Daily Telegraph.

HARRISBURG:

Saturday Afternoon, January 19, 1861

The daily receipts of oil over the Sunbury & Erie Railroad amount to about four hundred barrels.

The Steam Fire Engine for the Friendship Fire company of our city will arrive here about the middle of April or the first of May.

Free Bridge.—We learn that a strong effort will be made this winter to obtain the passage of a law to make the Harrisburg bridge a free bridge.

Contemplated Improvements.—We hear of a number of new dwelling houses to be erected in the Fifth and Sixth wards of our city next spring.

"Ha, Doctor, how is my wife to-day?" The doctor shook his head and said: "You must prepare for the worst." "What!" exclaimed the alarmed husband, "is she likely to recover?"

Severe Fall.—An elderly lady residing in Walnut street, while returning from Market this morning, received a severe fall on the pavement in Fourth street, near Strawberry alley. It was thought she had dislocated her shoulder by the accident.

The Weather.—After four days of almost uninterrupted gloom the clouds dispersed yesterday, and for the second time since its change the new moon was visible last night. The temperature was pleasant and to day has caused a fast disappearance of snow and ice.

Service.—In consequence of Rev. C. W. Gardner being sick and not able to fill his place, Rev. Mr. Robinson will preath in the colored Presbyterian church to-morrow morning at half-past ten o'clock, and Rev. Mr. DeWitt at seven in the evening.

Citizen, Attention!—A special meeting of the Citizen Fire Company, will be held at their hall, this (Saturday) evening. Every member is requested to be punctual in attendance, as appropriate action on the death of our late fellow-member, John W. Boyer will be taken. By order.

Harrisburg, Jan. 17, 1860.

Editor Telegraph:—Will the editor of the Telegraph please inform an "Inquirer," which is the pronouncing dictionaries is the standard in this community?

Answer—Inquire at Bergner's cheap Book Store, where you will find a full assortment of the "Standard Edition."

The Lock-Up.—There were nine lodgers in the lock up last night. Six "voluntaries," one "drunk," and one rough looking little negro "impounded" for attempting to pound his father. The "voluntaries" of course were discharged, while the remainder were subjected to the usual penalties.

Grand Vocal and Instrumental Concert.—The grand vocal and instrumental concert to be given at the St. Lawrence (German Catholic) church, on Front street, will come off next Tuesday evening. The programme embraces a number of musical gems, which we have no doubt will be rendered in a satisfactory manner by the several performers. Altogether, the concert promises to be very entertaining, and well worth the price of admission—25 cents.

Expensive Devotion.—The pews in the Plymouth Church, (H. W. Beecher's,) Brooklyn, were sold at auction last week. The first pew was struck off at $160 premium. A number of the most eligible were taken at prices ranging from $140 to $160 each. At premiums ranging from $100 to $140 nearly all the most desirable were taken. Other lots went off at from $70 to $100, $45 to $70, $25 to $45, and so on down to $17, at which all but sixteen were disposed of. The latter were taken at premiums ranging from $10 to $14.

The Baptist Church Services.—Preaching on next Sunday morning and evening by the Rev. R. H. Austin, of Pottsville, Pa. The public are invited to attend. We are informed that the Rev. Wm. S. Wood, of Greene county, Pa., has accepted an invitation from this church to become their pastor. It is expected that he will commence his labors in that capacity about the 1st of March. Mr. Wood is quite a young man, a graduate of Jefferson College, Pa., and the Presbyterian Theological Seminary, of Allegheny city. It is said, by those who have heard him, that his pulpit abilities are very fine, and is predicted will make a faithful and successful pastor.

Sneak Thieves.—Our exchanges are filled with accounts of the operations of sneak thieves in their respective localities. Our own city is not exempt from their visitations, and our citizens would do well to keep a watchful eye on the gentry that ostensibly vend small wares, but who in reality are "spotting" for plunder. Beggars, too, need watching. While the "lady of the house" is obtaining something to satisfy the appetite of the apparently needy, valuable articles are secreted while her back is turned, and only missed when pursuit is vain. We repeat look out for strolling venders of "small things" and beggars.

