- A long train of stock cars, containing several hundred hogs, sheep and horned cattle arrived here on Saturday night, from the West, and left yesterday afternoon over the Lebanon Valley Railroad en route for New York city.

ICE BOUND .- We learn that a number of loaded boats, on their return trips; overtaken by the cold snap, are frozen up at various points along the line of the "raging canawl," where it is likely they will remain for the balance of the winter. 

VINE STREET METHODIST CHURCH .--- The protracted meeting in this church, commenced two or three weeks ago, continues in successful progress, and much good has been done. Rev. J. L. Heysinger, of Lancaster, will preach this of the firemen were not required. and to-morrow evenings, services to commence at quarter past seven o'clock.

NEW MUSIC.-We are indebted to Mr. O. B. C. Carter for several pieces of new and popular music, from the publishing house of Oliver. celled by any house in the country.

SENT TO THE HOSPITAL.-The insane man arrested on Saturday for the robbery of a horse from Mr. Hoffman, and a sleigh and harness from Mr. Hoke, and committed to prison, was subsequently identified as an escaped lunatio from the State Hospital near this city. He was returned to that institution.

IN THE LOCK-UP .- One Charles Stotson, of Cleveland, arrived here yesterday on his return from Boston. He could get no work by the way, was out of money, and voluntarily sought shelter in the asylum for vagrants. The only other inmate of the institution was an "old stager" who had been there three times previously. The Mayor threatened to send the nameless victim of tanglefoot to prison, if he appeared before him again.

THE PROPLE COMING .- The various Railroad trains to-day brought to this city a great many strangers, who come hither to witness the ceremonies incident to the inauguration of the new Republican Governor. The trains to-night will bring large accessions to the crowd already here, so that to-morrow our hotels will be filled to overflowing, and their proprietors reap a rich pecuniary harvest.

SUNDAY SKATING. -A large number of juveniles amused themselves yesterday by skating on the canal. No doubt the youth who thu desecrated the Holy Sabbath had read our ar ticle on this subject in a recent issue of the TELEGRAPH, for when the Chief of Police made his appearance among them there was a general stampede in all directions, some of them not taking time to unbuckle their skates. A fearful responsibility rests upon parents who permit their children to spend the Sabbath in sinful amusements, instead of sending them to route of procession, as arranged by the officer church and Sunday school. We have had in command, Gen. Wm. H. Keim, will be found thousands of illustrations, good and bad, of the in another column of this paper. The probatruth of the old couplet, that-

complaint of his sister in-law, for drunkenness offered yet. Having taken advantage of the and rowdyism yesterday. After a hearing before the Mayor he was sent to prison. THE PYROTECHNIC DISPLAY .--- Mr. Jackson,

the Philadelphia Pyrotechnist, is now in the city making arrangements for a grand display of fire-works to-morrow night. The locality has not yet been fixed upon, but either Market Square or Capitol Hill will be designated by the committee having the matter in charge.

THE RIVER CLOSED .- For the first time this season the Susquehanna river at this point is completely ice-bound from shore to shore .--Should the present intensely cold weather con tinue for a week or two, our ice-dealers will be enabled to lay in abundant supplies of the best quality of this summer luxury they have gathered for several years past.

THE FIRE ALARM this forenoon was occasioned by the burning of a foul chimney in Herr's hotel. For a time the building was supposed to be on fire, and much excitement prevailed, the ringing of the Court House and various fire bells adding to the alarm, and bringing out all

bells adding to the alarm, and bringing out all the companies with their machines, as well as crowds of people. Fortunately the services of the firemen were not required. ANOTHER STRICKEN HOUSEBOLD — That terrible "demon of the nursery," diptheria or putrid sore throat, continues its ravages in various sections of the State. Recently in Jackson township, Bradford county, a Mr. Smith buried five children in quick succession. The disease prevails to a considerable extent in other parts Ditsen & Co., Boston. In this connection we five children in quick succession. The disease may remark that Mr. Carter's stock of sheet prevails to a considerable extent in other parts music and musical instruments cannot be ex of the county, and much alarm exists among the people.

