ten years; and in one, Iowa, has nearly quadrupled. There has been no positive decrease of population in any, although in several of the New England States it is very stationary. The same remark may be made of the slave States, as this table

The Puerility of Madness. The Fuerinty of Madness: "We observe that the students of Franklin College, Georgia, burned Gen. Scott in effigy a few days ago, as a traitor to the South." This is well. If any man living deserves such infamy, it is the Lieutenant General of the (Yankee) United States. And we have a proposition to make, thereanent, to all the young men of the South, wherever scattered, at school or college; and that is, that they burn this man in effigy all through the South on the evening of the 4th of March next. The students of the South are an important class of our rising generation. Let them make an epoch in the history of our sunny land, to which legend, and tale, and song shall point in after years. Gen. Scott deserves this grand infamy. He is a traitor to the soil of his birth; false to all the principles of the Commonwealth which nurtured him; the tool, willing, pliant, and bloody, of our op-pressors; and it is meet that his name should descend to our posterity as a word of execra-tion? What say the students?"

The secessionists admire only men of their own stripe—swindlers robbers and traitors are their heroes—the Floyds, the Cobbs and the Benjamins are illustrious in deeds which they can appreciate.-Scott, whose career for fifty years has excited the pride and warmed the patriotism of Americans, and shed glory and renown upon- the American arms throughout the world, is simply an object of hatred and contempt to traitors.

A PEACE PROPOSITION .- The Peace Conference has at last agreed upon a plan of compromise, being Mr. Guthrie's plan, in a modified form, which they recommend to Congress, to be laid before the several States for adoption. Substantially, the proposition is a restoration of the old Missouri Compromise line, through to the Pacific, and which it is proposed to incorporate in the Constitution. To effect this two-thirds of both houses of Congress must agree to lay the proposed amendment before the StateLegislatures for ratification and three-fourths of the several States are necessary to ratify it, either by Legislative act or by Convention. What chance there is in Congress for such action we shall seen see. The time is short for its action, but in time of peril to the country action may be atimulated by a patriotic regard for the public interest, and a desire to save the Union from disruption.

And we would say that the Restorative Cordial and Blood Renovator of Prof. Wood will stand the test fully, and, in fact, it is without any doubt the frist article in market for purifying the Blood and strengthening the system. We have no hesisation in recommending its use to all.—"The New-Yorker."

LOOK TO YOURSELF IN TIME.—How many in consequence of a false delicacy suffer from suppressed, painful, or obstructions densursation, and think because they are young that by-and-by nature will work itself clear from obstructions, and all come in right in the end, intight dreaming that the seeds of death are already germinating in the system, because the vital energies are impaired, and the entire a nimal economy deranged, debuitated; and yet, careless of themselves as they are, if a remedy were set before them which would restore all the functions of the system, and reinvigorate the body, they would take it, and thus be in time to save ther lives—Parents, think of this, and at once give them a bottle of Prof. Wood's Restorative Cordial and Blood Renovator.—"The New York Courier."
