OTHERS SAY OF IT,

A Distinguished St. Louis Physician Writes A Distinguizated St. Louis Physician Writes

St. Louis, July 10, 1860.

O. J. WOOD, Esq: Dear Sir:—'llow me the pleasure
and satisfaction to transmit to you the beneficial effects
of your Hâir Restorative, after a trial of fire years. I
commenced using your Restorative in January, 1855,
since which tima! I have not been without a bottle on
hand. When I commenced the use, my hair was quite
tible, and at least one-third gray. A few applications
stopped its turning, and in three weeks time there was
not a gray hair to be noticed, neither has there been up
to this time.

stopped its turning, and in three weeks time there was not a gray hair to be noticed, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times per month. My hair has ever c ntinued healthy, soft and gloesy, and my gralp perfectly free from dandruff. I do not imagine the farts above mentioned will be of any particular advantage to yon, or even flatter your vanity at this late day, as I am well aware they are all known already and even more wonderful ones throughout the Union. I have occupied my time in traveling the greater part of the time the past three years, and have taken pride and pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people that have pronounced it a humbug; saying they have used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article said to be as good as yours, and selling at about half the price. I have noticed two or three articles my-self advertised as agove, which I have ne doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently some of those charitans have not brains enough to write an advertisement, as I notice they have copied yours word for word in several instances, merely inserting some other name in place of yours.

Yours, truly, JAMES WHITE, M. D.

WARM SPRINGS, Perry Co., Pa., June 7, 1850.

Prof. WOOD, Dear Sir.—I was fiduced more than year ago to try your valuable Hair Restorative for the purpose of cleansing my head of dandruff. I had suffered with it upon my hoad for years, and had never been able to get anything to do me any good in removing it, although I had tried many preparations, until I saw your advertisement in a Harrisburg paper. Being there at the time, I called at Groes & Kunkle's drug store, and bought a bottle, and now am prepared to recommend it to universal use, for it has completely removedail dandruff from my head, and an application once in two weeks keeps it free from any itching or other unpleasantness.—I must also state that my hair had become quite white in places, and, by the use of your preparation, has been restored to its original color. I am now 50 years of age, and aithough I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, although I have Nou an use this or any part of it is any shape you think proper, if it is worth any thing to you.

Wood's Hair Restorative.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack postrums, but we take great pleasure in racommending Professor Wood's article to all whose hair is falling off or furning gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will give as rare as snow in summer.—Baltimore Pairiol.

Wood's Hair Ristorative.—Unlike most specifics, this is proved, by unimperchable evidence, to possess great efficacy as a vestorer of the hair to pristine vigor. Where the head had become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicates dandruff and other impurities, which operate so injuriously to the hair. It also has currative properties of another description. In many cases jimples and other disfigurements of the skin disappear wherever its used. There is no hazard attaching to the trial of his remedy, and its effects can only be beneficial, as the compound if it does not cause a mrnifest improvement, is it incapable of doing harm, as its component elements are perfectly innocuous.—Botton Transcript, April 22, 1859.

A GENUINE BOON.—'n our capacity as conductor of a public journal, we are called upon to advertise the curealls of the day, each of which claims to be unadulterated in its composition and infallible in its currative effects, with what justice we leave our readers to determine. In one instance, however—Prof. Wood's Hair Restorative—we are so well assured of the notable qualities of the article, that we give it our indorsement as all that its in ventor and vender claim it to be. Its effect upon a failing head of hair is universally known to be magical. Like lime or guano on exhausted land, it brings its crop wherever applied. Our own thatch is fortunately very healthy, but we advise our friends with sparsely-growing hair to try the Restorative.—Columbia Spy.

All Hair Dyes Arandonno.—Word's Great Article has Taken the Field.—Professor Wood stands on an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is sudden but world wide, and thousands who have worn wigs or been bald for years are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry, the chemistry of human life, and the laws which apply to the functions of the system. Prof. Wood studied out the human hair, its character, its properties and diseases, and how to restore the decaying vitality to that ornament'; he saw, as in his own case, that gray hair is unnatural unless the age of the individual has reached four score, and he believed that the hair could be naturally revitalized. He tried his own case—almost bald and quite gray, at the age of thirty seven—he restored his own hair in color, strength and uxuriance, and the article he did it with he gave to the world. MENTALLY, the fearful effects on the mind are much to be dreaded —Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Seil-distrust, Love of Solitude, Timidity, &c., are some of the evil effects.

Thousands of persons of all ages, can now judge what is the cause of their decline in health, losing their vigor, becoming weak, pale, nervous and emaciated, have a singular appearance about the eyes, cough, and sympms of consumption.

Who have injured themselves by a certain practice, in dulyed in when alone—a habit frequently learned from soil companions, or at school, the effects of which are lightly felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hopes of his country, the darting of his parents, should be snatched from all prospects and enjoyments of life by the consequences of deviating from the path of nature, and indulging in a certain secret habit. Such persons must, before contemplating