DEPUTY SECRETARY .--- Mr. Samuel B. Thomas, of Delaware county, has been appointed Deputy Secretary of the Commonwealth for the incom ing administration. We have already announced the appointment of Col. Eli Slifer as Secretary in chief. Both are good men, competent for the positions, and their selection will be generally and heartily endorsed by the Republicans throughout the State. The other an-

pointments is the gift of the Governor will be announced in the course of a few days.

EXPLOSION OF A COOKING RANGE.-Yesterday a cooking range in the dwelling of Capt. John W. Hall, in Market Square, exploded with a cannon-like report, scattering the burning coal and fragments of iron over the room, and breaking the window-glass. The cook was near the range at the time of the explosion, but miraculously escaped uninjured. The accident caused the Captain some inconvenience, requiring him to order his Sunday dinner from one of our hotels.

GOVERNOR CURTIN reached this city on Saturday evening, and took quarters at the Jones House, where he received the calls and congratulations of a large number of members of the Legislature, and Republicans of this city .--The arrangements for his inauguration are now completed, and unless the snow storm to-day prevented military companies from leaving nome, a handsome display may be anticipated to-morrow. Should the weather be favorable, the inaugural ceremonies will take place on the front portico of the Capitol, thus affording the people in attendance an excellent opportunity of witnessing them.

THE INAUGURATION PARADE .- The hour fixed for the parade to-morrow, and the order and bility is that eight or ten military companies

EDW. CHAMBERLIN & CO., Proprietors of Shaumaut Chemical Works. No. 33 INDIA STREET, Boston. CONCENTRATED LEAVEN is the re-sult of carcful behmical research. All its ingredi-outs are prepared in the highest state of purity, and com-pounded with a view to produce bread of a far better quality, and in much less time, than by any other pro-cess; and by the manufacturers submit it, with entire confidence, to the judgment of discriminating house-keepers, bakers, &c. Bread of all kinds made by using Concentrated Leaven is lighter, more digestible and nuitritions; has an agreea-ble, natural taste; is less liable to sour; will relain its moisture longer than by any other process, and the whole preparation for the oven need not exceed ten minutes.

moleture longer than by any other process, and the whole preparation for the oven need not exceed ten minutes. It is valuable because it is not perishable, and may be frendered available in places and at times when yeast is not within reach as at see. In all climates and under all chiranstances; it may be adopted, thuis obviating all difficulty of an inferior quality, ret dering the bread more or less towholesome. It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of not less than 16 per cent. In the common process much of the sacchaine of the flour is lost by being converted into carboute acid gas, or spirit, and the waste is incurred solely for the purpose of genorating gas to raise the dough. By using Concentrated Leaven this waste is avoided, and the gas obtained in a manner equally efficacions. Fermentation, as has been stated, dustroys a part of the flour is lost by being converted flour or meal, end, in consequence, a barrel of flour weighing 160 hs, which, by the common method, ordinarily makes about 260 hs of bread, gives by this process 200 hs, thus effecting the very important saving of 16 per cent. DIRECTIONS.

DIRECTIONS. BREAKTAST AND TRA ROITS.—Two or three teaspoonsful of Leaven, (according to the quality of the flour,) to one quart of flour; mix thoroughly by passing two or three times through a siever; rub in a piece of butter half the size of an egg, and make the paste with cold milk or water, (milk is preferable,) barely stiff enough to permit rolling out. Much kneading should be avoided. Cut in-to desired form, and place immediately in a hot oven and bake quickly. Loar BREAD.—The same proportions of Leaven and flour sifted together as above; omit the butter, ahd make the paste stiff enough to knead into a loaf, and bake im-mediately in a slow oven. GRARA BREAD.—Three teaspoonsful of Leaven to one quart of wheat meal, sifted together; add one gill of mo-lasses and two eggs; make the paste thin with milk and bake in a slow oven.
