Daily C elegraph

MARRIBBURG

Thursday Afternoon, February 14, 1861.

Sudden Death -William Innis died on Sunday morning, at his residence in Greensburg, the position of master mason on the road. He was interred with Masonic bonors.

FIRE COMPANY MEETINGS .- A special meeting of the Citizen Fire Company, and an adjourned meeting of the Good Will Fire Company, will will be held in their respective halls this evening, at seven o'clock, for the transaction of important business.

THE MONTH OF FEBRUARY. - The Saxons termed this month Sprout Kele-the kail or wort then beginning to sprout. The month has the fishes for its zodiacal sign. The Roman Emperor Nunia placed it second in the calendar, and dedicated it to Neptune, the lord of waters. Spencer introduces February, sitting in an old wagon,

D awn of two fishes, for the season fitting, Which through the find before did softly slide, And swin away; yet had he by his side His plough and harness fit to till the ground.

THE CAVALBY SQUADRON WILL meet for drill on the Park grounds next. Saturday afternoon at two o'clock. As it is the design of the "Squadron" to participate in the parade on the twenty-second, we presume temporary officers will be elected to take command on that occasion. A large number of persons-mostly young men of the adjoining rural districts-have signed the roll of the company; and from the energy and zeal manifested by them in behalf of this new military organization, we are encouraged to hope that there will soon be a first-class Cavalry Squadron added to the military force of our county. Forward! gentlemen!

THE LATEST. -The spring fashions for pantaloons are already out in Philadelphia, and cf course will soon be introduced here by the "they pat and stroke with caressing fingers, and would be happy to know "if it is eleven or enormous squares. Our reportorial cotemporary twelve yards you will need for your dress."

of the rights and property of others than all the military companies put together, but suggests that the bill "be so amended as to embrace only the active members and exclude from of the North American saw a sample yesterday, which he thus describes: "One bar rests upon the boot, the next at the knee, and the third at the hip, the fourth forming the waistband .-The legs of the gentleman sporting these trowsers reminded us of the long loop-hole windows in the front of the Eastern Penitentiary. The color is a lively brickdust, barred with orange." There's a fashion that is a fashion!

PROF. WOOD'S

HAIR RESTORATIVE SEE MHYL OTHERS SAY OF IT.

Sr. Louis Physician Writes
Sr. Louis July 10, 1860.
O. J. WOOD, Esq.: Dear Sir:— they me the pleasure
and satisfaction to transmit to you the beneficial effects
of your Hair Restorative, after a trial of five years
commenced using your Restorative in January, 18 5,
since which time I have not been without a bottle on
hand. When I commenced the use, my bair was quite
thin, and at least one-third gray. A few applications
stopped its turning, and in three weeks time there was
not a gray hair to be noticed, notther has there been up
to this time. A Distinguished St. Louis Physician Writes

stopped its turning, and in three weeks time there was not a gray hair to be noticed, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times por month. My hair has ever a ninued healthy, soft and glossy, and my scalp perfectly free from dandrif. I do not imagine the fasts above mentioned will be of any particular advantage to you, or even fister your vanity at this late day, as I am well aware they are all known already and even more wonderful ones throughout the Union. I have occupied my time in traveling the greater part of the time the past three years, and have taken prude and pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have net with people that have pronounced it a humbug; saying they have used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article said to be as good as yours, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have ne doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently some of those charitans have not brains enough to write an advertisement, as I notice they have copied yours word for word in several instances, merely inserting some other name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness gray hair, scald head, dandruff, and every disease the soalp and head are subject to.

I called to see you personally at your original place of business here, but learned you were now itving in New York.

You are at liberty to publish this or refer parties to me. Any communication addressed to me, care box No. 1,920, will be promptly answered.
Yours, truly,
JAMES WHITE, M. D.

WARM SPRINGS, Perry Co., Pa., June 7, 1850.

Prof. WOOD, Dear Sir.—I was induced more than a year ago to try your valuable Hair Restorative for the purpose of cleansing my head of dandruff. I had suffered with it upon my head for years, and had never been able to get anything to do me any good in removing it, at though I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gross & Kunkle's drug store, and brught a bottle, and now am prepared to recommend it to universal use, for it has completely removedall dandruff from my head, and an application once in two weeks keeps it free from any itching or other unjeasantness.—I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a tew gray hairs to remain in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, although I do not like to expose myself, I consider it my duty to do so. You can use this or any part of it is any shape you think proper, if it is worth any thing to you.

FREDERICK T. BUTLES Bloomington, Mouroe Co., Ind

Wood's Hair Restorative has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper pulls. In our vicinity it has been extensively used, and we believe in every case with every desired result, and received the universal endorsement of all who have tried it. We therefore recommend it as one of those few nostrums which accomplishes all it professes, and all the bald and gray could desire.—Columbia Spy.

PROF. Wood's HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutmenus eruptions, and prevents the hair lating of. We have seen many authentic testimonials in proof of these asseronials in proof of the e of which are from gen known for many years as persons of the most reliable character... Don't dye till you have tried this Restorative. Boston Oline Branch.

Boston Otive Branch.

Wood's Hair Restorative.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums, but we take great, pleasure in racommending Professor Wood's article of all whose hair is falling off or turning gray. Our well though other contributor, Finley Johnson, E.q., has experienced the benefit of its application, and joins with us in speaking of its virtues. Lot all try it, and baid with us in speaking of its virtues. Lot all try it, and baid heads will be as rare as snow incommer.—Baltimore Patriot.

Wood's Hair Restorative.—Unlike most specifies this is proved, by unimperchable evided cle, 19 possess great efficacy as a restorer of the hair to pristing vigor. Where the head had become almost baid because of sickness, the use of this raticle has produced a beautiful growth C. Thick, glossy hair. It is therefore a validable proparation for all classes, its ingredients are such as to effect ally effect the component effect of another description. In many cases primples and other disfigurements of the kind disappear wherever it is used. There is no flazard anothing to the trial of his remedy, and its effects can only be beneficial, as the compound, if it does not cause a menifestimprover ments are perfectly innocuous.—Boston Transcript, April 22, 1859.

A GRNUINE Boon.—In our capacity as conductor of a public journal, we are called upon to advertise the curealls of the day, each of which claims to be unadolterated in its composition and infallible in its curative effects, with what justice we leave our readers to determine. In one instance, however—Prof. Wood's Hair Resionative—we are so well assured of the notable qualities of the article; that we give it our indorsement as all that its in ventor and vender claim it to be. Its effect upon a failing—a head of bair is universally known to be magical. Like lime or guano on exhausted land, it brings its er-ip where some cover applied. Our own thatch is fortunately very, beginning they but we advise our friends with sparsity growing its bair to try the Restorative—Columbia Spg.

ALL HAIR DYES ABANDONAD.—Word's Great Article has Tuken the Field.—Professor Wood stands on an eminence no chemist, whose attention has been turned to invoging a hair tonio, has ever before reached. His fame is sudden but world-wide, and thousands who have worn wigs or been baild for years are now, through 'the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry, the chemistry of human life, and the laws which apply to the tunctions of the system. Prof. Wood studied out the human halr, its character, its properties and diseases, and how to restore the decaying vitality to that ornament; he saw, as in his own case, that gray hair is unnatural unless the age of the individual has reached four profe, and ho be lieved that the hair could be naturally revitalized. He tried his own case—almost bald and quite gray, at the age of thirty-seven—he restored his own hair in color, strength and huxuriance, and the article he did it with he gave to the world. 'Get Woolf's Hair RESTORA-11VR, and take nothing else—*Heir York Day Book.