Fortune Tellers.—A bill has lately been introduced into the House of Representatives of this State to make fortune-telling a penal offence, punishable by fine and imprisonment.—Astrologers, planets-readers, administers of "love powders" and all sorts of pretenses of foretelling events or "fortunes" are to come under this law, as, after mentioning several, it includes everything by saying "or by any other means." When the Fortune Teller is arrested, his or her advertisement may be used as evidence to convict them of the offence. This kind of legislation is hardly necessary, for those who are duped by a fortune-teller might as well spend their money that way as any other. The bill was introduced by Mr. Moore, of Philadelphia, and was referred to the committee on Vice and Immorality, who will probably report the same next Monday or Tuesday.

The Crossings at Walnut and 3d Streets are sadly in need of repair.

New Music.—Just received at W. Knoche's Music Store, Major Anderson's Quickstep with a true likeness of the gallant Major. Fort Sumter Grand March, both composed by S. Glover. They are real gems, to be had at No. 92 Market street.

Death of a Fireman.—The Citizen Fire Company tolled their bell and placed their flag at half mast to day, as a token of respect to the memory of Mr. John W. Boyer, one of their most active members who died suddenly this morning.

Reward.—A reward of five dollars will be given to any person or persons who will give information towards the detection of the person or persons who maliciously or otherwise abstracted a flag from the hall of the Hope fire Company, belonging to one of the old soldiers of this city.

Val. B. Hummel, Sec'y.

Assault and Battery.—Mr. Joseph Seltzer was bound over this morning by the mayor in the sum of one thousand dollars to answer the charge of assault and battery upon the person of Walter G. Graham, of Butler county. The affair occurred at the corner of 3d & Walnut, and is said to have originated in a dispute relative to the settlement of the estate of some deceased member of the family of one of the parties.

The Philadelphia *Daily Record* calls attention to the fact that, by decisions of some of the English courts, and of the Supreme Courts of several of the States, the doctrine has been laid down that it is the duty of Notaries Public to present in *person*, and *not by a clerk or deputy*, such notes as are allowed to go to protest: and that where this has not been done, the whole proceeding is legally void. No decision has ever been made in this State, we believe, of this character.

Mince pies are not confined to the holidays, but are "hulsome" whenever the weather is not too warm. An exchange gives the following receipt for their "make-up:" "Two pounds of beef, two pounds of suet, four pounds of sugar, two pounds of stoned raisins, four pounds of currents, one pint of brandy, one pint of Lisbon wine, four pounds of apples cut fine, one nutmeg, quarter of an ounce of cloves, half an ounce of cinnamon, half an ounce of citron, and the pealing of an orange with the juice. This will make forty pies."

Mr. Editor—Dear Sir: If you will please notice that gambling house that is going on almost in the same yard with your office, you will do the town a great favor. It is not only carried on through the week, but on Sunday night and day. Do give it a notice in your paper, and see if you cannot be the means of having it stopped. The police will not take any notice of it, although they know that it is going on. Yours truly,

In the Neighborhood.

[Note—Not being a visitor of gambling houses, we are unable to vouch for the correctness of the above, but we advise our "neighbor" to make the necessary information before some alderman, and, as court commences on Monday next, his Honor, Judge Pearson, will have the matter properly attended to.—Ed.]

Election of Officers.—The following is a list of officers of the Hope Fire Company, elected for the ensuing year:—President, Wm. H. Keppner; Vice President, A. K. Black; Secretary, V. B. Hummel; Assistant Secretary, J. McGranigan; Treasurer, H. M. Koller; Librarian, T. Sample; Chief Engineer, R. R. Barr; Assistants, J. M. Groff and H. Hummel; Chief of Hook and Ladder Truck, W. D. Carson; Assistants, D. Barr and H. Carbery; House Directors of Engine and Hose Carriage, A. Brown, J. Likens, C. Hummel, T. Sample, J. M. Garverich, H. Lemar, J. M, Barr and Wm. D. Earnest; Directors of Hook and Ladder Truck, B. Benson, the Wm. Fackler, A. H. Frankem.

