Wood's HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs. In our vicinity it has been extensively used, and we believe in every case with every desired result, and received the universal endorsement of all who have tried it. We therefore recommend it as one of those few nostrums which accomplishes all it professes, and all the bald and gray could desire.—Columbia Spy.

Prov. Wood's HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair falling off. We have seen many authentic testimonials in proof of these assertions some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried this Restorative. Boston Oline Branca.

Wood's HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums, but we take great pleasure in racommending Professor Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snew in summer.—Baltimore Patriot.

Woon's Hare Regroganva.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to pristine rigor. Where the head had become aimost hald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicates dandruff and other impurities, which operate so injuriously to the hair. It also has curative properties of another description. In many cases pimples and other disgurements of the skin disappear where ever it is used. There is no hazard attaching to the trial of his remedy, and its effects can only be beneficial, as the compound it it does not cause a minitest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—Boston Transcript, April 22, 1859. His fame is sudden to the world-wide, and thousands who have worn wigs or been bald for years are now, through the use of his preparation, wearing their own natural and insuriant head covering. So much for chemistry, the chemistry of human life, and the laws which apply to the functions of the system. Prof. Wood studied out the human hair is character, its properties and diseases, and how to restore the decaying stallity to that ornament; he saw, as in his ewn case, that gray hair is unnatural unless the age of the individual has reached four score, and he believed that the hair could be naturally revitalized. What a pity that a young man, the hopes of his country, the darling of his parents, abould be anatoned from

TO STRANGERS.

The many thousands cured at this Institution within the last twelve years, and the numerous important Surgical operations performed by Dr. J., witnessed by the reporters of the papers, and many other persons, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.

DISFASES OF IMPRUDENCE—When the misguided DISEASES OF IMPRUDENCE—When the misguided and improdent votary of pleasure finds he has imbleed the seeds of this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, affecting the head, throat, nose, akin, ko, progressing on with frightful rapidity, till death puts a period to his dreadful sufferings by sending him to "that bourne from whence ao traveler returns." It is a melancholy fact that thousands fall victims to this terrible disease, owing to the unskilfulness of ignorant pretenders, who, by the use of that deadly potson, mercury, ruin the constitution and make the residue of life miserable.
