HARRISBURG

Friday Afternoon, February 15 1861.

THE UNION PRAYER MEETING will be held in the Presbyterian Church, corner of Market Square, to morrow afternoon, commencing at four o'clock, as usual.

A SPECIAL MEETING of the Friendship Fire Company, No. 1, will be held this (Friday) evening, at 7 o'clock. Punctual attendance is requested. By order.

THE FLAG STAFF is now being adjusted in its place on the eastern side of the Capitol dome. It is a well finished and substantial piece of timber seventy feet long.

CHURCH DEDICATION. - The new Methodist dedicated with appropriate ceremonies next this city is expected to officiate and preach the dedicatory sermon

the operatives of the Cotton Mill have raised, by contributions among themselves, sufficient money for the purchase of a large American Flag, which will be unfurled from the cupola of the Mill on the morning of the twenty-second. The employees of that institution deserve day, a young woman with a small babe in her credit for their public spirit and patriotism.

THE WATER House.—Owing to the flood in the Susquehanna, the engineer of the Water House is obliged to suspend pumping for the present. The river is now comparatively clear of ice and drift wood, but still rising gradually. We hear of no material damage to public or private property along the main stream or its

Mrs. Weaver, whose mysterious death in Perry | troubles gathering thick and fast about the concounty has already been noticed in our columns, the Coroner's Inquest rendered a verdict that she came to her death by poison administered, or caused to be administered, by her husband Wm. Weaver. The latter is now in prison at Bloomfield awaiting a trial.

A Good Suggestion.—A patriotic friend proposes, as an additional feature of the programme for next Friday, the simultaneous ringing of all the bells in the city, at the moment the "stars and stripes" are unfurled over the Capitol. The suggestion is a good one, to have it carried into effect. Let the bells ring, the cannons roar, and the people rejoice! in her arms. In short, let us have a regular high old "yankee doodle'' time!

SKATING COSTUME FOR LADIES.—The latest style of dress worn by New York lady skaters is described as the Polish costume, with short sum may be divided as follows: blue skirts, for trimmed basques and hats, and Philadelphia subscriptions.

NEW PAPER .- Mr. Alfred Tyhurst, of Huntingdon, has issued a prospectus for a new paper to be published at Coalmont, Huntingdon coundollars directly invested in the Pennsylvania ty, to be styled The Broad Top Miner. We recently had the pleasure of meeting Mr. Tyhurst, "under difficulties," and found him to be a shown, it is believed, by any other railroad of very social and intelligent young gentleman. Being a practical printer and a good writer, industrious and energetic, of course he is bound to succeed. The interests of the Broad Top coal region require a good newspaper, and we have no doubt the people there will liberally sustain this commendable enterprise. We extend the right for of fellowship to brother Tyhurst, and greet him welcome into the edittorial fraternity.

MILITARY COMING-A GALA DAY IN HARRIS-BURG.—The Pennsylvania Railroad Company having generously consented to convey over their road, free of charge, all military companies desiring to participate in the parade on the 22d inst., an immense turn out may be anticipated.

TEMPERANCE MOVEMENT.—The leading mem bers of the cold water party throughout the country have embarked in a new plan. Delaven, the ruling chief, and his adherents, findtion into the country; and asking Congress to vent the importation of deleterious liquor. The home manufacturers of the ardent will, of course, favor this plan.

COUGHS.—The sudden changes of our climate are sources of Pulmonary, Bronchial and Asthmatic Affections. Experience having proved that simple remedies often act speedly and certainly when taken in the early stages of the disease, recourse should at once be had to "Brown's Bronchial Troches," or Lozenges, let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precantion a more serious attack may be warded off. Public Speakers and Singers will find them effectual for clearing and strengthening the veice. See advertisement.

TO CONSUMPTIVES.

THE ADVERTISER, having been restored to beath in a few weeks by a very simple remedy, after having suffered several years with a severe lung affect ion, and that dread disease, Consumption—Is anxious to make known to his fellow-sufferers the means of cure. To all who desire it, he will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, &c. The only object of the advertiser in sonding the Prescription is to benefit the affilieted, and spread information which he conceives to be navauable, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

PROF. WOOD'S HAIR RESTORATIVE.

OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes Sr. Louis July 10, 1890.

O. J. WOOD, Esq.: Dear Sir: — the w me the pleasure and satisfaction to transmit to you the beneficial effects of your Hair Restorative, after a trial of five years i commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its turning, and in three weeks time there was not a gray, hair to be noticed, neither has there been up to this time.

stopped its turning, and in the works there been up to this time.

After my hair was completely restered, I continued its use by applying two or three times per month. My hair has ever or ninued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the fatts above mentioned will be of any particular advantage to yon, or even fatter your vanity at this late day, as I am well aware they are all known already and even more wonderful ones throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken pride and pleasure in recommending your Restorative, and exhibiting its affects in my own case. In several instances I have met with people that. have pronounced it a humbug; asying they have used it and without effect. In every instance, however, it proved, by probing the matter, that they article said to be, as good as yours, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation; when there is one at hand that has been proved beyond a doubt.

Apparently some of those charitans have not brains enough to write an advertisement, as I notice they have copied yours word for word in several instances, merely inserting some other name in place of yours.

WARM SPRINGS, Perry Co., Pa., June 7, 1860.

Prof. WOOD, Dear Sir.—I was induced more than a year ago to try your valuable Hair Restorative for the purpose of cleansing my head of dandruff. I had suffered with it upon my head for years and had never been able to get anything to do me any good in removing it, at though I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Gress & Kunkle's drug store, and bought a bottle, and now am prepared to recommend it to universal use, for it has completely removedul dandruff from my head, and an application once in two weeks keeps it free from any itching or other unpleasantness.—

I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the destorative, no one has any knowledge of it, as I allow a few gray hairs to remain in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, so., than at any time since I have been a child. I consider your preparation of great value, and, although I have You can use this or any part of it is any shape you think proper, if it is worth any thing to you.

Woom's HAIR RESTORATIVE .- We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums, but we take great pleasure in racommending Professor Wood's article to all whose hat racommending Professor Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Finley Johnson, E.q., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snow in summer.—Baltimore Patriot.

Wood's HAIR RESTORATIVE.—Unlike most specifics; this is proved, by unimperchable evidence, to possess greater efficacy as a restorer of the hair to pristine vigor. Where the head had become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicates dandruif and other impurities, which operate so injuriously to the hair. It also has corrative properties of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of his remedy, and its effects can only be beneficial, as the compound if it does not cause a mrifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—Hotton Transcript, April 22, 1869. WOOD'S HAIR RESTORATIVE. - Unlike most specifics, this

A Genuine Boon.—In our capacity as conductor of a public journal, we are called upon to advertise the curealls of the day, each of which claims to be unaddierated in its composition and infallible in its curative effects, with what justice we leave our readers to determine. In one instance, however—Prof. Wood's Hair Restorative—we are so well assured of the notable qualities of the article, that we give it our indorsement as all that its is ventor and vonder claim it to be. Its effect upon a failing head of hair is universally known to be magical. Like time or guano on exhausted land, it brings its grap wherever applied. Our own thatch is fortungtely very itselfity, but we advise our friends with sparsely growing hair to try the Restorative.—Columbia Spy.

ALL HAIR DIES ARANDONED.—Word's Great Article has Tuken the Field.—Professor Wood stands on an eminemen on chemist, whose attention has been turned to invening a hair tonic, has ever before reached. His fame is sudden but world-wide, and thousands who have worn wigs or been baid for years are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry, the chemistry of human life, and the laws which apply to the functions of the system. Prof. Wood studied out the human hair, its character, its properties and diseases, and how to restore the decaying vitality to that ornament; he saw, as in his ewn case, that gray hair is unnatural unless the age of the individual has reached four score, and he believed that the hair could be naturally revitalized. He tried his own case—almost baid and quite gray, at the age of thirty-seven—he restored his own-hair in color, strength and luxuriance, and the article he did it with he gave to the world.
