

Daily Telegraph

HARRISBURG

Wednesday Afternoon, January 23, 1861.

VENISON IN MARKET.—We noticed a supply of venison in market this morning, which sold at ten cents a pound. The wonder is that more of this kind of meat does not find its way to our city.

DEPUTY ATTORNEY GENERAL.—We neglected to announce, at the proper time, the appointment of B. F. Etter, Esq., of this city, to the position of Deputy Attorney General under the new Administration. Mr. Etter is well qualified for the post, and will make a faithful and efficient officer. He has already entered upon his duties.

LOCK HAVEN AND TROSKA RAILROAD.—This road is again advertised for sale on the 29th day of January 1861, at the Merchant's Exchange, Philadelphia. On the 27th of last November it was sold for the sum of \$65,000, Mr. Samuel Brady, the former contractor, being the purchaser. This gentleman failing to comply with the requisitions of the sale, it has again been opened for sale.

SEMINAR TO YOUNG MEN.—Rev. Dr. Robinson, of Brooklyn, who has been laboring nightly in the Locust Street Methodist Church, for eight or ten days past, will this evening deliver a discourse on "the three representative temptations of young men." The young, as well as the old people, of our city, who wish to be pleasantly entertained and profitably instructed, should go and hear this eloquent stranger.

WESTERN EXCURSIONISTS.—The Chicago and Milwaukee Boards of Trade, now on their way east, reached Pittsburg yesterday afternoon, and tarried in the smoky city until this afternoon, when they left en route for Philadelphia. They will pass here in the 2:40 train to morning morning. The Philadelphia papers are making extensive preparations for the entertainment of the western visitors, and will no doubt do the honors with the hospitality and liberality for which they are proverbial.

OLDSMANS.—The oil fever prevails to a considerable extent in Johnstown. There are three organized companies, composed of citizens of that place, now engaged in active operations in the oil regions—two of which have struck oil in paying quantities, and the other expects to do so, as they get down deep enough. The Tribune, from which we glean these facts, says that a movement is now on foot among the citizens of Johnstown having in view the sinking of a well within the limits of that borough, for the purpose of ascertaining what is under them.

MEETING OF CONFERENCE.—The next Baltimore Conference of the Methodist Episcopal Church will assemble at Chambersburg the latter part of next month, and remain in session eight or ten days. A large number of ministers—at least two hundred and forty—will be attendants. Deeming it advisable to make a preliminary preparation for so large a number of laymen, the Methodists of that place have appointed a committee to see to what extent accommodations can be procured. They have already succeeded in securing lodgings for over a hundred. It is expected that the session will be one of the most important held in the district for many years. The district of which Harrisburg forms a part belongs to the Philadelphia Conference, which meets about the same time.

THE WAY TO GET WEALTH.—Never was money so scarce, everybody says, and everybody believes, is justified in making the remark. Money may be plentiful in bank, gold may be hoarded at Fraser River, but neither can be had up along the streets by men too indolent to work, or women too expensive to study home. They will now discern that—The very good world that we live in, is not to be got, or to be given to a man's own hands, but to be got, or to be given to a man's own hands, by the sweat of his brow, and the fruit of his loins. This proverb is an old one, but just as applicable to our times as those of our ancestors. Wealth is not much credit in bank parlors, and high health is frequently less reliable, unless accompanied by honest principle. It is only to be depended upon these days in the industry that is the best financial institution. It falls. Abstemiousness and frugality are the best bankers. They show a handsome income, and never dishonor a draft drawn on by their humblest customers.

MEETING IN EAST HANOVER.—A meeting of the citizens of East Hanover township was held, by common consent, on Saturday last, at Boyer's school house, to express the sentiments of the township in regard to the Convention. Dr. J. Seiler was called to the Chair, and Christian Henry, Henry Ramber, J. Killinger, A. H. Boyer, Rudolph Miller, J. Botts, Jonathan Strohm and Daniel Ulrich were Presidents; and J. S. Vandercloke and J. T. Garblich as Secretaries. The chair occupied the meeting by giving his views on the subject of the Convention, and in the present crisis all partisan feeling should be laid aside, and the common sentiment should be the basis of the Convention. A committee was appointed to prepare resolutions to be submitted to the Convention. Resolutions were adopted, and the meeting adjourned. The following were adopted: That the Union must stand, and that we will stand by it to the last. That we will support the Constitution, and that we will support the laws of the United States. That we will support the Union, and that we will support the laws of the United States. That we will support the Union, and that we will support the laws of the United States.

JUVENILE VAGRANTS AND THIEVES ARRESTED.—For some time past, a party of young vagabonds, hailing from Lancaster, have been prowling about the city, sleeping wherever they could find quarters, and stealing whenever a favorable opportunity occurred. The Chief of Police made a descent upon the party to-day and captured four of them, who are now in the lock-up, unless they leave the city.

