UDOLPHO WOLFE'S AROMATIC SCHIEDAM SCHNAPPS A SUPERLATIVE TONIC, DIURETIC, ANTI DYSPLEPTIC AND INVIGORATING CORDIAL.

To the Citizens of New Jersey and Pennsylvania. Apothecaries, Druggists, Grocers and Private Families. Wolfe's Pure Cognac Brandy. Wolfe's Pure Jamaica, Sherry and Port Wine.

Wolfe's Pure Jamaica and St. Croix Rum. Wolfe's Pure Scotch and Irish Whisky. ALL IN BOTTLES.

I beg leave to call the attention of the citizens of the United States to the fact, that the Wines and Liquors imported by Udolpho Wolfe, of New York, whose name is familiar in every part of this country for the purity of his celebrated Brandy, &c. Wolfe, in his letter to me, speaking of the purity of his Wines and Liquors, says: "I will make my reputation as a man, my standing as a merchant, and my name as a citizen, to be known to every man, woman and child in the City of New York, that all the Brandy and Wine which I bottle are pure as imported, and of the best quality, and can be relied upon by every purchaser." Every bottle has the proprietor's name in the wax, and the signature of his signature on the certificate. The public are respectfully invited to call and examine for themselves.

For sale at Retail by all Apothecaries and Grocers in Philadelphia. GEORGE M. ASHTON, No. 832 Market St., Philadelphia.

Read the following from the New York Courier: "We are happy to follow the citizens that there is one place in our city where the physicians, apothecaries, and country merchant, can go and purchase pure Wines and Liquors, as pure as imported, and of the best quality. We do not intend to give an elaborate description of the merchant's extensive business, although it will repay any stranger or citizen to visit Udolpho Wolfe's respective Warehouses, Nos. 18, 19 and 22 Beaver street, and Nos. 17, 19 and 21, Market street. His stock of Schnapps on hand ready for shipment could not have been less than fifty thousand cases. He also has ten thousand cases of Madeira of 1836 to 1858; and ten thousand cases of Vintage, Sherry and Port Wine, Scotch and Irish Whisky, Jamaica and St. Croix Rum, and three large cellars, filled with Brandy, Wine, &c., in cases, under Custom-House key, ready for bottling. Mr. Wolfe's sales of Schnapps last year, amounting to one hundred and eighty thousand cases, and we hope in less than two years he may be equally successful with his Brandy and Wine."

His business merits the patronage of every lover of his liquor. Private families who wish pure Wines and Liquors for medicinal use should send their orders direct to Mr. Wolfe, until every Apothecary in the land make up their minds to discard the poisonous stuff from their shelves, and replace it with Wolfe's pure Wines and Liquors.

We understand that Mr. Wolfe, for the accommodation of small dealers in the country, puts up assorted cases of Wines and Liquors. Such a man, and such a merchant, should be sustained by every citizen, and especially by the opponents in the United States, who sell nothing but imitations, ruinous alike to health and human happiness. C. E. Keller, 91 Market street, sole agent for this city.

CONCENTRATED LEAVEN, FOR MAKING Bread, Tea-Cakes, all kinds of Pastry, &c.

MANUFACTURED BY EDW. CHAMBERLIN & CO., Proprietors of Shawsheen Chemical Works, No. 33 INDIA STREET, Boston.

CONCENTRATED LEAVEN is the result of careful chemical research. All its ingredients are prepared to the highest state of purity, and compounded with a view to produce bread of a far better quality, and in much less time, than by any other process.

It is valuable because it is not perishable, and may be rendered available in places and at times when yeast is not obtainable, as in a climate and under all circumstances, it may be adopted, thus obviating all difficulty of procuring yeast or other forms, which is frequently met with in inferior quality, rendering the bread more or less unwholesome.

It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of not less than 16 per cent. in the common process, much of the saccharine of the flour is lost by being converted into carbonic acid gas, or spirit, and the waste is incurred solely for the purpose of generating gas to raise the dough.

By using Concentrated Leaven this waste is avoided, and the gas obtained in a manner equally efficacious and more economical, as has been stated, destroys a part of the flour or meal, and, in consequence, a barrel of flour weighing 196 lbs., which, by the common method, yields only 150 lbs. of bread, will, by using this process, yield 200 lbs., thus effecting the very important saving of 16 per cent. in the quantity of flour.

By conformity to the directions given on each package, and paying the ordinary attention may control the process, and the result will invariably be highly satisfactory.

CERTIFICATE FROM DR. HAYES. "I have analyzed the Concentrated Leaven, manufactured by Messrs. Edw. Chamberlin & Co., with reference to the purity and efficiency of action in producing the yeast of yeast in distending dough, and thereby rendering it fit for making bread. This article is thoroughly pure, and contains no poisonous matter. It raises the dough without necessitating the sugar or any other preservative, and the same weight of flour will produce more sweet, palatable bread than can be obtained through any other process. It is invaluable, as it saves all salt, and much time of the pastry cook."

For further information and the statements made by the manufacturers, and prove this compound worthy of public approval and extended use.

"A. A. HAYES, D. D., State Assayer, 116 Boylston street, Boston, September 26, 1860."

THE AMALGAMATION OF LANGUAGES.—There is a growing tendency in this age to appropriate the most expressive words of other languages, and to use them as if they were our own; thus the word Caphalic, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spalding's great Headache Remedy, but it will soon be used in a more general way, and the word Caphalic will become as common as Electrotypy, and many others whose distinction as foreign words seems to have been almost entirely lost.
