I regret that the propo-sition is placed before us in such a shape that I cannot discriminate and cast my vote in favor of an amendment which I consider just and proper---namely : striking from the second re-solution language which commits this State against any amendment of the Constitution. On the motion of Mr. DUFFIELD, that the House resolve itself into Committee of the Whole for the purpose of special amendment The yeas and nays were required by Mr. DUFFIELD and Mr. HILL, and were as follows,

gative.

BEASONS FOR VOTING.

Mr. SHEPPARD, (when his name was called.) I shall be compelled to vote in the negative upon this question, because a part of the amendment proposed by the gentleman from Philadelphia is to strike out from the preamble certain words which I think chould be detained certain words which I think should be retained. As an independent proposition, I should be very glad to have an opportunity to vote in favor of striking from the second resolution those words which duclare against any amendment of the Constitution. As both propositions are now to be determined by a single vote, I am compelled to vote no. The question recurring on the original reso-

pection that it will be agreed to. I have no such expectation. I am satisfied, as I re-marked once before to-day, that it is a foregone conclusion that the resolutions must and will pass without any empedants behavior. pass without any amendment whatever. But I felt it proper to submit this proposition in order to place myself right on the record—in order cy who have honored me with a place on this floor. I desire an opportunity of recording my vote upon the sentiment set forth in that amendment. For that purpose I have offered it. I will not detain the House with any prolonged rémarks, but upon my motion I call for

the yeas and nays. Mr. ABBOTT. My objection to the amendment is of the same character with the objection which I have urged to a portion of the second resolution. It seems to me an atlempt to trammel, by unnecessary instructions, the Com-mission that we propose to send to Washington.

REASONS FOR VOTING,

Mr. AUSTIN (when his name was called.) I am again under the necessity of stating the reasons for my vote. The gentleman from Mércer (Mr. Horrus) appears to be unwilling to allow anything scarcely to pass this House without offering some amendment, or to hear anything said in this House without taking some exception. We have already passed reso-lutions embedding the delignitien your nece buttons embodying the declaration now pro-posed as an amendment; and as the resolutions before us instruct our Commissioners not to enter into any arrangement or consultation with reference to the amendment of the Constitution this amendment seems to me to be altogether out of place and uncalled for. I therefore vote

no. Mr. BRESSLER (when his name was called.) While I agree with the sentiments expressed in the proposed amendment, yet I. believe it im-proper to delay the passage of these resolutions by entertaining any such proposition. I vote ative.

Mr. HOFIUS (when his name was called.) Inasmuch as some members are inclined to im-

pugn my motives in offering this resolution. I will just state my reasons, not only for offering it, but for supporting it. I am aware that a similar resolution was adopted by this House a few days ago; I am also aware that there has been a great change in the feelings and minds of members of this House, within the last few days; and I offered this resolution for the purpose of testing where that change is. I

ste-aye. Mr. TELLER (when his name was called. With regard to my own feelings upon these resolutions, I care nothing about them. But we have been called upon by a sovereign State --the State of "Old Virginia"—to send Commissioners to meet her good men and those of other States in Convention. I am willing to do it, and particularly to please my Democratic friends in this House and others who are very weak. I call it a "small potato business." Or this amendment I vote no.

Mr. THOMAS (when his name was called.) agree fully with the sentiment embraced in the amendment of the gentlemen from Mercer, (Mr. Horros), yet I am fully satisfied with the resolutions as they came from the Senate, and I have made up my mind to vote against all amendments. Therefore I vote no.

Mr. SHEPPARD. I move that the House resolve itself into Committee of the Whole for the purpose of special amendment, viz: to strike out of the second resolution, the following words :

"In the opinion of this Legislature, the people of Pennsylvania do not desire any alteration or amendment to the Constitution of the United States; and any recommendation from this body to that effect, while it does not come within its appropriate and legitimate duties, would not meet with their approval." I think that there is no necessity of tram-

neling the Commissioners that may be appoint. ed with any such condition as that which I

now propose to strike out. Mr. ACKER. This again is one of the remarkable changes coming over our friends in this House. The gentleman from Philadelphia (Mr. SHEPPARD) said a few moments ago that he was opposed to all amendments. I also shall

REASONS FOR VOTING.

Mr. MARSHALL (when his name was lled.) When these resolutions were first incalled.) When these resolutions were first in-troduced, it was my intention to vote against them. But I have since found a large majority of this House desirous of having these Commissioners appointed by the Governor; and as I know that they will be powerless to do evil, and as their efforts may result in some good, I

Mr. BURNS (when his name was called.) I desire to be excused from voting on this ques tion. I believe the whole proceeding to be wrong; and I do not wish to give it any coun tenance whatever. I believe that if a commit-tee of the two Houses of this Legislafure should resolve unanimously that they would never support any member of the Lincoln family for any position, it would not have any effect in pacifying the South. I ask the House to excuse me from voting.

