Daily Celegraph

HARRISBURG

Monday Afternoon, February 4, 1861.

THE LADY who lost a cloth glove in Brant's Hall last Saturday night, can obtain it at the DAILY TRLEGRAPH office.

FIRE COMPANY MEETINGS. -Stated meetings of the Citizen, Friendship, Good Will and Paxton Fire Companies will be held this evening, in their respective halls, at seven o'clock.

GENERAL TOM THUMB drew another full house on Saturday night, and the entertainment was entirely satisfactory. He will appear for the last time this evening. The General has been very liberally patronized by our citizens.

AN EXTRA RUM SWEAT.-A gentleman in Danbury, Ot., while taking what is technically called a "rum sweat," set himself on fire, and was only put out after great exertions.

Which was put out? The sweat, the fire, or the individual?

SLEIGHING.—We have had nine consecutive weeks of excellent sleighing. Can any one wilson's successor. complain of want of sleighing?—Exchange.

They are complaining at Charleston, because the secession troops are not allowed to go a slaying at Fort Sumter.

THE REVIVAL MEETINGS in the Locust Street Methodist Church and Fourth Street Bethel are still in progress. Last evening the former church was crowded to overflowing, and some twenty or thirty penitential mourners surrounded the altar. Both meetings will be continued during the present week.

THE LOCK-UP contained five lodgers on Saturday night, and two last night, all perambulating vagrants. One of them was an old sailor, who shipped a heavy sea of tanglefoot and was brought to anchor in the retreat for fellows of his class. They were introduced to the Mayor, who reprimanded and dismissed them.

THE NATIONAL RIFLES of Mount Joy, and the Lancaster Fencibles, it is said, are willing to join in the parade here on the twenty-second of February, if invited by the committee. We have no doubt the Carlisle, York and Reading companies can also be induced to participate in the demonstration, if invited in time to enable them to make the necessary preparations. The committee should call a meeting and act promptly and vigorously.

FRUIT GROWERS' CONVENTION .- The second annual meeting of the "Fruit Grower's Society of Eastern Pennsylvania," will be held in Reading, commencing on Wednesday next, and will probably be in session for two or three days. We are informed that several reports and papers of much importance to fruit growers, will be read by appropriate committees, and from the character of the first meeting an interesting time is anticipated. Will Dauphin county be represented in the convention?

KING COTTON.—The Stuebenville Herald says - 'Since the existing obstructions to the seaward transportation of cotton from the port of Charleston to Northern cities, shipments of that staple are now made from Memphis and other cities, and pass in boats up the Mississippi and Ohio Rivers to Pittsburg, where it is shipped by the Pennsylvania Railroad. There were at our landing, this morning, in addition to our two Wheeling packets, three steamers a goodly number of free colored persons who find the South, at present, too hot for them."

PRESIDENT LINCOLN has determined to leave Springfield on Monday next, and will pass through here on his way to the Federal Capital, which he expects to reach on the 25th inst. Of course our citizens, irrespective of party, will unite with the Legislative Committee in giving the President elect a fitting reception. If it could be arranged to have President Lincoln here on the twenty second of February, the time designated for elevating the American Flag to the dome of the Capitol with appropriate ceremonies, his presence would impart additional interest to the occasion, and draw an immense crowd of people to the city from the neighboring towns and counties. We throw out this suggestion for the consideration of the committees of invitation and arrangements.

INCREASE OF PREACHERS.-We learn that a proposition will be submitted to the next Philadelphia Conference to send three preachers to this city-one to Locust Street, one to West Harrisburg, and one to Vine Street. It is said the interests of the two congregations last named require that they should be made separate charges, the pastoral labor connected with them being too onerous for one man. Our young friend, Mr. Martin, has been very faithful during the past year, preaching three sermons every Sabbath, in addition to his other duties as pastor of these congregations. He has performed the work of two men without receiving proportionate remuneration. We think Conference will act wisely in adopting the proposition to increase the number of preachers.

BEWARE OF LOTTERY SWINDLERS, Our city has never been free from those pests of society freely used for the transmission of circulars, holding out the most tempting inducements to bait. The following is a sample of the language used:

"Many a poor man has been, through us, suddenly raised from a life of struggling hard-ship to one of wealth, luxury and splendor. The same chance is open to you by the expenditure of the trifling sum of \$10; and if you self a rich man."

To this is added an offer, of course made to all, that if the holder of the ticket does not draw at first \$5,000, they will send another package in an extra lottery, free of cost. Such bold faced and evident villainy should not, we think, deceive any person of ordinary intelligence, yet hundreds are swindled, and not a few ultimately ruined, by these devices.

