

Daily Telegraph.

HARRISBURG.

Tuesday Afternoon, January 22, 1861.

INSURANCE COMPANIES AND TEMPERANCE.—The Insurance Companies have, according to a late decision upon life insurance, a deep interest in the temperance movement as well as against the adulteration of liquor, it having been decided by the Supreme Court of New York, that temperance is no bar to the recovery of life insurance. The case involved \$5,000, which the company are ordered to pay.

CORRECTION.—We are reliably informed that the man John Saline, who recently died in the sixth ward, from injuries caused by an accidental fall from the stairs of his dwelling, was not intoxicated, as currently reported at the time. We make the correction with pleasure, at the request of his widow, who states that the deceased did not make a practice of drinking to intoxication, and was only sober at the time the fatal accident occurred.

MAIL ROUNDED ON THE NORTHERN CENTRAL RAILWAY.—On Sunday afternoon a canvas mail bag, supposed to have been filled with mail matter at the Harrisburg office, was found lying in a freight car about twenty miles this side of Baltimore, on the line of the Northern Central Railway. The thief cut out the lock, ripped open the bag, unsealed all the letters, and rifled them of their contents, which, however, were not of much value, and then replaced the letters in the pouch. The mail agent took it to Baltimore on Monday morning and handed it to the postmaster of that city.

NEWS FROM GREECE.—Some idea of the amount and value of the products of the oil country on and near the Allegheny river, may be formed from the freight list of the Sunbury and Erie Railroad. We subjoin, from the *Erie Observer*, a statement of the number of barrels received in three days:

On Monday there were	780 barrels.
"Tuesday "	208 "
"Wednesday "	722 "

During the past week a number of sales were made at Tidouca at 25 cents per gallon at the wells. The excitement continues unabated, and we hear every day of persons being severely attacked with the disease which has become contagious—"oil on the brain." The oil region said to be the only place where the perils of our country are not thought of or discussed.

THE SPECIAL TRAIN FOR PRESIDENT LINCOLN.—We learn that the tender of a special train to the President elect, by the President of the Pittsburgh, Fort Wayne and Chicago Railroad, has not yet been accepted, owing to the impossibility of determining definitely what route will be taken. The above named company propose that the "Iron locomotive car," which will hold fifty persons comfortably, shall be used if desired, or a full train for the President and as many friends as shall desire to accompany him, will be made up for the purpose. The officers of the Pennsylvania Central have joined in their invitation, and propose to furnish the magnificent Prince of Wales car to Mr. Lincoln's party, and make arrangements to run the same through to Baltimore, if desired. It is evident that the President elect may travel in royal style, if he wishes to do so, all the way to Washington.

IS COAL OIL EXPLOSIVE?—This question is just now exciting attention among chemists in various quarters. On the one hand it is confidently asserted that properly refined coal oil is not explosive, while others adduce facts to show that in several instances this newly introduced illumination has been disastrously explosive. An exchange states that "one evening last week, several members of the family of a Miss of Bristol, Pa., were seated in the kitchen. A tin can, but partially full of coal oil, stood on the table. The lamp had just been lit but not lighted, and the only flame or fire in the room was in the cook stove. Suddenly the can exploded, and as if a streak of lightning had burst upon the house, the room was a sheet of flame, which set everything combustible on fire. The oil from the can was scattered in all directions, some persons present being with partial injury, as if by a miracle, and to state, an interesting daughter of the family, fourteen years of age, from whom some facts were elicited, was so badly burned that death ended her sufferings on the ensuing day." It becomes those interested in this subject to set the public right on this important question. It is probable that the coal oil mentioned above might have been a mixture of kerosene and coal oil, which has been introduced to some extent. We should like to hear from some competent authority on this subject.

