who send these documents should ask that we pread them upon the pages of the Legislative factord. Such a proceeding in this case would retainly tend to establish a bad precedent. If the condition of this kind are to go upon the Legislative Record we must exclude our debates intrely, or we must increase very greatly the lize of that Record. The trouble is now, that but Record is too large; entirely too much is published now. The public expense might be naterially decreased by publishing less.

The object of the Record is to give an account, lay by day, of the business of the House—not hat we should spread upon it long petitions of the kind of consequence to any person, unless it to the Representatives here upon this floor. These are my reasons for opposing all propositions of this kind.

Mr. ARMSTRONG (having obtained leave to make a statement) said: I have observed the presentation of a great number of petitions praying for the erection of a boom at Jersey hore. I deem it proper, at this time, in orde to guard against any misapprehension on this point; to state to the House that very industriously and with excessive effort these petitions ously and with excessive effort these petitions have been printed and circulated throughout the adjoining counties, under the representation that the people of Williamsport and those of Jersey Shore had agreed upon a compromise bill and that the measure now pending was a bill satisfactory to the people of Williamsport, as well as to the people of Jersey Shore. To a petition of this nature, signatures were obtained in Williamsport upon precisely such representations; and the persons who signed that petition have since come to me. in my place petition have since come to me, in my place here, or have written to me, stating that such were the representations, and that now they desired to remonstrate against the passage of

I have not gone round through this House to olicit personally from members an opposition to this hill But I am well aware that persons are now here, and have been for several weeks, working for the passage of this bill—lobbying members upon all occasions, in their seats and out of them, at home, abroad, everywhere. All hat I ask of members is that they will hold their minds open to a fair and honest investigation of this question when it shall arise. The interests involved are immensely great; and I now say what I expect to be able to substantiate hereafter, that the effort to construct this boom at Jersey Shore is only an effort to build up a speculation for the private advantage of a few, and at the sacrifice of the interests of the people of Williamsport, who have already invested money to the amount of two millions of dollars upon the faith of the charter granted by this Commonwealth. I only ask now that the mem-bers of this House shall guard themselves against misrepresentation, and hold their minds open to conviction when the subject shall be fairly and properly laid before them.

Mr. ELLIOTT; (having obtained leave to make a statement) said: If I remember rightly, the very first intimation that I had of this question being raised in this House was a cir-cular laid upon my deel, signed by citizens of Williamsport for what? The gentleman is undoubtedly aware, as members of this Hou are aware, of the import of that "appeal," as it was termed. It asked that we should do nothing that would in any manner disregard or im-pair their interests. Now I dislike to see gentlemen get up in this manner and try to log-roll this thing through in this way. I sak mem-bers to keep their minds unbiased on the other side. There are other interests besides those represented by the gentleman from Lycoming, (Mr. Armstrong,) and when members have presented to them "appeals" such as the one I have mentioned, I ask them to disregard those appeals, as well as the appeals of the gentleman

rom Lycoming.
Mr. ARMSTRONG. If the gentleman means say that the first intimation he had of the aplication for the Jersey Shore boom was the appeal id upon his desk, he must be sadly deficient in proper information; for I presume no other ember on this floor was ignorant of the that that, not only at this session but for two or three sessions past, this subject has been peristently pressed upon the attention of the

The gentleman speaks of "log-rolling." Let me say that I have not asked a single member—not one—to log-roll this bill through, or to oppose it in any sense whatever. If the bill has merits, let it pass; if it has none, let it be defeated. I only ask that these unusual, these extraordinary efforts, on the part of the few persons interested at Jersey Shore may not bias he minds of members of this House in favor of

Mr. ELLIOTT. I did not intend to say that the first intimation I had of this measure was given by the appeal I have mentioned; I merely meant that that was the first intimation that I had in this House—the first thing that at tracted my attention to it in this House was an appeal laid upon my table.

Mr. ARMSTRONG. Then I will state for the information of the gentleman that that appeal was not, as I am informed, laid upon the tables of members of this House, or of the Senate, un-til petitions had already been circulated in this body and a bill read in place in the Senate.
