> SERIOUS STABBING AFFAIR. -- A Fisherville correspondent of the Dauphin Journal gives the following particulars of a stabbing affair (which may result fatally to one of the parties) of recent occurrence in the upper end of the county:

It appears that Daniel Boyer and Daniel Grim were returning from Lykenstown, and when they arrived at the residence of Boyer they stopped, and were soon joined by another party, named John West, Wm. and Samuel Bectol. The latter party had a bottle of liquor, which Grim got possession of by some slight of hand movement. When the bottle was missed a regular scraphle took place in which the sed a regular scramble took place in which the bottle was broken; this led to a quarrel in bottle was broken; this led to a quarrel in which Boyer gave Grim several blows on the head. Grim then left and proceeded homewards. When Grim passed the house of Nicholas Sayder, he stopped for the purpose of taking some of the family into his sleigh. But before Grim again started, the otherparty cameup, when another quarrel commenced, in which Wm. Bectol stabbed Grim several times in the arm. Grim then knocked Bectol down; when he recovered he again made at Grim and stabbed him in the face—Grim then knocked Bectol down the second time and mounted him. When Samuel Beotol—who until now had remained a silent spectator—seen that his brother was be-neath Grim, he made efforts to take Grim off, and while thus engaged, his brother again struck at Grim with his knife which passed through the hand of Samuel Bectol and pene trated the chest of Grim, thus firmly pinning trated the chest of Grim, thus firmly pinning his brother to Grim's body. They were now separated by some person who came along. Grim is lying in a very critical condition. Boyer, West and Wm. Bectol were arrested and held to bail to appear before Court at the April term. All the parties are riotous characters, and at the time were under the influence of "tanglefoot." We learn to-day that while some men were cutting wood on Broad Mountain, a tree fell on one of the party and killed him instantly. We learned no names.

CAVALRY SQUABRON .- An impromptu meet ing, to promote the organization of a Cavalry Squadron in this city and county, was held on Wednesday evening last, at the Schreiner House, in Susquehanna township. The meeting was organized by calling H. W. Hoffman Esq., to the Chair, and appointing Mr. Samuel Flickinger, Secretary. The Chairman, after stating the object of the meeting, extended to antidete to the poison of Centipedes, Scorpions, hornets them. those present, who desired to connect themselves with the Squadron, an invitation to afexertions to promote its success. Weakness and Debility.—All who suffer from weakness or debility, where there is a want of energy, should at once have recourse to JUDSON'S MOUNTAIN HERB FILLS. They immediately purify the blood, and act upon the mainspring of life, giving strength and vigor to the system. Young persons entering into wo manhood, with a derangement of the functions; and to mothers at the turn of life, these Pills will be most efficacious in correcting the tide of life that may be on the turn. Young and elicerly men suffer in a similar manner at the same periods, when there is always danger, they should therefore undergo a course of this purifying medicine, which ensures issting health. This great Household Medicine ranks among the leading necessaries of life, as it is well known to the world that it cures complaints other remedies cannot reach; this fact is as well established as that the Sun lights the World.

Sold by all medicine dealers.

IT IS A COMMON OBSERVATION that there are more sufferers from debility, among Americans, than reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his CELEBRATED "BIITERS." The weak and nervous denizen of the counting house, the exhausted toiler upon the shop-board, and the prostrated student of the mid night lamp have found'a wenderful regenerator in the "Bit'ers," and prefer it to more pretentious, but less ef licacious medicines. But it should not be forgotten that the agent which is so magical in its influence upon frame which is merely debilitated, is equally powerfu in assisting nature to expel the most terrible forms of sease. Who would not give it a trial?

MOTHERS, READ THIS.—The following is an extract from a letter written by the pastor of a Baptist church to the "Journal and Messenger," Cincinnation, on speaks volumes in favor of that world-renowned medicine—Mrs. Winslow's Soothing Syrup for Children Teething:
"We see an advertisement in your column of Mrs. Winslow's Soothing Syrup. Now we never said a worst in favor of a patent medicine before in our life, but we feel compelled to say to our readers, that this is no humbug—we have tried it, and know it to be all it claims. It is, probably, one of the most successful medicines of the ay, because it is one of the best. And those of your adders who have bables can't do better than to lay supply.

His Restorative has passed the ordeal of innumerable fashionable toilets, and the ladies, wherever they have tested it, pronounce it a peer-less article. They find, where the har is thinned, that it creates a fresh growth—that it fully restores the vegetative power of the roots on the denuded places, and removes dandruff, prevents grayness, restores the hair to its original color when grayness has actually supervened, gives a rich lustre, imparts the softness and fexibility of silk to the hair, and keeps it always lurriant, healthy and in full vigor.—"N. ## PROF. WOOD'S HAIR RESTORATIVE. OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writ's A Distinguished St. Louis Physician Writs

Sr. Louis, July 10, 1880.