Short S[illegible] from the Western States are waking up. Mr. Gurley, of Ohio, said in the House of Representatives, on Wednesday last, that "if any attempts were made by the secessionists to interrupt the free navigation of the Mississippi, the now powerful foundation of New Orleans would become the bed of a lake, where fishes would live instead of men." Mr. Holman, (Dem.) of Indiana, said "The people whom he represented would not consent that the Union should be destroyed, and that if a bill was passed giving the President authority to accept the services of volunteers, he could have one hundred thousand men from the West alone, and then let the worst come." Mr. Morris, (Dem.) of Illinois, said "Nero fiddled while Rome was burning; and President Buchanan while the Republic is falling into ruin, complacently comes forward and says he is not responsible for it! But he said, with the whole country, as Nathan said unto David, 'Thou art the man.' The blackness of darkness will overshadow Buchanan's memory. If there were needed any other inscription upon his tombstone, it should be 'God have mercy on me.'"

For the Telegraph.

The Furnitnre for the Governor's House.

Editor Tetegraph:—*Dear Sir*:—I hear that one of the last acts of Gov. Packer was the appointment of Philip Dougherty for the purpose of spending the $3,000 appropriated for the purchasing of new furniture for the Governor's residence. Whilst I have no objection to the appointment of Mr. Dougherty, who is an honorable gentleman; yet it was understood before the law was passed, that the Secretary of the Commonwealth, Mr. Slifer, would be appointed, in order to consult the wishes of the Governor's lady in his selection. It is now commonly rumored about town that a lot of second-hand furniture has been purchased from Gov. Packer at exhorbitant high prices, and that the money is to be expended in that manner. Can you inform us of the facts in this case. Inquirer.

Note.—We know nothing of the facts in the case, but have heard considerable complaint about the appointment and the purchase of second-hand furniture. We consider it disgraceful to the State to ask a new Governor to take a house furnished by the State with second-hand furniture, and we advise Governor Curtin to repudiate such purchases. The Legislature appropriated the money for new furniture, and it was distinctly understood that his friend, Col. Slifer, should buy it.—Ed.

The Weather and the Sidewalks.—From a very cold temperature, a few days ago, we are now plunged into a temperate atmosphere. The snow melts, and there are indications of rain. The sidewalks in the morning are a glare of ice, and woe to him who ventures out without rubbers on his feet; while at noon, to walk without stout boots is certain to soak your stockings, so prevalent and so penetrating is the slush. In the meantime, the unsettled state of the weather puts the ladies in an earthly purgatory. They can't get out to air themselves, to shop, or to call on their friends, and of course no one can call on them. Gossip is below par; the fountains of news are dried up and the itemizer seriously lamenteth thereat.

Remarkable Case—A Lady in a Trance.—The Pittsburg *Gazette* gives an account of a remarkable case of suspension of vitality in Wheeling. A lady, residing in this city, who had been lying ill for a long time, died to all appearances on Saturday night of week before last, and the necessary preparations were made for interment. It was discovered, however, when the body was about to be placed in the coffin, that it still retained its natural warmth. This, of course, occasioned a great surprise, and efforts were made to restore animation, but without success. The unfortunate woman still remains in the same condition, and as yet no signs of decomposition have appeared, although some six or eight days have elapsed since death was supposed to have taken place. The case has excited no little interest among the leading physicians and others of the city and vicinity.