The resolutions, as passed finally, are as fol-

WHEREAS, The Legislature of the State of Virginia has invited a meeting of commission-ers from the several States of this Union to be held in the city of Washington on the 4th day or February next, to consider and if practicable agree upon, some suitable adjustment of the un-happy differences which now disturb the business of the country and threaten the dissolu-

tion of this Union : And whereas, in the opinion of this Legisla-ture, no reasonable cause exists for the extraor-dinary excitement which now pervades some of the States in relation to their domestic institu-tions; and while Pennsylvania still adheres o, and cannot surrender the principles which he has always entertained on the subject of slavery, this Legislature is willing to accept the invitation of Virginia, and to unite with her in an earnest effort to restore the peace of the country, by such means as may be consist-ent with the principles upon which the Consti-tution is founded.

Therefore : Resolved, &c., That the invitation of the Legisature of Virginia to her sister States for the ap pointment of Commissioners to meet in the city of Washington, on the 4th of February nex be and the same is hereby accepted; and that the Governor be and he is hereby authorized to appoint seven Commissioners for the State of Pennsylvania, whose duty it shall be to repair to the city of Washington on the day designa-ted, to meet such Commissioners as may be ap-pointed by one other that a bit of the seven ted, to meet such Commissioners as may be ap-pointed by any other States, which have not an-thorized or sanctioned the seizure of the forts, arsenals or other property of the United States, to consider, and if possible to agree upon, some suitable measures for the prompt and final set-tlement, of the difficulties which now exist: *Provided*, That the said Commissioners shall be subject in all their properties. subject, in all their proceedings, to the instruc-tions of this Legislature.

TO STRANGERS.

THE inventor and manufacturer of "Jud-son's Mountain Herb Fills," has speut the greater part of his life in travelling, having visited nearly every country in the world. He spent over six years amon the Rocky Mountains and of Mexico, and it was thus that the "Mourran Hers Brurg" were discovered. A very interesting account of his adventures there, you will find in our Almanca and Pamphlot. It is an established fact, that all diseases arise from **IMPURE BLOOD1** The blood is the life 1 and when any foreign or un-heathy matter gets mixed with h, it is once distributed to every organ of the body. Every nerve feels the poison, and all the vital organs quickly complain. The stomach will not digest the food perfectly. The liver ceases to secrete a sufficiency of bile. The action of the heart is weakened, and so the circulation is feeble. The lungs be come cloged with the poisonous matter ; hence a cough - and all from a slight impurity of the fountain-head of life-the Biod 1. As if you had, thrown some earth, for instance, in a pure spring, from which ran a tiny rivillet, in a few minutes the whole course of the stream be, course discipted and discolved. As quickly does impure blood fy to every part, and leave its sting behind. All the passages become obstructed, and mises the obstruc-tion is removed, the hamp of tife scon dies out. These pills not only purify the blood, but regenerate all the secretions of the body, they are, therefore, unrivalled s a WINTER TIME TABLE.

REASONS FOR VOTING.

Mr. AUSTIN (when his name was called.)-

Whilst I am as much opposed as any other member of this House, to the introduction of slavery in either States or Territories, yet under

Mr. PATTERSON (when his name was called.) I entirely approve of the principle em-bodied in this amendment; but I do not think this the proper time to introduce the proposi-tion. Were it brought up as an independent question, I should certainly vote in the affirma-tive; but I desire these resolutions to pass with-out any amendment. I therefore vote no. Mr. TELLER (when his name was called.)— I do not think the amendment is at all neces-

I do not think the amendment is at all necessary. It is substantially a declaration against any amendment of the Constitution; and such a declaration is already embraced in the resolutions. I vote no.

The question again recurring on the original

Mr. HOFIUS. I have no wish to be captious in regard to the passage of these resolutions; but I cannot understand why it is that the reso-lutions will answer in no different shape from that in which they are just now. I cannot see why they should not be permitted to pass with a simple, and as I consider, a proper amend-ment. I therefore move that the House resolve itself into Committee of the Whole for the purpose of special amendment, viz: to add as an additional resolution the following: *Resolved*, That the provisions of the Constitu-

tion are ample for the preservation of the Un-ion, and the protection of all the material interests of the country ; that it needs to be obeyed rather than amended; and that extrication from present difficulties is to be looked for in efforts to preserve and protect the public pro-perty and enforce the laws, rather than in new aranties for particular interests, or compro-

guaranties for particular interests, or comple-mises or concessions to unreasonable demands On the motion of Mr. HOFIUS, The yeas and nays were required by Mr. HOFIUS and Mr. SELTZER, and were as follows, viz :

The yeas and nays were required by Mr. SHEPPARD and Mr. RANDALL.

While the Clerk was calling the names of the

members, Mr. BUTLER, (Crawford.) I am compelled, by a sense of duty, to call the attention of the Chair to the forty-third rule. A certain person is adopting the same practice which he pursued last winter, and which was then brought to the attention of the Chair, namely : running about slavery in entire sources of a shall vote no, be-the present circumstances I shall vote no, be-lieving that the amendment is not calculated to further the object of the mission; and although it may have been, and I trust has been, offered in good faith, yet I think it is inconsistent and centious. .Mr. BUTLER (Crawford.) I am not asking for the enforcement of the rules with respect to the auditors of our debates, but I am objecting to this running around and instructing members how to vote. The SPEAKER. The Chair is thankful to

the gentleman for having called attention to the INS URANCE AGENCY fact. The next instance will be promptly attended to.
