The AMAIGAMATHON OF LARGUAGES.—There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own; thus the word cophalic, which is from the Greek, signifying the the head," is now becoming popularized in connection with Mr. Spaiding's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as Flectritype and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the maner born"

'ardly Realized.

Hi 'ad 'n 'orrible 'caduche this hafternoon, hand I stepped into the hapothecaries hand rays hi to the man, 'tean you hease me of an 'eadache ?' 'Do's it hable 'ard's rays'e. "Hexceedingly,"! says hi, hand upon that 'e gave me a Cephalic I ill, hand 'p'a me 'onor it cured me, so quick that I 'ardly realized I 'ad 'alt an 'eadache.

And TEADACHE, is the favorite sign by which pasure makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a rafeguard intended to give notice of disease which might otherwise escape attention, till too late to be looked on as a rafeguard intended to give notice of disease which might other wise escape attendon, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz—Symptomatic and fidiopathle. Symptomatic Headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach consultation and other disorders of the howels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with Headache, of worms, constipation and other disorders of the howels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with Headaches, Ansums and picthors are also affections which frequently occasion headache. Idopathic Headache is also very common, being usually distinguished by the name of hervous headache, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on alowly, heridded by depression of spirits or acerbity of temper. In mist in stances it comes on alowly, heridded by depression of spirits or acerbity of temper. In mist in stances it comes on some yound in the foot of the head, over one or both rigs, and sometimes provoking vomiting; under this class may also be nan.ed. Neuralofa.

For the treatment of either class of Headache the Cephalle Pills have been found a sure and safe remedy, referred the most accuration and the treatment of either class of the content of the physical contents.

phalic Pils have been found a sure and safe remedy, re-lieving the most acute psins in a few minutes, and by its subtile rower cradicating the diseases of which Head-ache is the unerring index.

FRINGET.—Missus wants you to send her a box of Cephalic Glue, no, a bottle of Prepared Pills,—but I'm thinking that's not just it naither; but perhaps ye'll be after knowing what it is. Ye see she's nigh dead and gone with the Sick Headache, and wants some more of that same as relaived her before.

Druggist.—You must mean Spalding's Cephalic Pills.

Bridget.—Och! sure now and you've sed it, here's the quarter and giv me the Pills and don't be all day about it aither.

Constination or Costiveness.

Constination or Costiveness.

No one of the "many ills flesh is heir t." is so prevalent, so little understood, and so much neglected as Costiveness. Often origirating in careles incess, or sedentary habits; it is regarded as a slight, disorder of two little consequence to excite anxiety, while in reality it is the precursor and companion of many of many of the most fatal and dangerous diseases; and unless early eradicated it will bring the sufferer to an untimely grave.—Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheumatism, Foul Breath, Flies and others of like nature, while a long train of frightful diseases such as Malignant Favers, Abcesses, Dysentery, Diarrhoa, Dyspepsy, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondriasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Constipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person shellid neglect to get a box of Cephalic Pilis on the first appearance of the complaint, as their timely use will expect the finishuous approach o disease and destrey this dangerous foe to human life.

A Real Blessing.

Physician.—Well, Mrs. Jones, how is that headache?

Mrs. Jones.—Gone I. Doctor, all gone i the pill you sent cured me in just twenty minutes, and I wish you would send more so that I can have them handy.

Physician.—You can get them, at any Druggists. Call for Cephalic Pills, I find they never fail, and I recommend them in all cases of Headache.

Mrs. Jones.—I shall send for a box directly, and shall tell all my suffering friends, for they are a real blessing.

TWENTY MILLIONS OF DOLLARS SAVED .- Mr. Spalding has TWENTY MILLIONS OF DOLLARS SAYED.—Mr. Spalding has sold two millions of bottles of his celebrated Prepared Glue and it is estimated that each bottle sayes at least ten dollars worth of broken furniture, thus making an aggregregate of twenty millions of doltars reclaimed from total loss by this vatueble invention. Having made his Glue a household word, he now proposes to do the word stip greater service by curing all the aching headswith his Cephalic Pilhs, and if they are as good as his Glue, Head aches will soon vanish away like snow in July.

AS OVER EXCITEMENT, and the mental care and anxiety incident to close attention to business or study, are among the numerous causes of Nervous Headache. The disordered state of mind and body incident to this distressing complaint is a faint blow to all energy and ambition. Sufferers by this disorder can always obtain speedy relief from these distressing attacks by using one of the Cephalic Pills whenever the symptoms appear.—It quiets the overtasked brain, and soothes the strained and jarring nervos, and relaxes the tension of the stomach which always accompanies and aggrava'es the disordered condition of the brain.