Columbia and Maryland Line Railroad.—The annual election for President and Directors of the Columbia and Maryland Line Railroad, was held at Cooper's Red Lion Hotel, in Lancaster, on Monday last, and the following gentlemen elected officers for the ensuing year: *President*—Jeremiah B. Haines.—*Directors*—Gen. Bartram A. Shaeffer, J. B. Shuman, J. A. Sheaff, C. S. Kauffman, John C Walton, Jas. McSparran, John Long, Jeremiah Brown, Joseph Ballance, Wyatt W. Miller, and Thomas R. Neel, of Lancaster county, and Col. J. J. Heckart, of Port Deposit, Md.

At a meeting of the Board, immediately after the election, Joseph Ballance was re elected Treasurer, and Jeremiah Brown, Secretary.

More Secession.—The secession doctrine seem to be spreading all over this country.—The free North is beginning to talk of seceding from this Union. The Pittsburg *Journal* says:

Allegheny county has a population of 180,000, and Pittsburg and Allegheny alone have of themselves about 90,000 free white inhabitants. Let us proclaim our grievance:

First—We have prayed for a tariff which should in some degree protect our own honorable and valuable industry. Congress has neglected our petitions.

Second—We have remonstrated against the tariffs which have approached more nearly than the present to our wants. Our remonstrances have been disregarded.

Third—We have again and again besought Congressional aid towards making navigable our great rivers. That aid has never been extended to us. This is an outrage on our rights.

Fourth—Citizens from this county have been driven out of various States of the South without judge or jury. This is a breach of the Constitution.

To which we might add that the United States Government continues, without our lief asked, to hold the arsenal at Lawrenceville; that they also have here a Custom House, a Postoffice and Surveyor of the Port; that they persistently hoist the American flag with thirty-three stars theron; that this county gave ten thousand majority for Lincoln.

Unless some compromise is proposed, should not the people of Allegheny county secede from the Union? On a question of numbers, we could compare favorably with South Carolina, which has less than 100,000 more white inhabitants than we. Florida, with a population equal to that of Pittsburg, has asserted her sovereignty and magnificently withdrawn her member from the House. We challenge [illegible] a list of grievances equal to be land. It [illegible] offers some compromise, ought we [illegible] the Union? Will not somebody hold us?

P. S.—Since the above is in type we learn that our county is also effected. The people of "Hartsgrabble" and "Verbeketown" talk seriously of withdrawing from this city and set up as an independent Nation.

P. S.—Later.—Linglestown has also given notice that unless this doctrine of secession is crushed she will be determined to withdraw from the county. Can't our friends of *Patriot and Union* stop this rebellious spirit

A Curious Affair.—The Seneca *Courier* reports a startling circumstance which occurred last week at the Senaca Falls Hotel. The lady of the proprietor was alarmed early in the morning by a noise like the report of a pistol, in a sitting room adjoining that she occupied. On seeking the cause she found that the top of a nice mahogany center table had cracked open. The table had been in use in the place it occupied six months and there was no fire in the room at the time of the *explosion*. The Rochester *Union* says the table was purchased in that city two years since, which we take is sufficient explanation of the phenomenon. Rochester tables have always been famous for "knockings," "tippings," and "turnings," and it is not at all wonderful that one of them should finally have "busted."

Arrest for Treason against South Carolina!!—J. N. Merriman, Collector of the port of Georgetown, S. C., was on Monday last arrested by the people of Georgetown on a charge of treason against the State. A letter was found written by him and directed to Mr. Buchanan, stating that he (Merriman) had just cleared vessels in the name of the United States, and that he would continue to do so.—The letter calls upon the President to send a boat and men to collect the Federal Revenue, and informs him of the progress made in the construction of the works near Georgetown, and promises to keep him posted from time to time in relation to the same. The letter is signed by his initials, J. N. M.

Davis' Pain Killer.

No Medicine is more prompt in its action in cases of Cholera, Cholera Morbus, &c., than Perry Davis' Pain Killer. It is the acknowledged antidote which seldom fails if applied in its early symptoms. No family should be without a bottle of it always on hand.

The stain on linen from the use of the Pain Killer is easily removed by washing in alcohol.

