Prof. WOOD, Dear Sir.—I was induced more than year ago to try your valuable Hair Restorative for the purpose of cleansing my head of dandruff. I had suffered with it upon my head for years, and had never been able to get anything to do me any good in removing fit, although I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Groes & Kunkle's drug store, and bought a bottle, and now am prepared to recommend it to universal use, for it has completely removeded dandruff from my head, and an application once in two weeks keeps it free from any itsking or other unpleasantness.—I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a faw gray hairs to remain in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, 6c., than at any time since I have been a child. I consider your preparation of great value, and, although I do not like to expose myself, I consider it my duty to do so. You can use this or any part of it is any shape you think proper, if it is worth any thing to you.

So much for chemistry, the chemistry of human life, and the laws which apply to the functions of the system. Prof. Wood studied out the human hair, its character, its properties and diseases, and how to restore the decaying vitality to that ornament; he saw, as in his ewn case, that gray bair is unnatural unless the age of the individual has reached four core, and he believed that the hair could be naturally revitalized. He tried his own case—almost hald and quite gray, at the age of thirty-seven—he restored his own hair in color, strength and inxuriance, and the article he did it with he gave to the world. DISRASES OF IMPRUDENCE—When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability can alone befriend him, delaying till the consistutional symptoms of this horrid disease make their appearance, affecting the head, throat, nose, skin, &c., progressing on with frightful rapidity, till dasth puts a period to his dreafful sufferings by sending him to "that bourne from whence no traveler returns." It is a melanchely fact that thousands fall yielims to this tarrible disease, owing to the unskillfulness of ignorant pretenders, who, by the use of that adadly socions, marcossy, ruin the constitution and make the residue of life miserable.