COURT PROCEEDINGS.—The following cases have been disposed of since our last report: Joseph Scott and Robert Parker, tried on two indictments for assault and battery, were acquitted on the first and convicted on the second. John A. Harris and Joseph Scott, tried for two same offences, were convicted. A woman named Margaret Brett was arraigned on two indictments for forgery, and convicted. The same woman and her husband were found guilty of larceny, in stealing goods from the store of Ulrich & Cowperthwait, of this city. Henry Snyder was tried, for selling liquor to minors, and found guilty.

THE AGE OF MUSCLE.—There is an apparent mania among all our young men to become muscle men, and Sampson-Agonistes is the shrine of worship now most popular. Spindleshanks and hollow-breasts are going out of fashion, and feminine delicacy is no longer a matter of pride; while to be men in the corporeal sense is more a study than formerly. Numerous young men are in training at the Walnut Street Gymnasium, and athletics is a frequent theme of conversation now. Strength—actual muscular brute force—is a good thing when engineered by a cultivated heart and intellect. A well developed body is invaluable to every one. It resists disease, defies fatigue, infuses energy, and ensures comfort and safety. A strong man is always good natured, because he knows and feels confidence in his ability should be needed to rely on it. We therefore encourage the youth of our city to patronize the Gymnasium, "go in on their muscle," and indulge in all kinds of exercise calculated to promote health and develop and strengthen the physical system.

THE BOOM QUESTION, which occupied so much of the time of the last Legislature, and was the cause of leaving certain gentlemen "out in the cold" this winter, who figured as members of the last House, is likely to loom prominently in the present session. Application is to be made for the incorporation of a company to construct a boom at Jersey Shore, and the friends and enemies of the movement will be here in full force—the former marshaled by Bob Crane and the latter by John B. Beck—armed at all points with weighty arguments to convince members of the justice or injustice of the measure. The "pressure" has already commenced, and a fierce fight among the "boom-laddies" may be looked for shortly. "Pitch in, gentlemen," "the longest pole wins the contest," and the biggest pile is bound to win. We shall take notes, and report progress from time to time, in order to keep the people directly interested in this boom question, fully looked up in the doings of the members of the "Third House" who are operating here.

A NOVELIST'S PICTURE OF POLITICIANS OF THE PAST.—The conduct of some of our modern politicians, reminds us of a scene in Smollett's "Peregrine Pickle," a work with which we suppose most of our readers are familiar. "Peregrine" had become a member of a political club composed of violent enthusiasts. We give the novelist's picture in his own language: "In one of their nocturnal deliberations he promoted such a spirit of good fellowship by the agreeable sallies of his wit, which were put to the test by the political ardor of the party. He joined in the most extravagant proposals, and he broke the r. glasses in consequence of his suggestion, drank healths out of their shoes, caps, and the bottom of candlesticks that stood before them, sometimes standing with one foot on a chair and the knob on the edge of the table; and when they could no longer stand in that position, sitting bare on the cold floor. They huzzed, hallooed, danced and sung, and, in short, were elevated to such a pitch of intoxication that when Peregrine proposed that they should burn their periwigs, the hint was immediately approved, and they executed the frolic as one man. Their shoes and caps underwent the same fate by the same instigation; and, in this trim he led them forth into the street, where they resolved to compel every body they should find to subscribe to their political creed, and pronounce the shibboleth of their party. In the achievement of this enterprise they met with more opposition than they expected; they were encountered with arguments which they could not well withstand; the eyes of some of the most of others in a very little time had the marks of obstinate disputation.

A GREAT SPEECH.—The young and talented member of the House from Lycoming county, Wm. H. Armstrong, Esq., delivered a speech yesterday on the state of the Union, which we hear spoken of in all circles in terms of the highest commendation. Several gentlemen, who are competent judges, although differing somewhat in sentiment with Mr. Armstrong, characterized his speech as one of the best that has been made in the House on the present session—eloquent and impressive in manner, original in conception and beautiful in illustration; chaste and elegant in diction, sound in logic and ponderous in argument. This is a high compliment, considering that Mr. Armstrong is among the youngest of the people's representatives, and has had no experience as a parliamentary debater. Having known him for a long series of years, we can assure you that we felt confident that he would make his mark in the halls of legislation, and take rank among the ablest minds and most finished debaters of the House; and he has not disappointed our expectations. He electrified the House yesterday, and won laurels which an older and more experienced man would have found it difficult to win. The people of old Lycoming have a representative who does them honor, and if they understand their duty, they will support him hereafter. His speech was introduced based upon the report of the Union and based upon the report of the Union and based upon the report of the Union.