THE WORKINGMEN AND THE UNION.—At the primary meeting of workingmen on Saturday evening, alluded to in our last issue, the address and resolutions recently adopted by the men of Louisville, were read and endorsed. Committees, consisting in all of twenty persons, were appointed to draft resolutions, officers, and make the necessary arrangements for a working men's Union mass meeting at the Court House, on Thursday evening. We hear rumors to the effect that certain politicians are secretly figuring in the movement, with the view of getting an infusion of "conservative" sentiment in the ranks of the workingmen, and that the men of our city, who are competent to take their own business, will closely watch the political wolves in sheep's clothing who attempt to enter their fold, and influence their decisions for selfish purposes. Let the workingmen stand squarely up for the Union as it is, the enforcement of the Constitution and Laws, and against any concession of principle tending to compromise the rights and interests of Free Labor. We have great confidence in the "bone and sinew," and believe they will prove themselves equal to the emergency.

MORE PARDONS.—The retiring Governor evidently made a general jail delivery during the last week or two of his Administration. In addition to the pardons announced in a recent issue of this paper, we now learn that two Philadelphia burglars, James McLaughlin and Edward Cavanaugh, convicted in 1859 and sentenced to four years in the penitentiary, were pardoned by Governor Packer just prior to his vacating the gubernatorial chair. How many other rogues were restored to liberty, by the retiring Governor, within a few weeks, will no doubt be developed in due time.

A DEPRIVED.—At a late hour last night a colored woman, named Mrs. Patton, residing in Cherry alley, called at the Mayor's office, and complained that her son-in-law, John Preston, had threatened to murder herself and daughter. The fellow was at once arrested by the Chief of Police, and caged in the lock-up until this morning, when he had a hearing before the Mayor. The woman then made oath that Preston, who was drunk and disorderly, had threatened to take her life and that of her wife. In default of bail he was committed to prison to await a trial.

CITY GUESTS.—One Wm. Nazareth, a feeble old man, with a head whitened by the frosts of seventy winters, was among the occupants of the lock-up last night. He complained of hunger, and was provided with a plentiful supply of provisions by the Chief of Police. On appearing before the Mayor this morning, he stated that he was on his way to Washington to regulate matters there and crush out the traitors and secessionists. The poor old wanderer, "by friends and fortune quite disowned," was evidently partially insane. Two young men—one a cooper and the other a machinist by trade—also were guests of the city. They failed to get work, had no money, and voluntarily sought shelter in the asylum for vagrants. God pity the poor unfortunates who have no money or work at this inclement season.

COURT OF QUARTER SESSIONS.—The regular January term commenced its session yesterday at the usual hour. All the judges were present, and the Grand Jury was duly sworn. Thos. Fenn acting as Foreman.

The Com. vs. Martin Erb, indicted for selling liquor on Sunday. Acquitted, and the prosecutor, Mr. Pluck, ordered to pay the costs.

Com. vs. Christian Spayd and John Sexton, charged with larceny. The parties plead guilty.

Com. vs. Charles Thomas, John M. Anderson, John Fagin and Charles Williams, charged with larceny and picking pockets on the day of Gov. Curtin's inauguration. Not guilty.

Com. vs. John Trump, charged with murder. The case was continued till the next session of Court.

Com. vs. Samuel Knox and Levi G. Egber, charged with keeping a gambling house, &c., in this city. The Grand Jury returned a true bill, but the defendants succeeded in having the case continued till the next session of Court, by giving bail in the sum of one thousand dollars to appear at that time.

Com. vs. Anders Wilhelm, charged with stealing a horse from John Landis, of Derry township. Verdict guilty.

THE MILITARY OF PENNSYLVANIA.—The "crisis" is causing an unusual stir in military circles generally throughout the State, and many new companies have been formed within a few weeks. The following extract from the Adjutant General's Report, showing the present condition of our military system, will be read with interest at this time. We commend General Wilson's suggestions to the immediate consideration of the Legislature, and heartily endorse the patriotic sentiments embodied in his report. The General, after alluding to the hearty Pennsylvanians, "keeps step to the music of the Union," and is ready to take up arms in its defence against foreign foes or domestic traitors:

"The whole number of organized volunteer companies in the State is 476, averaging about forty men to a company, making an aggregate of about 19,000 uniformed volunteers. The entire military force of the State is about five hundred and fifty-five thousand men, capable of military duty. The arms of the State are all in the possession of the volunteer companies, and comprise 12,800 muskets, &c., 4,706 rifles, &c., 2,809 cavalry swords and sabres, 3,147 pikes, &c., 69 pieces of ordnance, being six pound bronze cannons. There are about 575 muskets and rifles in the arsenal at Harrisburg. Of the above, there are about 2,500 muskets of the new model, 1,200 improved rifles, and about 600 excellent cavalry swords. The balance of the arms are unfit for active service in the field, being mostly the heavy old flint-locks, which, in using, are as likely to injure the possessor as any one else. The sixty-nine pieces of ordnance are in good condition, with the exception of their carriages, many of which need repair, and others ought to be entirely replaced. Thus it will be seen that the volunteers of the State have really but 4,200 effective small arms, leaving an actual deficit for them alone of 14,800 arms. This is truly a lamentable exhibit."

"The arms are furnished to the militia in the first instance, by the State itself. All that are now issued by the militia from this office are furnished by the United States to Pennsylvania, in common with the other States and territories of the Confederacy. By the act of Congress of 1808 (which was amended by the act of 1855) the sum of \$200,000 is annually appropriated to the purchase of arms to be distributed among the States and territories, in proportion to the original act, to the respective number of their militia, and afterwards by the amendment thereto, in proportion to their respective representation in Congress. By this mode of distribution, new States from year to year being added to the Confederacy, and the sum appropriated remaining the same, the quota due to Pennsylvania is lessened every year. For instance, in 1847 the quota furnished our State was 3,955 muskets, while the quota furnished in 1857, was 1,283 muskets, showing a diminution, in ten years of 825 muskets. Unless Congress enlarges the appropriation, Pennsylvania must soon look to her own resources in arming her citizens."

"The small quota of arms received from the General Government, totally inadequate to the wants of the volunteers, has rendered the office of Adjutant General an unpleasant one, and by no means a sinecure. It has been surrounded with difficulties and annoyances that no officer could obviate. I trust my menacing attitude of a portion of our countrymen will induce the Legislature to arm the militia and prepare for any emergency. The militia of Pennsylvania will ever be found ready to march in defence of the Constitution, the Law and the Union, or protect our countrymen from insurrection."

REV. THOMAS STREET, of York, will preach this evening, in the Presbyterian church, corner of Market Square. A general invitation is extended to the public to be present. There will also be public services in this church during most of the week.

THE PRODIGAL SON, is the subject selected by Rev. Dr. Robinson, of Brooklyn, for his discourse this evening, in the Louest Street Methodist church. No doubt the eloquent divine will handle it with the ability which has characterized all his sermons during the past week. As a revivalist he has few equals.

EDITOR TELEGRAPH.—In Thursday's issue of your valuable paper, you gave part of Mr. Williams' speech on the maintenance of the Constitution and the Union. Will you please insert in your issue where the remainder of it can be found, and oblige.

MANY ANXIOUS READERS.—The concluding portion of Mr. Williams' speech ran over on the second page, but we learn from our foreman that some few copies of the paper were printed in which it was omitted; and our friend must have been one of the unlucky individuals. We therefore republish the concluding portion of it, as follows:

But it will not be made void. It is not in the order of Providence that this great nation shall perish on the very threshold of its high career. It has just expanded its wings for a flight of centuries. No man can read the story of its birth, without seeing the finger of a superintending Providence directing its path through darkness and disaster, as distinctly as the beacon light which flamed in the midnight heavens in advance of the armies of Israel. No man can look back upon its progress, and realize the blessings which it has already conferred upon man, and the still greater blessings which it foreshadows, and then sit down in gloomy skepticism as to its future, without a doubt respecting the same. Providence still continues to govern the affairs of this world. It may have vicissitudes of fortune, like all things human. The flag of our Union may plunge behind the stormcloud, and bury itself occasionally in the bosom of the tempest, but it will emerge again—that glorious emblem of our power—it will emerge again—that constellation of our hope—from the darkness that may overshadow it, refulgent as with the splendor of a new dawn—flinging off the vapors which have hung about its folds, and hanging out, as of old, its signal of hope and freedom, and deliverance to the nations. A hundred generations shall yet sit down under its shadow, and bless the hands that reared and the hands that have defended it.