Davis' Pain Killer seems particularly efficacious in holera morbus, bowel complaints, and other diseases which the natives of Burmah, from their unwholesome style of living, are peculiarly exposed. It is a valuable antidote to the poison of Centipedes, Scorpions, hornets, &c.

OINTMENT

FOR

SALT RHEUM AND SCROFULA,

PERMANENTLY CURED!

SALT RHEUM, SCROFULA, SCALL HEAD, FEVER SORES, RING-WORMS, BARBERS' ITCH, AND ALL ITCHING OR BURNING SORES, AND ERUPTIONS OF THE SKIN.

This Ointment bears no resemblance to any other external remedy at present before the world. The mode of its operation is peculiar.

It penetrates to the *basis* of the disease—goes to its *very source*—and cures it from the flesh beneath to the skin on the surface.

Other outward applications for Scrofula, Salt Rheum, &c., *operate downward*, thus driving the disorder *inwards*, and often occasioning terrible internal maladies.

Norton's Ointment, on the contrary, throws the poison of the disease *upward*, and every particle of it is *discharged through the pores*.

Thus the cures it effects is complete. Not only are the sores healed—the eruptions removed—the swellings reduced—but the *seeds* of the disease are expelled from the flesh; consequently there can be no relapse.

Victims of ulcerous and eruptive complaints, who have tried every professional mode of treatment and every advertised curative without relief, *here* is a certain, safe, and expeditious remedy for the evils you endure. A single box will satisfy you of the truth of all that is here tated.

Since its first introduction, the properties of the Ointment have been tested in the most obstinate cases—cases hat utterly defied the best medical skill in the country, and upon which the most celebrated healing springs produced no effect—and in every instance with every success.

Sold in Large Bottles—Price 50 Cents.

Weakness and Debility.—All who suffer from weakness or debility, where there is a want of energy, should at once have recourse to JUDSON'S MOUNTAIN HERB PILLS. They immediately purify the blood, and act upon the mainspring of life, giving strength and vigor to the system. Young persons entering into womanhood, with a derangement of the functions; and to mothers at the turn of life, these Pills will be most efficacious in correcting the tide of life that may be on the turn. Young and elderly men suffer in a similar manner at the same periods, when there is always danger, they should therefore undergo a course of this purifying medicine, which ensures lasting health

This great Household Medicine ranks among the leading necessaries of life, as it is well known to the world that it cures complaints other remedies cannot reach; this fact is as well established as that the Sun lights the World.

Sold by all medicine dealers. de26-1m

It is a Common Observation that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his CELEBRATED "BITTERS." The weak and nervous denizen of the counting house, the exhausted toiler upon the shop-board, and the prostrated student of the midnight lamp have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is so magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial?

A Distinguished St. Louis Physician Writes

St. Louis, July 10, 1860.

O. J. WOOD, Esq.: Dear Sir:—Allow me the pleasure and satisfaction to transmit to you the beneficial effects of your Hair Restorative, after a trial of five years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its turning, and in three weeks time there was not a gray hair to be noticed, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times per month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the above mentioned will be of any particular advantage to you, or even flatter your vanity at this late day, as I am well aware they are all known already and even more wonderful ones throughout the Union. I have occupied my time in traveling the greater part of the time the past three years, and have taken pride and pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people that have pronounced it a humbug; saying they have used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article said to be as good as yours, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently some of those charitans have not brains enough to write an advertisement, as I notice they have copied yours word for word in several instances, merely inserting some other name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.

I called to see you personally at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this or refer parties to me. Any communication addressed to me, care box No. 1,920, will be promptly answered.

Yours, truly,—

JAMES WHITE, M. D.

Prof. WOOD, Dear Sir:—I was induced more than a year ago to try your valuable Hair Restorative for the purpose of cleansing my head of dandruff. I had suffered with it upon my head for years, and had never been able to get anything to do me any good in removing it, although I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gross & Kunkle's drug store, and bought a bottle, and now am prepared to recommend it to universal use, for it has completely removed all dandruff from my head, and an application once in two weeks keeps it free from any itching or other unpleasantness.—I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, although I do not like to expose myself, I consider it my duty to do so. You can use this or any part of it in any shape you think proper, if it is worth any thing to you.