BEGGARS.—The streets of our city daily swarm with beggars, old and young. "Please, sir, will you give me a penny?" said a little girl to a gentleman (?) on the street, to-day. The answer was "No!" with an emphasis and a look that left no doubt as to the meaning, but which seemed better suited to a vicious dog than to a child. Persons are no doubt annoyed by the frequency of such applications, and there are cases in which they are imposed upon by unworthy recipients. But this is not so in every case. And whatever blame may attach to older persons, and even to the parents of those who are sent to beg on the streets, very little blame can attach to the children themselves. It is not an unheard of thing, that small children are compelled to engage in this business, by the fear of punishment, to support indolent and profligate parents; and that if they do not succeed in their excursion, they are flogged on their return. None would care about supporting those parents in their indolence, but yet the children who are made unwillingly to subservient their vicious purposes are not worthy of abuse, but rather of pity, in view of their unfortunate position. But it sometimes happens that the child who solicits a pittance is the ministering angel of those who are honestly poor; of those whose sickness or misfortune has thrown upon the charity of the world. How harsh words must fall like lead on the ears of such, and sting them to the quick. Speak kindly, then, to those children of woe, whether you give them the penny or not. A kind word does not cost anything. And it may be as dry as sunshine upon those darkened spirits; while harsh words may not only wound, but they may sour the disposition, blunt the sensibilities, harden the feelings, and lay the foundation for a reckless life.

MITCHELL'S NEW GENERAL ATLAS FOR 1861.—This is Mitchell's latest and best attempt to furnish the American people with a complete Atlas, comprising a series of seventy-six maps and plans of different cities in the United States, with a full and accurate list of post offices, arranged in alphabetical order, numbering some twenty-five thousand, and corrected copies of the principal towns and cities according to the latest returns, and other statistical knowledge so important to every man of business. His maps are clear and distinct. The boundaries of each county and State are plain and distinct, the coloring beautiful, all combining to make it one of the most attractive and desirable works for the drawing-room or center table—a work every family ought to possess—while the low price at which it is furnished, places it within the reach of families of moderate means. The engravings are entirely new, being got up expressly for this work, and give clearness to the lettering and lines of demarcation of the different counties, seldom met with.

THE GREAT ENGLISH REMEDY.—This is a new and powerful medicine, which will cure all kinds of chronic diseases, such as Consumption, Asthma, Bronchitis, and all other diseases of the Lungs, Throat, and Chest. It is a true and reliable remedy, and will cure all who use it. It is a true and reliable remedy, and will cure all who use it. It is a true and reliable remedy, and will cure all who use it. It is a true and reliable remedy, and will cure all who use it.

NOTICE.—The following is a notice regarding the sale of certain property, including land and buildings, in the city of Harrisburg. The property is being sold by the executor of the estate of a deceased person. The sale will take place on a certain date and at a certain location. The notice is being published in the Daily Telegraph for information of the public.

W. A. BATCHELOR'S HAIR DYE.—This is a superior hair dye that restores natural color and keeps hair from falling out. It is highly recommended for its effectiveness and safety. The product is available at various drugstores and is a must-have for anyone looking to maintain healthy, vibrant hair.

WEAKNESS AND DEBILITY.—All who suffer from weakness or debility, where there is a want of energy, should at once have recourse to JESSEY'S MOUNTAIN HERB PILLS. They immediately purify the blood, and act upon the main spring of life, giving strength and vigor to the system. Young persons entering into the world, with a derangement of the functions; and to mothers at the turn of life, these Pills will be most efficacious in correcting the tide of life that may be on the wane. Young and elderly men suffer in a similar manner at the same periods, when there is always danger, they should therefore undergo a course of this purifying medicine, which ensures lasting health.

IT IS A COMMON OBSERVATION that there are more sufferers from debility, among Americans, than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hestler has given to the world, in his CELEBRATED "BITTERS." The weak and nervous debility of the counting house, the exhausted laborer upon the ship-board, and the prostrated student of the mid-night lamp have found a wonderful restorative in the "BITTERS," and prefer it to more pretentious, but less efficacious medicines. But it should not be forgotten that the agent which is so magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the more terrible forms of disease. Who would not give it a trial?

A CARD TO THE LADIES.—DR. DUPONCO'S GOLDEN PILLS FOR FEMALES.—Infallible in correcting, regulating, and removing all obstructions, from whatever cause, and always successful as a prevent.

THESE PILLS HAVE BEEN USED BY the doctors for many years, both in France and America, with unparalleled success in every case; and he is urged by many thousands of ladies who used them, to make the Pills public for the alleviation of their sufferings from any irregularity whatever, as well as to prevent an increase of family where health will not permit it. They are particularly adapted to those who are suffering from any irregularity whatever, as well as to prevent an increase of family where health will not permit it.

DR. DUPONCO'S GOLDEN PILLS FOR FEMALES.—Infallible in correcting, regulating, and removing all obstructions, from whatever cause, and always successful as a prevent.
