Medical.

The attention of invalids, chysicians, Clergymen, scl-entific men, and the public generally, is respectfully solicited to the merits of this chemical preparation, con-taining from, Suightur and Phosphorus, and which is identical to the composition with the Hematic Globule, or red blood. In all diseases are impended with

Debility,

pale countenance and nervous detangement, analysis of the blood show a deficier cy, of the red globules. Ruddy-couplexion and a rosy tint of the skin, is always indicative of health; white a pair, we wilke skin and countenance,—which evines a dedicancy of the red globules,—accumpanies a discased organism. Preparations of Iron hard been given for the purpose of supplying the red piebules, but we contend that Iron alone, Sulphurious, of Phosphorus alone, will not meet the deficient in every case, but that a judicious combination of an these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the Blood Food, and its discovery takes as one of the most se entitle and important of the age. Its offects in _:

DR. JOHNSION.

Dr. Johnson member of the Royal College of Surgeons. London, graduate from one of the most eminent Colleges of the United States, and the greatest part of whose life has been spent in the Bospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most as lonk hing cures that were ever known. Many troubled with ringing in the ears and head when asleep, great nervousness, heing starmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind were cured immediately,

TAKE PARTICULAR NOTICE. Dr. J. Jaddresses all those who having injured themselves by private and improper indulgencies, that secret and solitary habit which ruins both body and mind, unfitting them for either businessor Society.

These are some of the sad and melancholy effects produced by early sabits of youth, viz. Weakness of the Back and Linds, Pains in the Head, Dimness of Sight, Eoss of Muscular Power, Palpitation of the Heart, Dyspersia, Norvous Irritability, Derangement of the Digestive Functions, General Debritty, Symptoms of Gensumption, 2021

MENTALLY, the fearful effects on the mind are much to be dreaded:—Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil, Forebodings, Aversion to Society, Self-distrust, Love of Solitude, Timidity, &c., are some of the evil-effects.

Thousands of persons of all ages, can now judge what is the cause of their decline in health, losing their vigor, becoming weak, pale, nervous and emaciated, have a stegular appearance about the eyes, cough, and sympms of consumption.

YOUNG MEN

who have injured themselves by a certain practice, in adaged in when alone—a habit frequently learned from evit companions, or at school, the effects of which are nightly felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hopes of his country, the darling of, his parents, should be snatched from all prospects and enjoyments of life by the consequences of deviating from the path of nature, and indulging in a certain secret habit. Such persons must, before contemplating YOUNG MEN

MARRIAGE, 1

effect that a sound mind and body are the most nece requisites to promote connubial happiness. Indeed without these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes highled with our own. DR. JOHNSON'S INVIGORATING REMEDY FOR OR-

GANIC WEARNESS. GANIC WEARNESS.

By this great and important remedy, Weakness of the Organs are speedily cured, and full vigor restored. Thousands of the most nervous and debilitated who had lost all hope, have been immediately relicated. All impediments to Harriage, Physical or Mental Disqualification, Nervous, Trembling, Weakness or Exhaustion or the most fearful kind, speedily cured.

TO STRANGERS.

To Strangers.

The many thousands cured at this Institution within the last twolve years, and the numerous important Surgical operations porformed by Dr. J., winessed by the reporters of the papers, and many other persons, uctices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.

DISEASES OF IMPRUDENCE —When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability can alone befriend him, dolaying till the constitutional symptems of this horrid disease make their appearance, affecting the head, throat, nose, skin, 8c., progressing on with frightful rapidity, till death puts a period to his dreadful sufferings by sending him to "that bourne from whence no traveler returns." It is a melancholy fact that thousands fall victims to this terrible disease, owing to the unskithiness of ignorant pretenders, who, by the use of that deadly poison, mercury, ruin the constitution and make the residue of lite miserable. CONCENTRATED LEAVEN, FOR MAKING

Bread, Tea-Cakes, all kinds of Pastry, &c.

EDW. CHAMBERLIN & CO.,

EDW. CHAMBERLIN & CO.,

Progreteors of Shawmut Chemical Works.

No. 33 INDIA STREET, Boston.

CONCENTRATED LEAVEN is the requality, and in much less time, than by any other process; and by the manufacturers submit it, with entire condidence, to the judgment of discriminating house keepers, bakers, &c.

Bread of all kinds made by using Concentrated Leaven is lighter, more digestible and multifitious; has an agreea, ble, uatural taste; is less liable to cour; will retain its moisture longer than by any other process, and the whole preparation for the oven need tot exceed ten minutes.

It is valuable because it is not perishable, and may be rendered available in places and at times when yeast is not within reach, as at sea. In all climates and under all circumstances, it may be adopted, thus obviating all difficulty of procuring yeast or other forme. It, which is frequently of an inferior quality, ret dering the bread more or less unwholesome.

It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of not less than 16 per cent. In the common process much of the saccharine of the flour is lost by being converted into carbonic acid gas, or spirit, and the waste is incurred solely for the purpose of generating gas to raise the dough. By using Concentrated Leaven this waste is avoided, and the gas obtained in a manner equally efficacious. Fermentation, as has been stated, destroys a part of the flour or meal, and, in consequence, a barrel of flour weighing 196 bs., which, by the common method, or dinarily makes about 250 bs of bread, gives by this process 290 bs , thus effecting the very important saving of 10 per cent. in the quantity of flour. By conformity to the directions on each package, any person capable of ordinary attention may conduct the process, and the result will invariably be highly satisfactory.

(The nexting bread. This article is skillfully comfounded, from perfectly pure material. It raises the dough without coneming the sugar or any other prolacin

"The experiments made by me confirm the statement made by the manufacturers, and proves this compound worthy of public approval and extended use.

"Respectfully,
"A. A. HAYES, M. D., State A-sayer,