MITCHILL'S NEW GENERAL ATLAS FOR 1861.—This is Mitchell's latest and best attempt to furnish the American people with a complete Atlas, comprising a series of seventy-six maps and plans of different cities in the United States, with a full and accurate list of post-offices, arranged in alphabetical order, numbering some twenty-five thousand, and corrected census of the principal towns and cities according to the latest returns, and other statistical knowledge so important to every man of business. Its maps are clear and distinct. The boundaries of each county and State are plain and distinct, the coloring beautiful, all combining to make it one of the most attractive and desirable works for the drawing-room or center table—a work every family ought to possess—while the low price at which it is furnished, places it within the reach of families of moderate means. The engravings are entirely new, being gotten up expressly for this work, and give a clearness to the lettering and lines of demarcation of the different countries, seldom met with.

The work is sold only by agents and can be procured of the agent who is now visiting this city.

LABOR ARRIVAL OF NEW GOODS.—The CHEV-AST GOODS OFFERED YET—2,000 yards of French flannel at 10 cents, worth 12 cents, 2,000 yards of bleached 4-4 muslin at 10 cents, worth 12 cents, 100 Pz beautiful new style print at 10 cents, worth 12 cents. 50 Pz print at 7 and 8 cents, worth 12 cents, warranted fast color. The land. The best ever made. 1,000 yards of shirts and drawers at 50, 62 and 70 cents. Socks and ladies stockings a large variety. Our whole stock of winter goods, such as Shawls, De Laines, Pant Stuffs, Cloth, and all kinds of Flannels I will sell off at cost. Now is the time to get bargains. S. LEWY, at Rhoads' old corner.

Davis' Pain Killer.
No medicine is more prompt in its action in rheumatism, neuralgia, &c., than Davis' Pain Killer. It is the acknowledged antidote which never fails if applied in its early symptoms. No family should be without a bottle of it always on hand. The strain on linen from the use of the Pain Killer is easily removed by washing in alcohol. Davis' Pain Killer seems particularly efficacious in cholera morbus, bowel complaints, and other diseases which the natives of Burma, from their unwholesome style of living, are peculiarly exposed to. It is a valuable antidote to the poison of Centipedes, Scorpions, horses, &c. REV. J. BENJAMIN, Late Missionary in Burma. Sold by all druggists and medicine dealers throughout the United States and medicine dealers.

BUY THE BEST.
NORTON'S OINTMENT
FOR
SALT RHEUM AND SCORFULA,
FRECKLES, SORES, SCALD HEAD,
FURUNCLES, RING-WORMS, BARBER'S ITCH, AND ALL ITCHING
OBSTINATE SORES, AND ERUPTIONS OF THE SKIN.

This Ointment bears no resemblance to any other remedy at present before the world. The mode of operation is peculiar. It penetrates to the base of the disease—goes to the root of it, and cures it from the flesh—does not get on the surface. Other outward applications for Scrophulous, Salt Rheum, &c., do not cure the disease, but only remove the external manifestations. Norton's Ointment, on the contrary, drives the poison of the disease out of the system, and every particle of it is expelled from the body. Thus the cure is complete. Not only are the sores healed—the eruptions removed—the swelling cured—but the seeds of the disease are expelled from the flesh; consequently there can be no relapse. Victims of ulcerous and eruptive complaints, who have tried every professional mode of treatment, and every verted curative without relief, here is a certain, prompt and expeditious remedy for the evils you endure. In a box will satisfy you of the truth of all that is here stated. Since its first introduction, the properties of the Ointment have been tested in the most delicate cases, and have been found to be the most effective healing remedy, doing no effect—and in every instance with every case.