O. J. WOOD, Esq.: Dear Sir:—Allow me the pleasure
and satisfaction to transmit to you the beneficial effects
of your Hair Restorative, after a trial of five vears
commenced using your Restorative in January, 18 5,
since which tims I have not been without a bottle on
hand. When I commenced the use, my hair was quite
thin, and at least one-third gray. A few applications
stopped its turning, and in three weeks time there was,
not a gray hair to be noticed, neither has there been up
to this time.

After my hair was completely restored, I continued its
use by applying two or three times per month. My hair

to this time.

After my hair was completely restored, I continued insue by applying two or three times per wonth. My hair has ever c-intinued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the fatts above mentioned will be of any particular advantage to you, or even finter your vanity at this late day, as I am well aware they are all known already and even more wonderful ones throughout the Union. I have occupied my time in trayeling the greater p rt of the time this past three years, and have taken pride, and pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances, I have meet with people that have pronounced it a humbug; saying they have used it and without effect. In every instance, however, it proved, by probling the matter, that they have used it and without effect. In every instance, however, it proved, by probling the matter, that they have used it and without effect. In every instance, however, it proved, by probling the matter, that they have used it and without effect. In every instance, however, it proved, by probling the matter, that they have used of the said to be as gool as yours, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently some of those chartans have not brains article yours word for word in several instances, merely inserting some other name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness gray hair, scald head, dandruff, and every discuss the scalp and head are subject to.

I called to see you personally at your original place of business here, but learned you were now living in New York.

Paof. Wood's Hair Restorative.—This Restorative for making the hair grow, stopping its falling out, and restoring gray hair to its original color, is becoming celebrated. All the quack nostrums are giving out, and restoring gray hair to its original color, is becoming celebrated. All the quack nostrums are giving way before it. Three fourths of the mixtures for restoring and heautifying the hir, do it more injury than good. They burn it up—destroy the life of its roots—make the hair fall off, and produce premature baldness. But Prof. Wood's Re-torative may be relied upon as containing nothing which can in any manner be injurious to the hair, while its success in accomplishing what it pretends to do has been verified in hundreds of cases. We advise gray heads, and heads getting bald—all who wish to save their wool or obtain a new stock, to get a bottle of Wood's Restorative —N. Y. Democrat.

Weod's HAIR RESTORATIVE.—We are not in the habit of pulling every new discovery, for in nine cases out of ten they are quack nostrums, but we take great pleasure in racommending Professor Wood's article to all whose hat is falling off or turning gray. Cur well known contributor, Finley Johnson, E.q., has experienced the benefit of its application, and joins with us in speaking of its writues. Let all try it, and bald heads will be as rare as snow in summer.—Baltimore Patriot.

WOOD'S HAIR RESTORATIVE .- Unlike most specifics, this Wood's HAIR REPRORATIVE.—Unlike most specifies, this is proved, by unimpeachable evidence, to possess great efficiency as a restorer of the hair to pristine vigor. Where the head had become almost baid because or sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicates dandrul and other impurities, which operate so injust usly to the hair. It also has curative properties of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of his remedy, and its effects can only be beneficial, as of his remedy, and its effects can only be beneficial, as the compound if it does not cause a mrnifest improve-ment, is incapable of doing harm, as its component ele-ments are perfectly innocuous.—Bosion Transcript, April

A GENUINE BOON.—'n our capacity as conductor of a public journal, we are called upon to advertise the curealls of the day, each of which claims to be unadulterated in its composition and infallible in its curative effects, with what justice we leave our readers to determine. In one instance, however—Prof. Wood's Hair Restorative—we are so well assured of the notable qualities of the article; that we give it our indorsement as all that its inventor and vender claim it to be. Its effect upon a falling head of bair is universally known to be magical. Like lime or guano on exhausted land, it brings its crop wherever applied. Our own thatch is fortunately very healthy, but we advise our friends with sparsely growing hair to try the Restorative.—Columbia Spy.

ALL HAIR DYES ABINDONED.—Word's Great Article has Tuken the Field.—Professor Woed stands on an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is sudden but world-wide, and thousands who have worn wigs or been hald for years are now, through the use of his preparation, wearing their own natural and inxuriant head covering. So much for chemistry, the chemistry of human life, and the laws which apply to the functions of the system. Prof. Wood studied out the human hair. of human life, and the laws which apply to the functions of the system. Prof. Wood studied out the human hair, its character, its properties and diseases, and how to restore the decaying vitality to that ornament; he saw, as in his own case, that gray hair is unnatural unless the age of the individual has reached four score, and he believed that the hair could be naturally revitalized. He tried his own case—almost bald and quite gray, at the age of thirty-seven—he restored his own hair in color, strength and inxuriance, and the sriticle he d dit with he gave to the world.