Yours, &c.,

H. H. Etter.

Bloomington, Ind., July 30, 1859.

Dear Sir: I here send you a statement that I think you are entitled to the benefit of. I am a resident of Blosmington, and have been here for over thirty years. I am now over fifty years of age. For about twenty years past my hair has been turning considerably gray, and was almost entirely white and very stiff and unpliant. I had seen a number of certificates of the very wonderful effect of your Hair Restorative but supposed there was more fiction than truth in them: but entertaining a strong desire to have my hair, if possible, restored to its original color and fineness, as it was in my younger days—a beautiful black, I concluded I would make the experiment commencing in a small way. I purchased one of your small bottles, at one dollar, and commenced using, following directions as nearly as I could. I soon discovered the dandruff removed, and my hair, that was falling off in large quantities, was considerably tightened, and a radical change taking place in the color. I have continued to use it, till I have used three of your small bottles and just begun on the fourth. I have now as pretty a head of dark brown, or light black hair as any man, or as I had in my youthful days, when a boy in the hills of Western Virginia. My head is entirely clear of dandruff, and the hair ceased entirely falling off and is as soft and fine, and feels as oily, as though it was just from the hands of a French champooner. Many of my acquaintances frequently say to me "Butler, where did you get that fine wig?" I tell them it was the effect of your Restorative. It is almost impossible to convince them that it is the original hair of the same old gray head.

Yours, truly,

FREDERICK T. BUTLER,
Bloomington, Monroe Co., Ind.

Wood's Hair Restorative has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs. In our vicinity it has been extensively used, and we believe in every case with every desired result, and received the universal endorsement of all who have tried it. We therefore recommend it as one of those few nostrums which accomplishes all it professes, and all the bald and gray could desire.—*Columbia Spy.*

Prof. Wood's Hair Restorative.—In another column will be found an advertisement of this well known and [illegible] preparation for restoring gray hair to its original color. The Hair Restorative [illegible] eruptions, and prevents the hair falling. We have seen many authentic testimonials in proof of these assertions some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried this Restorative. *Boston Olive Branch.*

Wood's Hair Restorative.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums, but we take great pleasure in recommending Professor Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snow in summer.—*Baltimore Patriot.*

Wood's Hair Restorative.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to pristine vigor. Where the head had become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other impurities, which operate so injuriously to the hair. It also has curative properties of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of his remedy, and its effects can only be beneficial, as the compound if it does not cause a marvelous improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—*Boston Transcript, April 22, 1859.*

A Genuine Boon.—In our capacity as conductor of a public journal, we are called upon to advertise the curealls of the day, each of which claims to be unadulterated in its composition and infallible in its curative effects, with what justice we leave our readers to determine. In one instance, however—Prof. Wood's Hair Restorative—we are so well assured of the notable qualities of the article, that we give it our indorsement as all that its inventor and vender claim it to be. Its effect upon a falling head of hair is universally known to be magical. Like lime or guano on exhausted land, it brings its crop wherever applied. Our own thatch is fortunately very healthy, but we advise our friends with sparsely-growing hair to try the Restorative.—*Columbia Spy.*

All Hair Dyes Abandoned.—*Wood's Great Article Has Taken the Field.*—Professor Wood stands on an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is sudden but world-wide, and thousands who have worn wigs or been bald for years are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry, the chemistry of human life, and the laws which apply to the functions of the system. Prof. Wood studied out the human hair, its character, its properties and diseases, and how to restore the decaying vitality to that ornament; he saw, as in his own case, that gray hair is unnatural unless the age of the individual has reached four score, and he believed that the hair could be naturally revitalized. He tried his own case—almost bald and quite gray, at the age of thirty-seven—he restored his own hair in color, strength and luxuriance, and the article he did it with he gave to the world.
