CONCENTRATED LEAVEN, FOR MAKING

Bread, Tea-Cakes, all kinds of Pastry, &c. MANUFACTURED BY

EDW. CHAMBERLIN & CO., Progrietors of Shawmut Chemical Works.

Proprietors of Shawmat Chemical Works.

No. 33 INDIA STREET, Boston.

ONCENTRATED LEAVEN is the result of careful chemical research. All its ingredions are prepared in the highest state of purity, and compounded with a view to produce bread of a far better quality, and in much less time, than by any other process; and by the manufacturers submit it, with entire conflictnee, to the judgment of discriminating house-keepers, bakers, &c.

Bread of all kines made by using Concentrated Leaven is lighter, more digestible and nutiritious; has an agreea. Ble, natural taste; is less liable to sour; will retain its moisture longer than by any other process, and the whole preparation for the oven need not exceed ten ninutes.

It is valuable because it is not perishable, and may be It is valuable because it is not perishable, and may be rendered available in places and at times when yeast is not within reach, as at sea. In all climates and under all circumstances, it may be adopted, thus obviating all times of thousands have witnessed it, until it has ceased to difficulty of procuring yeast or other ferme t, which is frequently of an inferior quality, rei dering the bread manning.

It is also valuable as regards economy, as it has been ascertained that a saving is effected in the flour of no less than 16 per cent. In the common process much of the saccharine of the flour is lost by being converted into carbonic acid gas, or spirit, and the waste is incurred solely for the purpose of generating gas to raise the dough. By using Concentrated Leaven this waste is avoided, and the gas obtained in a manner equally efficacious. Fermentation, as has been stated, destroys a part of the flour or meal, and, in consequence, a barrel of flour weighing 196 flo, which, by the common method, or dinarily makes about 250 flos of bread, gives by this process 290 flos, thus effecting the very important saging of 16 per cent. In the quantity of flour. By conformity to the directions on each package, any person capable of ordinary attention may conduct the process, and the result will invariably be highly satisfactory.

Assayer to the State of Massachusetis.

"I have analysed the Concentrated Leaven, manufactured by Messrs. Edw Chamberlin & Co., with reference to its purity and efficiency of action in producing the effect of yeast in distending dough, and thereby rendering e fit for making bread. This article is skillfully compouned for the flour perfectly; and the same weight of flow will produce more sweet, palatable bread than can be obtained through yeast; while for cakes and pastry it in invaluable, as it saves all risk, and much time of the pastry cook.

"The experiments made by me confirm the statements made by the manufacturers, and proves this compound worthy of public approval and extended use.

SOMETHING MORE VALUABLE THAN SILVER OR GOLD,

IT WILL RESTORE THE WEAK, EINSTATE THE BLOOD IN ALL ITS ORIGINAL VIGOR AND PURITY.

PROF. O. J. WOOD'S

RESTORATIVE CORDIAL,

BLOOD RENOVATOR.

Is precisely, what its name indicates; for, while pleasan to the taste, it is revivilying, exhilarating and strengthening to the vital powers. It also reviviles, reinstate, and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all.

So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects and yet it is never tollowed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of. As it prevents costiveness astrengthens the digestive organs, it should be in the hands of all persons of seden-tary habits.

LADIES not accustomed to out-door exercise, should always use it.
MOTHERS should use it, for it is a perfect relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect case and safety.

There is no mistake about it. THE CORDIAL IS ALL WE CLAIM FOR

MOTHERS, TRY IT! And to you we appeal, to detect the filness or desine not only of your daughters before it be too 1 tts, but also your sons and husbands, for while the former from false delicacy, of ten go down to a premature grave, rather from mixed by the product of the good of the g

PROF. WOOD'S RESTORATIVE CORDIAL.—It is recorded in classics that Payche was once sent to a climate warmer than the West Indies to procure a sample of the beauty of Proserpine in a box. After some delay the messenger returned, and as soon as the lid of the box was removed out flew all the ills that flesh is heir to.—Fortunately hope was found in the bottom of the box. It is a healthy tooic, composed entirely of vegetable productions, and while it is exciliarating as pure wine, no injurious results can possibly follow its use. Louis Daily Express."

PROF. WOOD'S RESTORATIVE CORDIAL and BLOOD RENOVATOR is, without doubt, the best Tonic Cordial in the world. To those who are suffering from general debility we would recommend its use; for, while it is pleasant to the taste, it is strengthening to the system, and will at once tend to remove all impurities of the blood, and eradicate all traces of disease. It can be taken by the weakest symach, while those in good health will at once feel its schilarating power. We are confident that after using one bottle of this cordial none will be for a day without it.—"New York Leader."

A PURE, HEALTHY TONIC, and one free from the deleterious and injurious effects sure to fellow those in ordinary use, has long been felt to be a desideratum in the medical world. Such a tonic, and one so skillfully combined from the vegetable kingdom as to act in perfect accordance with the laws of nature, and thus soothe the weakest stomach, and at the same time allay nervous and other irritations, and tone up all the organs of which the human bedy is composed, is offered in Prof. Wood's Restorative Oordial and Blood Benovator. Hence, it is perfectly adapted to cld and young. Reader, try it. Thousands have a tready done so and the testimony is universal in its favor.—"New York Atlas."

PROFESSOR WOOD'S RESTORATIVE CORDIAL AN D BLOOD RENOVATOR, for the eure of General Debility, or weak

it, since we know it to be a safe, pleasant, and sure remedy for the diseases cnumerated.—"Now York Dispatch."

Before noticing a patent medicine, we have to be certain that it will prove itself to be all that it is recommended. And we would say that the Restorative Cordial'and Blood Renovator of Prof. Wood will stand the test fully, and, in fact, it is without any doubt the first article in market for purifying the Blood and strengthening the system. We have no healation in recommending its use to all.—"The New-Yorker."

LOOK TO YOURSHIF IN TIME.—How many in consequence of a false delicacy suffer from suppressed, paintly of the system of the system and think because they are young that by and by nature will work itself clear from obstructions, and all come in right in the end, little dreaming that the seeds of death are already germinating in the system, because the vital energies are impaired, and the entire a aimal economy deranged, debilitated; and yet, careless of themselves as they are, if a remedy were set before them which would restore all the functions of the system, and remylgorate the body, they would take it, and thus be in time to save their lives.—Parents, think of this, and at once give them a bottle of Prof. Wood's Restorative Cordial and Blood Renovator.—"The New York Courter."