WORKINGMEN'S CONVENTION. — Have the workngmen of this city appointed delegates to the National Convention to be held in Philadelphia on the 22d of this month? We ask for inform- few weeks ago Mr. Ross labored with great sucation, not having heard of any action on the

 $\frac{\partial \mathcal{A}_{i}}{\partial t} = \sup_{t \in \mathcal{A}_{i}} \sup_{t \in \mathcal{A}_{i}} \frac{\mathbf{v}_{i}}{\mathbf{v}_{i}} \sum_{t \in \mathcal{A}_{i}}$

subject. The contemplated convention will be composed of intelligent workingmen from early all the States of the Union, and its deiberations cannot fail to have great weight at Washington. We hope to see this city and county largely and ably represented; and if delegates have not already been appointed, a meeting for that purpose should be called immediately.

THE STATE ARSENAL .- Judging from the diapidated condition of the tents and other arti. cles in the State Arsenal, the keeper does not visit that institution often. If the man who now receives pay for taking care of the property of the State neglects his duty, the Adju tant General should dismiss him and supply his place with a more competent and faithful officer. It is said that hundreds of tents have been taken away and never returned, and the few that remain in the Arsenal are in such a condition as to be unfit for use, and going to rnin for want of proper attention. We look for a better condition of things under General

GROUND Hog DAY. -February second was the celebrated "ground hog day." which, according to legend, fixes the question of an early or late Spring. The story goes that on that day the ground hug-or, as the Yankees call it, woodchuck-leaves his winter quarters and sallies forth to snuff the zir. If there is no sun to show him his shadow, he goes cautiously about, and will even venture to dig up a few roots, to try the hardness of the soil as well as to tickle his palate a little, after his long hibernation. But in doing this, should a glimmering of sunshine strike him sufficiently strong to mark his shadow on the ground, he hies at once to his hole, there to hibernate for six weeks-as instinct teaches him that winter will certainly linger that much longer. Should there be no patches of sunshine to disturb Mr. Woodchuck, he remains out, knowing that the reign of Jack Frost will speedily terminate.-Who saw the sun on Saturday?

MINISTERS, AND TOBACCO.—A lady writes to a religious paper hoping that the various denominations will exclude from the ministry all preachers who use tobacco; and that young ladies will accept no offer of marriage from a American of this morning contains the followyoung man who uses the weed In reply the ing item under the above caption: editor says :--

Take care, my dear lady, you are hitting a good many of our best clergymen. If they are to be excluded on account of tobacco, it will leave quite a vacuum in our ministerial ranks. You may expostulate with them, and even scold them if you will—(and we will help you, for you do not hit us)—but when it comes to cutting them off—(the ministers, not the tobacco)—we shall have to protest: This is to say, in behalf of the old and confirmed ones. In regard to young candidates for the ministry, we are not how strict a rule may be adopted with them on the subject.

On this it occurs to us, how strange it is that the denominations which go the nearest in respect to freedom from the old creeds standards and anthorities of Christendom, are the most stringent in regard to the sinfulness of matters unforbidden in Scripture, and which, by common consent of all ages of the Christian world, have been tolerated. The old fashioned Athanasian creed, with its damnatory clauses, they are too "liberal" to accept; but instead thereof they invent new sins (or rather add new items to the estalogue of sins). Thus not only on their way up, heavily laden with cotton, and is slaveholding denounced as a sin, but the hanging of murderers, the drinking of wine, the smoking of tobacco, the taking a walk on Sunday, and divers other things with which the old churches, notwithstanding the sternness of their creeds, never meddled. It would seem that in proportion as a religious community gets easier in its dogmatic standards, it makes amends by becoming more carping and critical in its regulation of the social and political relations

A REVEREND SCOUNDREL .- The people of almost every community, at some period, have been deceived and imposed upon by hypocritical pretenders who "steal the livery of heaven to serve the devil in," and have the ability and tact to play well their part. A case of the kind has just been developed in this city, and we are among the victims, having confided in and favorably noticed a well recommended and seemingly pious stranger, who turns out to be a miserable hypocrite and accomplished scoundrel. For three weeks past the individual alluded to has been the master-spirit of a highly successful religious revival meeting in one of our principal churches, preaching eloquent sermons every night, laboring with untiring zeal for the conversion of souls, infusing unwonted enthusiasm into the members of the congregation, and "seeming most a saint when most he played the devil." We refer to Reverend Dr. Robinson, who has a family residing in Philadelphia, and is traveling about the country, in a ministerial capacity, accompanied by a flashy young woman as his mistress, said to be a victim of his seductive arts. The facts in relation to this fellow's connection with the girl alluded to, were fully developed on Friday evening, when he received notice to quit the city vards bleached 4-4 muslin at 10 cents, worth 12 immediately, and was furnished with money for that purpose. He left at three o'clock on known as "lottery venders," and in addition Saturday morning on the western train, and to these swindling agents the Post Office is will no doubt attempt, in other towns, the same game which he played so successfully here for a period of three weeks. He is a man those who are minuies enough to bite at the of genteel appearance and fine address, extensive and varied imformation, a logical and eloquent preacher, a pleasant conversationalist. and in all respects well calculated to deceive.-Our Methodist friends in Altoona and Pittsburg, which places he designed visiting, should be on their guard against this hypocritical prewill only once try your luck in our lottery you tender, and close their church doors against will, there is little doubt, suddenly find your him. We acknowledge having been emphatically "sold," and for the future shall be care ful not to confide in or commend perambulating revival preachers, of any denomination, until

REV. MR. Ross, of York, will preach in the Locust Street Methodist Church this evening. He is a worthy man and excellent preacher. A cess in the Vine street revival meetings, and made a highly favorable impression.