Sold in Large Bottles—Price 50 Cents.
GERRIT NORTON, Chemist, Philadelphia, Pa.
PENFOLD, PARKER & MOWERS', Wholesale Druggists, 10 Beekman st., N. York.
Sold by G. B. BARNES, Harrisburg, Pa.

PURIFY THE BLOOD.
MOFFAT'S LIFE PILLS AND PNEUMIC BITTERS.—Free from all Mineral Poisons.—In cases of Scrophulous Ulcers, Scurvy, or Eruptions of the Skin, the operation of the Bitters is truly astonishing, often curing in a few days, every vestige of these loathsome diseases by their purifying effects on the blood. Bilious Fevers, Liver and Bowel Disorders, Dropsy, Piles, &c., are cured, most all diseases soon yield to their curative properties. No family should be without them, as by their timely use much suffering and expense may be saved. Prepared by W. B. MOFFAT, M. D., New York, and for sale by all Druggists.

TO FARMERS.—VIRGINIA LANDS.—The undersigned is now prepared to furnish, in any quantities, from 100 to 1000 acres, or more, good farming or grazing lands, in Randolph and adjacent counties, in Western Virginia, within 12 or 16 hours of Baltimore and 24 hours of N. Y. The lands are fertile and well timbered, the climate very healthy, and so mild that sheep can be overwintered with very little feeding, and where a cow can be raised as cheap as a chicken in New England. They will be sold cheap, on easy terms, or exchanged for household or farm goods, or for stock. Address, with postage stamp, care of JOY, COE & CO. Tribune Building, New York. my25-61

MOTHERS, READ THIS.—The following is an extract from a letter written by the pastor of a Baptist church to the "Journal and Messenger," Cincinnati, Ohio, and speaks volumes in favor of that world-renowned Household Medicine, Winslow's Soothing Syrup for Children's Suffering:

"We see an advertisement in your column of Mrs. Winslow's Soothing Syrup for Children's Suffering. I have never used a word in favor of a patent medicine before in our life, but we feel compelled to say to our readers, that this is no humbug—we have tried it, and it has cured our children. It is, probably, one of the most successful medicines of the day, because it is one of the best. And those of your readers who have babies can do better than to lay it aside."

WOOD'S HAIR RESTORATIVE.—Among all preparations for the hair, none has ever gained so much popularity as Prof. Wood's Hair Restorative. It is a simple, safe, and effective remedy, and has cured many cases of itching scalp, dandruff, and other diseases of the hair. It is a true hair restorative, and will grow the hair to its original color, and keep it always soft, healthy, and in full vigor. "N. Y. Tribune." Sold by all respectable Druggists. do21-61

PROF. WOOD'S HAIR RESTORATIVE.—This Restorative for making the hair grow, stopping its falling out, and restoring gray hair to its original color, is the most perfect and reliable remedy of the kind ever known. It is a true hair restorative, and will grow the hair to its original color, and keep it always soft, healthy, and in full vigor. "N. Y. Tribune." Sold by all respectable Druggists. do21-61

WE call the attention of our readers to an article advertised in another column, called BROWN'S Cough Syrup. It is a true and reliable remedy, and has cured many cases of cough, cold, and other diseases of the throat and lungs. It is a true cough syrup, and will grow the hair to its original color, and keep it always soft, healthy, and in full vigor. "N. Y. Tribune." Sold by all respectable Druggists. do21-61

TO CONSUMPTIVES.
The ADVERTISER, having been restored to health in a few weeks by a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease, Consumption—is anxious to make known to his fellow-sufferers the means of cure. It is all that he will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which will find a cure for Consumption, Asthma, Bronchitis, and all other diseases of the throat and lungs. The ADVERTISER will supply the ingredients, and will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which will find a cure for Consumption, Asthma, Bronchitis, and all other diseases of the throat and lungs. The ADVERTISER will supply the ingredients, and will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which will find a cure for Consumption, Asthma, Bronchitis, and all other diseases of the throat and lungs.