OBSERVANCE OF LENT. The various Catholic Bishops are publishing, regulations for Lent, to be observed by members of that religious demomination. Lent commences on Wednesday the 13th of February, and the rules laid down for fasting during the entire Lenten season, are obligatory upon all who have completed their twenty-first year, unless legitimately dispensed. But one meal per day is to be taken, excepting Sundays, and that is not to be taken until about noon. A small collation, however, is allowed in the evening, but no general rule as to the quantity of food can be made. The quality of food allowed at a collation is bread, butter, cheese, all kinds of fruit, salads, vegetables and fish. The following persons are exempted from the obligation of fasting: young persons under twenty-one years of age, the sick, nursing women, those who are obliged to nomination. Lent commences on Wednesday sick, nursing women, those who are obliged to do hard labor, and all who, through weakness, cannot fast without prejudice to their health.

DIPTHERIA-POST MORTEM EXAMINATION .-- At Youngstown, Ohio, a few days since, a female pauper died suddenly of diptheria, after having een treated for the disease some three weeks, and at a time when her physicians regarded her as out of danger. Just before death, she complained of severe rain in the region of the heart and the circumstances of her sudden death, after an apparent resovery from the diptheria, induced her physicians to hold a post mortem examination of the parts supposed to be affected, which disclosed the fact that the heart of the patient was diseased in the same manner as the throat. On examining this organ they found its cavities filled with that pe- it is peculiarly suited. It will, in a short time, bring or uliar fibrinous exudation which appears on the throat. The right ventricle was almost completely filled. The left auricle also contained a large quantity, which, passing through the left ventricle, prevented the closure of the valves between these cavities. This condition of the heart, in connection with the diptheria, has been reported by the Philadelphia physicians, in cases that have come under their investigation, and is supposed only to attend the more severe instances.

A MYSTERIOUS CASE. - The Philadelphia North

On Thursday afternoon, a respectable citizen who was about to enter the North Pennsylva nia railroad cars was approached by two ladie with a box, apparently a soap box, from which the trade marks had been erased with sandpaper, and on which the following direction was affixed: "Mary Mencluer, Quakertown station—care of M. Smith—Pa." The citizen, who was requested, placed the box in a baggage car, and expected to meet the ladies among the passengers. To his surprise, however, they were not there, and he observed them retreating at a rapid rate along Front street. The following telegraphic dispatch, which may throw some light upon the subject, was received by District Attorney Man on Saturday: QUAKERTOWN, February 2, 1861. throw some light upon the subject, was received

MITCHELL'S NEW GENERAL ATLAS FOR 1861.-This is Mitchell's latest and best attempt to furnish the American people with a complete Atlas, comprising a series of seventy-six maps and plans of different cities in the United States, with a full and accurate list of post offices, arranged in alphabetical order, numbering some twenty-five thousand, and corrected census of the principal towns and cities according to the latest returns and other statistical knowledge so important to every man of business Its maps are clear and distinct. The bounds ries of each county and State are plain and distinct, the coloring beautiful, all combining to nake it one of the most attractive and desirable works for the drawing-room or center table —a work every family ought to possess—while the low price at which it is furnished, places it within the reach of families of moderate means The engravings are entirely new, being gotten np expressly for this work, and give a clearness to the lettering and lines of demarkation of the different countries, seldom met with.

The work is sold only by agents and can be procured of the agent who is now visiting this

WE call the attention of our readers to an article advertised in another column, called Blood Foon It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is food for the blood, already prepared for absorption; pleasant to the tasts and natural in action, and what one gains he rotains. Let all those, then, who are suffering from poverty, impurity or deficiency of blood, and consequently with some chronic disease or ailment, take of this Blood Food and be restored to health. We indice that our Druggists have received a supply of this article, and also of the world-renowned Dr. Earon's In. TANTIE CORDIAL, which every mother should have. It is said to contain no paregoric or opiate of any kind whatever, and of course must be invaluable for all infantile complaints. It is also said that it will allay all pain, and soften the gums in process of teething, and at the same time regulate the bowels. Let all mothers and niurses, who have endured anxious days and aleepless nghts, proquer a supply and be at once relieved.
